PRIDE DAY CITES CONTINUING EXCELLENCE, RECORDS OF SERVICE

Members of the university's Housekeeping Staff, both day and evening sections, were recognized at Housekeeping's December Pride Day in observances at 9 am and 10:45 pm in Marvin Center Theater. It was GW's seventh annual Pride Day.

Vice President and Treasurer Charles E. Diehl, Assistant Treasurer Robert E. Dickman and Physical Plant Director Robert F. Burch were all on hand to express their appreciation for the many jobs well done by members of the Housekeeping Department. Burch thanked housekeeping

staff members for the extra effort put forth in the moves of various offices into the Academic Center and for the extra effort that has been made in holding up the quality of housekeeping's activities. Vice President for Student and Alumni Affairs William P. Smith and Marvin Center Director Boris Bell were also present at Pride Day.

Recognition was given for clean equipment, perfect attendance and for those who had received complimentary letters for special service performed well. Some of those recognized are pictured in this issue.

ON PRIDE DAY Commendation Letters were announced for (L to R) Robert C. Scott, William Frye, Brock A. Wood and Wendell Henry of the Main Campus Men's Group.

Mary Fenner, who has had perfect attendance for the past five years, with Leroy O. Payton, housekeeping manager, dormitories.

CLEAN EQUIPMENT FINALISTS (L to R) Willie Hatcher, Harry Sanders, Odelser Harris, James Wooten and Virgie Crowder.

PPD PARTY AMONG MOST UNUSUAL

The Physical Plant staff celebrated the holidays this year with a most unusual party December 22.

Impromptu guitar music was provided by Ted Kohner, Planning and Estimating; Lawford Edwards, Paint Shop; and Sam Allen, Trouble Service.

Eight teams each built Christmas trees for the event. The results were stunning and artistic--flashing lights, gas jet flames, bells, greenery and flowing water.

"Everything on our tree we use in our daily work," said Gene Lockwood of the Heating, Ventilating and Air Conditioning Shop, as he pointed out wire nuts and copper wire branches.

Associate Professor of Sculpture H. I. Gates, Dimock Curator Lenore Miller and PR Director Fran Marsh served as judges.

Teams and awards follow:

Best in the Show--The Plumbing Shop, for their creation topped with star-shaped gas pipe with flame jets fueled by a gas bottle. Below, dyed water (plumbers often use dye to trace leaks) splashed down the length of the tree.

Most Artistic--The Heating, Ventilating and Air Conditioning Shop, for their Calderesque creation accented by a large boiler float.

Copper wire branches sprouted wire-nut finials.

Most Electrifying--The Electrical Shop, of course, for their tree decorated with electric-blue light bulbs.

Most Woody--The Carpenter Shop, for their tree made entirely of plywood and decorated with the tools of their trade.

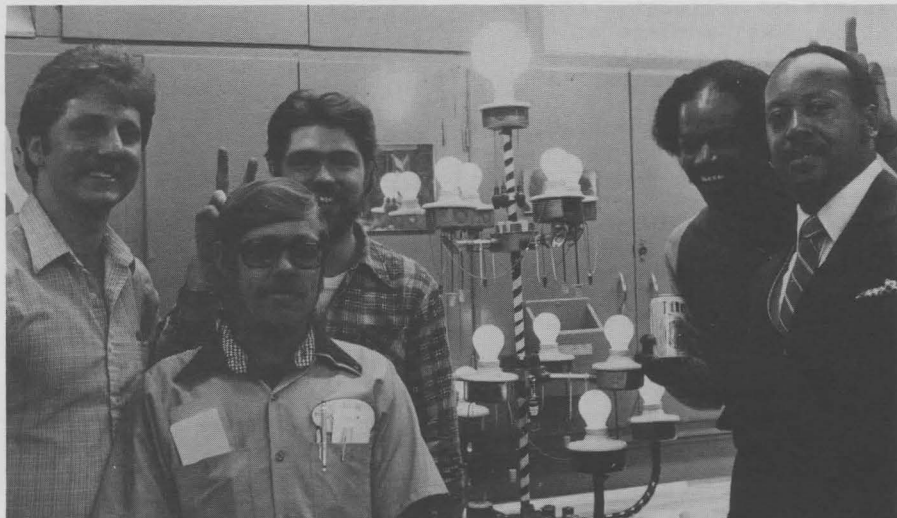

Most Attached--The Sign Shop, for a tree hung with garlanded chain, and decorated with toggle bolts with an overlay of shavings made of sign material.

Most Painterly--The Paint Shop, whose creation could only be described as a masterpiece, combining plaster and brushes as decorations.

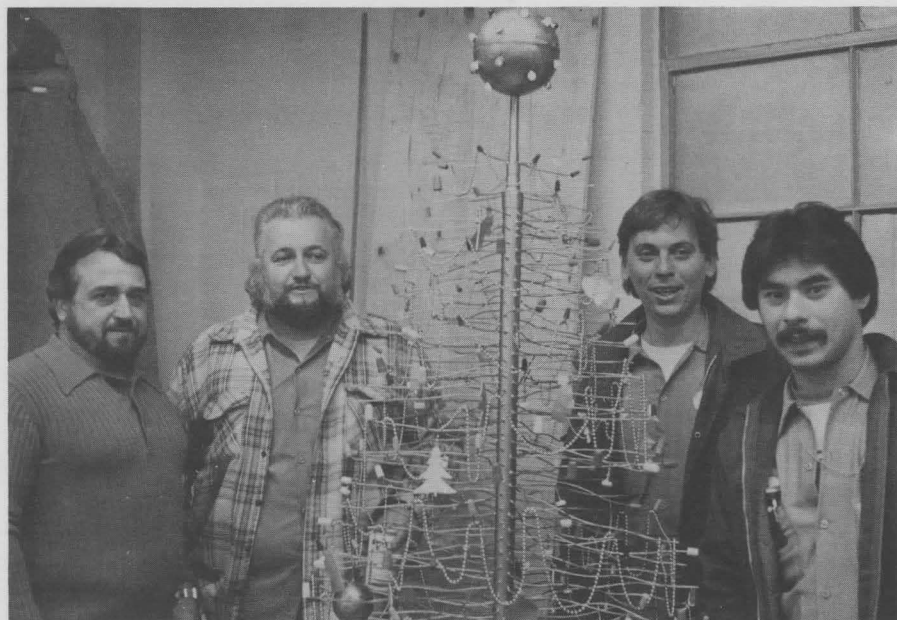

Most Spruced Up--The Grounds Division, whose tree was constructed on a central post into which the branches of different evergreens found on campus had been inserted for boughs. Dried magnolia leaves and dried flowers served as decorations.

Most Musical--Created by the Welding Shop with a Christmas-tree shape of expanded metal which rotated and played "Jingle Bells." Decorations were of cut metal.

PPD Director Bob Burch placed several trees in the Dimock Gallery between Christmas and New Year's and he plans to continue the contest next year, perhaps displaying trees around campus.

Electrical Shop staff pose with their tree (L to R) Bert Winfield, Jeff Arneson, Ron Garmon, James Custis and Joe Williams.

Heating, Ventilating, and Air Conditioning Shop employees and their tree (L to R) Eddie Ison, Gene Lockwood, Mike Tomlin, and John Pang. (Not pictured are William Melton, Richard Barber and John Hayslette.)

SAPIN WILL STEP DOWN FROM DEAN'S POST IN JUNE

After 14 years as Dean of the School of Public and International Affairs (SPIA), Burton Sapin will step down from the position of dean June 30. Dean Sapin plans a sabbatical during 1983-84 to pursue academic and scholarly interests in his field of American foreign policy and policy-making. He will return to his academic position of professor of international affairs and political science following his sabbatical.

Dean Sapin came to GW from the Naval War College, Newport, R.I., where he was Nimitz Professor of Social and Political Philosophy. Prior to that, he was professor of political science and director of the International Relations and Area Studies Center at the University of Minnesota.

A committee of the SPIA faculty is expected to form a search committee shortly to nominate candidates to President Elliott.

MAIL SERVICE TO PRESENT POSTAL-AWARENESS SEMINARS

The GW Mail Service will present postal-awareness seminars on Monday and Tuesday, January 18 and 19 from 9 am to 3:30 pm both days.

The seminars have been developed to help university departments and staff members meet U.S. postal requirements with regard to content, preparation, rates and delivery. Agnes Harrison, supervisor of the mail service, and her staff want to share their knowledge and experience and foster a spirit of collective cooperation. All members of the university community are invited to participate in the seminars.

The 9 am to noon sessions will include a film/slide presentation on domestic and international mail classification and postal regulations; a lecture on mail preparation and processing requirements; a question and answer period and a tour of the mail service operations area.

The 1 to 3:30 pm sessions will consist of a film/slide presentation on U.S. mail services, a presentation on campus mail services and group discussion.

Elizabeth Carter, a representative of the U.S. Postal Service, will participate in the morning and afternoon sessions both days. The seminars will be held in the fourth floor of Marvin Center. Anyone who has not received an announcement of the seminars, which includes a registration form, may call Harrison at Ext. 8705.

KNOX LECTURES RESCHEDULED

The lectures by Bernard M. W. Knox on "The Oresteia of Aeschylus" announced for January 15, 22 and 29, have been rescheduled for February 12, 19 and 26, all Saturdays, in Marvin Center Ballroom. Call Ext. 6125.

SYMPOSIUM TO EXAMINE PRIVATE COMMISSIONS

A symposium concerning artists and commissions will be held Thursday, January 20, in conjunction with the exhibition "The Fine Art of Private Commissions" which continues through January 28 in the Dimock Gallery.

The symposium, in the Marvin Center Theater, will run from 7:30 to 10 pm with a mid-point break and will consist of successive presentations by three panels followed by a question and answer period with the audience.

Panel 1, "Exploring the Process of Commissioning," will have as moderator Elena Canavier, ceramic artist and consultant to the Public Art Trust. Panel 2, "Implementing the Process of Commissioning," will be moderated by Donald Thalacker, director, Art in Architecture Program, General Services Administration. Panel 3, "Designing for Interior Spaces," will be conducted by Odette Lueck, president, Potomac Chapter, American Society of Interior Decorators.

The relationship among artists, gallery owners or dealers, and collectors will be addressed in the first panel. Participants will be a selected group of artists; Shirley Koteen, a dealer; and a collector. Panel 2 will discuss large-scale commissions for public and private places with an emphasis on the negotiation process including contracts, payments, selection of artists and site planning. William Woodward, GW assistant professor of painting, will participate in Panel 2. Panel 3 will deal with environmental design including furniture and interiors. It will also cover designer/artist collaborations and what environments lend themselves to commissioned works.

Artists participating in the exhibition and symposium are Whitney Boin, Dan Dailey, Joseph Detwiler, David Ebner, Pat Flynn, Rueben Guajardo, Douglas Hoppa, Sidney Hutter, Max Leser, Alphonse Mattia, Richard Scott Newman, Robert Strini, Steve Weinberg, Mary Ann Synsky, and, working as teams, Hank Murta Adams and Wendy Maruyama and Margie Jervis and Susie Krasnican.

Gallery assistants for the exhibition have been Erica Aschan, Charlotte Cohen and Erin Loftus.

Admission to the symposium is free.

TELEPHONE RATE INCREASE FOR INFORMATION CALLS

The C & P Telephone Company has again increased rates for 411 (Information) calls to 42¢ per call. The Telecommunications Office asks each department to use the D.C., VA., and MD. white and yellow pages available in your departments.

Please refer to the telephone directories to minimize additional charges to the communications budgets.

DIMOCK GALLERY GROUP--(L to R) Ronald D. Abramson, Howard Fox, associate curator, Hirshhorn Museum and Sculpture Garden; Lenore D. Miller, GW Dimock Gallery curator; and GW law alumnus Paul Rodbell (J.D. 1973 with honors) were photographed in front of Alphonse Mattia's "Are You Building or Are You Renovating?" English sycamore and wenge woods 5'x10½'x2'10", one of the 22 works in the Dimock Gallery's current show, "The Fine Art of Private Commissions," which runs through January 28.

ENERGY SAVERS--Howard Ebenstein, manager of the institutional conservation program for the District of Columbia Energy Office, left, and Frank Stewart, director of institutional conservation for the U.S. Department of Energy, right, pause in front of control panels in Marvin Center's boiler room with GW Physical Plant Director Bob Burch. The two were part of a Department of Energy (DOE) tour of institutional energy conservation projects which had won DOE grant support. Through the District of Columbia Energy Office, GW has been awarded a series of federal matching grants totalling a half million dollars over the last two years. The funds were used to refine energy conservation measures. Intensive energy conservation has been in effect at GW for nearly 10 years, long before many institutions turned their attention to saving fuel, explains Burch. The tour included antique as well as modern heating and cooling equipment in Lisner Auditorium, Marvin Center, Gelman Library, Ross Hall and the Academic Center. The 20-member group made its way from Lisner Auditorium to Monroe Hall through a steam tunnel dug in the 1940s connecting the two buildings.

ROSE GARDENS CALLED GENTLE TREASURES

Vice President and Treasurer Charles E. Diehl recently received an appreciative letter from one of the university's neighbors about our rose gardens, which have been designated an official rose garden of the Society of American Gardens.

The letter read: "Dear Sir, The lovely rose gardens that have been planted on the University grounds are a source of great joy and pleasure for me--the joy of God's creations and the pleasure of their beauty, fragrance and the care they are given by your staff. I thank you and your staff for providing this community with such gentle treasures. A Grateful Neighbor."

FULBRIGHT AWARDS AVAILABLE FOR WESTERN EUROPE

The Council for International Exchange of Scholars (CIES) recently announced that approximately 20 awards for research in Western Europe will be made under the Fulbright Program. The deadline for applications is Tuesday, February 15. The awards may begin in the spring of 1983, but they must begin by August 31.

Postdoctoral scholars who are interested in research topics that will "further understanding of European politics, society and culture, past and present" may be eligible to apply for one of these awards. Participating countries include Austria, Belgium, Cyprus, Denmark, Finland, France, the Federal Republic of Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, The Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Applications will be accepted from scholars in any discipline in the social sciences and humanities. Applicants should have a working knowledge of the languages of those countries in which they plan to do their research. Projects may be regional or comparative and should involve a significant period of time in each of two or more countries. CIES emphasizes that proposals for research on issues of concern to a number of European societies as well as the United States are particularly welcome.

Grants will be for a minimum of three months and can go up to a maximum of 12 months. Stipends are to be \$3,000 plus \$2,000 per month. The monthly amount will be pro-rated if a scholar stays only part of a month in addition to the full months he or she would be in one or more of the participating countries.

For more information and application forms, contact the Council for International Exchange of Scholars at (202) 833-4967.

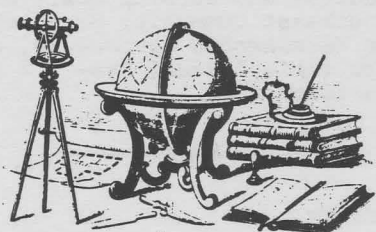

TELECOMMUNICATIONS FORUM STARTS SPRING LECTURES

The spring series of the Telecommunications Forum, informal lectures and discussions on telecommunications issues, will begin Thursday, January 27, and continue through April.

"The Birth of Electronic Publishing" will be discussed January 27 by Richard Neustadt, partner, Kirkland & Ellis.

"Who Owns the Media?" will be the question considered by Wilhelmina Reuben Cooke, director of the Citizens Communication Center, Georgetown University Law Center, and Kenneth Gordon, economist, Office of Plans and Policy, Federal Communications Commission, on Thursday, February 10.

All programs are held from 4 to 5:15 pm. The January 27 and February 10 lectures will be held in the GWU Room, Suite A-118, Academic Cluster. For information, call Ext. 8262.

newsnotes

INTERVIEWS

HAROLD C. HINTON, professor of political science and international affairs, Institute for Sino-Soviet Studies, was asked by the Voice of America to discuss the career and death of Brezhnev, November 11.

S. ROBERT LICHTER, assistant professor of political science, was interviewed about his research on the media elite. The interview was aired on the U.S. Chamber of Commerce's "Biznet" TV network, November 17. Dr. Lichter was interviewed by New Republic editor Morton Kondracke about his study of television's portrayal of businessmen and private enterprise, broadcast December 4 on WRC radio. Dr. Lichter was interviewed about his research on media-business relations for a syndicated radio program "What's the Issue?" broadcast December 8 over 200 affiliate stations of the Mutual Broadcasting Network.

CARL A. LINDEN, associate professor of international affairs and political science, Institute for Sino-Soviet Studies, was interviewed live on WTOP's 10:30 pm news about the death and leadership succession in Russia. He was also interviewed jointly with VLADIMIR PETROV, professor of international affairs, Institute for Sino-Soviet Studies, by Satellite News about Brezhnev's passing, and its implications for Soviet foreign and domestic policy and Soviet-U.S. relations, November 11.

VLADIMIR PETROV, professor of international affairs, Institute for Sino-Soviet Studies, was interviewed by London Weekend Television and the Globo TV network of Brazil, November 11.

SHAO WEN YUAN, professor of engineering and applied science, was interviewed by science and energy reporter Alan Eustis of WJLA-TV, Channel 7, on Professor Yuan's NICE (Natural Ice for Cooling Energy) system. Dr. Yuan's system collects and stores wintertime ice to cool homes in summer and he estimates it could save consumers hundreds of dollars in air conditioning costs. The segment was broadcast Thursday, December 30.

PUBLICATIONS

DIANE APOSTOLOS-CAPPADONA, lecturer in religion, an

article, "Epiphany as Paradigm for the Visual Arts in Liturgy," in *Modern Liturgy*, Vol. 9.9, December 1982/January 1983, pp. 26-28.

DAVID S. BROWN, professor of management, two articles, "Productivity: Why We Must Improve," which appeared as Part I in the August, 1982 issue of *Pit and Quarry*, and Part II in the October, 1982 issue.

MARCUS CUNLIFFE, university professor, an article, "What If?" in *American Heritage*, December 1982, pp. 16-23.

ADEL I. EL-ANSARY, professor of business administration, and MARILYN L. LIEBRENZ, assistant professor of business administration, an article, "A Multistage Approach to Comparative Marketing Analysis," in the *Journal of MacroMarketing*, Fall 1982. The article is an outgrowth of their presentations at the Annual MacroMarketing Seminars, and ongoing research in that area.

JOHN EFTIS, professor of engineering and applied science and adjunct professor of applied mathematics, and DOUGLAS L. JONES, professor of engineering, a paper, "Influence of Load Biaxiality on the Fracture of Center Cracked Sheets," in *International Journal of Fracture*, Vol. 20, No. 4, 1982, pp. 267-289.

CAROL HOARE, assistant professor of education, an article, "Future Issues in Adult Education: A Review of the Literature of the Seventies," in *Adult Education - A Journal of Research and Theory*, Vol. 33, No. 1, Fall 1982, pp. 55-69.

EUGENE W. KELLY JR., professor of education and dean of the School of Education and Human Development, a booklet, *Beyond Schooling: Education in a Broader Context*, Phi Delta Kappa Educational Foundation, 1982, Bloomington, Ind.

S. ROBERT LICHTER, assistant professor of political science, an article, "How Show Business Shows Business" (co-authored with Linda Lichter and Stanley Rothman), in *Public Opinion*, October/November 1982, pp. 10-12.

LEONARD NADLER, professor of education, an article, "Conference Overview, Eleventh IFTDO Congress, Canada, August 1982," in *HRD International* (England), October 1982, pp. 20-21.

AHMED K. NOOR, professor of engineering and applied science, an article, "Multiple-Parameter Reduced Basis Technique for Bifurcation and Postbuckling Analyses of Composite Plates" (co-authored with Jeanne M. Peters), in *International Journal for Numerical Methods in Engineering*, 1982; a paper, "On Making Large Nonlinear Problems Small," in *Computer Methods in Applied Mechanics and Engineering*, Vol. 34, 1982, pp. 955-985; a NASA conference publication "Research in Structural and Solid Mechanics," co-edited with Jerrold M. Housner, as a companion publication to the

proceedings of the Symposium on Advances and Trends in Structural and Solid Mechanics, Washington, D.C., October 4-7, 1982 (NASA CP-2245, October 1982); a paper "Mixed Models and Reduced-Selective Integration Displacement Models for Nonlinear Shell Analysis" (co-authored with C. M. Andersen), in *International Journal for Numerical Methods in Engineering*, Vol. 18, 1982, pp. 1429-1454; and editor, a book *Advances and Trends in Structural and Solid Mechanics* (with Jerrold M. Housner), Pergamon Press, 1982.

JUDITH A. SESSIONS, assistant university librarian for administrative services, Gelman Library, and ALICE HABER, executive associate, Center for Telecommunications Studies, an article, "Information Center in Washington," describing activities of the Telecommunications Information Center in Gelman Library in Telecommunications Policy, December 1982.

BARRY G. SILVERMAN, associate professor of engineering, an article, "Acid Rain and a Comparative Assessment of Two Large-Scale Electric Utility Models," in *Air Pollution Control Association Journal*, Vol. 32, No. 10, October 1982, pp. 1031-1042.

CARL STEINER, professor of German, an essay, "Auseinandersetzung mit dem 'Holocaust.' Feuchtwangers Josephus-Trilogie," in a book on German and Austrian exile literature, *Exilerlebnis*, Donald G. Daviau and Ludwig M. Fischer, editors, Camden House, Columbia, S.C., 1982.

PROFESSIONAL ACTIVITIES

PETER CAWS, university professor, lectured on "Creationism and Evolution," as visiting philosopher at Howard University in an all-day program December 1; at the University of Paris VII on December 10, Dr. Caws lectured on "Du sujet chez Sartre et ailleurs."

ROLF H. CLARK, research professor of operations research, was the guest speaker at the Washington Operations Research/Management Science Council's luncheon on December 9, at the GW University Club. Dr. Clark spoke on the topic "Long-range Planning in the U.S. Navy."

AMITAI ETZIONI, university professor, addressed the plenary session of the Issues Management Association's Conference in New York City November 18. On November 21 he was keynote speaker to the State Governmental Affairs Council's meeting in Innsbruck, Fla., on the role of human capital in rebuilding the American economy.

SONDRA GELLER, coordinator of Art Therapy Services, and T. THORNE WIGGERS, coordinator of outreach and consultation, Counseling Center, presented a workshop "Unblocking the Creative Process: An Experiential Workshop Combining Art

Therapy and Cognitive Behavioral Strategies," at the American Art Therapy Association National Conference in Philadelphia, October 20.

MARVIN S. KATZMAN, assistant professor of business administration, attended the annual meeting of the Southern Management Association in New Orleans, November 11-12. He was the chairman of a session on "Behavioral Aspects of Labor Relations."

JOHN W. KENDRICK, professor of economics, spoke on "Greater Productivity: Can the U.S. Meet the Challenge?" at a breakfast meeting sponsored by the School of Government and Business Administration Alumni Association December 3. More than 90 alumni attended the breakfast meeting at the University Club to hear Dr. Kendrick, along with Joji Arai, manager of the U.S. Office of the Japan Productivity Center, and Chris Wada, executive assistant to the president of Sony Corporation, speak about productivity and the American economy.

R. EMMET KENNEDY JR., professor of European history, gave a lecture, "Politics and Fantasy in French Revolutionary Theater," in the History, Literature and Society series at Brown University on December 3.

DAVID KLINGMAN, associate professor of political science, served as chairman of a panel on "Revenue and Expenditure Policy," at the 1982 annual meeting of the Southern Political Science Association in Atlanta, October 30.

JOSEPH B. LEVY, professor of chemistry, gave a seminar, "Recent Research with Fluoroxyltrifluoromethane, An Electrophilic Fluorinating Agent," at Howard University's Department of Chemistry December 3.

JOAN K. LIPPINCOTT, head of the Gelman Library Reference Department, presented a program, "Teaching Librarians to Teach," at the Virginia Library Association/D.C. Library Association joint conference on Resources & Management in the '80s in Virginia Beach, October 15.

DORN C. McGRATH, professor of urban planning and chairman of the Department of Urban and Regional Planning, directed the 4th Annual International Shelter Workshop for Senior Professionals co-sponsored by USAID and GW in Washington, which ended November 19.

J. HOUSTON MILLER, assistant professor of chemistry, gave two papers, "Optical Studies

of PAH in Pyrolysis and Diffusion Flame Environments" and "The Condensation of PAH during the Soot Formation Process," at the 7th International Symposium on Polycyclic Aromatic Hydrocarbons held at the Columbus Laboratory of Battelle Research Corporation, October 25-27.

LEONARD NADLER, professor of education, spoke on "What Japan Learned from the U.S. - That We Forgot to Remember!" at the annual luncheon of international human resource and development groups, including the American Society for Training and Development; the Society for International Education, Training and Research; and the Society for International Development in Marvin Center, November 17.

AHMED K. NOOR, professor of engineering and applied science, gave a paper, "Recent Advances in Reduction Methods for Instability Analysis of Structures," at the Symposium on Advances and Trends in Structural and Solid Mechanics, Washington, D.C., October 4-7, which he organized and chaired. His paper was also published in the proceedings of that gathering.

E. LAKIN PHILLIPS, professor of psychology and director of the GW Counseling Center, was one of four psychologists receiving recognition awards from the District of Columbia Psychological Association (DCPA) for outstanding professional contributions. Dr. Phillips was specifically honored for his work in special education, rehabilitation, job training, and counseling services for a wide range of handicapped children at the 1982 Annual DCPA Day held at the International Inn in Washington December 3.

S. QUITSLUND, assistant professor of religion, gave a talk, "Teresa of Avila and Womb Imagery," December 8 at the Dominican Retreat House, McLean, Va.

JAMES WILLIS ROBB, professor of Romance languages, participated in a symposium on Mexican writer Jose Vasconcelos, presenting a paper "Jose Vasconcelos y Alfonso Reyes, anverso y reverso de una medalla," during the annual meetings of the Modern Language Association of America in Los Angeles, December 27-30.

JOHN VLACH, associate professor of American civilization and of anthropology and director of the Folklore Program, gave two lectures at Drew University's Anthropology Department December 6 on Afro-American art and culture and on American folklore and historical archaeology.

DEWEY D. WALLACE JR., professor of religion, was a commentator on papers delivered at a session of the American Society of Church History, dealing with "Religious Biography in Seventeenth-Century England," at the Shoreham Hotel in Washington, December 28.

LAWRENCE WINKLER, professor of education, addressed the medical and nursing staff of Southeast Community Hospital in Washington, October 29, on the topic "Sexual Dysfunction."

GRANTS

IRA H. CISIN, professor of sociology and director, Social Research Group, a \$28,296 research contract from the National Institute on Drug Abuse/ADAMHA/PHS/DHHS for a national survey on drug abuse.

ANTHONY G. COATES, professor of geology, a \$14,300 research grant from the National Geographic Society to study the adaptive significance of clonal growth in reef-coral history.

LINDA G. DePAUW, professor of American history, a \$94,409 continued research grant from the National Historical Publications and Records Commission/GSA for a Documentary History of the First Federal Congress, 1789-91.

ROBERT GOULARD, professor of engineering and applied science, a \$67,977 research grant from the DOD/Army/Air Force Office of Scientific Research for study of picosecond lidar techniques in laboratory and field diagnostics.

ROGER H. LANG, professor of engineering and applied science, a \$70,000 supplemental research grant from the National Aeronautics and Space Administration-Goddard for study of discrete random media techniques for microwave modeling of vegetated terrain.

HAROLD LIEBOWITZ, professor of engineering and applied science and dean of the School of Engineering and Applied Science, a \$5,894 continued support grant from NASA-Langley Research Center for a training and education program.

PHYLLIS PALMER, academic coordinator of the Women's Studies Program and Policy Studies and director of the Congressional Fellowship Program, an \$11,000 continued training grant from the Helena Rubenstein Foundation for a graduate internship program on women's policy issues.

JOHN L. SIBERT, associate research professor of engineering, an \$18,491 research contract from the National Aeronautics and Space Administration-Goddard for a graphical display of n-dimensional data study.

GASTON J. SIGUR, professor of international affairs and director, Institute for Sino-Soviet Studies, a \$10,000 grant from the Earhart Foundation to provide support during 1983 for the third American-Soviet Conference on Peace and Security in Asia; and a \$10,000 grant from the Earhart Foundation to provide support during 1983 for the 12th Sino-American Conference on Mainland China.

NOZER D. SINGPURWALLA, professor of operations research and statistics and director, Institute for Reliability and Risk Analysis, a \$60,000 renewed research contract from the DOD/Army/Army Research Office for research in some methodological and modelling aspects of reliability theory.

CHRISTINE SPECTER, associate director, Office of Research and Continuing Education, School of Government and Business Administration, and DAVID S. BROWN, professor of management, a \$1,000 training contract from the Department of Agriculture for a program of studies in general management.

THEODORE TORIDIS, professor of engineering and applied science, a \$50,000 research grant from the National Science Foundation for cooperative studies with researchers in the Balkan region on building construction under seismic conditions.

JANN-NAN YANG, professor of engineering and applied science, a \$74,568 continued research grant from the National Science Foundation to study active control of structures under earthquake and other dynamic loads.

Architect's rendering of The George Washington University National Law Center seen from the corner of 20th and H Streets.

OUR CHANGING CAMPUS

(Editor's Note: In cooperation with the Faculty Senate Committee on Physical Facilities, chaired by Professor of Engineering Administration Henry M. Steiner, and the Office of the Vice President and Treasurer Charles E. Diehl, GW Report provides this information on current campus construction and future projects. It is intended to provide information on campus construction for the university community at the beginning of each semester.)

Construction of new Law Center classroom, library, student support and administrative facilities began in December. The contractor's schedule calls for completion of the classroom building, constructed on the site of Bacon Hall, and another new addition south of the Burns Law Library by about December 1983. We plan to occupy those spaces before the spring term in 1984. Completion of the entire project will be by May 1985.

Construction is also in progress on new Instructional Television facilities in the Academic Center. Two classrooms equipped to transmit audio-visual signals throughout the metropolitan area will be available. Construction should be complete in April 1983, with A-V equipment installation complete and ready by about June.

Other construction in progress includes improvements to the laboratory ventilation systems in Bell Hall, and alterations to Cashier, Student Aid and Student Affairs spaces in Rice Hall.

Projects under design include:

- Guthridge Renovations to provide new heating, plumbing and electrical systems, elevator modernization and general building upgrading. We expect to complete design and start construction by about July, with completion of construction in the spring of 1984.

- University Support Building on the 2000 block of F Street to provide on-campus facilities for operation of the University's \$15.0 million annual procurement program. The facility will also house consolidated administrative and support spaces for our mail distribution, transportation, grounds and housekeeping programs. Plans call for construction to begin late next summer, with building occupancy by about January 1985.

- Lisner Hall renovations to provide faculty offices for the Biological Sciences Department. A new 35-seat general purpose classroom is also included in the project. Construction should begin in March and be completed by about August 1983.

- Alterations in Monroe Hall to accommodate School of Government faculty and support areas. The project, which will consolidate most of SGBA in the Hall of Government and Monroe Hall, will be completed by next summer.

Major projects under planning study include laboratory and support space in Samson Hall and Corcoran Hall, and also joint instructional television and radio-TV program facilities in spaces leased from The United Church on 20th Street.

Recently completed were alterations of Building H, 2000 G Street, for the Division of Continuing Education and Summer Sessions and Stuart Hall for temporary Law School use during construction of the National Law Center facilities.

newsnotes

INTERVIEWS

S. ROBERT LICHTER, assistant professor of political science, was interviewed on the subject of "Prime Time Crime" by WDCA-TV (Channel 20) for its program, "Newsprobe," and by the Australian Public Broadcasting System, WAMU-FM, WRC-AM, and the Progressive Radio Network.

HAROLD C. HINTON, professor of political science and international affairs, Institute for Sino-Soviet Studies, was interviewed by the Voice of America radio staff on questions concerning China and American foreign policy. The interview was broadcast during the week of January 10.

IT'S TIME TO RECERTIFY FEDERAL TAX EXEMPT STATUS

Federal law requires that each employee who claims exemption from federal income tax withholding recertify the claim annually. Those employees who wish to remain exempt from federal income taxes must complete a new federal tax form, Form W-4. These forms are available at the Records and Benefits Office of Personnel Services, Building GG, 2125 G St., NW, or at the Payroll Office, 1st floor, Academic Center, 801 22nd St., NW.

Failure to recertify by submitting Form W-4 by Tuesday, Feb. 15, 1983, will result in the withholding of federal taxes after that date. In this case, taxes will be withheld as though the employee has zero withholding allowances.

"VLADIMIR NABOKOV: MASTER OF VERSATILITY," EXHIBITION IN SPECIAL COLLECTIONS, GELMAN

The Special Collections Division of the Melvin Gelman Library is presenting an exhibition, "Vladimir Nabokov: Master of Versatility," through Thursday, March 3.

The exhibition is divided into five sections and shows Nabokov as writer, translator, academic, lepidopterist, and in his connection with motion pictures. Rare editions of his works in Russian, Portuguese, French and English are shown as well as some of his translations from Russian into English and English into Russian. A facsimile of lecture notes for a course in comparative literature he taught at several American universities may be seen, along with articles from scholarly journals reflecting his life-long interest in butterflies. The section on motion pictures is highlighted with still photos of scenes from the films "Lolita," "Laughter in the Dark," and "Despair," based on his novels of the same names which are displayed as well. The exhibition as a whole is amplified by photographs and drawings. Hours are 9 am to 5 pm weekdays.

MARY CHEH, associate professor of law, an article, "Government Control of Private Ideas --Striking a Balance Between Scientific Freedom and National Security," in Jurimetrics, Vol. 23, 1982, pp. 1-32; and an article, "Secrecy: Why Is It Still With Us?" in Bulletin of the Atomic Scientists, December 1982.

J. DAVIDSON FRAME, associate professor of management science, a book, International Business and Global Technology, Lexington Books, D. C. Heath & Co., Lexington, Mass., 1983.

CHING-YAO HSIEH, professor of economics, and Stephen L. Mangum, Ph.D. candidate in economics, a book, A Search for Synthesis: Contemporary Re-interpretations of Classicism, the 'Neoclassical Synthesis,' and Post-Keynesian Economics, Olympus Publishing Company, 1983.

S. ROBERT LICHTER, assistant professor of political science, an article, "The Once and Future Journalists" (co-authored with Linda Lichter), in Washington Journalism Review, December 1982, pp. 10-11; and a monograph, Prime Time Crime: Criminals and Law Enforcement in TV Entertainment (co-authored with Linda Lichter), Media Institute, Washington, D.C., 1983.

MYRNA SISLEN, studio instructor in guitar, editor and arranger of music for First Classical Pieces for Guitar, published by the Big 3 Music Corporation, New York, 1982.

PROFESSIONAL ACTIVITIES

PETER CAWS, university professor, lectured on "The Distributive Structure of the Social Group," in the first Dean Kolitch Memorial Lecture at the City University Graduate School, New York, December 22; and participated, as a commentator, December 30 in a symposium at the Eastern Division meetings of the American Philosophical Association in Baltimore on "French Responses to Sartre: Merleau-Ponty and Levinas," with remarks entitled, "What Sartre Wasn't," an abstract of which appeared in The Journal of Philosophy, LXXIX, No. 10, October 1982.

PENELOPE FISHER, studio instructor in flute, flutist; BARBARA SEIDMAN, studio instructor in harp, harpist; FRANK CONLON, adjunct assistant professor of music, pianist; and MARILYN GARST, adjunct assistant professor of music, pianist, were featured in the January 14

concert of the Friday Morning Music Club at the Arts Club of Washington. Works performed included the Sonata for Flute and Harp by Krumpolz, Les Illuminations for soprano and piano by Britten, and three works for solo piano by Stravinsky.

NORMA MAINE LOESER, professor of business administration and dean of the School of Government and Business Administration, has been elected to the board of directors of the Washington Gas Light Co.

DORN C. McGRATH, professor of urban planning and chairman of the Department of Urban and Regional Planning, was the featured speaker at the monthly program meeting of the Capitol Hill Restoration Society, January 12. Professor McGrath spoke on the Draft Comprehensive Plan for the District of Columbia currently under review throughout the city.

CHARLES A. MOSER, professor of Slavic and chairman of the Department of Slavic languages and literatures, presided over the national meeting of University Professors for Academic Order, in his capacity as national president of that organization, January 8 in Marvin Center.

CHARLES W. WASHINGTON, associate professor of public administration, prepared a paper, "Development Policy in an Era of Fiscal Constraint," and served as synthesizer of the American delegations' position (15 papers) for the Colloque Franco-Americain L'Administration Des Politiques De Cooperation, December 7-8 in Paris. The American participants included several representatives from the Agency for International Development and American universities. The colloquium was cosponsored by the International Institute for Public Management of the United States and the International Institute of Public Administration of France.

GRANTS

JOHN M. LACHIN, research professor of statistics, a \$41,776 extended, supplemental research contract from the Cedars-Sinai Medical Center to conduct a cooperative clinical trial on the dissolution of gallstones by bile acid feeding.

PHYLLIS PALMER, academic coordinator of the Women's Studies Program and Policy Studies and director of the Congressional Fellowship Program, a \$500 research grant from the Hartford Courant Foundation for development of criteria for media on women's issues.

BOARD OF TRUSTEES APPROVES BUDGET, TUITION FOR 1983-84

The Board of Trustees, at its January 20 meeting, approved a 1983-84 budget of \$126 million, excluding the university's Medical Center. The figure is an increase of \$13.5 million, or 12 percent, over the 1982-83 budget, and includes an additional \$500,000 as student aid for currently enrolled students.

Due to pending federal regulations which could greatly affect the Medical Center, the board will review the complete medical budget late this spring. The board did approve, however, a \$38.2 million budget for the School of Medicine and Health Sciences.

Tuition charges approved by the board are as follows:

- For undergraduate study in the Columbian College of Arts and Sciences, the School of Education and Human Development, the School of Government and Business Administration, the School of Public and International Affairs and certain programs in Allied Health Sciences, the tuition will be \$6,100 per academic year.
- For undergraduate study in the School of Engineering and Applied Science, tuition will be \$6,700 per academic year.
- In the School of Medicine and Health Sciences, tuition for third and fourth year students will be \$17,000. For entering students the tuition will be \$18,750, down from the 1982-83 tuition of \$19,000. Tuition for second year students will also drop to \$18,750.
- For first year students in the National Law Center, tuition will be \$8,100. For returning second and third year students, tuition will be \$7,200. Tuition for the Doctor of Juridical Science degree will be \$7,300.
- For graduate study in the School of Education and Human Development, the Graduate School of Arts and Sciences, the School of Public and International Affairs, the School of Government and Business Administration (except for students admitted in or after fall 1978 for degrees of Doctor of Business Administration and Public Administration) and for graduate and

undergraduate courses in the Division of Continuing Education and Summer Sessions, tuition will be \$228 per semester hour. For the degrees of Doctor of Business Administration and Public Administration, students who entered in fall 1979, 1980, 1981 and 1982, tuition will be \$9,000, \$9,600, \$11,350 and \$13,200 respectively; for students entering fall 1983, tuition will be \$15,500. For graduate study in the School of Engineering and Applied Science, tuition will be \$248 per semester hour.

The 1983-84 tuition for undergraduates in Columbian College and the School of Engineering and Applied Science actually will be \$50 less than originally projected. "Since the initial announcement last fall of a tuition increase, the Student Association has worked very closely with us in exploring ways to reduce the tuition increase," said William D. Johnson, associate provost. "The final 1983-84 tuition figure in large part is a result of their efforts and cooperation." In addition, the projected increases for part-time undergraduate and graduate students were reduced by \$2 per credit hour.

The Board of Trustees also approved an additional discount for undergraduates who pay a full year's tuition in September. Based on the 1983-84 general undergraduate tuition rate, this would mean an additional \$50 reduction, dropping the 1983-84 tuition to \$6,050. The university will also offer a four-year advanced payment plan, by which undergraduates would pay the entire \$24,400 four-year tuition (based on the 1983-84 rates) and thus would be immune from further tuition hikes while attending George Washington.

In other action, the board authorized a loan fund up to a total of \$1,000,000, designated the GWU Supplemental Loan Fund 1983-84. Loans will be available in 1983-84 to full-time, continuing and entering, undergraduate students who apply for financial aid by the March 1 deadline. Students who were enrolled in a degree division of the university in 1982-83 must be making satisfactory academic progress (2.0 average or better) to be eligible.

Details will be available from the Office of Student Financial Aid in the spring.

GW CAREER AWARENESS WEEK IS FEBRUARY 7 THROUGH 11

The Student and Alumni Career Service Center is sponsoring the first annual GW Career Awareness Week Monday, February 7, through Friday, February 11. Members of the university community are invited to participate in the 58 programs and activities planned. There will be panel discussions, speakers and films discussing career planning and job seeking strategies.

Programs will include Approaching the Job Search in a Recession, Marketing Liberal Arts Skills, Work and the Black Professional, Starting Your Own Business, Introduction to Computer Programming/Data Processing Careers, Diversifying Career Options for Ph.D.s, Handling the Stress of Job Seeking and Successful Professions in the Performing Arts.

Friday, February 11, the Future Leaders' Career Conference, jointly sponsored by the Society for the Advancement of Management, Engineer's Council and Career Services will be held. Representatives from over 30 organizations will be available in the Marvin Center Ballroom to supply information to students and alumni about their organizations.

For details, contact the Career Services Center, Suite T 509, Academic Center, Ext. 6495.

FINE ARTS FACULTY EXHIBITION OPENS THURSDAY AT DIMOCK

Works by George Washington University full-time and part-time fine arts faculty members will be on exhibition in the Dimock Gallery from Thursday, February 3, through Friday, February 25.

The exhibition will include sculpture, painting, photographs, prints, drawings and ceramics. Some of the works will be for sale.

Full-time fine arts faculty members are Constance Costigan, H. Irving Gates, Fuller Griffith, Jerry Lake, Samuel Molina, Turker Ozdogan, Arthur H. Smith, Jeffrey Stephanic, Douglas H. Teller, William Woodward and Frank Wright. Part-time fine arts faculty members are Ruth Ansel, Albert Barnhart, Lee Battaglia, Michael Dennis, Michael Francis, Jacqueline Gikow, Jo Harrop, Lloyd Hicks, Gary Irby, Margot Kernan, Don Lynn, Lenore D. Miller, Karen Montgomery, Linda Morrell, John Paradiso, Christopher Register, Richard Rodriguez, Rosalyn Schanzer, Clarice Smith, Claudia Smigrod and Bradley Stevens.

The gallery, off the lower lounge of Lisner Auditorium, 21st and H Streets, NW, is open free from 10 am to 5 pm weekdays.

BOEING COMPANY TO FUND BOEING-GW DOCTORAL PROGRAM

The Boeing Company of Seattle, Washington, has agreed to contribute \$10,000 a year for the three years beginning with 1983 to the Engineering Administration Department, School of Engineering and Applied Science, as a first

HERE'S AN OPPORTUNITY FOR GRADUATE STUDY IN IRELAND

The Society of the Friendly Sons of St. Patrick of Washington, D.C., is offering a unique scholarship opportunity to students of some Irish ancestry who may be interested in study toward a post-graduate degree at an Irish university. Competition is open to graduating seniors, graduate students and alumni who are permanent residents of the Washington area, residents of the area who are currently enrolled or graduates of an accredited U.S. college or university.

The society will award one scholarship of \$7,500 per year for a maximum of three years of post-graduate study. The scholarship holder will be able to study, beginning in the fall term of 1983, at Trinity College of the University of Dublin, Queen's University (Belfast), or the National University of Ireland (consisting of University College of Dublin, University College of Cork and University College of Galway).

Candidates must be native-born U.S. citizens of some Irish ancestry, be between the ages of 21 and 28 at the time the scholarship begins, and have well-rounded personalities and high standing in college. They should have taken part in student organizations, athletics, community affairs or other extra-curricular activities and have demonstrated that they have the respect and confidence of fellow students.

REDSKINETTE--Sherry Williams, senior clerk in the Records and Benefits Division of Personnel Services, is a Redskins cheerleader. She traveled to Pasadena with her fellow Redskinettes for the famous January 30 Super Bowl XVII game.

GW'S ENERGY CONSERVATION PROGRAM DRAWS ATTENTION

The university's energy conservation program continues to draw attention and visitors. Wednesday, January 19, Sara Glazer, professional staff member of the Energy Conservation and Power Subcommittee of the U.S. House of Representatives Energy and Commerce Committee visited George Washington. Vice President and Treasurer Charles E. Diehl, Assistant Treasurer Robert E. Dickman and Physical Plant Director Robert F. Burch reviewed for Ms. Glazer the procedures the university follows in energy conservation.

FACULTY CONCERT FEBRUARY 7

The first faculty concert of the Music Department's spring series will feature the music of Brahms. Performing artists will be Keith Fleming, studio instructor in cello, cellist; Neil Tilkens, associate professor of music, pianist; and William Wright, studio instructor in clarinet and saxophone, clarinetist. The concert is Monday, February 7, at 8:30 pm in Marvin Theatre. Admission is free.

GRADUATE STUDY IN IRELAND

-continued from front-

George Washington may nominate one applicant. Deadline for filing all applications is 5 pm Friday, February 11. Interested students are urged to inquire as soon as possible. They should see Andrea Stewart, Graduate Fellowship Information Center, Gelman Library, Room 621 D.

BOEING-GW DOCTORAL PROGRAM

-continued from front-

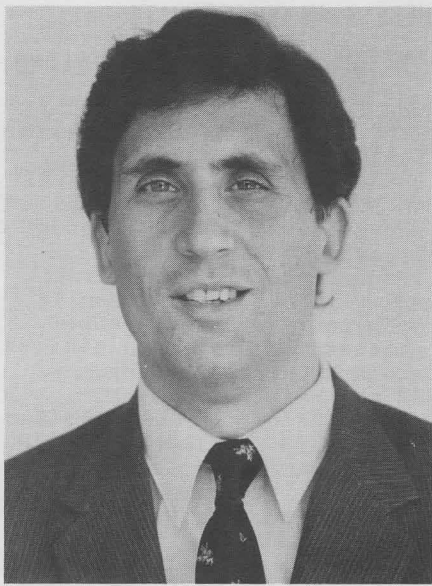

step toward establishing an ongoing Boeing-GW Doctoral Fellowship Program in the Engineering Administration Department. The program will be administered by Professor of Engineering Administration Homer B. Sewell.

ARTS SYMPOSIUM--Odette Lueck, left, president of the American Society of Interior Designers, and artist Douglas Hoppa, are shown at the microphone during the recent symposium on "The Fine Art of Private Commissions" in Marvin Theatre. A large audience took part in a spirited discussion.

"WOMEN IN HIGHER EDUCATION" EXHIBITION IN MARVIN CENTER THIRD FLOOR GALLERY

The Third Floor Gallery in Marvin Center is presenting an exhibition, "Women in Higher Education," from February 1 through March 18 showing the history of women in academia and reflecting the emergence of women's studies as an academic discipline. The exhibition includes photographs, documents and selected works from the Washington Women's Art Center, chosen by GW Curator of Art Lenore D. Miller. Sponsored by the GW Women's Studies Program and Policy Center, Graduate School of Arts and Sciences, the exhibition can be seen between 8 am and 11 pm daily.

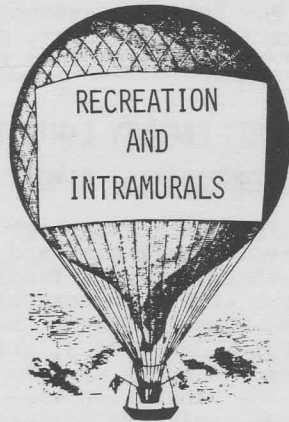

D.C. CITY COUNCIL CHAIRMAN DAVID A. CLARKE IS FIRST WEDNESDAY LECTURER

D.C. City Council Chairman David A. Clarke will speak on D.C. politics at the Alumni Relations Office-sponsored First Wednesday lecture February 2 at 8 pm in Marvin Center, Rooms 402-406.

A George Washington University alumnus (B.A. 1965), Clarke majored in religion before going on to Howard University School of Law (J.D. 1969). He served as director of the Washington Bureau of the Southern Christian Leadership Conference and also as a legal assistant to the NAACP Legal Defense Fund. In 1974, Clarke was elected as the Ward One representative on the City Council. He served as chairman of the Council's Judiciary Committee, which handles the largest number of bills, and as a member of the housing and finance committees as well as the D.C. Crime Commission. In 1982, he was elected to the City Council chairmanship. He and his wife, Carole, a teacher in the D.C. public schools, and their son, Jeffrey, a D.C. public school student, live in Ward One.

Admission to the lecture is free, but those planning to attend should call the Alumni Relations Office, Ext. 6435, to reserve a place. Dinner, for both members and non-members, will be available at the GW University Club beginning at 6:30 pm, prior to the lecture. Call Ext. 6610.

OFFER FREE PROGRAMS

The Recreation and Intramural Department offers a variety of free programs for faculty, staff and students. Kate Stanges, assistant director, tells us that GW joggers can log their miles with the department and receive a free T-shirt on reaching 500 miles. There is a Challenge Court for racquetball players. Monday through Friday evenings from 7 to 10:30 pm Court #1 offers open play for challenging the winner of the game before yours. No reservations are needed. Sign-ups are beginning now for yoga, self-defense, volleyball (mixed teams), master swim, racquetball, squash, handball, table tennis, badminton and inner-tube water polo. For more information, call the department Ext. 6250.

GILBERT STUART PORTRAIT OF BURGESS ALLISON,
GW FOUNDING TRUSTEE, GIVEN TO THE UNIVERSITY

A Gilbert Stuart portrait of Burgess Allison, a founding trustee of The George Washington University, has been given to the university by John E. Parker, retired corporate executive and business leader.

Burgess Allison served as a trustee of the then Columbian College, chartered in 1821, until 1826. Even before the institution was chartered he had been a member of a committee to solicit books for its future library. Born in Bordentown, New Jersey, August 17, 1753, he became a convert to the Baptist faith early in life and began to preach when he was 16 years of age. He studied at Rhode Island College (now Brown University) in 1777 but did not graduate. Following his months at Rhode Island College, he had a small congregation at Bordentown, New Jersey, and established there a classical boarding school which attained a great reputation.

In 1796, he withdrew from his teaching and devoted several years to working on inventions. Some improvements in the steam engine and its application to navigation came from his efforts. Allison had considerable mechanical and artistic ability. He was for some time one of the secretaries of the American Philosophical Society and was a constant contributor to periodical literature. He helped found the American Academy of Fine Arts and was a vice president of the Baptist Convention.

In 1801, he resumed his school and soon after a pastorate but ill health compelled him to relinquish both. He was elected chaplain of the United States House of Representatives in 1816 and held the post until his death in Washington on February 20, 1827.

Burgess Allison's daughter married a Col. James Lewis Edwards. The late Mrs. John E. Parker (Virginia Edwards Parker) was a direct descendant of this couple.

Mr. Parker presented the Gilbert Stuart portrait of Allison to The George Washington University in memory of his late wife and his late son, John Edwards Parker, and in recognition of his grandson, John E. Parker III of Bethesda, Md.

President Elliott, in accepting the portrait for the university, took note of the role played by Allison in obtaining the institution's charter from Congress along with Luther Rice, a contemporary founding father, and commented on "the importance of the gift in the ongoing history of this university."

Professor Lilien F. Robinson, chairman of the Department of Art, says that the Stuart portrait of Allison will truly serve to enhance The George Washington University art collection, being a particularly fine work by one of America's greatest painters.

The portrait of Allison is the third work by Stuart in the university collection. The first two are both portraits of George Washington, one of the *Lansdowne* type, a full-length portrait, and one of the *Monro-Lenox* type, so-called because of the names of the first two owners.

COPYING GUIDELINES FOR THE UNIVERSITY COMMUNITY

In view of recent court suits regarding alleged copyright infringement, the following copying rules or guidelines based on the federal copyright laws are provided for the university community.

Single Copying

A single copy may be made of any of the following for use in scholarly research, class work, teaching or preparation thereof, or for any similar noncommercial use . . .

A chapter from a book.
An article from a periodical or a newspaper.
A short story, short essay or short poem, whether or not from a collective work.
A chart, graph, diagram, drawing, cartoon or picture from a book, periodical or newspaper.

Multiple Copies For Classroom Use

Multiple copies--not to exceed in any event more than one copy per pupil in a course--may be made by or for a teacher giving the course for classroom use or discussion, provided that . . .

The copying meets the tests of brevity and spontaneity as defined below, and
Meets the cumulative effect test as defined below, and
Each copy includes a notice of copyright.

Definitions

"Brevity"

Poetry . . .
A complete poem if less than 250 words and printed on not more than two pages, or
From a longer poem, an excerpt of not more than 250 words.

Prose . . .
Either a complete article, story or essay of less than 2,500 words, or
An excerpt from any prose work of not less than 1,000 words or 10% of the work, whichever is less, but in any event a minimum of 500 words.
Each of the numerical limits stated above may be expanded to permit the completion of an unfinished line of a poem or of an unfinished prose paragraph.

Illustration . . .
One chart, graph, diagram, drawing, cartoon or picture per book or per periodical issue.

Special works . . .
Certain works in poetry, prose or in "poetic prose" which often combine language with illustrations and which are intended sometimes for children and at other times for a more general audience fall short of 2,500 words in their entirety. Such "special works" may not be reproduced in their entirety. However, an excerpt comprising not more than two of the published pages of such special work and containing not more than 10% of the words found in the text thereof may be reproduced.

Spontaneity . . .

The copying is at the instance and inspiration of the individual teacher, and
The inspiration and decision to use the work and the moment of its use for maximum teaching effectiveness are so close in time that it would be unreasonable to expect a timely reply to a request for permission.

Cumulative Effect . . .

The copying of the material is for only one course in the school in which the copies are made.
Not more than one short poem, article, story, essay or two excerpts may be copied from the same author, nor more than three from the same collective work or periodical volume during one class term.
There shall not be more than nine instances of such multiple copying for one course during one class term.
The limitations stated above shall not apply to current news periodicals and newspapers and current news sections of other periodicals.

Prohibitions As

To The Preceding

Notwithstanding any of the preceding, the following shall be prohibited.

Copying shall not be used to create or to replace or substitute for anthologies, compilations or collective works. Such replacement or substitution may occur whether copies of various works or excerpts therefrom are accumulated or reproduced and used separately.
There shall be no copying of or from works intended to be "consumable" in the course of study or of teaching. These include workbooks, exercises, standardized

-continued on back-

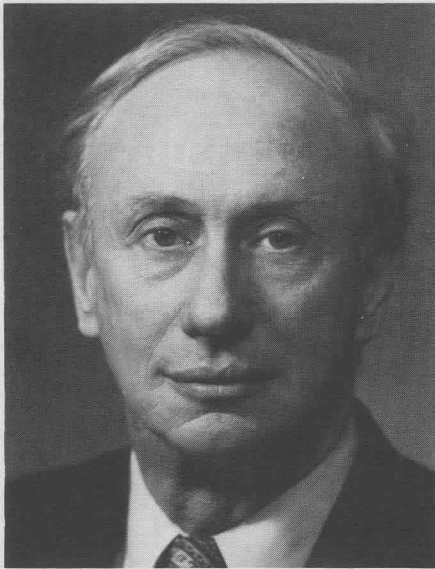

-continued from front-

tests and test booklets and answer sheets and like consumable material.
Copying shall not substitute for the purchase of books, publishers' reprints or periodicals.
Copying shall not be directed by higher authority.
Copying shall not be repeated with respect to the same item by the same teacher from term to term.

This material has been prepared expressly for the National Association of College Stores by the law firm of Arent, Fox, Kintner, Plotkin & Kahn of Washington, D. C., and is reprinted by permission from The College Store Journal February/March 1977. Copyright 1977 by the National Association of College Stores, Oberlin, Ohio.

University Librarian James B. Alsip in remarks on copy-right guidelines at the January 25 Faculty Assembly pointed out that since there has been no definitive court case with regard to copying and copyright laws, there may be changes and additions to any guidelines in the coming months. He emphasized the necessity for members of the university community to be aware of the need for caution in copying printed material.

PRESIDENTIAL AWARD GOES TO PROFESSOR JOSEPH ZEIDNER

Research Professor of Public Policy and Behavioral Sciences Joseph Zeidner received a Presidential Rank Award in a ceremony held at the State Department in January. He was one of 161 members of the Senior Executive Service, a corps of about 7,000 federal managers, to receive the award. Presidential adviser Edwin Meese represented President Reagan at the ceremony.

Dr. Zeidner's award was in recognition of "his outstanding contribution and unparalleled leadership in maximizing combat readiness of the United States Army through research in the acquisition, development, training and utilization of soldiers." He was associated with the Army for over 30 years, the last four and a half as technical director of the Army Research Institute for Behavioral and Social Sciences.

Professor Zeidner, who is director of the Administrative Science Program in the GW Graduate School of Arts and Sciences, became associated with The George Washington University in September, 1982.

STONER, GRIMM AND SCHLAGER ARE PROMOTED

Effective February 1, George W. G. Stoner became director of admissions, Theodore H. Grimm Jr. became registrar, and Jean M. Schlager became associate registrar, Provost and Vice President for Academic Affairs Harold F. Bright announced.

Stoner, a Phi Beta Kappa graduate of the University of Virginia (B.A. 1950) came to George Washington in 1960 as an assistant director of admissions. He has served in the Admissions Office since then becoming associate director in 1966 and acting director in April of 1982. He received the degree of Master of Arts in International Affairs from Georgetown University in 1958.

Grimm came to George Washington in 1970 as director of administration in GW's College of General Studies (since phased out). He became associate registrar in July of 1975 and has been serving as acting registrar since April, 1982. He holds a B.S. from Columbia University (1947).

Schlager came to the university in 1966 as secretary to then Registrar Frederick R. Houser, becoming an administrative assistant in 1969 and assistant registrar in 1971. She was given the responsibility of acting associate registrar in April 1982. An alumna, she holds the B.B.A. (1975) from the School of Government and Business Administration.

"GILBERT STUART: PAINTER OF THE EARLY REPUBLIC" IS FRIENDS FORUM LECTURE TOPIC

The Friends Forum of the Friends of the GW Libraries is sponsoring a special lecture on "Gilbert Stuart: Painter of the Early Republic" by Francis S. Grubar, professor of art, on Thursday, February 10, in Gelman Library, Room 202, at 4 pm. A reception will follow in the Special Collections Reading Room (Gelman Library 207) where the recently acquired Stuart portrait of Burgess Allison and other Stuart works in The George Washington University collection will be on display. Everyone in the university community is invited to the lecture and reception.

FUTURE LEADERS' CONFERENCE IS FRIDAY, FEBRUARY 11

A Future Leaders' Career Conference, jointly sponsored by the GW Society for the Advancement of Management, the Engineers' Council and Student and Alumni Career Services Center, will be held on Friday, February 11, from 9 am to 1 pm in Marvin Center Ballroom. Representatives from over 30 organizations will be available to supply information to students and alumni about their organizations. For more details, contact the Career Services Center, Suite T 509, Academic Center, Ext. 6495.

MAIL SERVICE OFFERS ZIP CODE DIRECTORIES

The 1983 zip code directory is available from the GW Mail Service. The cost is \$8. Departments may request a

MUSICAL SAGA--Sammy Ross of Baltimore, left, brought his accordion to the Marvin Center January 25 to help observe SAGA's third anniversary of its Grand Marketplace opening. He played a tune for Karen Miller, first-year graduate student in business administration.

copy by using an Interdepartmental Procurement Form (I.P.). Old zip code directory covers are worth \$1. The cost of a new directory can be reduced \$1 if the old directory is submitted with the I.P. request according to Mail Service Supervisor Agnes M. Harrison.

newsnotes

INTERVIEWS

MURIEL ATKIN, assistant professor of history, was interviewed by Associated Press for an article on Iranian affairs, January 4; and by the Voice of America for broadcast and an article on Soviet-Iranian relations, January 13.

PUBLICATIONS

MURIEL ATKIN, assistant professor of history, an article, "Soviet Relations with the Islamic Republic," SAIS Review, Winter-Spring 1983.

DIANE M. DePALMA, assistant director, the Counseling Center, an article, "Toward a Comprehensive Assessment of Leadership Behaviors in Groups" (co-authored with Kathryn G. Gardner and Thomas R. Zastowny, University of Rochester), in Psychological Reports, Vol. 51, 1982, pp. 991-998.

WILLIAM B. GRIFFITH, associate professor of philosophy, an article, "The Relevance of Professional Philosophy," in Metaphilosophy, Vol. XIII, Nos. 3/4, 1982.

EDWIN P. KULAWIEC, professor of education, an article, "The Futurist from the Planet Ro," in World Futures, Vol. 18, Nos. 3/4, January 1983.

THELMA Z. LAVINE, Elton Professor of philosophy, reviewed the recent book, Philosophy in the Twentieth Century, by the British philosopher A. M. Ayer, for the Washington Post's "Book World" on December 12.

S. ROBERT LICHTER, assistant professor of political science, an article, "Motivational Profiles: A Study of Former Political Radicals and Politically Moderate Adults" (co-authored with Dan McAdams and Stanley Rothman), in Personality and Social Psychology Bulletin, Vol. 8, No. 4, December 1982, pp. 593-603.

HAROLD LIEBOWITZ, professor of engineering and applied sciences and dean, School of Engineering and Applied Science, an \$82,370 continued cooperative agreement from the National Aeronautics and Space Administration/LRC for a research program in flight dynamics in the JIAPS.

PROFESSIONAL ACTIVITIES

WILLIAM H. BECKER, associate professor of history, has received the 1983 Thomas Newcomen Award in Business History for his book, The Dynamics of Business-Government Relations: Industry and Exports, 1893-1921 (University of Chicago Press). The award is given once every three years for the best book on the history of business published in the United States. Becker's study traced the development of the relationships among industry, the Congress, and the federal bureaucracy in the promotion of American industrial exports. He found that relations between business and government went through cycles rather than becoming closer and closer as years went by.

CHARLENE BICKFORD, editor, First Federal Congress Project, gave a paper, "The First Federal Congress and Implementation of the Constitution," as the first in a series of lectures sponsored by the National Archives docents' study group on the United States Constitution, at the National Archives on January 19.

KENNETH BOWLING, associate editor, First Federal Congress Project, delivered an address, "From a Little Obscure Village We Have Become the Capital of America: The Confederation Congress at Princeton, July-October 1783," to the Historical Society of Princeton, New Jersey, on January 20, in observance of the bicentennial of the residence of Congress at Princeton.

DIANE DePALMA, assistant director, and T. THORNE WIGGERS, coordinator of outreach, the Counseling Center, are serving as consultants to the cast of "One Flew Over the Cuckoo's Nest," scheduled to be performed by the Arlington Players, February 11, 12, 18, 19, 20, and 24-26, at the Thomas Jefferson Community Center.

WINTER CONVOCATION

SET FOR FEBRUARY 21

Approximately 1,150 degrees will be conferred at The George Washington University's Winter Convocation on Monday, February 21, at 1 pm in the Charles E. Smith Center.

Peter G. Peterson, former Secretary of Commerce, currently chairman of the board and chief executive officer of the international investment banking firm of Lehman Brothers Inc., will address the graduates.

Two honorary degrees will be conferred at the Winter Convocation. The degree of Doctor of Public Service will be conferred on both Harry F. Duncan, honorary trustee of the university and honorary chairman of the board of Little Tavern Shops Inc. and on Mr. Peterson.

Four alumni achievement awards will be presented. Those receiving them will be Dr. Anthony Cardinale (M.A. in Ed. 1958) director of Section Six Schools and other Defense Educational Programs, Office of the Assistant Secretary of Defense; Dr. Vincent T. DeVita Jr. (M.D. 1961) director, National Cancer Institute, National Institutes of Health; Mrs. Ming Chen Hsu (B.A. in Govt. 1949) director of the Division of International Trade, Department of Commerce and Economic Development of the State of New Jersey; and General John W. Vessey Jr. (M.S. in B.A. 1966) chairman of the Joint Chiefs of Staff.

George Washington University President Lloyd H. Elliott will confer the honorary degrees, degrees in course and will present the alumni achievement awards. Ms. Nancy Brodyhill Dudley, president of the George Washington University General Alumni Association, will introduce the achievement award recipients. Rabbi Gerald Serotta, director of the GW B'nai B'rith Hillel Foundation, will give the invocation and benediction at the ceremony. Music will be provided by the Potomac Brass Quintet under the direction of Roy Guenther.

A summa cum laude graduate of Northwestern University, former Secretary Peterson received his master's degree in business administration with honors from the University of Chicago. He began his business career in 1948 with Market Facts, a Chicago firm. In 1961, at the age of 34, he was president of Bell & Howell. He was elected chairman of the board and chief executive officer in 1968 and held that post until February, 1971. He was named

Secretary of Commerce by President Nixon on January 27, 1972. At that time, the president also asked him to serve as chairman of the National Commission on Productivity. During 1972, Peterson was U.S. chairman of the U.S.-Soviet Commercial Commission that negotiated the U.S.-Soviet commercial and lend-lease agreements signed in October of that year. He played a similar role in the U.S.-Poland trade agreement of November, 1972. In January, 1975, Peterson took a leading part in the formation of the Citizens for a Strong Energy Program. In 1976, he served President Ford as chairman of the Quadrennial Commission on Executive, Legislative and Judicial Salaries. In 1977, he was appointed by Willy Brandt to the so-called Brandt Commission dealing with the relationships between the industrialized and less developed countries of the world. He is chairman of the Institute for International Economics, a trustee of the Committee for Economic Development and a director of the Council on Foreign Relations and the National Bureau of Economic Research. He has been widely recognized for his business leadership and service. His many awards have included the Gotshal Award for "exceptional service in the field of international arbitration" (1973) and the American Jewish Congress Stephen Wise Award (1981).

Harry F. Duncan was born in Savannah, Missouri. After graduating from Savannah High School, he studied at Missouri University. Founder of Little Tavern Shops Inc., he became chairman of the board and chief executive officer and is now honorary board chairman. His connections with his birthplace, Savannah, Missouri, have remained strong. His associations there include honorary or life memberships in First Christian Church, Dick Munkres Post, American Legion, the Lions Club, Sertoma Club, and the Andrew County Historical Society and in St. Joseph, Missouri, the Pony Express Council, Boy Scouts of America, and Moila Temple (Shrine). Active in community affairs and a well-known philanthropist, he is president and chairman of the board of the Harry F. Duncan Foundation, Silver Spring, Maryland. A director and co-founder of the Silver Spring Branch of Boys' Clubs of America, he has also interested himself in Boy Scouts and Girl Scouts of America and has been responsible for gifts of buildings to the three organizations. He is honorary chairman of the Boys' Clubs of Greater Washington. He has received the Silver Keystone Award and the Bronze Keystone Award of the Boys' Clubs of America and the J. Edgar Hoover Award of the Boys' Clubs of Greater Washington (D.C.). A devoted and long-time friend of The George Washington University, he served as a charter trustee from July, 1967, to July, 1974, a period of seven years. He was elected an honorary trustee in 1974. Through his generosity, the Harry F. Duncan Pavilion was added to The George Washington University Hospital in 1977. He presented the Kathleen Duncan Cardiology Unit to the university hospital in memory of his beloved daughter,

Kathleen. He did this to advance the prevention, detection, treatment and cure of heart disease. Mr. Duncan is an honorary life member of The George Washington University Medical Staff and of the university's Luther Rice Society as well as of Almas Temple (Shrine). His memberships include the Kiwanis Club of Silver Spring, the Metropolitan Washington Board of Trade, the National Restaurant Association, the Greater Washington Restaurant Association, and the Church by the Sea in Bal Harbour, Florida.

Dr. Anthony Cardinale, prior to assuming his present position in the Office of the Assistant Secretary of Defense, served as director, Department of Defense Dependents Education from 1965 to March, 1982. In effect, he has served as a worldwide superintendent of schools, directing a complex system of over 275 schools in 23 nations, educating over 165,000 American children at the elementary and secondary levels. Dr. Cardinale, who holds the rank of colonel, United States Marine Corps Reserve, is a graduate of numerous service-operated schools and is a prolific author. As both teacher and administrator, he is active in organizations such as the National Education Association, the American Association of School Administrators and Phi Delta Kappa. A civic-minded community resident, he is chairman of the board of directors of St. Coletta Schools for Retarded Children.

Dr. Vincent T. DeVita Jr. did an internship at the University of Michigan Medical Center, followed by a residency in medicine at The George Washington University Medical Division, D.C. General Hospital. Since that time, virtually all of Dr. DeVita's professional career has been in positions of increasing responsibility with the National Cancer Institute, interrupted once for a senior residency in medicine at the Yale-New Haven Medical Center in Connecticut. In 1975, Dr. DeVita was appointed clinical director of the National Cancer Institute, remaining in that post until he assumed the directorship in 1980. He serves on various editorial boards, among them that of the *Journal of Radiation, Oncology, Biology and Physics*. He is a board member of the Scientific Council, Cancer Chemotherapy and Pharmacology and the Physicians' Drug Alert. Dr. DeVita serves as a committee member or officer of professional societies such as the American College of Surgeons Commission on Cancer, Committee on Patient Care and Research, and the WHO Expert Advisory Panel. His work has brought him many honors and awards, among them, the DHEW Superior Service Award (1975) and the Griffuel Prize, Association for the Development of Research on Cancer, Paris (1980).

Mrs. Ming Chen Hsu, in her position as director of the Division of International Trade, Department of Commerce and Economic Development for New Jersey, has been described as the state's "ambassador" for international trade. Selected by Governor Thomas Kean as the first occupant of the post, Mrs. Hsu has the responsibility of interesting foreign trade investors in New

Jersey. She came to the position after 23 years with RCA and its subsidiaries and divisions. After graduating from George Washington, Mrs. Hsu, a member of Phi Beta Kappa, spent five years with NBC in program sales promotion and research and corporate planning. Moving to the parent company RCA, she progressed through a variety of assignments and was made director, international trade relations, prior to becoming RCA corporate staff vice president, international trade relations, the post she held before becoming associated with the State of New Jersey. She is a member of the United States Trade Representatives' Services Policy Advisory Committee and was named by President Gerald Ford as the commissioner to head the observance of International Women's Year.

General John W. Vessey Jr. was appointed the nation's tenth chairman of the Joint Chiefs of Staff by President Reagan on June 12, 1982. A native of Minnesota, he began his military career at the age of 16, signing on with the Minnesota National Guard in May 1939 and going on active duty in February 1941. He rose to first sergeant before receiving a battlefield commission as second lieutenant at Anzio Beachhead in May 1944. He was promoted to his present grade in 1976 and assigned to Korea as commander-in-chief, U.N. Command. He was then named first commander-in-chief of the Republic of Korea-United States Combined Forces Command. In July 1979, he returned to Washington as vice chief of staff, United States Army. A graduate of many military schools and programs, he has received numerous military decorations and awards, among them the Distinguished Service Cross and the Purple Heart. General Vessey serves on the board of governors of the American Red Cross and is co-chairman, awards committee, American Academy of Achievement. He was the recipient of the academy's Golden Plate Award.

UNIVERSITY-SPONSORED BLACK

HISTORY MONTH SYMPOSIUM, FEB. 23

Congressman Walter E. Fauntroy will be the principal speaker at the university-sponsored symposium on the theme, *The United States Constitution and the Black American*, on Wednesday, February 23, from 4 to 6 pm in the Marvin Center Ballroom. This event is free and open to the public.

-continued on back-

-continued from front-

Following Congressman Fauntroy's speech, a panel of experts well-known to the higher education community will discuss the U.S. Constitution and its effectiveness in protecting Black Americans. The panelists who will share their expertise on the theme from various perspectives are: Jerome Barron, Esq., dean of the GW National Law Center; Dr. Kenneth Tollett, director, Institute for the Study of Educational Policy at Howard University; and Dr. John Morgan, GW professor of

political science.

This program is designed to give students, faculty, administrators and the general university community an opportunity to ask questions and to exchange theories, experiences and insights regarding the American legislative process and its effect on Black Americans.

The symposium is cosponsored by the Student Activities Office, Division of Experimental Programs and Office of Equal Employment Activities.

C.A.S.T., NEW ASSOCIATION FORMED TO BENEFIT DRAMA STUDENTS, UNIVERSITY THEATRE

A new association of alumni, friends, faculty and staff organized to benefit students in the drama curriculum or students participating in the activities of the University Theatre has been formed.

To be known as C.A.S.T., Contributing Associates in Support of the Theatre, the association will have its official first birthday on Tuesday, February 22, the opening night of the theatre's presentation of Agatha Christie's "The Mousetrap." February 22 would have been George Washington's 251st birthday. C.A.S.T. has nine founding members. They are: Mrs. Patrice Bailey, Mr. Timothy Evans, Mr. Nathan Garner, Mrs. L. Poe Leggette, Ms. Carole Meyers, Dr. Andrew Nilles, Dr. Alan Wade and Mr. and Mrs. Nelson Wurz. For information on joining C.A.S.T., call Ext. 6178.

UNIVERSITY THEATRE PRESENTS CHRISTIE'S "THE MOUSETRAP"

The George Washington University Theatre will present Agatha Christie's "The Mousetrap" from Tuesday, February 22, through Sunday, February 27.

The long-running masterpiece of murder and mystery had its ten thousandth run in 1976 and is still playing at the Ambassadors Theatre of London. Agatha Christie attributed the popularity of the play to its humor and thriller appeal. "There's a bit of something in it for almost everybody," she said. "People of different age groups and tastes can enjoy seeing it."

Performances will be at 8 pm Tuesday, February 22, through Saturday, February 26, and at 2 pm Sunday, February 27, in the Dorothy Betts Marvin Theatre. Tickets are \$5 general admission and \$2.50 for students and senior citizens. The box office number is Ext. 6178.

OUR "GEORGE CALLING" PHONATHON BEGINS MONDAY, FEBRUARY 28

Would you like to spend a congenial evening with George Washington University colleagues? Would you like a good dinner? Would you like to engage some of GW's alumni in stimulating conversation? Would you like to help the university?

Well, then. . . if the answer is yes, you will surely want to participate with other faculty, staff, students and alumni in the 1983 "George Calling" Phonathon between Monday, February 28, and Thursday, March 31, says Jane Brown, GW director of annual

support. The phonathon is the telephone campaign to support the university's Annual Fund. Each evening some 30 volunteers call GW alumni to ask for contributions to the Annual Fund.

Please see the following schedule and call the phonathon chairman of your school or office and sign up to work one or more times. Each evening there is a buffet dinner served from 5:30 to 6:45 pm in Room 410, Marvin Center, followed by instructions and then the actual calling until 9:30 pm.

It's not difficult--it's really fun and helps maintain the financial support the university so greatly needs.

CALL TODAY TO SIGN UP. . .

Our phonathon chairmen this year are as follows:

Billie Jo Moreland	676-6370	DCE & SS
Joseph Y. Ruth	676-4950	COL
Louis H. Kornhauser	676-6160	EDU
Robert Dickey	967-5348	ENG
Marianne Phelps	676-6508	GRAD
Russell Lindner	676-6415	LAW
Allan Zellis, M.D.	659-5744	MED
Michael Belyan	676-6415	SGBA
Thomas Lydon	626-4110	PIA
Robert Gebhardtshauer	676-7016	Faculty & Staff
James Small	656-5052	Students
Dave Tobie	789-4423	Students.

Here is the "George Calling" Phonathon Schedule February 28-March 31:

1983 D.C. Phonathon				
Monday	Tuesday	Wednesday	Thursday	Friday

DCESS CCEW March 14	SPIA ENG March 15	SGBA March 16	Col F/S March 17	March 18
Law March 21	GRAD EDUC March 22	DCESS CCEW March 23	SGBA March 24	March 25
Students March 28	Students March 29	Students March 30	Students March 31	

MARTHA'S BIRTHDAY MARATHON IS FRIDAY, FEBRUARY 25

Marth's Marathon of Birthday Bargains, the annual student auction of treats and privileges to raise funds for GW students' housing costs, is scheduled for Friday, February 25, at 8 pm in the first floor cafeteria of Marvin Center. Admission will be 50¢. The auction items, such as breakfast with a member of Congress or being president of The George Washington University for a day, will come from the city, the GW campus and Capitol Hill.

This year's chairman is Columbian College senior Chris Morales, a political science major. A former news editor of the Hatchet, and currently president *pro tem* of The George Washington University Student Association's Senate, he is the son of Dr. George Morales, professor of anesthesiology and of neurological surgery. Chris is working with a committee of more than a dozen GW students towards the success of the event.

Auctioneers will be Professor of Zoology Stefan O. Schiff and Don Davis, a professional auctioneer who is donating his services for the fund-raiser. Davis, a member of the United States Capitol Police, heard Martha's Marathon committee members talking about the event when they were at the Capitol arranging for auction items and volunteered to help.

Proceeds of the marathon, sponsored by the GW Residence Hall Association, will be administered through the Office of Student Financial Aid and will go toward housing costs in university dormitories next year for one or more GW students.

NEW WORLD INFORMATION ORDER TELECOMMUNICATIONS FORUM TOPIC

"The New World Information Order: Facts and Fallacies" will be the topic at the February 24 Telecommunications Forum. Speakers will be Jane Bortnick, specialist in information science and technology, Congressional Research Service, and Herschelle Challenor, director, UNESCO Liaison Office, Washington.

The forums, a series of informal lectures and discussions, are free. They are held at 4 pm in the GWU Room, Academic Center, 801 22nd Street, NW, Suite A 118.

GEORGE WASHINGTON AWARDS NOMINATIONS DUE FEBRUARY 25

The Joint Committee of Faculty and Students is seeking nominations for the seventh annual George Washington Awards, to be presented at the spring commencements.

The awards were established in 1976 to give special recognition to members of the GW community whose accomplishments have had a broad impact and whose service has been above and beyond that which is usual or expected.

All students, faculty, administrators and staff of the university may submit nominations or be nominated. Guidelines and forms for nominations can be obtained from the Office of the Vice President for Student and Alumni Affairs, 4th floor, Rice Hall.

Deadline for nominations is Friday, February 25, at 5 pm. Up to 10 awards will be presented at the spring commencements. For more information, contact the Office of Student and Alumni Affairs, Ext. 7210.

CONGRESSMAN DELLUMS TO SPEAK AT GW ON THURSDAY, FEBRUARY 17

California Congressman Ronald V. Dellums will speak at George Washington on Thursday, February 17, as part of Black History Month on campus. His subject will be "The Struggle Continues." Cosponsored by the GW Black People's Union and the Program Board, the event is scheduled for 7:30 pm in Room 426 of Marvin Center. Everyone in the university community is invited.

U.S. COMMISSIONER OF PATENTS IS ENGINEER'S WEEK SPEAKER

Gerald Mossinghoff, U.S. commissioner of patents and trademarks will discuss "The Patent System in American Society" at noon Tuesday, February 22, in observance of Engineer's Week. The event, sponsored by the GW Engineering Alumni Association and by the GW Engineers Council, will be held in Room 426, Marvin Center. Refreshments will be served. Everyone in the university community is invited to attend. For information, call Ext. 6744.

personnel notices

ASSISTANT DIRECTOR, Continuing Engineering Education. (Experienced manager with an engineering degree. Advanced degree in international affairs desirable. Extensive experience in the field of continuing education, both nationally and internationally, combined with a background of management in education required. Experience in marketing, both national and international, required. Fluency in at least one foreign language desirable. Duties involve developing, marketing, and managing intensive courses used in a worldwide continuing engineering education program, and international programs. Must be sensitive to and maintain awareness of current and anticipated needs of engineers in both industry and government.) Call Director, Continuing Engineering Education, The George Washington University, Ext. 6106.

RESEARCH ASSISTANT (full-time), Department of Biochemistry. (Research project entails the role of thymus hormones in T-cell and lymphoma development. B.S. and several years experience in tissue culture techniques, handling of small laboratory animals and radioisotopes are required.) Contact Dr. Marion Zatz, Department of Biochemistry, The George Washington University Medical Center, 2300 Eye St. NW, Washington, D.C. 20037.

RESEARCH ASSISTANT (half-time), Department of Biochemistry. (Isolation of mitochondria from rat and hamster livers, maintaining lines of ascites tumors, preparing reagents and solutions and performing biochemical experiments utilizing highly technical scientific equipment. B.S. or B.A. and ability to handle oxygen electrode, strip-chart recorder, spectrophotometer, micro-balance, atomic absorption spectrometer, and preparative centrifuge are necessary. The George Washington University is an equal opportunity/affirmative action employer.

AFTER THE BLIZZARD . . . A SPECIAL THANK YOU

President Lloyd H. Elliott would like to give a special thank you to everybody who helped to keep the university operating during the blizzard of '83, to all who came early and all who worked late doing everything that must be done to keep things going. President Elliott is particularly appreciative of the dedication of the staff of The George Washington University Hospital during the worst days of the storm many of whom, according to Vice President for Medical Affairs Dr. Ronald P. Kaufman, worked extra shifts without relief and undertook special responsibilities to allow patient care to continue uninterrupted.

WORKS BY LAKE AND WRIGHT IN DIMOCK GALLERY

The Dimock Gallery's March exhibition, "Jerry Lake: Photographs/Frank Wright: Paintings & Prints," opens Thursday, March 3, to continue through March 30.

Both Lake and Wright are members of GW's fine arts faculty. Lake is associate professor of photography and Wright is associate professor of drawing and graphics.

Lake's work will include recent color and black and white photographs of Brittany, France and Loudon County, Virginia. Wright's work will include paintings and prints of landscapes, portraits and interior scenes, done between 1975 and 1983.

The exhibition continues the series in the Dimock Gallery highlighting the works of members of GW's fine arts faculty. There will be a catalogue and some of the works will be for sale. Gallery hours are 10 am to 5 pm weekdays.

OUR OWN GRADUATES

Among the 1,150 graduates who received degrees at the Winter Convocation were several members of the university family. Ginger Levin, daughter of Professor of Business Administration Roy B. Eastin, received the degree of Doctor of Public Administration. Melissa Fouchard, financial aid counselor in the office of Dr. L. Thompson Bowles, dean for academic affairs, The George Washington University Medical Center, received the Bachelor of Arts in Dramatic Art. Joan O'Keefe, executive assistant for Graduate Programs in Law, GW National Law Center, received a Bachelor of General Studies with a major in sociology. Clark S. Taylor, one of the university telephone operators, received a Bachelor of Arts with a major in anthropology. Jo Harrop, office manager in the GW Reading Center and assistant professorial lecturer in art, received the Master of Arts in Art History.

THE FIRST WEDNESDAY OF MARCH

"The Life and Times of Edward Ambush" will be the subject of the First Wednesday Lecture for March. The speaker will be James O. Horton, GW associate professor of American history and civilization and

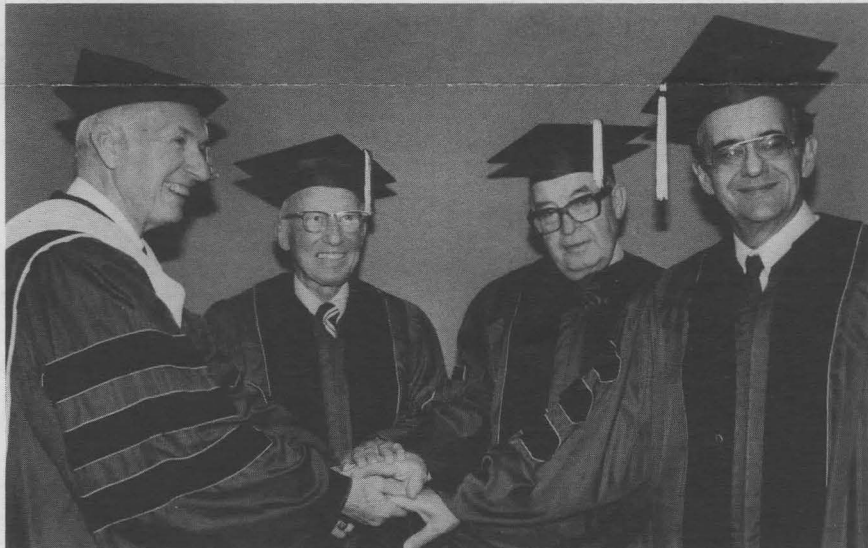

-continued on back-

WINTER CONVOCATION GRADUATES ARE WARNED AND ENCOURAGED

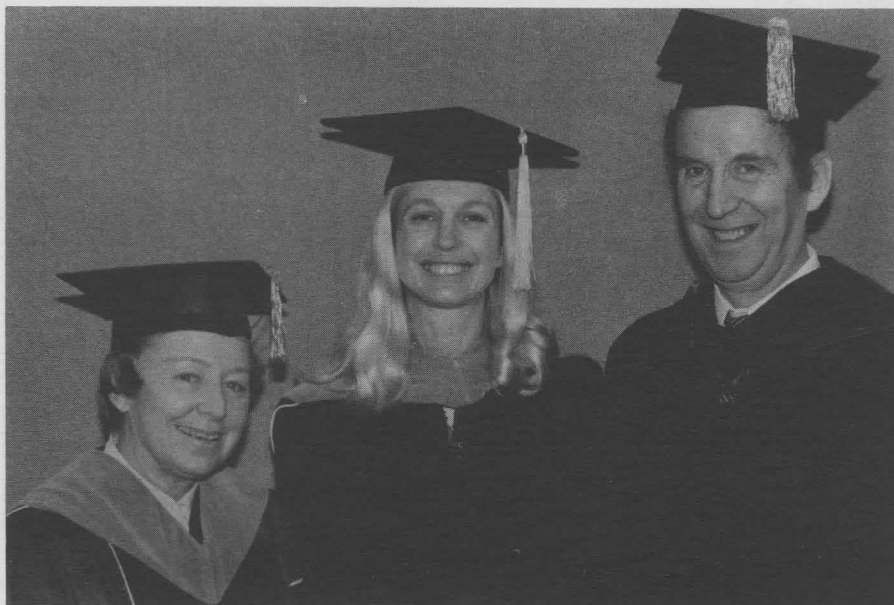

Graduates at the Winter Convocation ceremony on February 21 were both warned and encouraged by Peter G. Peterson, board chairman of Lehman Brothers Kuhn Loeb Incorporated, who gave the address, and President Lloyd H. Elliott, who gave the traditional charge to the graduates.

In a discussion of the politics of economics, Peterson quoted an old Frenchman who observed that when economics gets important enough, it becomes politics. Pointing with concern to the lack of growth in earnings during the last ten years in the United States, he singled out Japan and said that one of the reasons the Japanese are producing so much is that they are putting three times as much as the United States into new plants and equipment. He also noted that they are putting three times as much as the United States into the scientific education of their youth, with 30 percent studying calculus there as compared to four or five percent in this country. One of the principles of macro-economics, he stated, is that you can't invest unless you save and that we, as a nation, have become the highest consumers, the poorest savers and the biggest borrowers in history. He informed the graduates that the national debt was recently raised to one trillion dollars and that the government's accrued liabilities are seven trillion dollars. He warned the graduates that unless something is done about these debts, they are going to be paying for them and that they should be concerned about how we are mortgaging our future. "You must learn to play a vastly expanded role in the politics of America," he said. "America is not only a country that is rich in natural resources, it is a politically rich and resilient country. If you get your political act together, you can regain your sense of this country. The real question is whether you have the wit and determination to do it."

President Elliott invited the graduates "to think of this, your alma mater, as a center stage for the study of the world's hopes, aspirations and, yes, problems. Out of study may come some action or you may decide on further study," he said. "May yours be a career with just the proper balance among study, contemplation and action to fill your appetites for each. May your journey be blessed with skill, wise decisions and a fair measure of good luck," he concluded.

WINTER CONVOCATION--L to R, President Lloyd H. Elliott; Harry F. Duncan, Doctor of Public Service; GW Board of Trustees Chairman Glen A. Wilkinson, Esq.; and Peter G. Peterson, Doctor of Public Service and convocation speaker, are shown before the February 21 ceremony.

DOCTOR OF PUBLIC ADMINISTRATION Ginger Levin, center, was congratulated by her father, Professor of Business Administration Roy B. Eastin, and SGBA Dean Norma Maine Loeser before the Winter Convocation when Mrs. Levin received her doctorate.

GW PARTICIPATES IN HISTORICAL CONFERENCE ON WASHINGTON, D.C.

Three speakers from The George Washington University community will be part of the Tenth Annual Conference on Washington, D.C., Historical Studies on Friday and Saturday, March 4 and 5, to be held at the Martin Luther King, Jr., Memorial Library and George Washington's Walter G. Ross Hall.

Frederick Gutheim, acting director of GW's Historic Preservation Program, will speak at 9:45 am Friday, March 4, on "Olmsted in Washington." Glen Orlin, a GW Ph.D. candidate in American Studies, will speak on "The Park and Planning Commission and the Development of the Parkway Concept" in a conference section on transportation in the Washington metropolitan region at 11 am on March 4. Kathryn S. Smith, a GW master's candidate in American Studies, will talk about "Grace Episcopal Church and the Georgetown Waterfront, 1860-1920" on an 11:15 am community studies panel Saturday, March 5.

Friday evening, March 4, at 8 pm, Zane L. Miller of the University of Cincinnati will give the Seventh Letitia Woods Brown Memorial Lecture in Room 117 of GW's Walter G. Ross Hall, 2300 Eye St., N.W. His subject will be "Turning Inward: Neighborhood and Community in the American Metropolis, 1920-1982." The late Letitia Woods Brown was a member of George Washington's faculty from 1971 to 1976. At the time of her death in 1976, she was professor of American history and civilization.

The two-day conference is sponsored by the D.C. Public Library, the Columbia Historical Society and the Center for Washington Area Studies of The George Washington University. Serving on the conference planning committee are Howard F. Gillette, Jr., GW associate professor of American civilization, and David Zeidberg, curator, Special Collections, GW Melvin Gelman Library. Gillette is co-chairman of the conference with Perry Fisher of the Columbia Historical Society.

Among featured conference speakers will be D.C. Delegate Walter Fauntroy and Ben Gilbert, former Washington Post city editor.

The conference is open to the public. Admission is free. Registration is not required. For more information, call the Columbia Historical Society at 785-2068 or the GW Center for Washington Area Studies, Ext. 7565.

SYMPOSIUM ON THE BRAIN IS FRIDAY, MARCH 4

"A Triune View of the Brain and Education" will be the topic discussed by Dr. Paul D. MacLean, research scientist, author and chief, Laboratory of Brain and Behavior, National Institute of Mental Health, on Friday, March 4, in Building C, Room 108. He will speak at the second of two symposia presenting research findings on the subject "The Brain: Implications for Education."

The symposia and a colloquium scheduled for March 31 are offered without

HOW EASY IS THE NEW 1040 EZ TAX FORM? Just ask Professor Ben Burdetsky's business administration class. To test the new forms, WJLA-TV, Channel 7 reporter Scott Klug, center, brought his cameras and copies to class to see if the new tax form is as simple as the IRS claims. The class consensus? It is.

THREE MUSICAL EVENTS COMING

The George Washington University Troubadours will give a concert on Sunday, March 6, at 3 pm in the Dorothy Betts Marvin Theatre. They will perform, unaccompanied, popular music from the 1920s through the early 1980s. The 14-member student group is coached by Catherine Pickar, director of choral activities.

Monday, March 7, Marilyn Garst, pianist, adjunct assistant professor of music, will be the featured artist in the Faculty Concert series at 8:30 pm in the Marvin Theatre. She will play music of Stravinsky, Del Tredici, Crumb, Chopin and Bartok.

Tuesday, March 8, The George Washington University Glee Club, directed by Catherine Pickar, and the Region V Children's Chorus of the D.C. Public Schools will give a joint concert at 8 pm in the university's Lisner Auditorium. The Children's Chorus is under the direction of Mrs. Sylvia Coffey, Mrs. Helen Flagg, Mrs. Teresa Gilmore and Mrs. Eleanor Stewart. Chorus members are boys and girls of grades four through six of the Brookland, Clark, Parkview, Petworth, Powell, Shepherd and Truesdell Elementary Schools. The chorus has performed throughout the eastern United States as well as at the Kennedy Center and the 1983 D.C. Mayoral Inauguration. The program will include works for double chorus and performances by the individual ensembles. Featured will be Randall Thompson's "Peaceable Kingdom" and selections from George Gershwin's "Porgy and Bess."

All three events are open without charge.

FORMER PHILOSOPHY PROFESSOR CARL H. PFUNTNER DIES IN WEST

Carl H. Pfuntner, 73, a member of the Philosophy Department from 1963 until 1979 when he retired as associate professor emeritus, died in Phoenix, Arizona, February 1.

Born in Toledo, Ohio, he attended the University of North Carolina in the late 1920s. He moved to Washington in 1941 and served in the Army during World War II. Following the war, he remained in Washington working for the Far Eastern Commission, which negotiated a peace treaty with Japan, and then for the Defense Department. At the same time, he attended classes at night at George Washington, earning bachelor's and master's degrees (1948 and 1953) and a doctorate in philosophy at Georgetown University (1967).

"PLANNING FOR RETIREMENT" IS FACULTY-STAFF SEMINAR TOPIC

A faculty-staff seminar on "Planning for Retirement" will be held on Friday, April 22, from 12:30 to 5 pm in the Dorothy Betts Marvin Theatre in Marvin Center.

Developed in response to faculty and staff requests, the seminar will include sessions on TIAA/CREF pension options at GW; individual retirement accounts, Keough plans and other investment alternatives; and social security in the context of retirement. The seminar is cosponsored by two committees of the Faculty Senate, University Development and Resources and Appointment, Salary and Promotion Policies (including Fringe Benefits).

Deadline for seminar registration is Friday, March 4. To cover the cost of handout materials, parking and refreshments, there is a fee of \$5 single or \$7.50 double. For registration information, call Ext. 6417 and ask for the seminar coordinator.

MONDAY IS THE DAY

Dear Friends and Correspondents, Monday is the day for GW Report to receive all your notes and memoranda that tell us what you are planning and what you are doing. This provides a large part of our content for the following Monday's issue. Please continue to let us hear from you and put a phone number where you can be reached. If you call or come after Monday, we might not be able to get your item in the next week although we will always try. Our address is Melvin Gelman Library, Room 705; telephone, Ext. 6460.

FRIENDS OF THE LIBRARIES LECTURE ON LUTHER RICE

Joseph M. Smith, the Baptist chaplain at George Washington, will speak on Luther Rice, a founding father of The George Washington University, on Wednesday, March 9, at noon in Room 202 of the Melvin Gelman Library. The talk is sponsored by the Friends of the Libraries and is the first in a number of university events planned for later in March to observe the bicentennial of the birth of Luther Rice. Everyone in the university community is invited to the lecture.

VOLUNTEERS NEEDED FOR VISION TESTS

Researchers in the Department of Ophthalmology are studying early changes of visual function in glaucoma. Volunteers with normal vision (especially over the age of 40) are invited to participate as control subjects for the project. The volunteer subject's only task in the experiments is to answer questions about the appearance of small flashes of light. The tests are completely safe. There is no risk whatever to the eye. For appointment or information, contact William Huppert, project coordinator, Room 204, Warwick Building, Ext. 3897.

FUTURE LEADERS CONFERENCE--L to R, Dean Burrell of Burrroughs Corporation talked with SGBA students Debbie Landau, Ella Schiralli and Ellen Chin, all members of SAM (Society for the Advancement of Management) at the recent Future Leaders Conference.

FIRST WEDNESDAY LECTURE

-continued from front-

charge by GW's Department of Education in the School of Education and Human Development and GW's Division of Continuing Education and Summer Sessions. The symposium is open without charge. Seating is on a first-come basis.

SYMPOSIUM ON THE BRAIN

-continued from front-

director of the Afro-American Communities Project, Smithsonian Institution. Dr. Horton will accompany his lecture with a slide presentation. He will speak at 8 pm in the third floor ballroom, Marvin Center. The lecture, sponsored by the Alumni Relations Office, is free but those planning to attend should call Ext. 6435. Dinner beforehand will be available at the GW University Club, for both members and non-members, beginning at 6:30 pm. Call Ext. 6610.

newsnotes

INTERVIEWS

S. ROBERT LICHTER, assistant professor of political science, was interviewed by CBS Radio, New York, February 4 on how TV entertainment portrays business. On February 9 Dr. Lichter was interviewed on the Larry King Show, Mutual Broadcasting System, and on WAMU-FM regarding the way in which TV entertainment portrays crime and law enforcement. During the week of February 14-18 he gave interviews regarding the politics of the Hollywood elite and social and political implications of TV entertainment to the following: The Washington Post, Christian Science Monitor, Advertising Age, Associated Press, West German television-ARD network, AEI public policy forum (broadcast over the Mutual Broadcasting System), and Biznet cable TV network (U.S. Chamber of Commerce).

NEAL McKELVEY, assistant professor of health services administration, was interviewed by Barbara Schoetzau of the Voice of America, February 1 on the impact of federal health programs for broadcast February 4. An additional section of the interview, together with an interview done with HHS Secretary-designate Margaret Heckler, will be broadcast at a later date.

WILLIAM H. LEWIS, visiting professor of international affairs, Institute for Sino-Soviet Studies, was interviewed by the Japanese newspaper chain, Sekai Nippon, February 1 concerning American defense policies in East Asia. He was asked to evaluate, in particular, United States arms control policies and the status of the "Euromissile" negotiations in progress in Geneva.

RICHARD Y. C. YIN, associate professor of economics, Institute for Sino-Soviet Studies, was interviewed by the Voice of America on February 1 regarding the economy of China, the interview to be broadcast in mid-February.

JOSEPH V. CHARYK TO SPEAK ON WEDNESDAY, MARCH 16

Joseph V. Charyk, president and chief executive officer, Communications Satellite Corporation, will speak on Wednesday, March 16, in the third floor ballroom of Marvin Center. His subject will be "Information and Telecommunications and the Future of Private Enterprise." His speech is the fourth in the free lecture series on the general topic "Private Enterprise Education and Public Education: A Challenge for the Eighties," sponsored by the School of Education and Human Development. The series is made possible through a grant from the Dr. Scholl Foundation and the Association of Private Enterprise Education.

A transcript and videotape will be available after the lecture. Call Sharon O'Brien, Ext. 8169.

There is no charge for the lecture but those planning to attend are requested to reserve free tickets by calling Ext. 8169 or writing to the School of Education and Human Development, 2201 G St., NW, Washington, DC, 20052.

Dinner, for both members and non-members of The George Washington University Club, will be available beginning at 6:30 pm. Call Ext. 6610 at least one day in advance.

METRO BOOKS MEETS AT GW

Metro Books, an organization of 23 college bookstores serving colleges and universities in the Baltimore/Washington area, met at the Marvin Center, February 23.

The George Washington University Bookstore hosted the meeting, which was attended by bookstore managers from American University, Ann Arundel Community College, Essex Community College, Gallaudet College, Georgetown University, The George Washington University, Harford Community College, Howard University, Johns Hopkins University, Montgomery College (Rockville), Montgomery College (Takoma Park), Morgan State College, College of Notre Dame, Prince Georges Community College, Towson State College, University of Maryland (Baltimore) and University of Maryland (College Park).

The members of Metro Books provide for the needs of books and supplies of over 150,000 students at their various colleges and universities.

The February 23 program ranged from ways to better serve campuses through ways to reduce school supplies costs by cooperative buying and reductions in operational costs.

Current Metro Books president is Edward Runser, Georgetown University. Monroe Hurwitz, George Washington University, is a past president.

REPAIRS FOR SMITH CENTER POOL

The swimming pool at the Charles E. Smith Center will be closed from Monday, March 14, through Friday, March 18, for repairs.

SPECIAL COLLECTIONS SHOWS HISTORICAL PAINTINGS

Three likenesses of George Washington from The George Washington University Collection are on view in Special Collections in the Melvin Gelman Library along with the Gilbert Stuart portrait of Burgess Allison, the recent gift of Mr. John E. Parker.

The trio of likenesses consists of an oil painting, a pastel and a silk tapestry. The oil painting is Gilbert Stuart's Monro-Lenox portrait of George Washington, done in 1800. The full-length portrait, 94" by 58", was purchased by the university in 1949. The pastel of George Washington was done by an unknown artist who signed J.B.T. The dimensions of the work are 30" by 25". It was the gift of Mr. and Mrs. Max Tendler in 1965. The silk tapestry was woven by Ponson, Philippe & Vibert after Stuart's "Athenaeum Portrait" of Washington. An oval shape, 17 1/4" by 25", it was given to the collection by Dr. and Mrs. Richard H. Rush in 1957.

The exhibition continues through March. Special Collections, Gelman Library,

second floor, is open from 9 am to 5 pm weekdays.

Gilbert Stuart portrait of George Washington

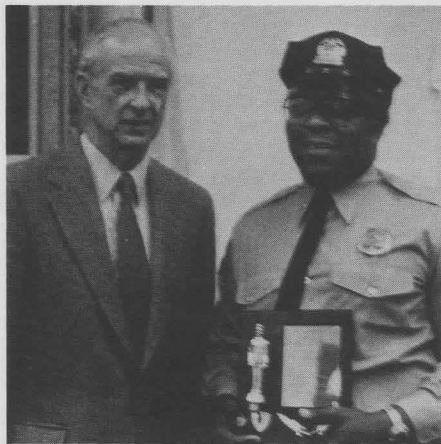

MORE WINTER GRADUATES

Two more members of the university family who received degrees at the Winter Convocation are Patricia Rabain and Philip W. Wirtz.

Rabain, academic adviser for secondary school students in the Office of University Students, Division of Continuing Education, received her Master of Education degree with a concentration in community counseling from the School of Education and Human Development.

Wirtz, research scientist and associate director of The George Washington University Social Research Group as well as adjunct assistant professor of statistics, received the degree of Doctor of Philosophy with an emphasis on psychology.

Vice President Lange and Officer Isom

COMPUTE YOUR SAVINGS

George Washington University faculty, staff and students are eligible for discounts on a wide variety of computer equipment, including the IBM personal computer system. If you are interested in purchasing computers, terminals or printers for personal use, contact Mike Hamilton at the university's Center for Academic and Administrative Computing, Ext. 8737.

SECURITY OFFICERS RECEIVE YEARLY, QUARTERLY AWARDS

Patrolman James Isom Jr. of the Office of Safety and Security was named Officer of the Year for 1982 in a February ceremony. He was previously a recipient of an Officer of the Quarter award in 1981. In a letter written to him by Director of Safety and Security Byron M. Matthai Jr., read at the ceremony by Vice President for Administration and Research Carl J. Lange, Isom was described as "mature, intelligent, knowledgeable, conscientious and self-motivated." He received an engraved plaque and a United States Savings Bond.

Two Officers of the Quarter were named at the ceremony: Patrolman Martin Johnson Jr., for the period July through September 1982; and Patrolman Roger M. Tillman for October through December 1982.

Patrolman Johnson was particularly commended for his alertness when he interrupted a street robbery, enabling a student to retain his property and preventing possible injury to the student, as well as notifying the Metropolitan Police of the assailant's get-away car license number.

Director Matthai commented on the outstanding way Patrolman Tillman has been performing his duty and noted particularly one dark, rainy night when he prevented a serious assault and possible harm to a student by responding in a timely fashion after hearing a scream.

Both Officers of the Quarter received engraved wooden shields and U.S. Savings Bonds.

"You serve the university well and we all appreciate what you do," Vice President Lange told the officers.

FRANK WRIGHT TO LECTURE ON "REALISM BEYOND PHOTOGRAPHY"

Frank Wright, well-known Washington artist and GW associate professor of drawing and graphics, will give an illustrated lecture on "Realism Beyond Photography: In Pursuit of the Real" on Wednesday, March 9, from 5 to 6:30 pm in the lower lounge of Lisner Auditorium. He will discuss the relationship photography has had throughout its history with other art media and specifically, how photography has influenced his work.

The lecture is being given in conjunction with the current GW Dimock Gallery exhibition, "JERRY LAKE: Photographs/FRANK WRIGHT: Paintings and Prints," which continues through March 30. Sponsored by the Dimock Gallery/Art Department, the lecture is open without charge. The gallery will be open before and after the lecture. Call Ext. 7091.

TELECOMMUNICATIONS POLICY IN CONGRESS IS FORUM TOPIC

The Telecommunications Forum will focus on the topic "Telecommunications Policy in the 98th Congress: Is There a Legislative Role?" on Thursday, March 10. Speakers will be Chris Coursen, communication counsel, Senate Committee on Commerce, Science and Transportation, and Thomas Rogers, staff counsel, House Committee on Telecommunications, Consumer Protection and Finance. The forum, a series of informal lectures and discussions, is sponsored by the GW Center for Telecommunications Studies and is open to the entire university community. Meetings are held at 4 pm in the GWU Room, Academic Center. Call Ext. 7062.

Officer Johnson, left, and Officer Tillman

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, associate professor of public administration, chaired a panel on "Decision-Making in the Newsroom," during a conference on Media and Public Affairs at the University of Baltimore, December 9.

JAMES R. BARTH, professor of economics, gave a paper, "Vesting, Private Pensions and Household Saving" (co-authored with JOSEPH J. CORDES, associate professor of economics, and Robert Friedland, graduate student), at the American Economic Association Meetings in New York, December 1982; and served as a discussant of a paper, "The Valuation of FDIC

Deposit Insurance: Empirical Estimates Using the Option Pricing Framework," at the American Finance Association Meetings in New York, December 1982.

CONSTANCE COSTIGAN, assistant professor of design, is featured in a showing of her work, "10 Years: A Retrospective," at the Northern Virginia Community College Tyler Gallery, February 28-March 25.

MICHAEL J. ENDERS, assistant professor of urban and regional planning, has been re-elected to the Board of Directors of the Metropolitan Washington Environmental Professionals.

AMITAI ETZIONI, university professor, addressed the National Association of Independent Colleges and Universities February 3 on the subject, "An Immodest Agenda: The University in the Next Decade."

PHILLIP D. GRUB, Aryamehr professor of multinational management, FARIBORZ GHADAR, associate professor of business administration, and MARILYN LIEBRENTZ, assistant professor of business administration, attended the 1982 Academy of International Business Asia-Pacific Conference, December 18-20. Dr. Liebrentz presented a paper, "China's Trade Fairs," based on a survey conducted with Dr. Ivan Vernon, Cleveland State University. Dr. Grub gave a paper, "China's Foreign Trade Organization: Financing Practices and Outlook." Dr. Ghadar's paper at the conference was titled, "Strategic Implications of Oil Industry Investment in East Asia" (co-authored with Karen A. Kullgren, Development Management Associates). The conference examined international business issues pertinent to the Far Eastern region.

WALTER A. HAHN, visiting professor of public affairs, Graduate Program in Science, Technology, and Public Policy, has been reelected vice president and a member of the executive board of the Issues Management Association, a group formed in 1982, now some 400 professionals from industry, government, academia and the voluntary sector interested in emerging issues.

CAROL HOARE, assistant professor of education and coordinator, Human Services Program, addressed the faculty of Howard Community College, January 20 on the subject, "Student Motivation."

DENNIS H. HOLMES, associate professor of education, has been named chairperson of the Liaison Affiliates Committee of the Evaluation Research Society, an international organization for the improvement of the theory and practice of evaluation. Dr. Holmes will coordinate relationships between the society and other professional organizations in the U.S.

JOHN D. HUNT, professor of human kinetics and leisure studies, has been elected chairman of the Washington Metropolitan Area Chapter of the Travel and Tourism Research Association.

KATHLEEN JORDAN, assistant director for residence life, is serving as a consultant to the Doorkeeper's Office, the U.S. Capitol, in setting up a Residence Hall for Congressional Pages.

CHRISTOPHER JOYNER, assistant professor of political science, has been selected to serve on the editorial advisory board of two professional journals, Case Western Reserve Journal of International Law and The Canada-United States Law Journal.

MARVIN S. KATZMAN, assistant professor of business administration, served as chairman

of a session on "Applications in Organizational Behavior," at the annual meeting of the Southeast American Institute for Decision Sciences in Williamsburg, February 10.

PETER F. KLAREN, professor of history, chaired and served as commentator for a panel on "Agrarian Transformation and Forms of Labor Recruitment in the Andes," at the annual meeting of the American Historical Association, Washington, December 28-30. He was also on leave as a Visiting Scholar at Stanford University during the fall semester.

THELMA Z. LAVINE, Elton Professor of philosophy, gave a lecture, "Judaism in the Culture of Modernism" in the National Scholar Series of the Washington Hebrew Congregation on January 23; and participated in the series of seminars, "Exploring Creativity," cosponsored by the Washington Psychoanalytic Society and the Washington School of Psychiatry during the fall semester.

BERNARD I. LEVY, professor of psychology is being featured in a showing of watercolor paintings at The Studios, 4123 Connecticut Ave., NW, through March 20.

DAVID MCALAEVEY, assistant professor of English, has received the Alfred Kreymsborg Memorial Award from the Poetry Society of America in New York for his poem, "While Holding Obsidian From Milos."

DORN C. McGRATH JR., professor of urban planning and chairman, Department of Urban and Regional Planning, has been asked by the Office of Planning and Development of the District of Columbia to assemble a group of faculty members in planning and related fields to discuss means to enhance the technical quality of the local element of the District's Comprehensive Plan. Professor McGrath initiated this process by convening a meeting, during the first week of January, made up of members of the faculties of Howard University, Catholic University, George Washington University, Georgetown University, University of the District of Columbia and American University. He has been named to an advisory panel of the Office of Technology Assessment of the U.S. Congress. The 22-member panel is charged with the task of assessing the national airport system, including various aspects of airport planning and development.

BERNARD MERGEN, professor of American civilization, was named president-elect of the Association for the Anthropological Study of Play at its annual meeting in Baton Rouge, February 11-14, where he delivered a paper, "Current Theories of Autobiography and Oral History and Their Implications for the Study of Children's Play."

NADINE NATOV, professor of Russian, chaired two sessions at the Annual Conference of the American Association of Teachers of Slavic and East European Languages in Chicago. On December 28, Professor Natov chaired the annual meeting of the North American Dostoevsky Society, of which she is president; and on December 30, the session on "Russian Literature of the Last Decade." At the latter session Professor Natov also served as a discussant of the three papers presented.

AHMED K. NOOR, professor of engineering and applied science, gave a talk, "Some Recent Advances in Computational Mechanics and Their Impact on Analysis and Modeling of Rotorcraft," at the NASA/Army Finite Element Modeling Workshop (with Focus on Rotorcraft Structures), February 2-4, NASA-Langley Research Center, Hampton, Virginia.

SONYA A. QUITSLUND, assistant professor of religion, attended the New ERA Southern Regional Conference on "Religion and the Media" in Atlanta, January 28-30.

GERALD SEROTTA, director of the GW B'nai B'rith Hillel Foundation, was elected as the seventeenth president of the Association of Hillel/Jewish Campus Professionals at its annual gathering of over 150 Hillel directors and other Jewish campus workers, December 22, in New York.

HARRY TEPPER, research engineer, a \$72,365 supplemental services contract from DOD/Department of the Navy to provide engineering and technical services.

JOHN MICHAEL VLACH, associate professor of American civilization and of anthropology and director, the Folklore Program, gave a lecture, "Central Themes in the Study of Material Culture: Anthropology and American Studies," at a meeting of the Anthropological Society of Washington, January 22. On February 10 he took part in a symposium on Afro-American culture with the presentation of a paper, "African Connections to Chesapeake Culture," at the Baltimore Museum of Fine Art.

ROBERT C. WATERS, professor of engineering administration, spoke to the National Capitol Section of the American Society for Engineering Management on February 24. He discussed the role of creative confrontation in engineering management decision-making.

GRANTS

PETER BOCK, assistant professor of child health and development, a \$79,563 incremental research grant from the U.S. Department of Commerce, National Bureau of Standards, for a mobile robot interface project.

ROBERT F. DRESSLER, senior research scientist, and VUJICA YEVJEVICH, research professor of engineering, a \$68,770 research grant from the NASA-Langley Research Center for a study of suppression of Marangoni convection in float zones.

JOHN EFTIS, professor of engineering and applied science and adjunct professor of applied mathematics, and DOUGLAS L. JONES, professor of engineering, a \$79,716 research grant from DOD/United States Air Force/AFOSR for a study of life prediction for a structural material under cyclic loads with hold times using a visoplastic constitutive model.

JAMES D. FOLEY, professor of engineering and applied science, a \$43,832 research grant from the National Bureau of Standards/Center for Manufacturing Engineers for visualization of the status of an automated manufacturing facility.

PATRICIA ROBERTS HARRIS TO JOIN GW LAW FACULTY

Patricia Roberts Harris, former cabinet official, the only woman to have served as head of three federal departments, will join the faculty of The George Washington University National Law Center in the fall semester, Dean Jerome A. Barron has announced.

Mrs. Harris was graduated from the GW National Law Center at the head of her class in 1960, receiving her J.D. with honors.

"She is truly one of the most distinguished graduates of the school and one of the most distinguished women in public life," Dean Barron said in announcing the appointment. "She brings great understanding of government, as well as experience in it, to the teaching of public law. She will be an excellent model for law students of what a lawyer can do to make a better society." Mrs. Harris will be teaching in the public law and Constitutional law fields, the dean said.

Mrs. Harris served as Secretary of Housing and Urban Development from January, 1977, until August, 1979, and was Secretary of Health, Education and Welfare from August, 1979, to May, 1980. When a separate Department of Education was formed in May, 1980, she became Secretary of the Department of Health and Human Services, remaining in that post until January, 1981.

She earned her Bachelor of Arts, summa cum laude, from Howard University before enrolling in law school at The George Washington University.

Admitted to the District of Columbia bar in 1960, she served as trial attorney in the Department of Justice from 1960 to 1961 when she joined Howard University as associate dean of students and lecturer in law. She later became associate professor, professor and dean.

She was a partner with the Washington, D.C., and New York law firm of Fried, Frank, Harris, Shriver and Kampelman from 1970 to 1977 and has served as a director of the Chase Manhattan Bank, Scott Paper Co. and IBM. She is a trustee of the 20th Century Fund.

A former ambassador to Luxembourg from 1965 to 1967, Mrs. Harris served as an alternate delegate to the 21st and 22nd General Assemblies of the United Nations. She was a member of

SYMPOSIUM TO HONOR LUTHER RICE, RELIGIOUS STATESMAN AND EDUCATOR

In honor of the bicentennial of Luther Rice, Baptist missionary, religious statesman and key figure in the history of The George Washington University, the university will hold a one-day symposium, "Voluntary Associations in a Free Society," on Friday, March 25.

Senator George S. McGovern, former South Dakota senator and 1972 Democratic presidential candidate, will speak on "Religious Pluralism in the Politics of the '80s" at a 7:30 pm banquet in the GW University Club at the end of the symposium. McGovern is currently chairman of Americans for Common Sense, a public interest group organized to counter the pressures of single interest groups in American politics.

Luther Rice (March 25, 1783-September 25, 1836) became a moving force in developing American support for foreign missions, in unifying Baptist efforts towards the establishment of denominational structures and in supporting education and Baptist publications. In recognition of his contributions to American educational life, the symposium will feature papers on historical and contemporary issues by noted scholars. Symposium sessions will be held in Marvin Center Ballroom.

"Evangelizing to Beat the Devil: Voluntary Religion in Post-Revolutionary America" will be the subject of the keynote address to be given at the 11 am opening session by Professor Clarence G. Goen of Wesley Theological Seminary, 1982 president of the American Society of

Church History. University Marshal Robert G. Jones will make introductory remarks at the opening and University Historian Elmer L. Kayser will welcome participants.

Papers on historical issues will be presented at a 2 pm session. "Religious Liberty" will be discussed by Professor Glen T. Miller of Southeastern Baptist Theological Seminary. "Private Education" will be the subject addressed by Dr. William Brackney, executive director, The American Baptist Historical Society. Comments will be given by University Professor Marcus Cunliffe and Professor of Religion Dewey D. Wallace Jr. The session will be introduced by Roderick S. French, director of GW's Division of Experimental Programs.

Papers on contemporary issues will be given at 4 pm with introductions by Professor of Religion Harry E. Yeide Jr. "Legal Issues in Matters of Church and State" will be Dr. Stan L. Haste's subject. Dr. Haste is director of information services, Baptist Joint Committee on Public Affairs and Washington bureau chief of the Baptist Press. "The New Shape of Pluralism" will be examined by Professor James H. Smylie of Union Theological Seminary in Virginia. Comments will be by Associate Professor of History Leo P. Ribuffo and Professor of Law Robert E. Park.

A reception at 5:45 pm in the Special Collections Room of the Gelman Library will afford symposium participants an opportunity to view an exhibition of Luther Rice memorabilia. The reception

-continued on back-

BARRY JAGODA IS NEW DIRECTOR OF NEWS AND PUBLIC AFFAIRS

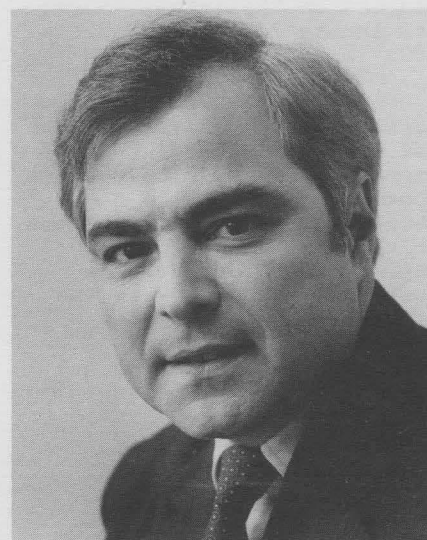

Barry Jagoda, former media advisor to President Carter and award-winning television producer for CBS and NBC, becomes director, news and public affairs, for The George Washington University, effective Monday, March 14. He comes to the post from the presidency of American Information Exchange, a Washington media firm.

The newly named Office of News and Public Affairs replaces the Office of Public Relations but will continue to produce publications and carry out many other functions associated with the former office.

"Barry Jagoda's extensive experience in a career of more than 15 years in news gathering and dissemination of information in all forms of mass media should be extremely valuable to the university," President Elliott said in announcing the appointment.

"I look forward to working closely with the entire community in helping to communicate the story of The George Washington University to those naturally interested, and to a wider public as well," Jagoda said in accepting the post. "As one trained in journalism and public affairs, I am concerned about how our institution is perceived here in Washington, at home and abroad. In the office, we hope to continue

a tradition of hard work and good personal relations with the entire university community. Our media, university and community relations activity will be characterized by accuracy, integrity and substance. I consider it an honor to become a part of The George Washington University family."

A 1966 graduate of the University of Texas (Bachelor of Arts with Special Honors in American Studies), Jagoda was awarded the Master of Science in Journalism with Honors from Columbia University Graduate School of Journalism in 1967. Before assuming the presidency of American Information Exchange, in 1980, he was Special Assistant to President Carter for Media and Public Affairs. In the years 1976 to 1979, he was senior media advisor for Carter's presidential campaign and in the White House, as advisor, directed communications and information policy and served as liaison with the National Endowments for the Arts and the Humanities, the National Advertising Council and the National Security Council. He was a contributing editor of Texas Monthly, the award-winning regional publication in Austin from 1973 to 1977.

A senior producer at CBS News, New York, for six years (1969-1975), he supervised the work of news teams in the United States and abroad, receiving numerous awards including an Emmy as producer of Watergate coverage in 1974. He was a founder and partner in the media firm of Houston/Ritz/Cohen/Jagoda of New York and Dallas in the years 1972 to 1976 and a writer and editor at NBC News, first in New York, then Washington in 1967-1969. In 1966, he served as executive director of the National Youth Council, an international umbrella group of social and political organizations such as the Boy Scouts of America, Young Democrats, Young Republicans and the YMCA. He represented some of the organizations at the United Nations. As an undergraduate at the University of Texas, he was active in extracurricular activities, including student government.

RED CROSS BLOOD DRIVE IS WEDNESDAY, MARCH 30

The university-sponsored Red Cross Blood Drive will be held on Wednesday, March 30, in the Marvin Center Continental Room (Third Floor Ballroom) between 9 am and 3 pm. To expedite processing

-continued on back-

LUTHER RICE SYMPOSIUM

-continued from front-

is being sponsored by the Gelman Library and the Friends of the Libraries.

President Lloyd H. Elliott will bring greetings at the 7:30 pm banquet. Early American musical selections will be offered by members of The George Washington University Glee Club under the direction of Catherine Pickar. Dr. William Brackney of The American Baptist Historical Society and George Washington University Librarian James B. Alsip will speak briefly about the forthcoming publication of Luther Rice's Journal. Senator McGovern's address on "Religious Pluralism in the Politics of the '80s" will follow.

The symposium is co-sponsored with the Dilthey Society of the university and the Luther Rice Bicentennial Committee of the D.C. Baptist Convention. There is no charge for symposium sessions or the 5:45 pm reception. Registration for the symposium may be made with the Office of the University Marshal, Building O, Ext. 6325. Reservations for the banquet should be accompanied by a check for \$15 payable to The George Washington University.

ALUMNI LUNCHEON

-continued from front-

Alumni Association. An 11:45 am reception will precede the luncheon. Cost of the luncheon is \$9.75 per person. Call Ext. 4999.

RED CROSS BLOOD DRIVE

-continued from front-

time, donations will be by appointment only. Please call Ext. 6555 to schedule a time. For questions on donor eligibility, call the Red Cross at 857-2081.

The Student Activities Office and the Physical Plant Department are coordinating the drive and urge all members of the university community to make a contribution to this worthy effort.

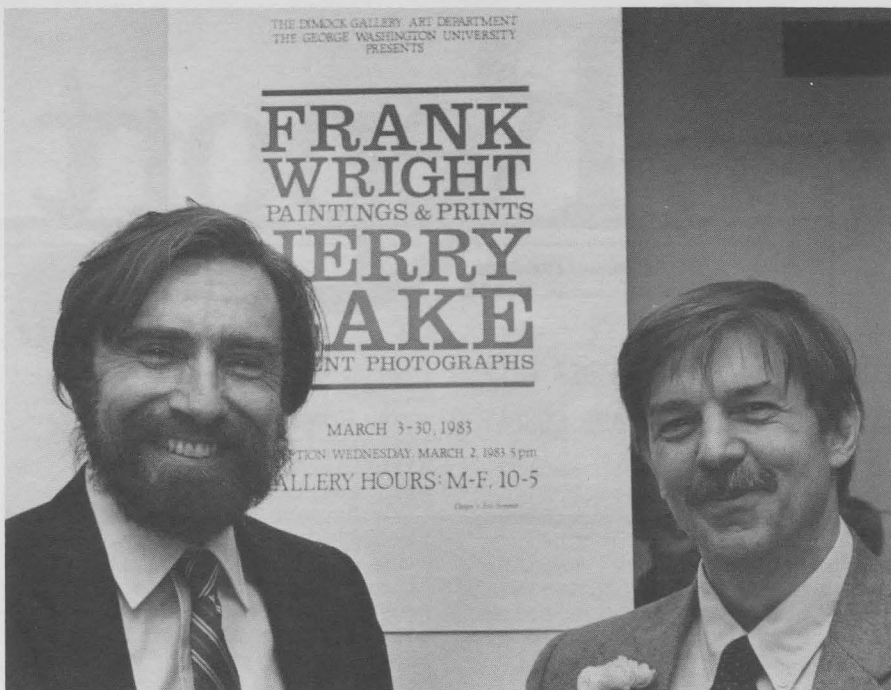

NEW PEST CONTROL PROGRAM

BEGUN BY GROUNDS DIVISION, PPD

The Grounds Division of the Physical Plant Department began an in-house program of structural and health-related pest control on January 1. Prior to that time, pest control was handled by an outside private contractor. "The university's program is very diversified and quite unlike the typical commercial program approach to insect and rodent control within the buildings," says Grounds Division Supervisor Louis L. Smith. The program stresses an integrated pest management (IPM) approach, minimizing the use of chemicals and emphasizing general good housekeeping, sanitation and the correction of structural deficiencies.

"We are working on a daily scheduled program which is now into its second revision," Smith says. "Hopefully, this schedule will be in effect for some time, but it will be reviewed on a regular basis to determine its effectiveness."

Staff requests for attention to pest and rodent problems will be taken, preferably, on Wednesdays. Emergency requests will be taken at any time. For more information, contact the Grounds Division, Ext. 7575, Louis L. Smith or Barbara Moseley.

FACULTY ARTISTS--Frank Wright, left, and Jerry Lake are shown in the Dimock Gallery at the recent opening of the exhibition of their works which will continue through March 30 from 10 am to 5 pm weekdays.

newsnotes

INTERVIEWS

S. ROBERT LICHTER, assistant professor of political science, was interviewed regarding the social and political implications of TV entertainment by Voice of America's public affairs radio broadcast "Dateline," Newsday and Radio Station KBRT of Los Angeles, all three during the week of February 28-March 4. March 3 Professor Lichter's research on nuclear energy was the subject of an op-ed column by M. Stanton Evans in the Washington Times.

E. LAKIN PHILLIPS, professor of psychology and director of the GW Counseling Center, was interviewed by Radio Station KBLX, San Francisco, regarding testing and test anxiety for airing March 3 on a special educational program.

PUBLICATIONS

JAMES R. BARTH, professor of economics, an article, "Federal Reserve Policy and High Interest Rates," in Monetarism and the Federal Reserve's Conduct of Monetary Policy, Joint Economic Committee, U.S. Congress, December 30, 1982; an article, "A Primer on Budget Deficits," co-author, reprinted in Monetarism and the Federal Reserve's Conduct of Monetary Policy, Joint Economic Committee, U.S. Congress, December 30, 1982; an article, "Government Programs for Public Sector Employment: Comment," in Labor Policy, Minorities and Youth, The Lincoln Institute for Research and Education, February, 1983.

JAMES E. STARRS, professor of law and of forensic sciences, an article, "To Err is Human; Infallibility is Divine" (Part I) in Vol. 7, Scientific Sleuthing Newsletter, January, 1983.

PROFESSIONAL ACTIVITIES

JAMES R. BARTH, professor of economics, presented a paper, "Vesting, Private Pensions, Social Security and Family Savings," co-authored with JOSEPH J. CORDES, associate professor of economics, and ROBERT FRIEDLAND, GW doctoral candidate, at the American Economic Association meetings in New York City, December, 1982. He discussed a paper, "Pricing Commercial Bank Deposit Insurance," at the American Economic Association meetings in New York City, December, 1982.

PETER CAWS, university professor, gave a lecture, "Philosophy in the Social Sciences," at the University of South Florida in Tampa, February 24. He gave a paper, "Science, Surrealism and the Status of the Subject," at a conference on "Dali, Surrealism and the Twentieth Century Mind" at Eckerd College in St. Petersburg, Fla., February 25. Professor Caws has been appointed one of 12 Phi Beta Kappa Visiting Scholars for the academic year 1983-84. Visiting scholars travel to universities and colleges that shelter Phi Beta Kappa chapters, spending two days on each campus. The scholars take part in classroom and seminar discussions, meet informally with students and faculty and give one address under formal auspices, such as at a convocation or other public occasion. Begun in 1956 as an experiment, the visits have now become an established program, whose aim is to enable undergraduates to meet with noted scholars in diverse disciplines. Two of Professor Caws' principal areas of scholarship are philosophy as it relates to science and contemporary French philosophy.

RICHARD F. ERICSON, professor of management, has been awarded an honorary fellowship by the World Organization of General Systems and Cybernetics. Among the other 27 honorary fellowships were those awarded to Nobel Laureates D. Gabor, B. D. Josephson, L. Pauling, I. Prigogine and H. A. Simon.

RAYMOND R. FOX, professor of engineering and applied science, participated as an invited speaker and panel member at a two-day seminar on the topic "Reduction of Flood Losses through Design," March 4 and 5 at Hilton Head, S.C. Professor Fox presented a paper on structural and construction considerations. The program was developed and sponsored by the American Institute of Architects Foundation and the South Carolina Council of Architects.

CHRISTOPHER C. JOYNER, assistant professor of political science, chaired a panel entitled, "New Directions for the Law of the Sea," at the National Capitol Area Political Science Association spring conference, February 26. Dr. Joyner also presented a paper entitled, "The UNCLOS III Process: An Issue-Oriented Overview."

SONYA A. QUITSLUND, assistant professor of religion, pre-

sented a paper, "A Christian Feminist Critique of the Doctrine of Indemnity," and responded to a paper, "Indemnity and the Problem of Suffering," by James Fleming of Princeton University during a conference sponsored by the new ERA Winter Seminar on the topic "Restoration through Indemnity" in Nassau, The Bahamas, February 23-27.

JAMES E. STARRS, professor of law and of forensic sciences, delivered three papers at the 35th Annual Meeting of the American Academy of Forensic Sciences in Cincinnati, Ohio, February 14-18. Titles of the papers are: "The Crime of Bruno Richard Hauptmann: A Medieval Accident"; "Drunk Driving Cases with a Constitutional Dimension: A 1982 Update"; and "Trumpery Among Forensic Scientists." At the meeting, Professor Starrs was elected chairman of the Jurisprudence Section of the American Academy of Forensic Sciences. Professor Starrs has received a recent appointment to the editorial board of the Journal of Forensic Sciences, the official publication of the American Academy of Forensic Sciences.

GRANTS

DONALD R. LEHMAN, professor of physics, FRANCISCO PRATS, professor of physics and chairman, Department of Physics, and EDMUND P. HARPER, associate professor of physics, a \$65,000 renewed research contract from the Department of Energy-Oak Ridge Operations for investigations of the structure and electromagnetic interactions of few-body systems.

personnel notices

RESEARCH ASSISTANT (full-time). (Available immediately. Position entails the study of the structure and function of thymic hormones utilizing bioassay techniques. B.S. in chemistry, biology or related science required. Experience in bioassay and cell culture desirable.) Contact Dr. Teresa L.K. Low, Department of Biochemistry, 2300 Eye St., NW, Washington, D.C. 20037.

RESEARCH ASSISTANT (full-time). (Position involves studying peptides and peptide receptors as biochemical markers of cancer cells. Experience in the use of radioisotopes, radioimmunoassays and receptor binding assays required. B.S. or M.S. in biological sciences. Available April 1, 1983.) Contact Dr. Terry Moody, Department of Biochemistry, 2300 Eye St., NW, Washington, D.C. 20037.

RESEARCH ASSISTANT, Department of Pharmacology. (Administering a variety of drugs of one class to dogs and measuring the effects of those drugs on the behavior of one plasma protein and two drugs of another class, responsible for drug administration to the dogs, and for frequent venipunctures to obtain blood samples for analysis. Involves techniques of spectrophotometry, gas/liquid chromatography, high pressure liquid chromatography, and mass spectrometry. Experience in handling dogs as experimental animals and hands-on experience with each of the proposed analytical techniques. Bachelors degree in biology or chemistry required.) Send resumes to Dr. Abramson, Ross Hall, Room 611, 2300 Eye St., NW, Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

JOHN RUSSELL MASON LIBRARY BOOK FUND ENDOWED

The George Washington University has received a bequest in the amount of \$222,000 from the estate of the late John Russell Mason, GW librarian and curator of art emeritus who died in 1981.

In his will Mason provided that the bulk of his estate should be established as a permanent endowment fund, to be known as The John Russell Mason Library Book Fund to be used for the purchase of books for the University Library.

"We remember fondly the many contributions of John Russell Mason during a lifetime of devoted service to The George Washington University as organist, librarian, curator and, in his later years, as a university neighbor," President Lloyd H. Elliott commented.

University Librarian James B. Alsip said, "We are very pleased and honored that a former university librarian would leave the bulk of his estate for this purpose. I feel that it is fitting that the income from the endowment be utilized primarily to buy material for the Special Collections Division. Mr. Mason's love of the fine arts makes this a fitting use of the funds. We intend to create a bookplate which will bear his name and his family's coat of arms."

Born January 1, 1900, Mason attended Roosevelt High School in Washington, D.C. He received a Bachelor of Arts from The George Washington University in 1923 and a Master of Arts in 1925 with a specialization in English. His degree in library science was from Columbia University School of Library Science (B.S. in L.S. 1933).

He began his library work at George Washington as a student assistant in 1920 and was appointed chief assistant in 1923. The same year he became assistant librarian. He was associate librarian 1929 to 1933 and librarian 1933 to 1965. In 1944, while continuing his responsibilities as librarian, he was appointed curator of art, a post he held until 1965. He was made librarian and curator of art emeritus in 1965 but continued to serve for another year until his full retirement in 1966. During his 46 years of service to George Washington, the library's holdings increased fourfold.

REMEMBER THE BLOOD DRIVE

Appointments are being taken at the Student Activities Office (Ext. 6555) for those who wish to participate in the university-sponsored Red Cross Blood Drive, scheduled for Wednesday, March 30. The appointment system keeps processing time for individual donors to about one hour. Questions concerning donor eligibility can be directed to the Red Cross Center at 857-2081. The Physical Plant Department is cooperating with the Student Activities Office in this community effort.

John Russell Mason

Through his work as curator of art, the university's art holdings were enlarged in number and value. With the late GW President Cloyd H. Marvin, he was responsible for the acquisition of a Gilbert Stuart portrait of George Washington of the Monro-Lenox type. He presented 176 exhibitions of art ranging from the showing of the Walter P. Chrysler Collection to annual student shows and works of Washington artists.

In 1951, he received an Alumni Achievement Award from the university. In 1974, the John Russell Mason Room (Room 301, a non-smoking reading room) was dedicated in the GW Library, now the Melvin Gelman Library.

An accomplished musician, he was unofficial organist for the university for a number of years, playing for many university occasions.

Member of a number of library associations, he served twice as president of the District of Columbia Library Association.

He lived at the Arts Club of Washington, 2017 Eye St., NW, and spent his summers in New England. After his retirement, he continued his interests in books, art and music, and enjoyed extensive world travel.

UNIVERSITY HAPPY HOUR SCHEDULED FOR MARCH 25

A university happy hour has been scheduled in conjunction with the March 25 observance of the bicentennial of the birth of Luther Rice. The 4:30 to 7 pm event in the Continental Room (Third Floor Ballroom) in the Marvin Center is sponsored by the Program Board, the Marvin Center Governing Board, the GW Student Association and the Residence Hall Association. A slide show on the history of the university will be shown continuously during the party. There will be free refreshments, a cash bar and a cake featuring the likeness of Luther Rice. The entire university community is invited to attend.

LUTHER RICE, COLUMBIAN COLLEGE IN SPECIAL COLLECTIONS EXHIBIT

"Luther Rice and Columbian College: The Man and His Dream," an exhibition in observance of the two-hundredth anniversary of the birth of Luther Rice, Baptist missionary and founder of Columbian College, will continue in the Special Collections Division, Gelman Library, through April 15.

Organized in four sections, the exhibit highlights the growth of Columbian College, later The George Washington University, and Luther Rice's continuing involvement with the institution.

The section "Luther Rice: The First 30 years" includes the journal kept in Rice's own hand showing the details of his travels between 1815 and 1819. One of his larger expenses was \$2.50 for a pair of shoes, purchased one July 5. There is a representation of the small wooden house in Northborough, Mass., which was his birthplace.

"Columbian College: The Early Years" shows three likenesses of William Staughton, D.D., the first president of Columbian College. He appears in silhouette, and in a tintype and a print. There are two souvenir ribbons from the first Columbian College commencement in December, 1824, with imprinted likenesses of President James Monroe and General Lafayette, who made the principal address.

An old print of the original Columbian College building, begun March, 1820, and finished in the fall of 1821, is shown along with the first minute book of the Board of Trustees, which has a manuscript copy of the original charter signed by President Monroe on February 9, 1821.

"Years of Crisis" traces briefly, through documents and letters, the vicissitudes of the college sustained in the years 1826 to 1830 and includes a silhouette of Stephen Chapin, second Columbian College president. There is a fee schedule showing increases. By 1829-1830 the charge for library, room, furniture and bed that together had totalled \$9 in 1822, had risen to \$13.

"Luther Rice: The Last Years and Afterward" includes letters in Rice's own handwriting which reflect his never-ending efforts on behalf of Columbian College, gives his advice to President Chapin in 1834 on keeping John Quincy Adams, the college's principal creditor, "in a good humor" and tells of his "hopes of seeing an eminent college... before many years shall have passed away."

The exhibition is open without charge from 9 am to 5 pm weekdays. Friday, March 25, there will be a 5:45 pm reception in the Special Collections exhibition area as part of the university's day-long Luther Rice symposium.

Luther Rice

"VOLUNTARY ASSOCIATIONS IN A FREE SOCIETY" THEME OF LUTHER RICE SYMPOSIUM

"Voluntary Associations in a Free Society" is the theme of the university symposium in observance of the bicentennial of the birth of Luther Rice on Friday, March 25. In 11 am and 2 pm sessions, a series of scholars will present papers on historical and contemporary issues as outlined in *GWReport* of March 14.

George S. McGovern, former South Dakota senator and 1972 Democratic presidential candidate, will speak on "Religious Pluralism in the Politics of the '80s" at a 7:30 pm banquet in the GW University Club. The symposium is co-sponsored with the Dilthey Society of the university and the Luther Rice Bicentennial Committee of the District of Columbia.

The symposium is free. There is a charge for the banquet. Call the Office of the University Marshal, Ext. 6325.

REPRINT ON LUTHER RICE BY E.L. KAYSER AVAILABLE

"Luther Rice, Founder of Columbian College" by University Historian Elmer L. Kayser has been reprinted in a bicentennial edition as part of the university's participation in the observance of the two-hundredth anniversary of Luther Rice's birth. The biographical essay was originally written as a by-product of the preparation of the history of The George Washington University, *Bricks Without Straw: The Evolution of George Washington University*, 1970, by Historian Kayser. In the preface to the bicentennial edition, Dr. Kayser writes, "This new edition may help to gain for him the stature history has sometimes denied: that of a major shaper of evangelical, denominational, and educational life for a voluntary association in a free society."

Copies of the reprinted biographical essay are available in Special Collections and on the first floor of Gelman Library.

PHI BETA KAPPA ELECTS 17

The George Washington University chapter of Phi Beta Kappa, Alpha Chapter of the District of Columbia, has elected 17 new members who will be initiated in ceremonies during Graduation Weekend, May 7-8.

Those elected are: Mary Alison Albright, a senior majoring in history and minoring in Spanish language and literature; Margaret G. Beers, a senior in English literature; Steven A. Bennett, a February graduate (B.A. With Distinction) who majored in political science; Lisa Cipolla, a senior with a double major in chemistry and zoology; Celia Dominguez, a psychology major with chemistry and biology as minors; Sheila Harvill, a geology major with a minor in psychology; Faith Kalman, a senior in American civilization; Debra Kalmore, a senior majoring in economics with a minor in French language and literature; Hoyun Kim, a senior in English literature; Stavroula Lambrakopoulos, a February graduate (B.A. With Distinction) who majored in history; Glenn Rosenkrantz, a senior with a double major in political science and journalism; Howard Seidel, a senior in philosophy; Daniel F. Sullivan, a senior in history; Robert I. Teir, a senior in psychology with a minor in political science; Paul D. Yu, a senior in fine arts; Susan Berner and Gwen Walden, both seniors in international affairs. All of those elected have been students in the Columbian College of Arts and Sciences with the exception of Berner and Walden, who are students in the School of Public and International Affairs.

"THROUGH THE EYES OF STUDENTS" EXHIBIT TO OPEN NEXT WEEK

"Through the Eyes of Students," the annual exhibit of works by George Washington University students in journalism classes 140, 141 and 142, will open in the Third Floor Gallery of the Marvin Center on Monday, March 28, and run through Sunday, April 17. The exhibition is sponsored by the Marvin Center Governing Board and The George Washington University Journalism Department. The show has been juried by staff photographers of the National Geographic Society. Hours are 8 am to 10 pm daily.

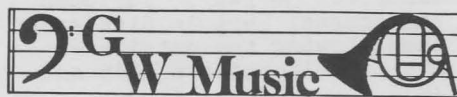

MAIDA WITHERS TO LECTURE

WEDNESDAY, MARCH 23

Maida Withers, GW associate professor of human kinetics and leisure studies, will give a lecture/performance, "New Narrative in Dance," on Wednesday, March 23, at 8 pm in Marvin Theatre. The lecture is free. Call Ext. 6577.

TAU BETA PI members Vincent Chen, left, and Dan Blocher are shown with SEAS Dean Harold Liebowitz following the drawing for the winning tickets in Tau Beta Pi's recent raffle for the benefit of the Salvation Army which the engineering honorary undertook as a community project. Approximately 650 tickets were sold for \$1 each for first prize of a SONY Walkman cassette player and second prize of a SONY Walkman FM radio. The D.C. Gamma (GW) chapter of Tau Beta Pi was founded in 1963. The association, established in 1885, recognizes outstanding intellectual achievement and exemplary character.

NEIL TILKENS TO APPEAR IN ALL-BRAHMS PROGRAM

The next concert in this year's Faculty Series will feature Neil Tilkens, associate professor of music, in an all-Brahms piano program, on Monday, March 28, in Marvin Theatre. The concert, in commemoration of the 150th year of Brahms' birth, is open without charge.

A graduate of the Philadelphia Conservatory of Music, Professor Tilkens joined the university's music faculty in 1966. He has appeared in many solo recitals throughout the country, as piano soloist with orchestras, and as accompanist for many well-known vocal and instrumental artists. He is a frequent lecture-recitalist for the Washington Performing Arts educational concerts. A past president of the Maryland State Teachers Association, Tilkens is an artist-in-residence at the summer colony in Coolfont, West Virginia.

GW JAZZ BAND PLAYS SUNDAY

The GW Jazz Band will give a free concert on Sunday, March 27, at 8 pm in the Marvin Theatre under the direction of William Wright. Call Ext. 6245.

JACOB BURNS LAW LIBRARY

HOURS THROUGH MARCH 27

This week's hours at the Jacob Burns Law Library will be Monday, March 21, through Friday, March 25, 9 am to 10 pm; Saturday, March 26, 9 am to 5 pm and Sunday, March 27, noon to 10 pm.

newsnotes

GRANTS

EDWARD DELLA TORRE, professor of engineering and applied science, a \$40,000 research grant from the National Science Foundation to study the structure of submicron magnetic bubbles.

MAX HALPERIN, research professor of statistics and director, Biostatistics Center, a \$39,420 continued research grant from the National Institute of General Medical Sciences/DHHS/PHS pertaining to growth curve estimation with progressive censoring.

JUDITH MILLER JONES, director, National Health Policy Forum, a \$5,000 grant from the Community Foundation of Greater Washington (The Chevron Fund) for general support of the National Health Policy Forum.

ROGER H. LANG, professor of engineering and applied science, a \$33,000 continued research grant from NASA-Goddard for a study of discrete random media techniques for microwave modeling of vegetated terrain.

HAROLD LIEBOWITZ, professor of engineering and applied science and dean, School of Engineering and Applied Science, a \$4,193 continued support grant from NASA-Langley Research Center for a training and education program; a \$49,160 supplemental research grant from NASA-Langley Research Center for a program in laminar flow control, and a \$217,000 continued research grant from NASA-Langley Research Center for a research program in structures and dynamics.

HERMAN POLLACK, research professor of international affairs, an \$11,384 research contract from the Agency for International Development to evaluate cooperative marine technology projects in the Middle East.

NOZER D. SINGPURWALLA, professor of operations research and statistics and director, Institute for Reliability and Risk Analysis, a \$48,120 supplemental research contract from the Office of Naval Research/Navy/DOD to study reliability, maintainability and reliability standards.

Original Columbian College Building at Boundry Street, now Florida Avenue, between 14th and 15th Streets, NW

personnel notices

RESEARCH ASSISTANT, Department of Pathology. (B.A. or B.S. in chemistry or toxicology with additional training in quantitative microscopy. Previous experience with small animal surgery, atomic absorption spectroscopy and morphometry essential.) Resume to Mg Study/Pathology, Ross Hall, Attn: S.B., Room 502.

RESEARCH ASSISTANT, Division of Rheumatology. (B.S. in relevant discipline. Interface between medical and clinical laboratory. Strong clinical experience in phlebotomy and experience in laboratory methods, especially human tissue culture preferred. Set-up and performance of immunological assays. Drug maintenance and preparation.) Contact Christine Richardson, Department of Medicine, Ext. 3927.

UNIVERSITY PROFESSOR OF ISLAMIC STUDIES APPOINTED

Internationally respected scholar Seyyed Hossein Nasr has been named university professor of Islamic studies in the Department of Religion. The appointment was announced following the Board of Trustees' meeting March 17. He is currently professor of Islamic studies at Temple University.

Nasr is the fourth scholar appointed to the rank of university professor, a position authorized by the board in 1980 to bring to the faculty scholars of distinguished reputation who have made significant contributions beyond any single discipline. University professors currently in residence are Amitai Etzioni, Marcus Cunliffe and Peter Caws.

Nasr is the second in a series of university professors in the humanities whose appointments are supported through a challenge grant from the National Endowment for the Humanities. The grant of \$800,000 was one of the largest of its kind awarded in 1980 and GW must raise \$2.4 million to release the federal funds. The total of \$3.2 million will be used to strengthen the role of the humanities throughout the university at a time of deep concern about the future of liberal education.

Born in Iran, Nasr holds M.A. and Ph.D. degrees from Harvard University in the history of science with special emphasis on Islamic science and philosophy. He is an honor graduate of M.I.T., where he studied physics and mathematics. A founder and first president of the Iranian Academy of Philosophy, Nasr is currently an external examiner in the field of philosophy for several Pakistani universities and associates actively with the organizations of numerous international conferences on Islam and Islamic civilization.

Nasr's many scholarly publications include works printed in many languages, including English, French, Italian, Spanish, German, Arabic, Persian and Japanese. His work regularly appears in international journals.

-continued on back-

CARL H. PFUNTNER TO BE REMEMBERED APRIL 2

The late Carl H. Pfuntner, a member of the Philosophy Department from 1963 until 1979, who died February 1 in Phoenix, Arizona, will be remembered by friends, former students and colleagues at a gathering in his memory on Saturday, April 2, at 10 am in the Special Collections Division of the Gelman Library.

Professor Pfuntner's son, Charles, has donated his father's library to the university. Funds are being collected as a memorial to Professor Pfuntner to assist the Gelman Library in processing the books. Contributions should be sent in care of Professor Richard Schlagel, chairman of the Department of Philosophy, Academic Center T-525. Checks should be made payable to The George Washington University.

ALL-TIME HIGH REACHED

BY GW UNITED WAY CAMPAIGN

This year's George Washington University United Way Campaign resulted in a total of \$114,084 in funds for the greater Washington community.

This figure represents a 24.5 percent increase over last year's total of \$91,800. Two years ago the GW total was \$61,000.

President Elliott said of the total, "I congratulate The George Washington University community on this fine record and I congratulate the two cochairmen Jim Clifford and Mike Barch."

Cochairmen for the drive were James E. Clifford, director of Personnel Services, and Michael M. Barch, administrator, the Medical Center.

"Persons in the George Washington University community are certainly to be congratulated for this total," said Clifford. "I don't think anything shows more clearly the university's concern for people in the Washington community. This total represents positive evidence of this concern. We, as an institution, are making a major contribution to the Washington community in this way."

Barch, in agreeing with Clifford, commented "In these times that have been particularly hard for people economically, the humanitarian traits of the GW community showed themselves. A great deal of pride can be taken in the accomplishment of the university in this year's campaign."

GW's closest competitors in the college and university division were Howard with \$88,700 and Georgetown with \$54,000.

LEE KIMCHE'S QUESTION--

"WHAT IS WATER SCULPTURE?"

Lee Kimche, international arts consultant to the 1984 Louisiana World Exposition, will present a slide lecture Wednesday, March 30, on "What is Water Sculpture?" and will discuss the First International Water Sculpture Competition 30 semifinalists' work. She will speak from 6 to 7:30 pm in the lower lounge of Lisner Auditorium and will be introduced by Sarah Booth Conroy of the Washington Post. A reception will follow. The event, sponsored by the Dimock Gallery, Art Department, is open without charge.

GET TO KNOW IBM

Anyone interested in IBM Personal Computers is invited to the first meeting of the Special Interest Group - University Personal Computers (SIGUPC) to be held on Monday, April 4, 1983 at 5:30 in Room B161 of the Academic Center.

SIGUPC is under the umbrella of the Capitol PC Group. For more information contact Chris Cheatham, Ext. 6500.

GERMANIC MYTHOLOGY

ON THE FIRST WEDNESDAY

"Germanic Mythology: Alive, Well and Residing in Your Language, Practices and Unconscious" will be Professor of German James C. King's subject on Wednesday, April 6, when he is April's first Wednesday lecturer in the series sponsored by the Alumni Relations Office. He will speak at 8 pm in Marvin Center Ballroom. The lecture is free. Call Ext. 6435 to reserve a place. Dinner, for both members and non-members, will be available beforehand in the GW University Club, beginning at 6:30 pm. Call Ext. 6110 for reservations.

THREE FINE ARTS STUDENTS

TO BE REPRESENTED IN

PHOTOGRAPHY ANNUAL

Three fine arts students in the Photography Program in the Art Department will be represented in the Best of College Photography Annual: 1983. They are Douglas Ross and Robert Turtill, both seniors, and sophomore Jeannie Trombly. The annual is published by Photographer's Forum magazine. Over 19,000 entries were received from more than 6,500 students in the United States and Canada. The top five percent of all the entries were selected for the annual.

SHAKESPEARE'S ANTONY AND

CAESAR TO BE COMPARED

"Mark Antony and Octavius Caesar: Shakespeare's Contrasting Leaders--or, Which Would You Prefer?" will be the question addressed by Roland Mushat Frye of the University of Pennsylvania on Friday, April 1, at 8 pm when he delivers the nineteenth annual Tupper Shakespeare Lecture. He will speak in Corcoran Hall, Room 101. The lecture is open without charge.

Frye is Felix E. Schelling Professor of English Literature at Pennsylvania. Educated at Princeton for all his degrees, he studied also at Princeton Theological Seminary. He has taught at Howard College (now Samford University) in Birmingham, Alabama, and at Emory University. He was research professor at the Folger Shakespeare Library from 1961 to 1965. He has held grants and fellowships from learned societies and is himself a member of the American Philological Society and the American Academy of Arts and Sciences. He has written extensively and is the author of *Milton's Imagery and the Visual Arts* (1978). Now in preparation is a book, *Towards Seeing "Hamlet": The Perspectives of 1600*, which is to be published this year by Princeton University Press.

The Tupper Shakespeare Lecture is presented annually through the English Department in memory of the late Fred Sailsbury Tupper, who introduced several generations of George Washington University students to the joys and depths of Shakespeare.

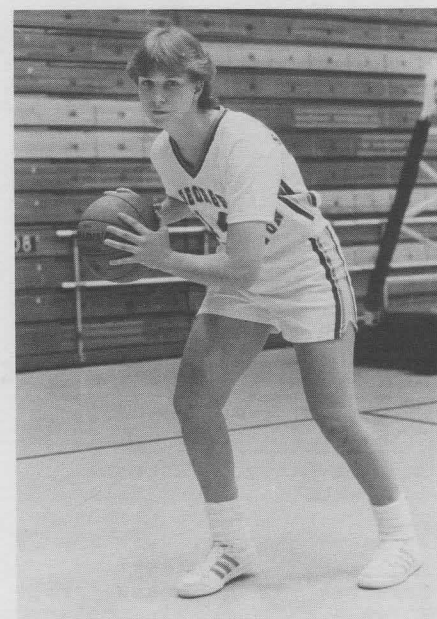

FILM, "THE SAVING OF THE PRESIDENT" TO BE SHOWN

MARCH 30, 4:30 AND 7:30 PM

On Wednesday, March 30, the university community is invited to a special showing of "The Saving of the President," the award-winning documentary drama chronicling events immediately following the assassination attempt on President Reagan, on March 30, 1981, when he was brought to The George Washington University Hospital Emergency Room. Dr. Sol Edelstein, one of the physicians who cared for the president during the first critical hours of his hospitalization, will introduce the film, offering insights through his unique perspective, and will entertain questions after the showing. Dr. Edelstein is director of the Division of Emergency Medicine, and associate professor of health care sciences and anesthesiology. The program, approximately an hour long, will be presented twice, at 4:30 pm and at 7:30 pm in Room 108, Building C, 2200 G Street, N.W. The program is free to the university community.

The film is a re-creation with the actual doctors and nurses and others who were part of the effort to save President Reagan's life on through that day and into the night. The events and the feelings of those involved are shared through the unscripted recollections of the president, the U.S. Secret

KELLY BALLENTINE NAMED CO-ROOKIE OF THE YEAR IN ATLANTIC 10 CONFERENCE

George Washington University's Kelly Ballentine was named Co-Rookie of the Year in the Atlantic 10 Conference for the 1982-83 women's basketball season. The other Co-Rookie was Michele Washington of the University of Rhode Island.

Ballentine, a 5-10 forward, is one of six freshmen on head coach Denise Fiore's George Washington club. The second leading scorer in the Washington, D.C., area as a student at Annandale High School in Virginia, Ballentine is the second leading freshman scorer in the nation with a 21.8 average. The recipient of the first Atlantic 10 Rookie of the Week award, Ballentine received the award two more times during the season.

Service, and the staff of The George Washington University Medical Center. Following its nationwide showing on the ABC-TV network a year ago, the film has earned more than a dozen major honors throughout the world in addition to receiving four Emmys from the National Academy of Television Arts & Sciences. The film was produced by the G.W.U. Medical Center Department of Medical and Public Affairs in association with WJLA-TV.

According to Dr. Dennis S. O'Leary, dean for clinical affairs, "The Saving of the President" is a portrayal of an extraordinary event, one which hopefully will never happen to any of us again. However, in one sense it was not extraordinary. The same kinds of committed people and facilities do the same lifesaving things every day for less well known victims of trauma. Serious injuries have always been a part of life, but today the resources of academic and other major medical centers have been integrated to save lives that were once forfeited while the delivery of patient care continues uninterrupted. This is the end product of years of medical research, education, and patient experience which are the distinctive features of our nations' academic health centers . . . and on this particular day, at that moment in history, the result was the saving of the life of the president of the United States."

PROFESSOR APPOINTED

-continued from front-

Nasr's books include Three Muslim Sages, Ideals and Realities of Islam, Science and Civilization in Islam, Man and Nature: The Spiritual Crisis of Modern Man, Western Science and Asian Culture, and, among others, Sacred Art in Persian Culture. Professor Nasr joins the GW faculty in fall 1983.

COMPUTER II DECISION TO BE TELECOMMUNICATIONS FORUM TOPIC

Larry Povich, chief, Program Evaluation Staff, Common Carrier Bureau, Federal Communications Commission, will speak on "The Computer II Decision: Deregulation of 'Enhanced' Communications Services" on Thursday, April 7, at 4 pm in Marvin Center, Room 410, as part of the Telecommunications Forum series. The forum's informal lectures and discussions are open to everyone. Call Ext. 7062.

UNIVERSITY THEATRE PRESENTS WILDER'S "THE MATCHMAKER"

Mrs. Dolly Levi, the resourceful yenta, comes to the Marvin Theatre stage April 5th through 10th in Thornton Wilder's "The Matchmaker."

Pulitzer prize-winner Wilder said his ". . . play is about the aspirations of the young (and not only the young) for a fuller participation of life." Alan Wade, assistant professor of speech, says, "Adventure is the key: the matchmaker turns everyday living into an exciting and unforeseen adventure." Many people may be more familiar with the plot as it was used in the long-running musical "Hello, Dolly."

Performances will run Tuesday through Saturday, April 5 through 9, at 8 pm. There will be a 2 pm matinee Sunday, April 10. Prices are \$5 general admission, and \$2.50 for students, senior citizens and children. Call Ext. 6178 for reservations and information.

CONSULT PHYSICAL PLANT ON EQUIPMENT INSTALLATION

The Office of the Vice President and Treasurer informs us that Physical Plant budget restrictions for this year and next year are of such a nature that it is difficult if not impossible to absorb significant cost increases.

An area that causes cost problems is unexpected requests for installation of equipment that requires additional electrical power or air conditioning. Such equipment can range from electron microscopes to copy machines, data processing equipment or support elements such as fume hoods.

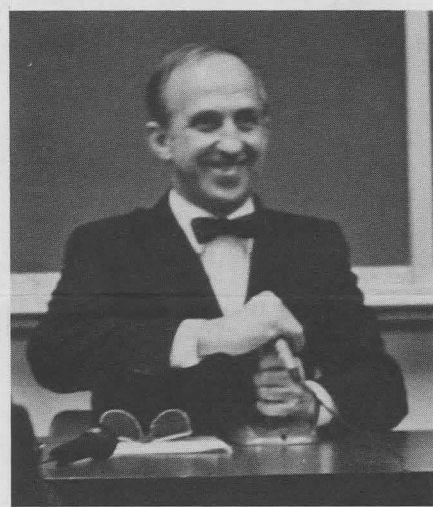

All equipment installations need to be coordinated with the Physical Plant Department in the initial planning stage. This will permit essential engineering review and resolution of any cost problems before program plans are given final approval. Everyone's cooperation will be greatly appreciated.

PERUVIAN ECONOMIST TO SPEAK ON INTERNATIONAL COMMUNITY, AMERICAN PRIVATE ENTERPRISE

Mauricio Herman, division chief, social development division of the Inter-American Bank, will speak on "American Private Enterprise and the International Community" on Wednesday, March 30, at 8 pm in Marvin Center Ballroom.

An economist, Herman has international business, banking and teaching experience. He holds degrees from the University of Miami, Fla., San Marcos University in Lima, Peru, and a doctorate in education from the Catholic University of Peru. He taught at two Peruvian universities before coming to the United States in 1961 as a visiting scholar at the Wharton Graduate School of the University of Pennsylvania. In early 1962, he joined the Inter-American Development Bank as an economist and since has served in a number of positions with the bank.

The lecture is made possible by a grant from the Dr. Scholl Foundation and the Association of Private Enterprise Education. There is no charge and the entire university community is invited. Call Ext. 8169 to reserve a place.

FRENCH MINISTER--Anicet Le Pors, French minister delegate to the prime minister for civil service (public administration) and administrative reform, above, spoke at the university on March 22 on "Managing the Public Sector: A French (Leftist) Perspective." Le Pors' visit was the first by a French Communist minister to the United States. His appearance on campus was sponsored by the Department of Public Administration.

"BRAIN RESEARCH: IMPLICATIONS FOR EDUCATION" DISCUSSION TOPIC

"Brain Research: Implications for Education" will be the topic for discussion at the Thursday, March 31, colloquium sponsored by The George Washington University's Department of Education and Division of Continuing Education and Summer Sessions.

During the 9:30 am to noon session in Marvin Center Ballroom, Professors of Education Martha Rashid and Martha Burns and Assistant Professor of Education Edward Lilly will serve as presenters. Moderator will be Professor of Education Anthony Marinaccio. The colloquium is open without charge. Call Ext. 6940.

newsnotes

GRANTS

ERNEST N. ALBERT, professor of anatomy, FRANK J. SLABY, associate professor of anatomy, and AUGUSTINE Y. CHEUNG, visiting professor of engineering and applied science, a \$71,281 research grant from DOD/USAF/AIR FORCE SYSTEMS COMMAND for an investigation of microwave interactions with ACTH producing pituitary cells.

JAMES D. FOLEY, professor of engineering and applied science, a \$57,915 continued research grant from NASA-Langley Research Center for a study of raster graphics extension to the core system.

CHARLES A. GARRIS, associate professor of engineering, and JOSEPH V. FOA, professor emeritus of engineering and applied science, a \$76,000 renewed research grant from DOD/USAF/Air Force Office of Scientific Research for a study of non-steady flow induction.

JOHN L. SIBERT, associate research professor of engineering, a \$248,161 research contract from NASA-Goddard for human factors research and development - analysis and modeling of man/system interfaces and interactions and applied human factor analysis.

CHRISTOPHER H. STERLING, director, Center for Telecommunications Studies, a \$9,987 research contract from the U.S. Department of Education in support of three invitational meetings on the application of telecommunications technology to post-secondary education. The GW Center for Telecommunications Studies is working with officials of the National Center for Education Statistics.

VUJICA M. YEVJEVICH, research professor of engineering, a \$132,380 supplemental research grant from the National Science Foundation for a study of the validity range of new free-surface unsteady flow equations with bottom curvatures.

THE REPUTATION GAME

Editor's Note: Recently the Washington Post reported the findings of the third National Research Council Assessment of Research-Doctorate Programs in the U.S. GW programs "ranked" in the lower half of this assessment. Dr. Henry Solomon, Dean of the Graduate School of Arts and Sciences, provided the following perspective for the university community.

The National Research Council's Assessment of Research-Doctorate Programs in the United States has arrived on the scene with the anticipated attention by the media and others. With mixed emotions, I should like to comment on the "Assessment." My emotions are mixed because as a dean and as a social scientist I have strong doubts as to whether it is worthy of comment. Nevertheless, the reality is that a few people seem to have taken the "Assessment" seriously and without question. It is the kind of study that provides a field day for some members of the media and a few others.

The "Assessment" was intended to provide an evaluation of the quality of the research doctorate in this nation, and to assist in such practical matters as helping students and student advisors in choosing careers and programs. These are good objectives which failed. I doubt seriously that the study in the light of its objectives would be a defensible doctoral dissertation.

The study was not intended to provide "ratings" but in its wisdom the Council of Graduate Schools knew that the complex problems of evaluating graduate programs could not be resolved by some simplistic ratings game and this is why the Council objected to this study. There was insistence that the shortcomings and disclaimers be stated in the study and this was accomplished. Anyone reading the reports would have to be overwhelmed with the number and seriousness of these caveats and interested individuals should read the reports. One example is:

"One of the most meaningful measures of the success of a research-doctorate program is the performance of its graduates. How many go on to lead productive careers in research and/or teaching? Unfortunately, reliable information on the subsequent employment and career achievements of the graduates of individual programs is not available."

The problem is that some people will quickly ignore or not attempt to deal with these so-called technical matters. Apparently technical issues, as serious as they may be, do not make good press.

Aside from major data and technical limitations, let me give one brief example of what the evaluators were asked to do.

"In assessing the effectiveness of a program, evaluators were asked to consider the accessibility of faculty, the curricula, the instructional and research facilities, the quality of the graduate students, the performance of graduates, and other factors that contribute to a program's effectiveness."

Dean Solomon

Imagine the amount of information and familiarity with the program the evaluator would require to respond in an informed and intelligent fashion to this question of program effectiveness. On this campus we are in the third year of formal evaluations of our own programs. We have limited these evaluations to six programs a year because of the enormous amount of time and effort required to make the kind of assessment noted above. How could anyone from afar and without appropriate detailed information offer a useful reply? Even with all of the information available, an ultimate assessment is far from an easy task. The evaluation of graduate programs is indeed a complex matter. How nice it would be if it could be accomplished simply, but no simple valid methods are known.

AN EVENING OF CELEBRATION IN HONOR OF JENNY MOORE

On the occasion of the tenth anniversary of Jenny McKean Moore's death, the Department of English and the Jenny McKean Moore Fund for Writers are sponsoring an evening of celebration in honor of Jenny Moore on Friday, April 8.

In the past decade, her continuing legacy, the Jenny McKean Moore Fund for Writers, has brought an influx of vitality and variety to The George Washington University and the local community through the residences of seven distinguished visiting writers: Marilyn Hacker, Susan Shreve, Amiri Baraka, Blanche Boyd, Carol Muske, Peter Meinke and Lucille Clifton.

The celebration will be a reunion for Mrs. Moore's family, friends and colleagues and for all those who have variously benefited from her legacy. Susan Shreve, 1977-78 Jenny McKean Moore Visiting Lecturer in Creative Writing, will preside. Blanche Boyd, 1979-80 visiting lecturer, and author of *The Redneck Way of Knowledge*, and current visiting lecturer Lucille Clifton, author of *Two-Headed Woman*, will read from their works. Jenny Moore's daughter, Honor Moore, the playwright and poet, will read from her mother's work as will other members of the Moore family. The April 8 celebration is scheduled for 7:45 pm in Room 103 of Building C, 2201 G Street, NW. Admission is free. Call Ext. 6180.

GW NATIONAL LAW CENTER PRODUCES "SUPERIOR QUALITY" LAWYERS SURVEY SAYS

According to a survey conducted by Professor Scott Van Alstyne of the University of Florida, graduates of GW's National Law Center are of "superior quality." In the survey, he names George Washington as one of the nation's 36 top law schools. As reported in a recent issue of *USA Today*, Van Alstyne is quoted as saying that his survey contradicts the popular belief that one law school is better than another. His findings are based on a study of 165 law schools, students' college grades, standardized Law School Admission Test scores, faculty salaries and funding for the law schools. He admits to a "judge factor" since some private law schools do not disclose financial data.

As a result of his study, Van Alstyne has developed his list of three dozen law schools which he categorizes as the nation's top 36 law schools and he says there is no difference between them. He states that all 36 share the traits that he considers necessary for providing a superior legal education. "A great myth about law schools is that they can be ranked like a magic Associated Press top-10 football poll," he says. Taken as a group, they consistently do one thing: "All produce superior lawyers." He found that placing schools in a hierarchy from best to worst was impossible, even using objective criteria.

The most significant factor is the student body, he states. "Even the best faculty and a large budget won't guarantee topnotch lawyers if students aren't capable." "There is one difference," he adds. "That's the image of prestige." Prestige, he says, becomes "an emotional argument" in the legal community. "A lot of schools say 'We've got to be No. 1.'"

Among the 36 law schools, including George Washington, listed by Van Alstyne as producing lawyers of "superior quality" are Boston University, the University of California, Berkeley, Brigham Young University, the University of Chicago, Columbia University, Duke University, Georgetown University, Harvard University, the University of Michigan, the University of Pennsylvania, the University of Texas, the University of Virginia, Vanderbilt University, the University of Wisconsin and Yale.

"OUTLOOK IN LEBANON" RICHARD E. PARKER'S SUBJECT

Richard E. Parker, a former United States ambassador to Lebanon, will speak on "Outlook in Lebanon" on Wednesday, April 6, in Lisner Auditorium between noon and 1 pm. He will be introduced by Richard Valeriani, NBC news correspondent. His appearance is co-sponsored by the School of Public and International Affairs Council of Washington, D.C. The event is free and open to the public.

GW STUDENTS PLACE FIRST IN PRESIDENTIAL MANAGEMENT INTERNSHIP PROGRAM

Ten George Washington University students, the largest number from any school in the country, have been selected by the Office of Personnel Management to participate in the Presidential Management Intern Program. The program, established by executive order in 1977, provides outstanding students in international affairs, business, economics and public administration programs two years of salaried professional experience in federal agencies, entering at GS-9 level. At the end of two years, the positions can become permanent.

Eight students from the Public Administration Department were selected. All candidates for the Master of Arts in Public Administration in May, they are Beth Craig, Deborah Corley, Martha Davidson, Jordan Hay, Tim Harves, Michelle Medez, and Deborah Trent. From the Health Services Administration Department, Angela Lord, a February 1983 graduate (Master of Health Services Administration) was selected. Beth Masters, a candidate for the Master of Arts in Security Policy Studies in the School of Public and International Affairs, brings the number to 10.

WATCH FOR YOUR TIAA/CREF MAIL

The TIAA/CREF Reports of Annuity Premiums and Benefits (commonly referred to as the Blue and Yellow and/or Orange and Tan slips) will be mailed from New York to each participating faculty or staff member between March 21 and April 4. These annual reports contain premium and accumulation information for the calendar year ending December 31, 1982. The reports are mailed to the home address provided to TIAA by each participant.

If you have any questions regarding the premium and/or accumulation amounts shown in this report, please call TIAA/CREF at (212) 682-8041. It is important to mention your contract number(s) in any communication.

If you are a participant in TIAA/CREF and do not receive a report by the end of April, it is possible that TIAA does not have a current mailing list on file. If you have had a change of address and have not notified TIAA, please visit the Records and Benefits Division, Department of Personnel Services Bldg. GG, 2125 G Street for assistance.

ACCIDENT, ILLNESS? REPORT IT RIGHT AWAY

The Office of Safety and Security reminds us that a work-related illness or accident must be reported right away. Under the provisions of the D.C. Workers' Compensation Act of 1982, an employee is required to file a report on a work-related illness or injury.

-continued on back-

-continued from front-

This is in addition to the oral report that should be made promptly and directly to an individual's supervisor.

The supervisor immediately completes the "GW Employee's First Notice of Accident or Illness and Supervisor's Report" and forwards it to the Office of Safety and Security. Under the 1982 law, the employee is to file, within 30 days of a work-related illness or injury, a DOWC Form 7, "Notice of Accidental Injury or Occupational Disease." Failure to file this form may result in forfeiting reimbursement for medical bills and wages lost from time off the job.

Form 7 is available from the Safety Office, Woodhull House, 2033 G Street, NW. The office also has available a limited supply of pamphlets from the D.C. Workers' Compensation Office which explains for employees in the District of Columbia their rights to workers' compensation benefits.

FELLOWSHIP INFORMATION CENTER PLANS MEETINGS APRIL 7 AND 8

The Graduate Fellowship Information Center has scheduled two meetings, Thursday and Friday, April 7 and 8, for the purpose of reaching graduate students to acquaint them with research opportunities and of reaching undergraduates with outstanding academic records who may wish to apply for fellowships for graduate study.

The April 7 meeting for graduate students will be held in Marvin Center, Rooms 410-415 at 4 pm. Information will be given on fellowship opportunities in research.

At the April 8 meeting, Professor Jon Quidtund, faculty coordinator, National Fellowship Awards, will describe the fellowships and their requirements. Andrea Stewart, director, Graduate Fellowship Information Center, will discuss the varied services and kinds of information available from the center. Some fellowship programs with opportunities for both graduates and undergraduates will be discussed at both meetings. The April 8 meeting will be held at 2 pm in Marvin Center, Rooms 410-415.

For more information, call Professor Quidtund at Ext. 6634 or Andrea Stewart at Ext. 6217.

WOODROW WILSON CENTER INVITES GW TO SEND RESEARCH ASSOCIATES

The Woodrow Wilson Center for International Scholars has invited The George Washington University to nominate up to 12 advanced undergraduate or graduate students for positions of Center Research Associates. The appointments involve research assistance to one, or perhaps two, advanced Center Scholars as well as the opportunity to participate in center activities and special events.

Students with a background in West European history or politics, U.S. history or politics, Latin American studies with reading knowledge of Spanish and East Asian studies with some knowledge of Chinese or some knowledge of Japanese may be nominated. The appointments are for an academic year with up to 20 hours of work a week.

Qualified undergraduates or graduate students should contact Andrea Stewart at Ext. 6217.

LUTHER RICE HAPPY HOUR--GW Student Association members (l to r) Julie Levi, Alan Greeting and Lisa Davis enjoyed the recent university happy hour which was part of the observance of the bicentennial of the birth of Luther Rice.

GW CHAMBER ORCHESTRA, APRIL 10

The George Washington University Chamber Orchestra will give a concert Sunday, April 10, at 4 pm at the United Church on the corner of 20th and G Sts., NW. The program will include works for chamber orchestra and organ and also solo organ to be performed on the 1980 Alfred Furer Organ in the church. This program is the first in the series, Month of Music at United Church, sponsored by the church. Admission is free.

MASTER'S RECITAL IN MUSIC

Jo Ann Stephano Young, mezzo soprano and candidate for a master's degree in vocal performance, will appear in a master's recital on Sunday, April 10, at 8 pm in Marvin Theatre. The performance is free.

FACULTY CONCERT ON ORGAN, TROMBONE AND TRUMPET

The next Faculty Concert in the Music Department's series will feature Eileen Guenther, organ, Roy Guenther, trombone and George Recker, Trumpet. The concert will be given Monday, April 11, at 8:30 pm in St. Paul's Church, 25th and K Sts., NW. The concert is free.

WOULD YOU LIKE TO BUY A USED TYPEWRITER?

The GW Bookstore has old typewriters for sale. There are manual typewriters priced from \$15 to \$50 and IBM Models C and D electric typewriters, priced at \$175 and \$275. Terms of sale are "as is, no returns." The machines are on the bookstore's upper level.

DIMOCK ANNUAL AWARDS SHOW OPENS THURSDAY, APRIL 7

The Annual Awards Show at the Dimock Gallery, which includes the David Lloyd Kreeger Awards Competition, opens Thursday, April 7, to run through Friday, April 29.

Works of George Washington University seniors and graduate students in art will be on exhibition. Awards will be given for ceramics, drawing, design, painting, photography, print making, sculpture, visual communication and papers in art history. Works for the exhibition have been selected and awards designated by a panel of outside professionals in the arts.

Donors for the awards include David Lloyd Kreeger; the Franz Bader Gallery Inc.; Dr. and Mrs. Jerome Canter (who give the Morris M. Akin Memorial Prize in Drawing); Robert N. Alfandre; Julian H. Singman, Esq.; William C. Barbee, Esq.; and Ginns Muth Company.

Sponsored by the Dimock Gallery, Art Department, the exhibition is open to the public from 10 am to 5 pm weekdays.

LIDO CIVIC CLUB OFFERS SCHOLARSHIP ASSISTANCE

The Lido Civic Club of Washington, D.C., an organization of professional and business men of Italian ancestry, will award a scholarship to be available in September for an undergraduate of some Italian ancestry who is attending either American University, Catholic University of America, Georgetown University or The George Washington University.

The competition is open to any currently enrolled full-time undergraduate, excluding second-semester seniors, who can demonstrate a financial need and who has a permanent residence within a 50-mile radius of Washington, D.C. The Lido Club will award one scholarship of approximately \$1,000 to \$2,000. The award, designated a tuition award, will be made directly to the student's university.

Friday, April 22, is the day application forms and transcripts are due. The university can forward applications from all candidates who meet the qualifications. Students should see Andrea Stewart in the Graduate Fellowship Office, Gelman Library, Room 621 D, Ext. 6217.

personnel notices

RESEARCH ASSISTANT, Department of Statistics, Biostatistics Center. (Assistant Principal Investigator in development of a computerized medical information management system for the Department of State. B.A. and COBOL/Wang/VS experience required. Work location at Department of State.) No phone calls. Resumes to Susan Ligon, The Biostatistics Center, 7979 Old Georgetown Rd., Bethesda, Md. 20814.

ATHLETIC TRAINER, Men's Athletics. (Head trainer. B.S. and NATA certification required. Experience preferred.) Send application to Steve Bilsky, director of Men's Intercollegiate Athletics, The George Washington University, 600 22nd St., N.W., Room 219, Washington, D.C. 20052. Deadline: May 15, 1983.

RESEARCH ASSISTANT, Department of Biochemistry. (Full-time, available immediately. Study of glycosphingolipids as immunoregulatory molecules and as tumor-specific antigens utilizing lymphoid cell bioassays and antiglycolipid antibodies. B.S. in chemistry or biology and cell culture experience required. Experience in immunological techniques desirable.) Contact Dr. William Merritt, Dept. of Biochemistry, Ross Hall, 2300 Eye St., N.W., Washington, D.C. 20037.

RESEARCH ASSISTANT, Department of Biochemistry. (Part-time, available May 1. Assist in studies of the structure and function of glycolipids in lymphoid cells utilizing lipid isolation techniques and bioassays. B.S. in chemistry, biology or related science required. Experience in biochemical research and/or cell culture desirable.) Contact Dr. William Merritt, Dept. of Biochemistry, Ross Hall, 2300 Eye St., N.W., Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

LUNCHEON TO HONOR EMERITI AND 25-YEAR FACULTY

Members of the faculty who will receive emeritus status at the spring commencements and members of the faculty with 25 years' service will be honored at a luncheon in the GW University Club on Monday, April 25, at noon.

The emeritus faculty to be are: Helen Bates Yakobson, professor of Russian; Marcella Bernstein Brenner, professor of education; Anthony Marinaccio, professor of education; Seymour Alpert, professor of anesthesiology; Robert Henry Barter, professor of obstetrics and gynecology; and Benjamin Williams Smith, professor of chemistry.

Those with 25 years' service are: Galip Mehmet Arkilic, professor of applied science; John Martyn Bailey, professor of biochemistry; Robert Edward Baker, professor of education; Harold Frederick Bright, professor of statistics; William Bainbridge Glew, assistant clinical professor of ophthalmology; Herbert Abraham Goldberg, associate clinical professor of neurology; Forest Klaire Harris II, assistant clinical professor of medicine; Norman Clifford Kramer, professor of medicine; Arnold Albert Lear, associate clinical professor of medicine; John Hayes Lodge, assistant clinical professor of ophthalmology; Ntinos C. Myrianthopoulos, associate clinical professor of neurology; Ralph Clarke Nash Jr., professor of law; Joseph Lee Sheridan, associate clinical professor of psychiatry and behavioral sciences; Nicholas Patrick D. Smyth, associate clinical professor of surgery.

Joyce Bell and Chris Hux as Adina and Nemorino rehearse for the GW Opera Theatre's production of "The Elixir of Love."

"THE ELIXIR OF LOVE" TO BE PRESENTED APRIL 15 AND 16

The George Washington University Opera Theatre, under the direction of Frances Smith Cohen, will present Donizetti's opera, "The Elixir of Love," Friday and Saturday, April 15 and 16, at 8 pm in the Marvin Theatre. The opera will be performed in English.

The plot of the comic opera revolves around Nemorino, a young peasant, Adina, a wealthy and independent young woman, and the magical love potion, the elixir, brought to their village by the traveling Doctor Dulcamara. After various kinds of confusions and conflicts have been resolved, all ends well amidst general rejoicing. The opera includes the melodic aria, "Una Furtiva Lagrima" (A

DR. KAYSER, left, received a cake presented by Rick Harrison, then president of the GW Student Council, on the anniversary of his 50th year of teaching in 1966.

FUNDING FOR ELMER LOUIS KAYSER PROFESSORSHIP IN HISTORY MOVES AHEAD

Funding activities for the Elmer Louis Kayser Professorship in History have resulted in contributions of more than \$175,000 thus far. Approximately \$325,000 more will be required to fully fund the chair, named in honor of University Historian Kayser.

University Trustee Thaddeus A. Linder (B.A. 1951) and his partner, Sergius Gambal (B.A. 1952), have both contributed \$50,000 to the Kayser Professorship Fund. Gambal has agreed to serve as chairman of the "Dean Elmer Louis Kayser Professorship Committee," formed to complete funding of the Kayser Chair by June 30 of this year. Comprised of more than 30 distinguished members of the university community--faculty, staff and alumni--the committee's goal is to secure 250 pledges of at least \$1,000 each, payable over a five-year period.

Furtive Tear), a favorite of tenors since "Elixir's" first performance in 1832.

The principal roles, with the exception of Giannetta, have been cast or double-cast with George Washington graduate students in music. They are Chris Hux as Nemorino; Joyce Bell and Allison May as Adina; Stephen Wellman and David Craven as Belcore, and Howard Patton as Dulcamara.

Music director for the opera is Frank Conlon. Choral director is Catherine Pickar. Set and light designer is Chip Balling and costume designer is Carol Kelvington. Assistant rehearsal pianist is Peter Orgain.

Tickets are \$4 general admission, \$2 for students and \$1 for senior citizens and children under 12. They are available from the GW Music Department in the Academic Center or at the theatre box office on the evenings of the performances. For more information, call Ext. 6245.

Elmer Louis Kayser's association with The George Washington University spans the decades from 1914 to the present. He holds degrees of Bachelor of Arts in Education (1917), Master of Arts in Education (1918) and Doctor of Laws (1948) from George Washington. He received his doctorate from Columbia University in 1932. He taught 50 years at the university as well as serving in administrative and ceremonial capacities. Ever a favorite in the university community, he is famous for his lecture on Cleopatra and Caesar. Professor emeritus of European history and dean emeritus of the Division of University Students, he has served as university historian since his retirement. Dr. Kayser is the author of *Bricks Without Straw* (1970) and *A Medical Center* (1973), histories of the university and the medical center, respectively.

More information for those who wish to join in honoring Dean Kayser is available from the Development Office, Ext. 6415.

FULBRIGHT, LUCE, MELLON AND FRIENDLY SONS OF ST. PATRICK AWARDS GO TO GW APPLICANTS

Five prestigious grants and awards have just been won by George Washington University applicants.

Two applicants to the Fulbright Program, both interested in doing research in Japan, have received Fulbright grants.

Phyllis Ann Genther, a Ph.D. candidate now at the dissertation stage of her program in international relations with a focus on the Japanese auto industry, is one of two American candidates who has been selected for the first Fulbright awards funded by contributions from alumni (both American and Japanese) of the Fulbright Program in Japan, which celebrated its 30th anniversary in 1982. Her study will examine how cor-

porate and government policies have affected the restructuring of the Japanese and American automobile industries since World War II. The other recipient of the award from alumni of the Fulbright Program in Japan is Daniel H. Foote, a 1981 graduate of Harvard Law School who is currently a law clerk to Chief Justice Warren Burger.

Laura Beth Campbell, who received her Juris Doctor with a specialization in environmental law in 1981 from The George Washington University National Law Center, will have her period of research in Japan funded by the Fulbright Program in the United States. She is now a lawyer with the U.S. Environmental Protection Agency and in Japan she will study Japanese legal provisions for compensating victims of pollution and mediating environmental disputes. Only 10 Fulbright grants were awarded for the entire United States for Japan next year.

Richard T. Kenney, who received his Bachelor of Science with special honors in chemistry from George Washington in 1980 and who is now a third-year medical student at Harvard Medical School, was chosen as one of 15 Luce Scholars selected in a nationwide competition. He applied through George Washington and came to the GW campus for the interviews which were part of the selection process. Kenney will spend a year in an Asian country, probably Indonesia or Thailand, comparing the traditional Oriental and more newly discovered Occidental treatments of the body's responses to stresses and will seek to get a first-hand feeling for the origins and application of Oriental medicine. The Luce Scholars Program provides a year's living, working experience in an Asian country for an applicant who has never been to the Orient and who would not otherwise go.

Steven Spaulding, senior programmer analyst in the GW Center for Academic and Administrative Computing and a 1978 graduate of the University of Florida (B.A. with a major in philosophy), has been awarded a scholarship for study in Ireland sponsored by the Friendly Sons of St. Patrick of Washington, D.C. He will study for a degree in jurisprudence at the University of Dublin (Trinity College). The award is for a period of up to three years.

Mary Marshall, public relations representative in the GW Center for Continuing Education in Washington, a 1980 graduate of the University of Virginia with double majors, B.A. in foreign affairs and B.A. in English, summa cum laude, with high honors and the college's senior honors thesis, is George Washington's first recipient of a Mellon Fellowship in the Humanities. She plans to study towards a Ph.D. in English with a specialization in modern poetry at the University of Pennsylvania. The fellowship can last up to three years. The Mellon program, being instituted for the first time this year, will award approximately 100 fellowships in the humanities annually.

MARVIN CENTER THIRD FLOOR GALLERY SEEKS EXHIBITIONS

The Marvin Center Third Floor Gallery Committee is accepting proposals for exhibits to be presented during the 1983-84 academic year. Ideas will be evaluated on the basis of visual quality and story line.

Although themes are the choice of the sponsoring group, some suggested materials for exhibit are two or three-dimensional fiber, clay, stone and glass objects, works on paper, paintings, prints and drawings. Documents, books, manuscripts, maps and instruments could also be shown.

The committee is eager to receive proposals and will be glad to assist in pulling together exhibit ideas and providing information and suggestions. The committee asks that proposals be submitted by Tuesday, April 19. They should be sent to Carolyn Jefferson, manager, Marvin Center Activities, Marvin Center, Second Floor Administrative Offices. For more information, call France Silcox, Ext. 7470 or Lenore Miller, Ext. 7091.

DR. ALVIN C. WYMAN DIES

Alvin C. Wyman, M.D., 64, clinical professor of radiology at The George Washington University Medical Center, died on March 28 following a heart attack. He was a resident of Washington, D.C.

Born in New York City, Dr. Wyman earned his bachelor's degree from Cornell University and received his medical degree from the New York University College of Medicine in 1943. Dr. Wyman undertook his internship at the U.S. Naval Hospital in Norfolk, Virginia, and served as a lieutenant in the United States Navy Medical Corps from 1943 until 1947. For the next 10 years, he was a lieutenant in the Medical Corps of the Naval Reserve.

Dr. Wyman was the chief of the department of radiology at Alexandria Hospital from 1947 until 1964, and continued as a radiologist at the hospital until 1971. He had also served as a radiologist for the Alexandria Department of Health since 1947. In 1950, Dr. Wyman was appointed a clinical instructor in radiology at The George Washington University Medical Center. He served as chief of the Medical Center's division of diagnostic radiology from 1977 through 1979. Dr. Wyman was also a consultant in radiology at The Children's Hospital National Medical Center and the U.S. Naval Hospital in Bethesda.

Dr. Wyman was a fellow of the American College of Radiology and the American College of Physicians. He was a member of the Medical Society of Virginia, the Medical Society of the District of Columbia and the Alexandria Medical Society. His honor society memberships included Phi Beta Kappa, Phi Kappa Phi and Alpha Omega Alpha. Dr. Wyman was also the author of numerous medical publications and co-authored two medical text books.

Expressions of sympathy may be sent in the form of donations to the Alvin C. Wyman Memorial Fund, The George Washington University, Gelman Library, Room 701, Washington, D.C. 20052.

FRIENDS OF THE LIBRARIES TO HEAR FLORENCE HOWE

Florence Howe, director of the Feminist Press, will speak at the annual meeting of the Friends of the Libraries on "Why a Feminist Press?"

The meeting in the GW University Club will begin at 6:30 pm with a business session followed by a reception, dinner, and the address. Officers and board members for 1983-84 will be elected at the meeting. For more information, call Ext. 6455.

newsnotes

INTERVIEWS

JONATHAN D. FIFE, associate professor of education and director, Educational Resources Information Center, was interviewed by Phyllis Korke of the University of Minnesota Daily, March 25, for an article concerning future trends in higher education.

S. ROBERT LICHTER, assistant professor of political science, was interviewed, March 10, on Hollywood's portrayal of crime and law enforcement on "Entertainment Tonight," a syndicated television program seen locally on Channel 7; and on March 17 Dr. Lichter was interviewed by Cable News Network on television's portrayal of crime and law enforcement.

SHIRLEY M. WRIGHT, adjunct assistant professor of English and director, English for International Students Program, was interviewed by Tajibnapis Zul, from the Indonesian Branch of the Voice of America, about the English for International Students Program at GW. Zul also spoke with several EIS students: KIL-CHO KIM and JONG HO LEE, from Korea; MOCTAR NIODE, from Indonesia; and JIRAPORN VANNAVICHIT, from Thailand. These interviews will form the basis for a VOA radio program focusing on teaching English as a foreign language to students from Asian countries.

PUBLICATIONS

JONATHAN D. MORENO, assistant professor of philosophy, an article, "The Dewey-Morris Debate in Retrospect" in the Transactions of the Charles S. Peirce Society, Winter, 1983.

JOHN MICHAEL VLACH, associate professor of American civilization and of anthropology and director, the Folklore Program, an article, "Folk Craftsmen," in the Handbook of American Folklore, edited by Richard N. Dorson, Indiana University, 1983.

ROBERT H. WALKER, professor of American civilization, an article, "Rags to Riches," in the Handbook of American Folklore, edited by Richard M. Dorson, Indiana University, 1983.

WILCOMB E. WASHBURN, professorial lecturer in American civilization, an article, "The Noble and Ignoble Savage," in the Handbook of American Folklore, edited by Richard M. Dorson, Indiana University, 1983.

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, associate professor of public administration, addressed the American Jewish Committee's St. Louis Chapter on March 7, and participated in a panel sponsored by the American Jewish Congress' Washington Chapter on January 12. Both sessions focused on public opinion and media coverage of the Middle East.

DEPARTMENT OF URBAN AND REGIONAL PLANNING, SQBA, cosponsored a lecture, discussion and reception held on the GW campus, March 8, when the Honorable Pierluigi Severi, Vice Mayor of Rome, spoke on "Rome: Parks, Historic Sites, and Urban Design for the Year 2000."

AMITAI ETZIONI, university professor, testified before the House of Representatives Subcommittee on General Oversight and Renegotiation, of the House Committee on Banking, Finance and Urban Affairs at a hearing, March 10, on various proposals for the reindustrialization of America. On March 13, Dr. Etzioni gave the keynote address at the National Council on the Aging's National Conference in Detroit. He spoke on the key issues for the aging for the next ten years. Etzioni addressed members of the Senior Fulbright Program, March 14, at the Washington International Center which includes scholars from around the world. He discussed "Social and Political Trends in the United States."

SHERWIN GREENE, associate professor of urban planning, spent the month of January in England as visiting lecturer in urban design at the Institute of Planning Studies, University of Nottingham. In addition to presenting a series of seminars on urban design, he directed a studio project for the design of an Islamic University on the island of Lamu, Kenya. Professor Greene served as a visiting critic in the Site Planning course at the institute and conducted a weekly workshop on graphic techniques.

R. EMMET KENNEDY JR., professor of European history, has been awarded a fellowship for the fall and winter of 1983-84 at the Woodrow Wilson International Center for Scholars where he will work on "A Cultural History of the French Revolution." On February 25, Professor Kennedy chaired a session, "Art Not Altogether For Art's Sake," at the Thirteenth Consortium on Revolutionary Europe in Charleston, South Carolina. The session focused on the political and ideological dimensions of the work of Jacques Louis David and Dominique Ingres.

THELMA Z. LAVINE, Elton professor of philosophy, presented a paper, "Pragmatism and the Constitution in the Culture of Modernism," to a plenary session of the tenth annual convention of the Society for the Advancement of American Philosophy held at Southern Illinois University, March 3-6.

S. ROBERT LICHTER, assistant professor of political science, gave a speech at a conference on business and the media sponsored by the American Enterprise Institute, March 10. Professor Lichter's research on the political implications of TV entertainment was the subject of articles in the Sunday New York Times, March 6, the National Catholic Register, March 8, and the following magazines: Broadcasting, March issue; Electronic Media, March issue; and Fortune, March 21.

DORN C. McGRATH JR., professor of urban planning and chairman, Department of Urban and Regional Planning, served as discussant at the monthly meeting of the Wisconsin Avenue Corridor Committee, March 3, in Washington. The topic of discussion was the Draft D.C. Comprehensive Plan now under review and the comments of local citizen and professional groups.

WALTER F. ROWE, associate professor of forensic sciences, presented two papers at the 35th annual meeting of the American Academy of Forensic Sciences: "Wonders of the Invisible World," which discussed the causes of the Salem Witchcraft outbreak; and "Application of Regression Analysis to Shotgun Range-of-Fire Estimates." Dr. Rowe has also been named to the editorial board of the Journal of Forensic Sciences.

PILAR G. SAENZ, associate professor of Spanish, served as a juror in the Annual Contest of Latin American Theatre, organized and sponsored by the Organization of American States (OAS) to give recognition to young Latin-American playwrights. The play awarded with the first prize, as well as two runners-up will be published in a volume by the OAS.

BENJAMIN SANDZER-BELL, a GW graduate student, School of Public and International Affairs, and GARY BRUTON, a graduate of the School of Government and Business Administration (M.B.A. 1982), were the announced winners of American awards given by the U.S.-Japan Culture Center as a result of essays entered in the Second Annual Essay Contest on U.S.-Japan Relations conducted with the support of the Yomiuri Shimbun, the International Education Center of Japan, and Japan Airlines. Sandzer-Bell won second prize and \$500 for his essay, "Comprehensive Collective Security and Western Integration: The Successor Generation," and Bruton won fourth prize and \$200 for his essay, "Japan: A Missed Market for American Business." There were 127 entries for the five American awards. Other recipients of awards were students at Yale University Law School, Fletcher School of Law and Diplomacy and Cornell University. Only GW had two winners.

SUSAN J. TOLCHIN, associate professor of public administration, addressed the 1983 National PTA Legislative Conference in Washington, February 22, on "The Impact of Rules and Regulations on Public Policy Affecting Children."

ROBERT H. WALKER, professor of American civilization, delivered two guest lectures in Sweden, March 2 and 3, to undergraduates at Gothenberg on current American fiction, and to doctoral candidates at Uppsala on reform and American values. Walker's academic host at Uppsala was Professor Olov Fryckstedt, onetime member of the GW English Department faculty.

ROBERT C. WATERS, professor of engineering administration, and LEWIS H. BLAKEY, professorial lecturer in engineering, participated in a panel discussion of issues and trends in project management on March 15. They appeared before a joint meeting of the local sections of the Project Management Institute and the American Association of Cost Engineers at the Ramada Inn in Falls Church. Dr. Waters discussed delivery of educational services and Dr. Blakey applications of quantitative methods to project management.

gwReport

for the George Washington University community

News and Public Affairs

Jane Lingo, editor / John Shirkey, asst. editor

GW AWARDS TO GO TO NINE THIS YEAR

Nine members of the George Washington University community will receive George Washington Awards this year at spring commencement ceremonies.

Established in 1976, the awards recognize individuals who have contributed in an outstanding way to the overall development of the university community. The recipients include six students, two faculty members and one administrator.

The award to Daniel J. Buzby, a Columbian College junior majoring in political science with a minor in economics, will be in recognition of his work with the GWU Student Association and the General Alumni Association Governing Board in opening and maintaining lines of communication between university constituencies and of his dedication to balanced examination of issues.

Ellen V. Connorton, a Columbian College junior in journalism, will receive her award for undertaking leadership roles in the GWU Student Association, for her work as director of the Student Advocate Service, for participation in campus communications and parent and prospective student orientations, for her articulation of women's concerns and unflinching efforts to unify students.

Lynn H. George, associate professor of human kinetics and leisure studies and director of Women's Athletics, will be recognized for her leadership role in the development of the GW eight-sport athletic program for women, her personal and professional commitment to the academic and athletic development of students and their enrichment through travel and international competition, and also for her establishment and stewardship of the Women's Athletic Advisory Council, the Colonial Women Booster Club and her work to increase awareness and appreciation of women's athletics.

Sherwin Greene, associate professor of urban and regional planning, has been singled out for gifted and dedicated teaching, willingness to give time to work for the advancement of students and alumni and towards the betterment of the field of urban planning and design, for his participation in extra-curricular activities bringing together students and faculty and his professional activities as a concerned citizen in giving community service both to the university and the city of Washington.

Alan T. Grening, a Columbian College junior majoring in political science, will be recognized for the industry and spirit of innovation he has brought to campus activities including the Joint Elections Committee, the Student Association, the Student Contracts Committee and for his role in increasing membership and participation in campus organizations.

Stephen M. Gousie will receive his award for his expansion of residence hall student involvement in representative campus government, his institutional representation as RHA president, his facilitating of the regional conference for the National

DEAN ELMER LOUIS KAYSER PROFESSORSHIP COMMITTEE

Members of the Dean Elmer Louis Kayser Professorship Committee now in formation under the chairmanship of Sergius Gambal BA'52 are:

Dr. John G. Allee, Jr. BA'39, MA'40 (Professor of English)
Seymour Alpert, M.D. (Vice President for Development)
Mr. James Alsip (University Librarian)
Mr. Everett H. Bellows BA'39, MA'41 (University Trustee)
Mr. Jay H. Boyar MAE'68, EDS'75
Dr. Harold F. Bright (Provost & Vice President for Academic Affairs)
Mr. A. George Cook III BA'57
Roger M. Craver, Esq. JD'70
F. Elwood Davis, Esq. LLB'43
Mr. Charles E. Diehl MBA'61 (Vice President and Treasurer)
Mrs. Nancy Broyhill Dudley BA'65 (University Trustee)
Dr. Lloyd H. Elliott (President)
Mr. Edward W. Gnehm, Jr. BA'66, MA'68
Mrs. Hazel Hanback BA'40 (University Trustee)
Mr. Richard Haskins (Director of Development)
Dr. Charles Herber (Professor of History)
Mr. Frederick R. Houser BA'48, MA'50
Mr. Ronald Howard (Associate Director of Alumni Relations)
Mr. Marvin Ickow BA'69
Clair Johnson, Esq. BS'23
Mrs. Gertrude Metzgerott Johnson BA'20
Dr. Robert Kenny (Professor of History, Department Chairman)
Dr. Carl Lange (Vice President for Administration and Research)
Dr. John F. Latimer (Professor Emeritus of Classics and President, Society of the Emeriti)
Mr. Thaddeus A. Lindner BA'51 (University Trustee, Chairman of Development Committee)
Ms. Jane Lingo BA'46 (Assistant Director, News and Public Affairs)
Dr. Guido Mazzeo (Professor of Romance Languages, Department Chairman)
Mr. Robert Murrin (Director of Community Support)
Professor S. Chesterfield Oppenheim HON'73 (Professor Emeritus of Law. The Oppenheim Chair in Antitrust and Trade Regulation Law named in his honor.)
Dr. Theodore Perros BS'46, MS'48, Ph.D.'52 (Professor of Chemistry and of Forensic Sciences, Chemistry Department Chairman)
Dr. Lilien Robinson BA'62, MA'65 (Professor of Art, Department Chairman)
Mr. Joseph Ruth BA'49, BA'62 (Assistant Provost for Admissions and Student Records)
Paul Rutheiser, Esq. LLB'28
Mr. William P. Smith, Jr. BA'53, MBA'61 (Vice President for Student and Alumni Affairs)
Mr. Michael Sullivan (Manager, GW Club)
Charles Waters Thompson, M.D. MD'41 (Clinical Professor of Medicine)
Mr. William L. Turner (Associate Professor Emeritus of English)
Mr. James Van Story EA'48, MA'49

The committee will hold its first report meeting on Thursday, April 21, at 3:30 pm in the GW University Club. The next report meeting will be on Thursday, May 5, at an 8 am breakfast, also in the GW University Club.

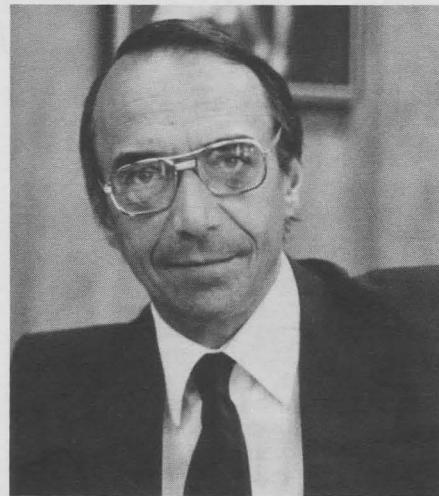

Association of College and University Residence Halls, his service as a student advisor for the Trustees' Retreat of last fall and his leadership in raising funds for residence hall scholarships.

Kathleen Jordan, assistant director of housing, is recognized for her personal and professional contributions toward upgrading the quality of the residence life program, her energy and devotion in fostering the personal growth of students and staff, and her commitment to building a sense of campus pride and community.

John C. Leonard, a senior in SPIA majoring in public affairs, will receive the award for his leadership in bringing a renewed spirit of activism and inquiry in

diverse areas of concern including issues of importance to minorities, the disabled and women and for his dedication to increasing student involvement in the pursuit of social justice and world peace.

Douglas E. Morris, an SGBA senior in marketing, will be cited for his work with the Program Board, his support of intramural sports and the GW Olympics, his service as a resident assistant working to enhance the personal growth and development of resident students, for his dedication to furthering the mission of the School of Government and Business Administration through his involvement as an ombudsman and as an organizer and contributor to many of the school's programs.

Ronald P. Kaufman

RONALD P. KAUFMAN TO HOLD BLOEDORN PROFESSORSHIP

Ronald P. Kaufman, M.D., vice president for medical affairs and executive dean for The George Washington University Medical Center, has been named the first Walter A. Bloedorn Professor for Administrative Medicine.

"It is fitting that Dr. Kaufman, chief executive officer of the Medical Center, should be the first holder of the Walter A. Bloedorn Professorship in Administrative Medicine," President Lloyd H. Elliott commented. "Dr. Bloedorn was, for so many years, an outstanding leader in academic medicine and the chair (or professorship) appropriately marks his achievements."

The endowed chair, to be held by the chief executive of the Medical Center, was established by Ethel D. Bloedorn, widow of the late Walter A. Bloedorn, M.D., on behalf of the Walter A. Bloedorn Foundation. Dr. Bloedorn served for 18 years as dean of The George Washington University School of Medicine and Health Sciences and 25 years as medical director of the University Hospital until his retirement in 1957. He died in 1978 at the age of 92.

A native of Hartford, Connecticut, Dr. Kaufman came to George Washington in 1970 as medical director of the University Hospital. In October, 1972, he was appointed associate dean for clinical affairs and in June of the following year dean for clinical affairs. He served as acting vice president from July 1974 until May 1976 when he was named vice president for medical affairs following the annual meeting of the Board of Trustees. Prior to coming to George Washington, Dr. Kaufman was assistant director of the Department of Medicine and director of medical education at Hartford Hospital in Connecticut. He served as a faculty member of the University of Connecticut School of Medicine and as physician to the outpatient department of the Yale-New Haven Hospital. A Phi Beta Kappa graduate of Trinity College, he received his M.D. degree from the University of Pennsylvania and then returned to Hartford Hospital for postgraduate training.

continued on back

Dr. Kaufman has been active in the Washington area's medical community and has served on a number of national committees and task forces. He was recently elected to a three-year term as a member of the board of directors of the Association of Academic Health Centers. He is a fellow of the American College of Physician Executives and of the American College of Physicians.

REUNION WEEKEND 1983 SET FOR APRIL 22 AND 23

A wide selection of activities is scheduled for Reunion Weekend 1983 on Friday and Saturday, April 22 and 23. The occasion is sponsored by the GW General Alumni Association and the Alumni Relations Office.

Friday, members of 50-year and all previous classes will be honored during a series of events. From 10 to 11:30 am, the GW National Law Center will honor the Law Class of 1933 (and earlier classes) with a morning reception and tour beginning at the Jacob Burns Law Library, Fourth Floor. From 11:30 am to 12:45 pm, the GW General Alumni Association is sponsoring a reception for all members of all classes of 1933 and earlier in the Marvin Center Third Floor Gallery. This will be followed by a 12:45 to 3 pm luncheon for all the honored guests. The GW Troubadours will perform at the luncheon. The second SGBA annual alumni reception program, with FBI Director William H. Webster as speaker, has been set for 5:30 pm in the GW University Club.

Saturday, April 23, there will be registration for all graduates and their families in Alumni House from 9:30 am to 4:30 pm. Constituent alumni organizations' programs have been scheduled from 10:30 am to noon. The Columbian Women will meet in Marvin Theatre and will hear a talk by GW alumnus Scott Kirkpatrick, BA'39, former managing director of the National Theatre on "Theatre and Superstars." Education Alumni Association members will attend a reception in Building C, fifth floor. Engineer Alumni Association members will have an open house in Tompkins Hall of Engineering. The School of Public and International Affairs Alumni Association has planned a dean's reception in Room 405, Marvin Center.

A picnic barbecue is scheduled from noon to 3:30 pm in the Monore Hall quadrangle behind Alumni House. The location is adjacent to the areas where the extensive "Fun Day" activities planned by SGBA will be taking place.

An alumni service awards presentation/dinner-dance is planned for the evening of Saturday, April 23, from 6:30 to 11 pm in Market Square, the first floor dining room of Marvin Center. All members of the Class of 1958 will be honored and Alumni Service Awards and Special Service Awards will be presented.

The Special Service Awards, which honor non-alumni who have given invaluable service to the university, will be presented to Seymour Alpert, M.D., vice president for development; Louis H. Kornhauser, former executive assistant to Dean Eugene W. Kelly Jr. of the School of Education and Human Development; and John Francis Latimer, professor emeritus of classics and president, Society of the Emeriti. Alumni Service Awards will go to 16 alumni and 19 faculty members who have contributed to the success of programs sponsored by the General Alumni Association and the Alumni Relations Office will be honored.

For more information, call Ext. 6435.

GW UNITED STATES SAVINGS BONDS CAMPAIGN TO LAST TWO WEEKS

The university is sponsoring a United States Savings Bonds, through Payroll Deduction, Campaign during the period from April 18 to April 29. Recent changes in the earning potential may make the purchase of Savings Bonds more attractive to university faculty and staff.

Vice presidents and deans have designated coordinators from their respective divisions to assist the Records and Benefits Division, Department of Personnel Services in the Savings Bonds Campaign. An individual from your division will be contacting you shortly to provide you with information on savings bonds to include a Savings Bonds Authorization Card to complete if you wish to purchase bonds through payroll deduction. Payroll deductions will begin in June for authorization cards received during the campaign. For information, call Ext. 4480.

PATRICIA ROBERTS HARRIS TO SPEAK AT GW APRIL 20

Patricia Robert Harris, former secretary of Housing and Urban Development and of Health and Human Services as well as of Health, Education and Welfare, will speak at the university on Wednesday, April 20, at 8 pm in the third floor ballroom of Marvin Center. Mrs. Harris will join the faculty of the GW National Law Center in the fall as professor of law. Her subject will be "The Public Responsibility of Private Enterprise: Making the System Work for Everyone." The lecture, which is open without charge, is made possible through a grant from the Dr. Scholl Foundation and the Association of Private Enterprise Education. Dinner, for both members and non-members of the GW University Club, will be available beforehand beginning at 6:30 pm. Call Ext. 6610. To reserve a place at the lecture, call Ext. 8169.

COLONIALS, INC. ANNUAL 25TH AWARDS DINNER IS APRIL 26

The Colonials, Inc. 25th Annual Sports Awards Dinner will be held in the Marvin Center Ballroom on Tuesday, April 26. A 6:30 pm reception will precede the 7:15 pm dinner. Purpose of the dinner is to recognize members of the men's intercollegiate sports teams who have represented the university on the field of play. (The Women's Intercollegiate Department has a similar dinner annually on a different date.) At the April 26 dinner, there will be a ceremony to induct new members into the GW Hall of Fame. For more information, call Ext. 6657.

WILLIAM WEBSTER, FBI DIRECTOR, TO SPEAK AT SGBA PROGRAM

William H. Webster, director of the Federal Bureau of Investigation, will be the guest speaker at SGBA's second annual alumni reception program at 5:30 pm Friday, April 22, in the GW University Club. A number of awards will be given at the reception, including the annual SGBA Alumnus of the Year Award. Call Ext. 6435.

TELECOMMUNICATIONS FORUM FOCUSES ON CELLULAR RADIO

"Cellular Radio: A Revolution in Mobile Communications" will be the topic addressed by Christopher P. Witze, director of engineering, Advanced Mobile Phone Services (AMPS), American Telephone and Telegraph, on Thursday, April 21, at 4 pm in Marvin Center, Room 405. He will speak at the Telecommunications Forum, sponsored by the GW Center for Telecommunications Studies. The lecture and the discussion to follow are open to everyone.

NATIONAL ACADEMY OF EDUCATION MENTOR/FELLOWS PROGRAM OPTION

The National Academy of Education Mentor/Fellows Program, funded by the Ford Foundation, is seeking applicants for fellowships.

The mentor/fellows program is designed to enhance the career development of promising minority and female scholars and of others interested in research, relevant to education, that focuses on problems of ethnicity or gender. Those individuals who wish to be considered for a fellowship should obtain a nomination from a senior scholar who is familiar with the work of the applicant. Only those individuals with a doctorate awarded no earlier than 1978 may apply. For additional information on other criteria and a list of mentors, contact the GW Graduate Fellowship Information Center, Gelman Library, Room 621 D, Ext. 6217.

"FUN DAY" FESTIVAL WILL BE SATURDAY, APRIL 23

SGBA is sponsoring a street festival called "Fun Day" on Saturday, April 23, from noon to 3 pm.

A great variety of activities and entertainment will fill 21st Street (between G and H Streets) and H Street, (between 21st and 22nd Streets). There will be clowns from Kena Temple in Virginia, known as the Kena Temple Klowns; the U.S. Marine Corps Precision Drill Team; aerobic dancers; the GW Troubadours; the Burger Chimps, a professional chimpanzee performing act; a medieval melee, a mock battle between knights in armor; a mini-performance of Shakespeare; a performance by the Kena Temple Motor Corps on their motorcycles; all kinds of food for sale and free beer and iced tea. For more information, call Ext. 7278

DANCE SPRING '83

The George Washington University Student-Faculty Dance Concert will be presented Thursday, Friday and Saturday, April 21, 22 and 23, at 8 pm in the Marvin Theatre. The performances will feature works by Washington, D.C., artists including the premiere of a new work by David Appel and "Waltz" by Colette Yglesias. Also featured will be "Lame Duck Session," choreographed by New York artist Mitchell Rose. Tickets are \$4 general admission, \$3 for students. Call Ext. 6577.

GELMAN LIBRARY APRIL EXHIBITS

Gelman Library Exhibits in April include sculpture by students in the Art Department and "Makowski and Korczak: Lyrist of the Child," on the first floor and "University Theatre, Past and Present," a selection of posters and photos, on the third floor.

CHALKERS' ALERT: IT'S TIME TO "CHALK-IN" AGAIN

The GW Counseling Center's Third Annual Chalk-In, an open invitation to all and sundry to express end-of-semester feelings with free-hand drawings in colorful chalk on the pavement of the Gelman Library courtyard, is scheduled for Wednesday, April 20, from noon to 2 pm (with the next Wednesday, April 27, as the rain date).

Sandra Geller, the Counseling Center's art therapist, who is coordinating the colorful event, explains, "The chalk-in provides the opportunity to draw out (pun intended) pent up feelings the university community harbors at the end of a school year through spontaneous, albeit informal, art therapy." Thorne Wiggers, coordinator of consultation and outreach for the center, believes the chalk-in is an excellent way of demystifying and humanizing perceptions about the Counseling Center and its services. The program has been imitated at American University. With technical assistance from Mrs. Geller, a group of residence hall advisors there coordinated a "Chalk on the Walk" program.

Everyone in the GW community and neighborhood is invited to "chalk-in." For more information, call Ext. 6550.

HELEN YAKOBSON TO BE HONORED AT APRIL 29 DINNER AT GW CLUB

Helen Bates Yakobson, professor of Russian, who will complete an association of 30 years with the university when she retires at the end of the spring semester, will be honored at a dinner sponsored by the Department of Slavic Languages and Literatures on Friday, April 29, at the GW University Club. A reception at 6 pm will precede dinner at 7.

Professor Yakobson came to the university in the fall semester of 1953 and has played a key role in the development of Slavic studies: at George Washington through the Department of Slavic Languages and Literatures, which she founded; in the Washington area through her work with television teaching and the local chapter of the American Association of Teachers of Slavic and East European Languages (ATSEEL) and Litfund, a fund for the relief of the Russian writers and scientists in exile; and nationally through her several textbooks, particularly Essentials of Russian, and her work in professional organizations including service as national president of ATSEEL. Mrs. Yakobson has been active in the university community and served two terms as a member of the Faculty Senate.

For information on dinner reservations, call Ext. 7082.

GRANTS

HAROLD LIEBOWITZ, professor of engineering and applied science and dean of the School of Engineering and Applied Science, a \$38,957 grant for a program of research in high-speed aerodynamics in the JIAPS from the NASA Langley Research Center and a \$4,193 support grant for training and education from the NASA Langley Research Center.

DAVID E. RAMAKER, associate professor of chemistry, a \$50,000 grant for research on the correlation of burning rates and energy transport mechanisms in open and enclosed liquid pool fires, from DOD/Naval Research Laboratory.

gwReport

for the George Washington University community

News and Public Affairs

Jane Lingo, editor

NEARLY 2,200 DEGREES TO BE CONFERRED AT SPRING CEREMONIES

Approximately 2,200 degrees will be conferred at the eight spring commencements of The George Washington University, the six separate ceremonies on Sunday, May 8, and those for law graduates on Sunday, May 22, and for medical graduates on Friday, May 27.

President Lloyd H. Elliott will confer degrees in course and honorary degrees and will bring greetings to the graduates and their families at all eight ceremonies. The dean of each school will deliver the traditional charge to the graduates.

Robert MacNeil of the MacNeil Lehrer Report will give the address at the 10:30 am commencement of the School of Government and Business Administration in the Charles E. Smith Center. He will receive the honorary degree of Doctor of Public Service.

Gilbert M. Grosvenor, president of the National Geographic Society, will be the speaker at the 12:30 pm exercises of the Graduate School of Arts and Sciences in Marvin Center Theatre and will receive the honorary degree of Doctor of Public Service.

James O. Gibson, president of the Eugene and Agnes Meyer Foundation, will address graduates of the School of Public and International Affairs at a 1 pm ceremony in Lisner Auditorium.

Alice M. Rivlin, director of the Congressional Budget Office, will speak at the commencement of the Columbian College of Arts and Sciences and will receive the honorary degree of Doctor of Public Service. Helen Bates Yakobson, professor of Russian, will receive the status of professor emerita at the ceremony.

Talbot S. Huff Jr., vice president and general manager, E-Systems, Melpar Division, will be the speaker at the 4 pm exercises of the School of Engineering and Applied Science in Lisner Auditorium.

Anthony Cardinale, director of Section Six Schools, Office of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), will address education graduates at the 7 pm commencement of the School of Education and Human Development in Lisner Auditorium. At this ceremony, Professors of Education Marcella Brenner and Anthony Marinaccio will receive emerita and emeritus status respectively.

Receptions will follow each of the May 8 ceremonies.

The Honorable Patricia Wald, Judge of the U.S. Court of Appeals, will speak to the graduates of the GW National Law Center at 1:30 pm exercises in the Smith Center on Sunday, May 22, and will receive the honorary degree of Doctor of Laws. Alumni Achievement Awards will be presented to GW Honorary Trustee Jacob Burns (LL.B. 1924, LL.D. 1970) and the Honorable Mary Stallings Coleman (J.D. 1939) who retired December 31, 1982, after serving 10 years as a justice of the Supreme Court of Michigan, the last four as chief justice. A reception will follow in the Marvin Center.

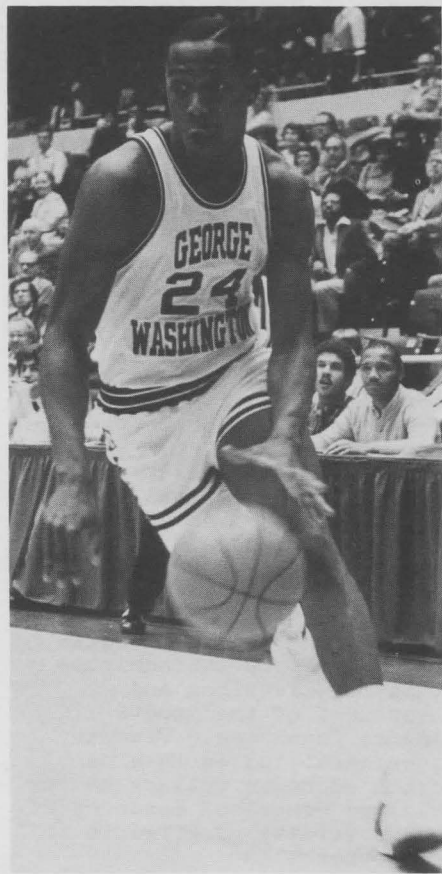

Dr. John Cooper, president of the Association of American Medical Colleges, will give the address at the commencement of the School of Medicine and Health Sciences at 11 am in Lisner Auditorium on Friday, May 27. He will receive the honorary degree of Doctor of Public Service. At that ceremony, emeritus status will be conferred on Seymour Alpert, professor of anesthesiology; Robert Henry Barter, professor of obstetrics and gynecology; Thomas Stone Sappington, clinical professor of medicine; and Benjamin Williams Smith, professor of biochemistry. A reception will be held at the D.C. Medical Society headquarters, 2007 Eye Street, NW.

TROY WEBSTER, ROOKIE OF THE YEAR IN ATLANTIC 10 BASKETBALL

GW freshman Troy Webster has been voted 1982-83 Rookie of the Year in the Atlantic 10 Conference by the conference's head basketball coaches.

The leading scorer for the Colonials, Webster topped the Atlantic 10's freshman class in overall scoring, averaging 17.0 points a game in 25 contests. The 6-4 guard started every game he appeared in and scored in double figures in all but one contest. Webster, who also led the Colonials in steals and free-throw percentage, scored 30 or more points six times during the season.

A native of Newark, N.J., Webster was a scholastic All-American at Clifford Scott High School. During the season, Webster was named Atlantic 10 Conference Rookie of the Week five times.

Troy Webster

SECOND CHALKERS' ALERT:

NOW IT'S WEDNESDAY, APRIL 27

The "Chalk-In," scheduled by the Counseling Center for last Wednesday, has been rescheduled for Wednesday, April 27, from noon to 2 pm in the Gelman Library Yard. This action was taken because of the threatening appearance of the elements.

KAYSER CHAIR PASSES \$225,000

The Elmer Louis Kayser Professorship Committee met for the second time on Thursday, April 21. Committee chairman Sergius Gambal (B.A. 1952) announced that over \$225,000 in gifts and pledges have now been received toward the \$500,000 necessary to fund fully the history professorship in Dean Kayser's honor. Committee members all reported that the response from those being asked to participate in funding the chair has been overwhelmingly enthusiastic.

The committee will meet again on Thursday, May 5, at 8 am in the GW University Club. Members of the faculty and staff interested in contributing or serving on the committee should call the Development Office, Ext. 6415.

POPE AS PATRONS, COLLECTORS, FIRST WEDNESDAY LECTURE TOPIC

Diane Apostolos-Cappadona, lecturer in religion, will be May's First Wednesday lecturer. She will accompany her lecture, "To Speak of Many Things...Popes as Patrons and Collectors," with slides of the Metropolitan Museum of Art's exhibition of Vatican art. She will speak in the Marvin Center Third Floor Ballroom at 8 pm on Wednesday, May 4. The lecture, sponsored by the GW Alumni Relations Office, is free but those planning to attend should call Ext. 6435 to reserve a place. Dinner at the GW University Club, for both members and non-members, will be available beginning at 6:30 pm before the lecture. Call Ext. 6610 by Monday, May 2.

GW JOINS BITNET,

ACADEMIC COMPUTER NETWORK

This month GW becomes the 20th university to join BITNET, a computer network linking academic institutions coast-to-coast. The acronym stands for "Because It's There," and the idea is to interconnect existing systems without spending additional money for computer hardware. The network will provide electronic mail and computer conferencing. GW computer center users may use the new system to communicate with other BITNET member schools. For more information, contact Michael Hamilton at Ext. 6140.

Institutions now on line in the system are Ohio State University, University of Illinois, University of California at Berkeley, University of California at San Francisco, Rochester University, Cornell University, Penn State University, Syracuse University, State University of New York at Binghamton, Yale University, City University of New York, New Jersey Educational Computer Network, Princeton University, University of Maine, Harvard University, Boston University, Massachusetts Institute of Technology, Brown University, Rockefeller University and Columbia University.

The University of the District of Columbia, Georgetown University and American University are proposed additions to the network.

COMMENCEMENT WEEKEND 1983

Commencement Weekend 1983, May 7 and 8, will begin with free lemonade, progress through a wide variety of activities and events and conclude with receptions following the six commencement exercises.

Saturday, May 7, free lemonade will be available for visitors to Alumni House between 1 and 3 pm. Graduates and their families will be able to enjoy recreational swimming from 1 to 5 pm in the Charles E. Smith Center pool and bowling, billiards or table tennis in the Marvin Center at the same hours.

Three faculty members will speak at special seminars for graduates and families between 2 and 5 pm in Room 101 of Corcoran Hall. Astere E. Claeysens, associate professor of English, will speak on "The Creative Reader." Michael J. Sodaro, assistant professor of international affairs and political science, will talk about what we have to expect from the Soviet Union in the near future and Walter F. Rowe, assistant professor of forensic sciences, an expert on physical evidence, will examine certain Civil War photographs with his audience, using a slide projector.

Saturday evening, a buffet dinner will be available at the GW University Club between 6:30 and 9:30 pm. The president, vice presidents, deans and faculties have invited graduates and their families to a reception in the Marvin Center between 8:30 pm and 12:30 am. On the first floor, music for listening and dancing will be provided by the Widespread Jazz Orchestra. In the third floor ballroom of the Marvin Center, the music will be by Free Spirit. There will be refreshments and cash bars at both locations.

Sunday, May 8, families can be photographed in the Alumni House Lounge between 9:30 am and 9 pm through arrangements made by the Alumni Relations Office. For more information, call Ext. 6435. An interfaith worship service, "Celebration of Learning," sponsored by the GW Board of Chaplains, has been scheduled for 9:30 am in Room 405, Marvin Center. At 10:30 am, there will be a mass, sponsored by the Newman Catholic Student Center, in Marvin Center Second Floor. Sunday brunch will be available at the GW University Club between 11 am and 3 pm.

The receptions for graduates and their guests will be held following each ceremony in the courtyard of the Academic Center and in the Gelman Library Yard. There will be entertainment as well as refreshments.

For more information, call the Student Activities Office, Ext. 6555.

MASTER'S RECITAL, APRIL 27

Debby-Wenner Wittrup, mezzo-soprano, a master's candidate in music, will give a master's recital on Wednesday, April 27, in the Marvin Theatre at 8 pm. Included in the recital will be music of Vivaldi, Mahler, Lees, Rorem, Copeland and Ives. The performance is open without charge. For more information, call Ext. 6245.

YOU MAY WANT TO CHECK YOUR EARNINGS RECORDS WITH THE SOCIAL SECURITY ADMINISTRATION

From the Comptroller:

Each year, employers submit information on social security covered wages and social security taxes withheld to the Social Security Administration (SSA). The information is the same as that provided to employees on their individual W-2 statements.

SSA is responsible for maintaining a life-long record for each individual registered in the social security program including a history of each individual's covered annual earnings reported to SSA. The earnings history serves as the base for calculating benefits at the time of retirement. If a record is incomplete or inaccurate, benefit amounts can be adversely affected.

SSA has a procedure whereby an individual can verify the accuracy of his or her individual earnings history as maintained by SSA. The procedure requires that an individual complete a "Request for Social Security Statement of Earnings" (Form SSA 7004 PC) and send the form to SSA. Employees may obtain the form at local SSA offices where it is readily available. The request must be signed personally by the person to whom the specific social security number is assigned.

SSA will send to the requestor a "Statement of Earnings" together with descriptive information which should allow the individual to determine the overall accuracy of his or her account. Additional information is provided on how to seek corrective action, if required, through SSA.

Although SSA's records are generally maintained with a high degree of accuracy, the Comptroller's Office is aware of isolated individual situations wherein SSA's earnings histories had not been posted with all earnings reported by the University.

Since SAA's history of earnings is important to each beneficiary, it is recommended that each employee routinely request a "Statement of Earnings" every three years from SSA. It is also recommended that employees retain copies of W-2s on a permanent basis. Such records can prove quite useful in the event of a dispute with SSA concerning an individual's earnings.

The expenditure of a few minutes of personal time every three years in verifying records is a good investment and could avoid uncertainties or errors at the time benefits are requested.

Frederick J. Naramore
Comptroller

IT'S PROFESSIONAL SECRETARIES WEEK, APRIL 24 THROUGH 30

This is Professional Secretaries Week, originated and sponsored by Professional Secretaries International, formerly the National Secretaries Association (International). The annual observance is always the last full week in April, with the intervening Wednesday designated as Secretaries Day. This time it's Wednesday, April 27.

Inaugurated in 1952, when it was proclaimed by U.S. Secretary of Commerce Charles Sawyer, Professional Secretaries Week was recognized in 1982 by Secretary of Commerce Malcolm Baldrige with the presentation of a 30th anniversary commemorative plaque to Professional Secretaries International.

The week has a two-fold purpose: to increase public awareness of the vital role played by secretaries in business, industry, education, government and the professions; and to reaffirm the dedication of secretaries to professional performance of their responsibilities.

CPS, Certified Professional Secretary, is the registered service mark for those who meet certain education and work experience requirements and pass a two-day examination. Among the secretaries at George Washington who hold this rating are Emma Bussey, executive secretary to Dr. Harold F. Bright, provost and vice president for academic affairs, and Marguerite Sullivan, executive aide to Dr. Robert I. Keimowitz, associate dean for student affairs and admissions, the School of Medicine and Health Sciences.

"We have an extremely fine, dedicated group of persons involved in the secretarial support role in the university," commented James E. Clifford, director of Personnel Services. "This week gives all of us a good opportunity to say a special word of thanks to each of them for their fine contribution."

KENNEDY CENTER PARKING ENDS, SUMMER CAMPUS PARKING OPTIONS

The Parking Office informs us that the last day for parking at the Kennedy Center for spring 1983 is Friday, May 6. Staff members who are interested in on-campus parking during the summer months, May 9 through August 30, should check with the Parking Office beginning Monday, May 2. The office is located at 2211 H Street, NW (street level, University Parking Garage). Either contract or occasional parking will be available during the summer. Call Ext. 6405.

WORKS BY WINNERS

IN COLONNADE GALLERY

Examples of art works by GW students in the Art Department, both graduate and undergraduate, who were award winners in the current Annual Awards Show in the Dimock Gallery, are on exhibition in the Colonnade Gallery, Marvin Center, Third Floor, through Wednesday, May 25. The award-winning works will continue to be on exhibit in the Dimock Gallery through Friday, April 29. Hours of the Colonnade Gallery are 8 am to 10 pm daily. The exhibition is sponsored by the Governing Board of the Marvin Center and the Dimock Gallery, Art Department. Some of the works are for sale.

newsnotes

PROFESSIONAL ACTIVITIES

JAMES R. BARTH, professor of economics, participated in a panel on "Monetary Policy: Current Directions, National and International" with David Lindsey, Federal Reserve Board, and Fred Ribe, Congressional Budget Office, at the 13th Annual Conference of the Society for Government Economists at Crystal City, March 23.

PETER CAWS, university professor, presented a paper, "Merleau-Ponty's Critique of Cognitivism," at an invitational symposium at the Pacific Division meetings of the American Philosophical Association in Berkeley, California, March 26.

LYNN H. CLARK, career counselor for the Student and Alumni Career Services Center, gave a seminar, "Effective Career Interviewing for Recruiters," to recruiters for the Comptroller of the Currency on February 25.

MARCUS CUNLIFFE, university professor, gave a paper, "They Will All Speak English: Some Cultural Consequences of Independence," at the annual conference of the U.S. Capitol Historical Society, which had as its theme "Peace and the Peacemakers: The Treaty of 1783" on March 18 in Washington, D.C.

AMITAI ETZIONI, university professor, testified March 22 before the U.S. Senate Committee on Labor and Human Resources Subcommittee on Family and Human Services on the broken family and its effects on children. Dr. Etzioni has been appointed to the Committee on the Regulation of Research of the American Sociological Association and to the editorial board of the Journal of Accounting and Public Policy. On March 24, he addressed the Washington Education Press Association and, on March 28, spoke at the 1983 National Conference on Higher Education of the American Association of Higher Education.

STEPHEN S. FULLER, professor of urban and regional planning, presented a paper, "The Washington Area's Economy: Developing a Sound Basis for Growth into the Twenty-first Century," to the Economic Research Round Table, sponsored by the Greater Washington Research Center on March 23.

SHERWIN GREENE, associate professor of urban planning, served as associate preceptor for a 12-hour charette sponsored by the Virginia chapter of the American Institute of Architects and the Smithsonian Institution on March 11 and 12. The area near the King Street Metro Station in Alexandria was the focus of the urban design project in which architects and planners from the U.S. and England directed a wide range of students through this intensive urban design process. As professional development officer for the National Capital Chapter of the American Planning Association, Professor Greene also organized and participated in a one-day workshop on March 12. The program was designed to assist professional planners in preparing for the written examination for membership in the American Institute of Certified Planners.

FREDERICK GUTHEIM, acting director of the Graduate Program in Historic Preservation, gave the Honors Day address at the Clemson University School of Architecture April 10.

JEFFERY R. HENIG, assistant professor of political science, presented a paper, "Neighborhood Governance and Volunteerism: A Critical Analysis," at the U.S. Department of Housing and Urban Development Conference on "Neighborhood Action in an Era of Fiscal Austerity," March 31.

JOHN W. KENDRICK, professor of economics, is serving as president of the Southern Economic Association. He was installed at the association's annual meeting towards the end of 1982. He served as a discussant of papers on the Kondratieff cycle at meetings of the American Economic Association in December in New York. January 20, he testified before the Subcommittee on Saving, Pensions and Investment of the Senate Finance Committee. February 1, he participated in a panel on the economic outlook at the McIntyre School of Business of the University of Virginia in Charlottesville.

EDWIN P. KULAWIEC, professor of education, has arranged the exhibit, "Makowski and Korczak: Lyrists of the Child," in the lobby of the Gelman Library. The exhibit, which continues through April, is presented in commemoration of the 40th anniversary of the Warsaw Ghetto Uprising, 1943-1983.

DAVID McALEAVEY, assistant professor of English, gave a public reading of his poetry and lectured in classes on modern American poetry and 20th century American literature on March 16 and 17 at West Virginia Wesleyan College.

LENORE MILLER, curator of art, Dimock Gallery, attended the members' opening for the exhibition "French Salon Paintings from Southern Collections" at the Chrysler Museum in Norfolk, Va. on March 31. The George Washington University Permanent Collection lent a painting by Ferdinand Roybet, "Cavalier with Gloves," ca. 1871, to the exhibition. The painting was the gift of Mr. J. H. Hennage in 1969. The Chrysler Museum's showing is the second presentation of the exhibition which originated in Atlanta at the High Museum of Art, curated by Dr. Eric Zafran.

AKBAR MONTASER, associate professor of chemistry, presented an invited paper, "Recent Developments in Atomic Emission and Atomic Fluorescence Spectrometry with Inductively Coupled Plasmas," at the Chemical Instrumentation Award Symposium, 1983 American Chemical Society Meeting in Seattle. The paper was co-authored with ROBERT WAX and GEOFFREY HUSE, GW graduate students in chemistry. ROBERT WAX presented a paper, "A Low Flow Inductively Coupled Plasma Torch," at the March meeting of the Society for Applied Spectroscopy in Gaithersburg, Md.

KATHY L. SIMS, director of the Student and Alumni Career Services Center, has been selected as the regional coordinator of the Mid-Atlantic Placement Association (MPA) visitation team. The team will travel to colleges and universities for the evaluation and development of their career planning and placement services.

ABBIE O. SMITH, assistant dean for the Center for Continuing Education in Washington, has been re-appointed to a three-year term on the advisory committee to the College Board's Office of Adult Learning Services at the bi-annual meeting of the College Board in New York.

RICHARD Y.C. YIN, associate professor of economics, and member of the Institute for Sino-Soviet Studies, participated in the 13th Annual Conference of the Society of Government Economists March 23 as a panelist on the Chinese economy. He reported on the economic reform in China.

PERSONNEL NOTICES

RESEARCH ASSISTANT/ASSOCIATE, (part-time) Department of Psychiatry and Behavioral Services. (Investigate efficacy of biofeedback and relaxation training for angular pain. M.A. or Ph.D. (or equivalent education) in psychology or related field with experience and/or training in behavioral treatment methods. Responsible, under supervision of principal investigator, for recruiting appropriate research participants, administering treatments in accordance with study protocol and data collection and analysis.) Contact Dr. Robert L. Jenkins, Department of Psychiatry and Behavioral Sciences, Ext. 3310.

RESEARCH ASSOCIATE, (full-time) Department of Electrical Engineering and Computer Science. (Assist in developing device-independent graphics support capabilities and graphics programming languages. Master's degree, background with interactive computer graphics, programming languages, theoretical computer science, experience working with graphics equipment and the DEC VAX-11/780. Position available May 1). Contact Dr. J. Foley at Ext. 4592.

The George Washington University is an equal opportunity/affirmative action employer.

1983 PHONATHON SURPASSES GOAL

The 1983 "George Calling" Phonathon totaled \$156,000, surpassing the goal set earlier of \$150,000. The

Student Financial Aid Phonathon, undertaken for the first time this year under the chairmanship of SGBA senior Dave Tobey for the undergraduate callers and Rusty Lindner (J.D. 1980) for law student callers, brought in \$12,000. This figure is included in the \$156,000 total.

During the evenings of the phonathon, a friendly competition evolved between the SGBA and law callers. At the end of the five-week period, the National Law Center came out on top with \$36,044, followed closely by the School of Government and Business Administration with \$36,031.

A great accomplishment of 1983 "George Calling" was the acquisition of 2,241 new donors to bring the total number of pledges from Washington-area alumni to 8,241.

Director of Alumni Support Jane S. Brown wants to express her sincere appreciation to everyone who participated in the calling. "Without their efforts, these fine results could never have been achieved," she says.

In addition to the 1983 phonathon, a Medical Phonathon was conducted in the fall of 1982 under the chairmanship of Dr. Alan Zellis (M.D. 1941) and \$62,275 was raised for the Medical Student Financial Aid Fund.

SAMUEL G. EBLING BOOK COLLECTION IN ART HISTORY ESTABLISHED IN ART DEPT.

The Samuel G. Ebling Book Collection in Art History has been established at the university through the generosity of the late Samuel G. Ebling of Waverly, Ohio, who left a bequest of \$300,000 to the Art Department for study of art history. Income from the endowment will be used primarily to purchase books and to expand the department's art history collection.

"The bequest comes during a period of major growth for the department," said Chairman Lillian F. Robinson of the Art Department. "Our history of art section recently established the position of distinguished visiting professor, currently held by Alan Gowans, American art and architecture authority and professor of art history at the University of Victoria in British Columbia. The section has added new courses to its curriculum, while significantly expanding its art library collection."

Ebling was a 1920 graduate of Columbian College (B.A.). A native of Bellefontaine, Ohio, he served more than 35 years with the consular division of the U.S. Department of State.

EMERITI--President Lloyd H. Elliott, left, is shown with the six professors who will receive emeritus status at the spring commencements. They are (l to r) Seymour Alpert, professor of anesthesiology; Helen Bates Yakobson, professor of Russian; Robert Henry Barter, professor of obstetrics and gynecology; Thomas Stone Sappington, clinical professor of medicine; Benjamin Williams Smith, professor of biochemistry; and Anthony Marinaccio, professor of education. The group was photographed at the April 25 faculty luncheon.

KAYSER CHAIR COMMITTEE TO MEET THURSDAY, MAY 5

The Elmer Louis Kayser Professorship Committee will meet for the third time on Thursday, May 5, at an 8 a.m. breakfast in the GW University Club. The meeting will be conducted by committee chairman Sergius Gambal (B.A. 1952). All members of the committee are cordially invited to attend. Please call Ext. 6415 to indicate attendance.

STUDENT CALLERS Dave Tobey, left, SGBA senior and Marvin center governing Board chairman, and Bob Guarasci, Columbian College sophomore and GW Student Association president, were among those who worked during the student phonathon raising funds for student financial aid.

M.F.A. CANDIDATE THESIS SHOW OPENS THURSDAY IN DIMOCK

Works of George Washington University students from the Master of Fine Arts degree program will be on exhibition in the Dimock Gallery, Art Department, from Thursday, May 5, through Friday, May 27. The exhibition will include painting, design, photography and printmaking. Some of the works will be for sale.

The artists are Jane Caden, Donna K. Cantor, Michael J. Dennis, Michael Durkin, Judith Grunwaldt, Margaret Kyle McLellan, Sarah Pitkin and Alyson Weege. Gallery hours are 10 am to 5 pm weekdays.

MAURICE K. HEARTFIELD JR., ASSISTANT VICE PRESIDENT TO RETIRE FRIDAY, MAY 6

"I wish for the university and my many friends here the

very best in the years ahead," says Assistant Vice President and Assistant Treasurer Maurice K. Heartfield, speaking of his retirement on Friday, May 6.

He came to the university in the spring of 1958 as assistant to the treasurer, then Henry W. Herzog. He served in positions of increasing responsibility and was elected assistant vice president and assistant treasurer of the university by the Board of Trustees in 1972. During 1966-1967, he was on leave of absence to serve with the Special Subcommittee on Education of the U.S. House of Representatives under the chairmanship of the late Congresswoman Edith Green.

Maury, as he is known to many, was the university's first director of student financial aid. "The importance of that area," he comments, "is that it has finally become recognized on a national basis as essential to the lifeblood of any university, be it here or elsewhere." He notes there was no need-based financial aid at the time he came to GW 25 years ago. During his years here, he has served under two treasurers and three presidents and twice under Acting President O.S. Colclough.

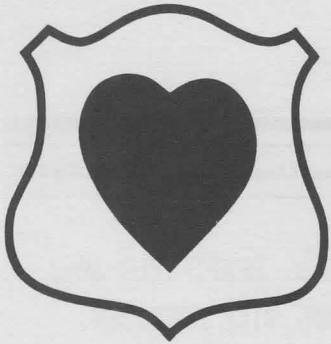

"He has demonstrated his concern for the university, its students, staff and faculty," commented Vice President and Treasurer Charles E. Diehl. "The university now provides more student aid than at any time in its history. He has created several new forms of giving, including pooled income trusts, and he can always see the humorous side of an issue."

A graduate of St. Albans School and the University of the South (Sewanee) with a B.A. in economics, he served with the U.S. Marine Corps in Korea and was discharged with the rank of captain.

Active in civic affairs, he serves on the boards of the National Capital Salvation Army, D.C. Society for Crippled Children, Washington Orphan Asylum (Hillcrest) and St. Albans School. He is a member of Alpha Tau Omega Fraternity, Omicron Delta Kappa honorary fraternity, and the Eastern Association of College and University Business Officers.

When the board of trustees of St. Albans School learned of his decision to retire from The George Washington University, he was asked to come to St. Albans as financial officer. He has agreed to assume this position but still looks forward to having time for sailing, golf and tennis.

THEIR PROTECTION IS YOUR PROTECTION

A volunteer fund-raising group of local business executives and civic leaders is working to raise \$500,000 to buy bullet-proof vests for 3,000 D.C. policemen. Through the Consortium of Universities, members of The George Washington University community have the opportunity to participate in this city-wide effort.

"Because of the tough budget times we're having," Mayor Marion Barry has said, "it's going to be up to our citizens to understand the need" for the vests.

According to police officials, if the 21 officers who have been killed in the line of duty over the last 20 years had been wearing bullet-proof vests, many could have been saved.

"Let us help our friends of the Metropolitan Police Department to protect themselves so that they may protect us," comments Byron M. Matthal Jr., director of GW's Office of Safety and Security. "An individual donation from each of us would go a long way in helping them to get each of their officers a protective vest to aid them in their fight against crime in this beautiful city."

Donations are tax deductible. Checks should be made payable to M.P.D.C. Vest Fund and sent to the Office of the Vice President and Treasurer, 7th Floor, Rice Hall, 2121 Eye St., NW. Those contributing will receive an appropriate receipt from the Metropolitan Police Bullet-proof Vest Fund for their records.

Here is my donation to the
M.P.D.C. Vest Fund \$. . . .

PROFESSIONAL ACTIVITIES

WILLIAM ADAMS, associate Professor of public administration, chaired a panel on the media's influence on public opinion at the annual conference of the Southwestern Social Science Association in Houston March 19.

BEFORE THE BIG GAME--L to R, Chris Deering, assistant professor of political science; Lloyd Elliott, president; and Ed Caress, professor of chemistry, are shown at a practice session that preceded the basketball game April 27 in the Charles E. Smith Center between Lloyd's Legions (faculty and administrators) and Mannion's Minions (past and present GW Student Association members). Challenged to the game by the Minions, the Legion showed its mettle winning by two points to finish 42 to 40 thanks to a basket made in the last seven seconds by team member Tom Bowles, dean of the Medical Center, for academic affairs.

SUMMER VOLLEYBALL CAMP OFFERED BY WOMEN'S ATHLETIC DEPT.

The GW Women's Athletic Department will offer an overnight volleyball camp this summer from Sunday, August 21, through Wednesday, August 24.

The camp, to be run by GW Women's Volleyball Coach Pat Sullivan, is open to students enrolled in grades 7 through 11 in 1982-83. This year a special section is being offered for coaches. The cost of the camp is \$165, which includes dormitory housing, meals, a camp T-shirt and videotaping sessions. If payment is received prior to May 15, the cost is \$155 per person. Special team rates are available.

For more information and registration forms, contact Coach Pat Sullivan at Ext. 6152.

CONTEST WIMMER--Diane Godorov, first place winner in the Student Book Collectors Contest sponsored by the Friends of the Library, stands beside her entry, "West Coast Printing." A February 1983 GW graduate (B.A. Art History), she is an art consultant and bookbinder. Her collection and those of the second and third place winners can be seen in the Special Collections Division of Gelman Library from 9 am to 5 pm weekdays through May 20.

WILLIAM H. BECKER, professor of history, and HOWARD F. GILLETTE JR., associate professor of American civilization, presented papers at the 76th annual meeting of the Organization of American Historians in Cincinnati April 7. They spoke in a session on "Reassessing the History of the Capital City." Professor Becker's subject was "The Political Economy of Washington, D.C., 1800-1870." Professor Gillette spoke on "The Metropolitanization of Washington, 1946-1968."

MARCUS CUNLIFFE, university professor, attended the annual conference of the British Association for American Studies (of which he is a former chairman) in Edinburgh, Scotland, April 8 through 11. With the historian-writer Andrew Sinclair he conducted a session on American labor ideologies and the weaknesses of union structure during the Progressive era.

AMITAI ETZIONI, university professor, addressed the National Economists Club March 29 on "What's Wrong with Industrial Policy?" On April 8, he addressed the annual conference of the Council on Foundations in San Francisco on the topic "An Immodest Agenda: The Next Ten Years."

CHRISTOPHER C. JOYNER, assistant professor of political science, gave the keynote address at the Fourth Annual Conference of International Law Journals in Washington April 16. His subject was "Looking Backward: The Perils and Problems of Publishing Student Law Journals." At the annual International Studies Association Convention in Mexico City April 5 through 9, he presented two papers, "Antartica and UNCLOS III: Some Policy-Oriented Legal Implications" and "Maritime Terrorism: International Implications and the Legal Response." At the American Society of International Law's 77th annual meeting in Washington April 14 through 16, he chaired the Open Forum panel session and served as the reporter for a panel on the law of the sea, featuring as its keynote speaker the Honorable Elliot L. Richardson.

MAUREEN KEARNEY, staff psychologist at the Counseling Center, presented a paper, "The Use of the Revised Bem Sex-Role Inventory as a Predictor of Achievement and Aptitude in Women," at the Eastern Psychological Association meeting in Philadelphia on April 8.

PROFESSIONAL ACTIVITIES

continued

JAMES C. KING, professor of German, read a paper, "The Difficulty in Postulating General Germanic Mythology from the Sources," April 14 at the third symposium on historical linguistics and philology held at the University of Maryland, Baltimore County Campus.

DORN C. McGRATH JR., professor of urban planning, spoke to the Dupont Circle Citizens Association April 4, on the Draft Comprehensive Plan for the Nation's Capital and what effect it will have on the Dupont Circle area.

PHYLLIS M. PALMER, assistant professor of women's studies and of American civilization, was the discussant for a panel on Marx and Feminism at a conference, "Marxism: One Hundred Years After," April 16, held at the University of Maryland-Baltimore County, funded by a grant from the Maryland Committee for the Humanities.

JEANNE SNODGRASS, professor of human kinetics and leisure studies, presented a program for older adults as illustrated by the GW "Take Care of Yourself" program at the national convention of the American Alliance for Health, Physical Education, Recreation and Dance on April 10. The program was requested by the Alliance Committee on Aging.

JOHN J. TAORMINA, curator of slides, Department of Art gave a lecture, "Charles-Emile Jacque and the Re-emergence of Printmaking in Nineteenth Century France," as part of a series of lectures given at the 13th Annual Session of the Middle Atlantic Symposium in the History of Art April 23 at the National Gallery of Art. The session was sponsored by the Center for Advanced Study in the Visual Arts and the Department of Art of the University of Maryland.

QUOTABLE FROM THE MAY 8 COMMENCEMENT CEREMONIES

President Lloyd H. Elliott and the six speakers at the commencement ceremonies on Sunday, May 8, brought messages both encouraging and realistic to the graduates and their families.

President Elliott, in his greetings to all graduates and families at the different ceremonies: "My greeting to you today is a serious one. I have just read the Report of the Commission on Excellence in Education. It is a serious indictment of the state of education in America. We have allowed education today to erode into a state of sobering mediocrity.... My point today is simply to say to those assembled--graduates and families, faculty and friends--the task of restoring excellence to all educational endeavors is gargantuan. As I congratulate you today, I hope you may consciously take from your GW experience a strong personal sense of responsibility for re-building the highest possible quality into the country's educational enterprise--in your family, in your work, in your community and in your life."

Television journalist Robert MacNeil at SGBA: "What we suffer from is not too few but too many absolutes, too many easy answers.... We hear a great deal about consensus, but at what cost in public credibility?... We are rich in communications...but competition (for limited air time) creates a media din, like background noise the astronauts experience in space. (One) has to shout to be heard and shouting encourages absolutes...and posturing.... Always maintain respect for complexity."

National Geographic Society President Gilbert Grosvenor at GSAS: (Speaking of "the dawn of the information age") "The engineers who transmit data can never--should never--determine the content. Therefore, if you don't learn to cope with this new technology--to use it, to manipulate it, to speak its language, to know to stretch its limits--those ill equipped or with lower aspirations than your own will be doing it. And that scares me...No machine, no electronic wizardry, can replace the single act of creation, the inspired moment that arrives in its own time, at its own speed, and from its own, unknown source. Regardless of how technology increases the speed, volume, and nature of communication, the value of the content--the very essence--will begin and end with the creative personality."

Eugene and Agnes E. Meyer Foundation President James O. Gibson at SPIA: "It will be the role of the public affairs professional to pose rather than dispose. Your entitlement will be more to influence than to control--to gather facts, to know contexts and relationships, to assess the inherent worth of men and women, to analyze, synthesize, project circumstances, and all too often, to predicate in the face of the unknowable. To these tasks you must bring

The U.S. Army "Old Guard" Fife and Drum Corps in colonial uniform led the SGBA graduates from the Hall of Government into the Charles E. Smith Center (and back again) for the school's May 8 commencement.

craft and science. But the tool you will need most is a set of values...You cannot be morally neutral.... In citing population, technology and nuclear armaments, it is possible to scratch only a bit of the surface of the problems posed by these major framework issues.... I hope it will be enough to say that what you do will matter; and, if you are fortunate, that some seemingly intractable problems will find solution under your ministrations."

Talbot S. Huff Jr., vice president and general manager of E-Systems, Melpar Division, at SEAS: "You must be leaders rather than followers.... With your education, you have the potential to anticipate the future.... You must acquire an understanding of people and money, and, above all, learn to solve problems...to write clearly and to communicate intelligently with individuals outside the engineering community. In government, there should be more engineers in cabinet-level positions. In industry, engineers should not be satisfied to be the vice presidents of engineering.... They should know enough about the management of people and dollars and the marketplace to be able to rise to the presidency of major corporations. In education, each engineer must exercise his civic role, taking time to advise students in high school on their course of study and to become involved in the development of programs designed to improve the math and science curricula. And whether the engineer is in government or industry, he or she must work closely with the college community."

Anthony Cardinale, director of Section Six Schools, Office of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), at SEHD: "What I would like to speak about is what I call a 'Learning Society.' We have to understand...that individuals in our society who do not possess the levels of skill, literacy and training essential to this new era will be effectively disenfranchised, not simply from the material rewards that accompany competent performance, but also from the chance to participate fully in our

great society.... The computer field is transforming a host of other occupations, such as health care, medical science, energy production, food processing, construction and the building, repair and maintenance of sophisticated, scientific, educational, military and industrial equipment.... In a world of ever accelerating competition and changes in the conditions of the workplace, education reform should focus on the goal of creating a learning society. At the heart of this society needs to be a commitment and a set of goals that will afford all members the opportunity to enhance their minds to full capacity, from early childhood through adulthood, learning more as the world itself changes."

Dean Elmer Louis Kayser

KAYSER CHAIR FUND IS NOW OVER \$319,000

The Elmer Louis Kayser Professorship Committee will meet for lunch on Thursday, May 26, at noon in the GW University Club. Committee Chairman Sergius Gambal reports that over \$319,000 has been received thus far. Gambal expects the committee will report gifts bringing the total to more than \$350,000 toward the \$500,000 needed by June 30 for full funding.

SUMMER SCHEDULE FOR DINING, LUNCHING AND SNACKING

The Market Square in the Marvin Center (First Floor Cafeteria), operated by SAGA, will be open between 7 am and 2:30 pm Monday through Friday through Tuesday, August 30. Catering is available at any time during the summer. Call the SAGA Catering Manager at Ext. 6618. Students may use the GW Hospital Cafeteria for evening meals on weekdays and for all three meals on weekends. Hospital Cafeteria hours are: dinner hours, Monday through Friday, 5 to 7 pm; weekend hours, breakfast 7 am to 9 am, lunch 11:30 am to 1:30 pm, dinner 5 to 7 pm.

GW IN WINNING PROPOSAL WITH SURA ON ELECTRONS

A proposal by 22 American universities, one of them George Washington, to construct a continuous-beam electron accelerator more powerful than any in existence, has been endorsed by a Government advisory panel.

The winning proposal, a "race track microton," was presented by the Southeastern Universities Research Association, known as SURA. In addition to The George Washington University, members include the Universities of Miami, Virginia, Maryland and Alabama as well as Louisiana State, Catholic and American Universities, Duke University and the Georgia Institute of Technology.

The SURA plan won out over proposals by the Argonne National Laboratory near Chicago, the Massachusetts Institute of Technology, the University of Illinois and the National Bureau of Standards.

According to the Energy Department, money to begin the project could be included in the Reagan Administration's budget for the fiscal year 1985. The project must still clear the Office of Management and Budget. It is reported to have support in the White House science advisory office.

MEMORIAL SERVICE MAY 17

FOR DR. ROBERT VINCENT

There will be a memorial service on Tuesday, May 17, at 11 am in the Dorothy Betts Marvin Theatre for the late Dr. Robert C. Vincent, professor emeritus of chemistry, who died in The George Washington University Hospital May 11. He was 71.

Born September 17, 1912, he earned three degrees from Cornell University (B.A. 1935, M.A. 1937 and Ph.D. 1940). From 1936 to 1940, he was an assistant in chemistry at Cornell University.

Dr. Vincent was originally appointed to the George Washington University faculty as instructor for the 1940-1941 academic year. He was on military leave from 1942 to 1946. When he returned to the GW faculty on March 1, 1946, it was as assistant professor. He became associate professor in 1948 and full professor in 1956. Chairman of the Department of Chemistry from 1953 to 1955, he was pre-medical advisor from 1955 to 1971. In 1973, he received the Washington Academy of Sciences award for outstanding science teaching. Instrumental in establishing a GW chapter of the national pre-med honor society, Alpha Epsilon Delta, he was named an honorary member of the group and served as faculty advisor. He served as co-chairman of the fundraising committee for the Naeser Lecture Hall Fund in the Department of Chemistry and was president of the Washington professional chapter of Alpha Chi Sigma. He was a member of Phi Eta Sigma, freshman men's scholastic honorary, and Omicron Delta Kappa. He was named professor emeritus of chemistry May 6, 1979.

BARRY G. SILVERMAN, associate professor of engineering administration, two articles, "Project Appraisal Methodology," in Management Science, February 1983, pp. 210-224; "Making Irreversible Resource Management Decisions Under Uncertainty," in Job Resource Management Technology, January 1983, pp. 17-26.

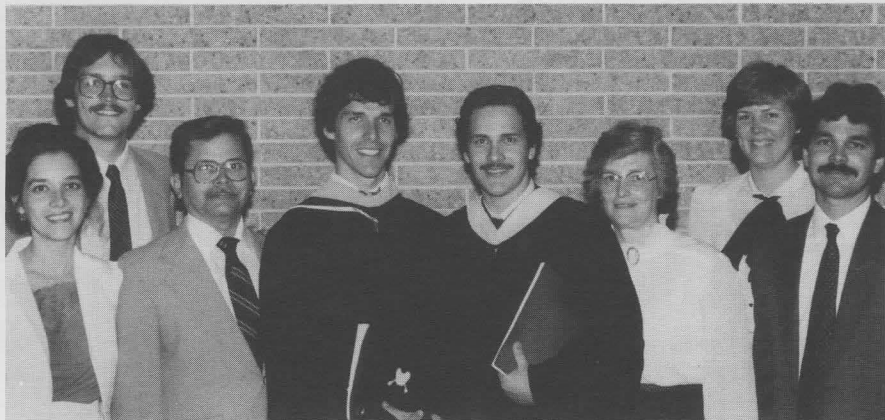

COLIN M. TURNBULL, professor of anthropology, two books, The Mbuti Pygmies: Change and Adaptation, Holt, Rinehart and Winston, 1983; and The Human Cycle, Simon and Schuster, April 1983. (The Human Cycle is a Science Book Club selection and a Book-of-the-Month Club alternate selection.)

personnel notices

RESEARCH ASSOCIATE, Department of Electrical Engineering and Computer Science. (Full-time. Work on design of user-computer interfaces and on software tools for building user-computer interfaces. Master's degree in computer science or equivalent course work, course work in computer graphics, experience with interactive computing and user interfacing management systems. Experience with VAX and VMS preferred.) Contact Dr. M. Feldman, Ext. 7593 or Dr. J. Foley, Ext. 4952.

RESEARCH SCIENTIST, The George Washington University School of Medicine. (Full-time. Design and data management responsibilities within studies of family interaction and psychosocial factors in rehabilitation. Doctorate in psychology, sociology or family studies. Expertise in quantitative methods and facility in computer usage required. Clinical experience and/or experience in conjoint family interviewing desirable. One-year beginning July or August, 1983, with possibility of continuation.) Application deadline June 15. Send letter and vita to Mary Ellen Oliveri, Ph.D., Center for Family Research, Ross Hall, Room 613.

The George Washington University is an equal opportunity/affirmative action employer

THEY'RE ALL GW--The Morales family turned out in force to congratulate candidates Jeffrey (B.S. in biology) and Chris (B.A. in political science) May 8. They are, l to r, a sister, Maureen Taft-Morales (B.A. anthropology and sociology 1979); her husband Hugh Taft-Morales, a GW graduate student; Dr. George Morales, professor of anesthesiology since 1966, father of the graduating brothers; Jeffrey, Chris, Mrs. George Morales (Martha Rivers, B.A. in art history 1976); Mrs. Kevin Morales (Susan Keenan, a former GW student and one of the first women to hold a GW swimming scholarship in Women's Athletics); and another brother, Kevin Morales (B.A. in elementary education 1977).

NEW PARKING RATES TAKE EFFECT JULY FIRST

New university parking rates will go into effect July 1 for the next fiscal year. The rate increase is necessitated by the increase in expenses.

The increase will raise the staff and faculty rates \$2 per month. The daily parking rate will be raised 14¢. The visitor hourly rate will be increased from \$1.60 to \$1.78 per hour plus adjustments for other categories.

These rates are exclusive of tax and a recent survey of rates in the area indicates that the average rates in commercial facilities are higher than the new GW rates. The rates for next year are as follows:

FACULTY AND STAFF

Daily (before 5 pm)	\$ 2.81
Daily (after 5 pm and weekends)	2.15
Monthly	45.00
Monthly (part-time)	33.75
Annually	540.00

STUDENTS (including 1st and 2nd year Medical Students)

Daily	\$ 2.15
Overtime (after 5:30 pm and weekends)	1.65
Monthly	64.50

GRADUATE TEACHING FELLOWS, 3rd and 4th year Medical Students, RESIDENT ASSISTANTS

Daily (per day and evening parking)	\$ 2.15
Monthly	32.25

VISITORS

Hourly rate	\$ 1.78
Over 10 hours	6.47
Maximum after 5 pm	2.14

NOTE: The above rates do not include the 12% D.C. Parking Tax

MICHAEL DURKIN, M.F.A. in design, September 1982, stands next to his six serigraphs, "Homage to the Word in Print," which is on exhibition in the Dimock Gallery through May 27 as part of the M.F.A. Thesis Candidate Show.

WATERWAYS PLANNING--L to r, Professor of Urban Planning Dorn C. McGrath Jr., Michelle Bussard, GW graduate student in urban and regional planning, and Professor of Architecture and Planning Felipe J. Prestamo of the University of Miami, Coral Gables. The three conferred following a May 11 presentation and discussion of a proposal for the development of an intra-continental waterway system for South America based on the interconnection of the Orinoco, Amazon and Plata Rivers by faculty and students in architecture and planning from Miami and George Washington Universities.

IN JUNE IT'S THE MIKADO

The George Washington University Theatre will present Gilbert and Sullivan's *The Mikado* in the Marvin Theatre Thursday, Friday and Saturday, June 9, 10 and 11 at 8 pm and on Sunday, June 12, at 2 pm.

The presentation continues GW University Theatre's tradition of doing a Gilbert and Sullivan work each June. The satiric operetta, set in Japan where bureaucracy is said to be just like it is everywhere else, is rich in patter songs such as "Three Little Maids from School Are We" and "Tit Willow."

Tickets are \$5 general admission and \$2.50 for students and senior citizens. Call Ext. 6178.

SUNDAY, JUNE 12 RECEPTION

PLANNED BY C.A.S.T.

C.A.S.T. (Contributing Associates in Support of the Theatre) will hold a special reception for members following the Sunday, June 12, matinee performance of *The Mikado*. C.A.S.T. founding member Marty Leggette is planning a *Mikado*-inspired get together for members and guests. Theatre faculty will be on hand to conduct a tour of Marvin Theatre facilities. The June 12 performance is a benefit for C.A.S.T. Members are asked to make their reservations for the performance and reception (a \$5 donation) by Tuesday, June 1. Call the University Theatre at Ext. 6178.

ALUMNI COLLEGE 1983, WASHINGTON AT A CROSSROADS

"Washington at a Crossroads: Assessing the Past and Future of the Capital City and the Region" will be the theme of Alumni College 1983. The three-day weekend program, June 3-5, is sponsored by the Alumni Relations Office in cooperation with the George Washington University Center for Washington Area Studies. Moving beyond the normal concern for the federal government's presence, GW faculty, alumni and local experts will explore subjects such as land use and development, social and economic revitalization and changing neighborhood and demographic patterns in the Washington metropolitan area.

Friday morning, June 3, following greetings by Director of Alumni Relations Sandra H. Lear, participants will hear Frederick Gutheim, acting director, GW Graduate Program in Historic Preservation, on "Washington in the Potomac Region" and David Zeidberg, curator, Special Collections, Gelman Library, on "Collecting Washingtoniana." Zeidberg's talk will be given in conjunction with an exhibition "View of Washington" in the Special Collections Division, Gelman Library. Rita Abraham, marketing director for Georgetown Park, will speak at a 12:30 pm luncheon there on "Washington's Revolution in Marketing." Afternoon activities will include a 2 pm talk by Dennis Gale, associate professor of urban and regional planning, on "The

Culture of Restoration" at Grace Church, 1041 Wisconsin Ave., NW; a tour of Georgetown's changing waterfront area; and a 4:30 to 6 pm reception on the Third Floor Terrace of the Marvin Center.

Saturday, June 4, will be devoted to contemporary Washington. Panelists on the subject of "Washington's Changing Profile" will be George Grier, the Grier Partnership; Jeffrey R. Henig, assistant professor of political science; and Anthony M. Yezer, associate professor of economics. Pamela Cressey, director, Alexandria Public Archaeology Program, will speak at a 12:30 pm luncheon at King's Landing Restaurant. A 2:30 pm walking tour of historic Oldtown Alexandria will precede a 4 to 5:30 pm reception at a location to be announced.

Washington neighborhoods will be the program's focus on Sunday, June 5, with a 10 am discussion of "George Washington in the Foggy Bottom Neighborhood" followed by a tour of Uniontown, a historic Washington suburb at 11 am. "Washington's Latino Community" will be the subject of discussion at a 1 pm luncheon at the Omega Restaurant in Adams Morgan. A 2:30 pm tour of LeDroit Park and Mt. Pleasant will conclude Alumni College 1983.

Participants may attend one, two or all three days. Costs are \$40 for Friday and for Saturday and \$30 for Sunday. For all three days, the fee is \$100. Fees include meals, receptions and transportation. For more information, call the Alumni Relations Office, Ext. 6435.

THE KAYSER CHAIR MOMENTUM IS BUILDING

Funding for the Elmer Louis Kayser Professorship in History has now exceeded \$346,000 towards the goal of \$500,000 to be reached by June 30. Committee members are reminded of the noon luncheon meeting on Thursday, May 26, in the GW University Club. Please call Ext. 6415 to indicate attendance.

A WONDERFUL MACHINE?--L to r engineering students Kevin Johnson, David Crist and Doug Fishman were photographed recently by our roving photographer at their outdoor conference on a senior design project for construction of a hydroplane.

"PROTECTING WHISTELBLOWERS: CAN WE AND SHOULD WE?" IS THE JUNE FIRST WEDNESDAY QUESTION

Associate Professor of Law Peter Raven-Hansen will address the question "Protecting Whistleblowers: Can We and Should We?" on Wednesday, June 1, at 8 pm in the Marvin Center Third Floor Ballroom. The event is the concluding talk for spring 1983 in the First Wednesday Lecture Series sponsored by the Alumni Relations Office. Professor Raven-Hansen will trace the experiences of government employees who have risked their careers by going public with charges of government wrongdoing and examine various aspects of the question of whether or not such employees should be protected from retaliation.

The lecture is free. Those planning to attend should reserve places by calling Ext. 6435 by Tuesday, May 31. Dinner, for both members and nonmembers of the GW University Club, will be served beginning at 6:30 pm. Call Ext. 6610 for club reservations.

PUBLICATIONS

DAVID S. BROWN, an article, "Managerial Guidelines for Developing Countries," in Topics, Spring 1983, pp. 33-36.

BERNARD M. MERGEN, professor of American civilization, an essay, "The Government as Manager," in Business and Its Environment: Essays for Thomas C. Cochran, Harold I. Sharlin, ed., 1983. ROBERT H. WALKER, professor of American civilization, an essay in the same volume, "The Anatomy of American Reform." Professors Mergen and Walker were two of eight scholars invited to contribute to the volume. The book is one of the series "Contributions in American Studies," being edited by Professor Walker for Greenwood Press.

NADINE NATOV, professor of Russian, an article "Philosophical Subtext in the Novel The Possessed" in a book, Actualite de Dostoevskij, published in Genoa, Italy, 1982.

JAMES WILLIS ROBB, professor of Romance languages, an article, "Alfonso Reyes y Jose Vasconcelos, anverso y reverso de una medalla", Nivel, Mexico, No. 243 (March 31, 1983), pp. 1-2.

PROFESSIONAL ACTIVITIES

THE ENGLISH FOR INTERNATIONAL STUDENTS PROGRAM was well represented among the 300 speakers at the 17th annual convention of Teachers of English to Speakers of Other Languages (TESOL) in Toronto March 15 through 20.

Assistant Director FRANCES REID and MARGARET KIRKLAND, instructor, gave programs to help advanced students use source materials in their presentation "Reading for Writing: The Utilization of Source Materials." JACK DONALDSON, instructor, discussed "Editing and Revision as a Method for Teaching Discourse Cohesion in Business English" using materials he has developed for an advanced writing course for business students. Developing speaking skills among advanced English as a Second Language (ESL) students and international professionals was the focus of a presentation by Instructors ELLEN ECHEVERRIA and SUSAN SPOLARICH. SHELLY GUTSTEIN, part-time instructor, demonstrated the value of using interactive dialogue journals to build fluency among beginning and intermediate students. Instructor CHRISTINE MELONI participated in the presentation with Shelly Gutstein. Meloni also discussed the development, validation and use of a test of functional language competence she has developed with Dr. Carol Sparhawk.

Instructor SHIRLEY THOMPSON was a participant in a colloquium on ways whereby ESL teachers can continue to develop professionally. A standing committee of International TESOL, the Committee on Professional Standards, chaired by Dr. SHIRLEY WRIGHT, director, English for International Students Program, continued its work to develop core standards to serve as a base for future accreditation of ESL programs worldwide. Part-time Instructors CLAIRE IACOBELLI and PATRICE CONNORTON are serving on this committee with Dr. Wright.

JOHN G. ALLEE JR., professor of English, gave a paper "Predication in English and Greenlandic", April 23 at the 36th Annual Kentucky Foreign Language Conference, University of Kentucky, Lexington, Kentucky.

WILLARD E. CALDWELL, professor of psychology, will be listed in the first edition of Who's Who In Frontier Science and Technology. This volume profiles individuals in what some scientists call the "cutting edge" or frontier of science. Professor Caldwell has accepted an invitation to become a member of the Florida Psychological Association. He delivered a slide lecture April 14 at the University of Tennessee at Chattanooga. The lecture was sponsored by Psi Chi, the national honorary psychological fraternity; the Department of Psychology; the Department of Art; and the university's speakers and special events committee. Title of the lecture was, "Kirklean Photography: Is Corona Discharge Photography a New Paradigm for Experimental, Neuro-psychology, Clinical and Medical Psychology?" The lecture and slide presentation were followed by discussion and an informal showing of enlarged Kirklean photographs of humans, animals, and inanimate objects.

DIANE APOSTOLOS-CAPPADONA, lecturer in religion, has been awarded a residential fellowship for summer 1983 at the William Flanagan Memorial Creative Persons Center of the Edward F. Albee Foundation, Inc., to continue work on her manuscript on the art and philosophy of Isamu Noguchi.

R. PAUL CHURCHILL, associate professor of philosophy, presented a paper, "Nuclear Arms as a Philosophical and Moral Issue," at the 86th annual meeting of the American Academy of Political and Social Science in Philadelphia on April 22.

MARCUS CUNLIFFE, university professor, has agreed to serve from 1983 to 1985 on the editorial board of the Journal of the Early Republic, which is published by the Department of History at Indiana University.

MICHAEL J. ENDERS, assistant professor of urban and regional planning, gave a paper titled "The Problem of Land Banking: A French Solution" April 19 at the National Planning Conference of the American Planning Association.

AMITAI ETZIONI, university professor, spoke at the national conference of the American Society for Public Administration in New York April 18 on "Rebuilding America Before the 21st Century."

STEPHEN S. FULLER, professor of urban and regional planning, prepared a paper titled "The Washington Area's Economy: Research Objectives and Methods" for discussion at the Economic Roundtable sponsored by the Greater Washington Research Center April 25th.

DENNIS GALE, associate professor of urban and regional planning, gave a lecture, "Urban Revitalization in the United States and Western Europe," before the Urban Revitalization Roundtable on May 4. The round-

table is made up of urban research analysts from the U.S. Census Bureau, the U.S. Department of Housing and Urban Development, the Conservation Foundation and universities and research centers in the Washington area. The meeting, held in Lisner Hall, was hosted by the Department of Urban and Regional Planning.

MAUREEN J. KEARNEY, staff psychologist at the Counseling Center, gave a paper, "Importance of the Masculinity Scale of the Bem Sex-Role Inventory in Predicting Locus of control," April 29 at the Western Psychological Association meeting in Saancisco.

R. EMMET KENNEDY JR, professor of European history, gave a paper "A Quantitative Study of French Revolutionary Theater Repertoires and Audience Tastes," at the annual meeting of the American Society for Eighteenth Century Studies in New York City on April 6.

ROBERT A. LUKE JR., associate professor of education, spoke at the April meeting of the Administratl Management Society of Washington, D.C. on "How to Hire and Use Consultants."

DAVID W. McALEAVEY, associate professor of English, conducted poetry workshops and gave a public reading of his poetry at St. Mary's College, St. Mary's City, Maryland, April 16.

CHRISTINE MELONI, adjunct instructor in English in the English for International Students (EIS) program, has been elected president of the Washington Area Teachers of English to Speakers of Other Languages Association (WATESOL). She served as secretary-treasurer of the organization in 1979-80, treasurer in 1980-81, and vice president in 1981-83. GEORGE SPANOS, lecturer in English, was elected vice president and SHIRLEY WRIGHT, director, EIS program, was elected to the nominating committee. Wright served as president in 1978-80.

JONATHAN D. MORENO, assistant professor of philosophy, was a panelist for the inaugural meeting of the Group for Research into the Institution-alization and Professional-ization of Literary Study at Miami University, Oxford, Ohio, May 6-8.

CHARLES A. MOSER, professor of Slavic, and NADINE NATOV, professor of Russian, participated, among the 26 speakers invited from eight countries, in a symposium honoring the one hundredth anniversary of the death of the writer Ivan S. Turgenev. The symposium, sponsored by Yale University Conferences on Slavic Literatures and Cultures, took place April 8-10. Professor Moser submitted a paper, "Turgenev and the Aesthetics of the Whole Man." Professor Natov's paper was titled "Turgenev's Mystical Stories: External and Internal Structure."

PHYLLIS PALMER, assistant professor of women's studies and American civilization, was a panelist on "Issues of Race and Ethnicity," presented as part of a conference on Women's Lives: New Facts, Old Fictions, sponsored by the Women's Research and Education Institute of the Congressional Caucus for Women's Issues and the National Council for Research on Women, held in Washington, D.C., on April 20. Professor Palmer also was a panelist on "Broadening the Base: Strengthening Ties with Minority Women," a session of the conference on Pocketbook Politics: Economic Equity for Women, sponsored by the Women's Equity Action League and held in Washington, D.C., April 30.

E. LAKIN PHILLIPS, professor of psychology, gave an invited talk to the Psychology Department and Counseling Center, University of Maryland, on

Wednesday, May 4 on the topic, "Research on the Neglected Problem of Attrition from Counseling and Psychotherapy." Dr. Phillips was interviewed on the Fred Fiske Show, WAMU, Thursday, April 28, from 8 to 10 pm on his book, Stress, Health and Psychological Problems in the Major Professions.

MICHAEL J. SODARO, assistant professor of international affairs and political science, Institute for Sino-Soviet Studies, chaired a conference on "The German Democratic Republic in Comparative Perspective" at the Wingspread Conference Center in Racine, Wisconsin, April 14-17. Under the sponsorship of the Institute for Sino-Soviet Studies, the conference gathered over thirty specialists on the German Decocratic Republic from the U.S., Canada, Britain and the two German states. Professor Sodaro presented a paper on "East German and Soviet Perceptions of West German Foreign Policy," and was interviewed on Wingspread's syndicated radio program.

NANCY SPENCER, senior systems analyst in the Center for Academic and Administrative Computing, has been invited to Malawi, in Southeast Africa, by the State Department, through the Agency for International Development. She and a team of consultants will evaluate the computer science curriculum at the Polytechnic Institute of Malawi and establish a student records system for monitoring students enrolled primarily within the Engineering Department there. She will be training administrative users of the institute in student information systems, word processing and BASIC programming. Mrs. Spencer is in charge of student information systems at George Washington.

JAMES E. STARRS, professor of law and of forensic sciences, delivered a paper titled "The Prosecution of Bruno Richard Hauptmann: A Medieval Accident" at the 21st Semi-Annual Convention of the Mid-Atlantic Association of Forensic Scientists at the Hilton Harbor Hotel in Baltimore, Maryland, April 21.

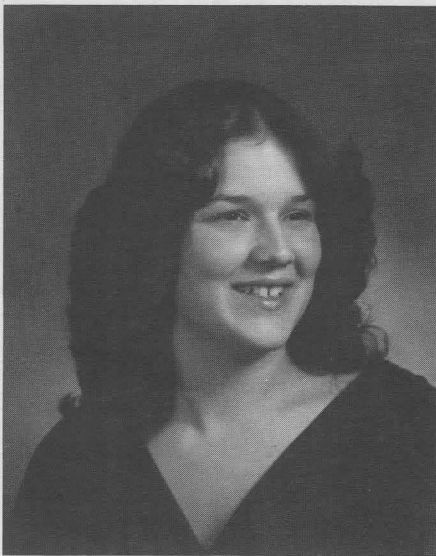

ANDREA W. STEWART, director, Graduate Fellowship Information Center, attended the second Pre-Law Advisors Conference at Southern Methodist University in Dallas, Texas, April 14-16. Ms. Stewart was one of 11 pre-law advisors from institutions around the United States who were invited by SMU to receive an informative presentation on SMU Law School.

GARLAND D. WIGGS and ROBERT A. LUKE JR., associate professors of education, conducted a session, "Effective Use of Consultants: Tips for Trainers," at the annual workshop, "The Changing Scene--Training in the Federal Government," held here at the university May 11.

Ellen P. Servetnick

ELLEN P. SERVETNICK IS ELECTED AN ALUMNI TRUSTEE BY THE BOARD

Ellen P. Servetnick, a 1981 graduate of the Columbian College of Arts and Sciences (B.A. with a major in political science) was elected an alumni trustee by the Board of Trustees at its May 20 annual meeting. She will serve for two years beginning July 1.

For the past two years, she has been a graduate assistant in the College Center/Student Activities Office at Framingham State College in Framingham, Maine, first as a programming specialist and then as an operations specialist. She received a Master of Arts in Administration with a concentration in public administration from Framingham in May 29 ceremonies. She expects to be working in the

KAYSER CHAIR COMMITTEE TO MEET ON JUNE 14

Members of the committee working towards the funding of the Elmer Louis Kayser Professorship in History will meet for an 8 am breakfast on Tuesday, May 14. Please call Ext. 6415 to indicate attendance.

DR. COOPER SPEAKS OF CARING TO MEDICAL SCHOOL GRADUATES

In his commencement address to graduates of the School of Medicine and Health Sciences on May 27, Dr. John A.D. Cooper, president of the American Association of Medical Colleges, spoke of the physician's "caring function." He said, "The rush to incorporate advances in knowledge and new technology should not distract physicians from maintaining their caring function, an important component of medical care over the centuries. In spite of the increasing pressure to convert medicine from a learned profession into a marketplace industry, people still look upon their health and their illness as a highly personal matter. They don't want robotics to replace warm, considerate and concerned physician counselors for their problems. There is still a need for a generous amount of the priestly and shaman functions of the physician."

areas of college union management and student activities.

Active in student affairs as a George Washington University undergraduate, she served as a member of the GW Student Association in several positions, including vice president for student activities, and as a member of the Public Ceremonies Committee of the Faculty Senate. She also served as office supervisor for the Student Association, monitoring the student budget and directing computer access techniques. Her George Washington experience included two years as a summer resident assistant in Thurston Hall with duties as supervisor of billing, coordination of operations and programs to ensure proper maintenance, security and information services for each resident. She received a George Washington Award for outstanding contributions to university life in 1981. She was the holder of a New Jersey State Scholarship from 1977 to 1981.

In Washington, she worked as a legal research assistant with the law firm of McKenna, Conner and Cuneo and as a publications assistant for the Northeast-Midwest Institute.

Ms. Servetnick is a member of the Association of College Unions-International and the National Association of Campus Activities. At the 1982 regional conference of the National Association of Campus Activities, she was facilitator for the leadership cadre and led 20 students through six consecutive hours of leadership development in the areas of group dynamics, leadership styles, creativity and controversy, and decision making.

DIMOCK GALLERY TO EXHIBIT GRAPHICS BY MARC CHAGALL

Graphics by Marc Chagall will be on exhibition in the Dimock Gallery from Thursday, June 9, through Friday, July 29. The rare group of etchings is on loan to The George Washington University Permanent Collection from GW Alumni Trustee Howard P. Hoffman. The group was acquired by Trustee Hoffman as a body of prints from the workshop of master printer Raymond Hassen. Forty-six etchings from the collection will be exhibited. They date from 1922 to 1960 and include selections from the series "Les Ames Mortes." Other etching subjects are acrobats, portraits and scenes of Russian village life.

The exhibition is presented by the Dimock Gallery, Art Department and the Alumni Relations Office. Gallery hours are 10 am to 5 pm weekdays.

LECTURE ON MARC CHAGALL BY MELVIN LAIDER JUNE 8

Assistant Professor of Art Melvin P. Laider will give a lecture on Marc Chagall Wednesday, June 8, at 6:30 pm in the lower lounge of Lisner Auditorium preceding a reception opening the exhibition of graphics by Marc Chagall in the Dimock Gallery. Everyone in the university community is invited to the lecture and the reception.

DR. COAKLEY TO BE THE FIRST OCCUPANT OF ALPERT CHAIR

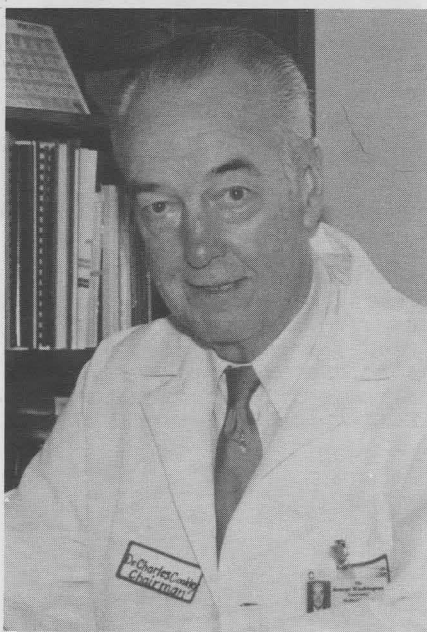

Dr. Charles S. Coakley, professor of anesthesiology and chairman of the Department of Anesthesiology, will become the first occupant of the Seymour Alpert Chair in Anesthesiology on July 1. He was named to the position by the Board of Trustees at its annual meeting May 20.

Dr. Seymour Alpert, for whom the chair is named, has been a faculty member of the Department of Anesthesiology of The George Washington University Medical School since his appointment as a fellow in 1948. He became a full professor in 1961. He served as associate chairman of the department from 1949 until September 1969, when he was appointed vice president for development. Although he no longer had administrative duties in the department, he continued as a member of the faculty. He received the status of professor emeritus at the May 27 commencement exercises of the School of Medicine and Health Sciences. The citation read, in part: "In recognition of his dual role of professor and administrator, The Seymour Alpert Chair in Anesthesiology has been established by friends and associates. For thirty-five years of service, patient care, teaching and development of resources to expand its programs, The George Washington University confers on Seymour Alpert the status of Professor Emeritus of Anesthesiology with all the rights, duties, and privileges pertaining thereto."

President Lloyd Elliott commented on Dr. Coakley's appointment, "He is most deserving of this distinction. Dr. Coakley has served long and well as chairman of the department and in the community and the profession. It is particularly fitting that the careers of the two professors should be highlighted in this way."

A native Washingtonian, Dr. Coakley entered The George Washington University in 1931 as an undergraduate. He was given the opportunity to enter the GW Medical School upon the completion of two years of pre-medical training and received his M.D. degree in 1937 at the age of 22. He did his internship at The George Washington University Hospital (1937-1938) as well as his residency in anesthesiology (1938-1939). In the years 1939 to 1944, Dr. Coakley was engaged in the private practice of medicine. He served as Lt. (MC) U.S. Naval Reserve, with the U.S. Marine Corps in the Pacific Theater as chief of anesthesia, 3rd Corps Evacuation Hospital from 1944 to 1946.

Dr. Coakley's first faculty appointment in the School of Medicine was as clinical instructor of medicine in 1940, a position he held until 1947 when he became a fellow in anesthesiology (1947-1948). He progressed through the professorial ranks and was appointed professor of anesthesiology in 1952. During the same period of time he served as associate university physician (1940-

Dr. Charles Coakley

1947), assistant anesthesiologist (1948-1949), becoming chairman of the Department of Anesthesiology in 1949.

A diplomate of the American Board of Anesthesiology (1948), he is as well a fellow of the American College of Anesthesiology (1949). In 1946, Dr. Coakley received an achievement award from George Washington. Other awards and honors have included first prize at the Annual Scientific Exhibit, D.C. Medical Society, 1952; second prize, New York Medical Society, 1952; Friends of Phi Award, 1961; GW General Alumni Association Citation, 1966; GW General Alumni Association Service Award, 1968; Medical Alumni Achievement Award, GW School of Medicine, 1973; and the Heidbrink Award of the American Dental Society of Anesthesiology, 1974.

Dr. Coakley is a member of the honorary medical societies Alpha Omega Alpha and the Smith-Reed-Russell Honor Society. He has held visiting professorships at the University of California, San Francisco, and the University of Virginia. A past board chairman of the American College of Anesthesiology, Dr. Coakley has served as president of the Academy of Anesthesiology, the Maryland-District of Columbia Society of Anesthesiologists and the Southern Society of Anesthesiologists. He is active in many professional societies and has lectured widely and written extensively in his field.

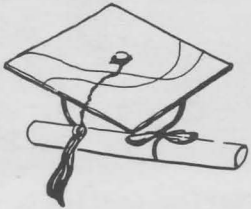

GW MAIL SERVICE RECOGNIZED BY U.S. POSTAL SERVICE

The George Washington University Mail Service has received recognition from the United States Postal Service as an active participant in cooperative programs to achieve postal excellence. A certificate from the U.S. Postal Service signed by U.S. Postmaster General William F. Bolger, District of Columbia Postmaster John R. Cochran, and Joseph J. Smith III of the Postal Customers Council is being framed and will hang in the Mail Service operations area.

DOUBLE ENJOYMENT--L to R, Dr. Elmer Louis Kayser, Kayser Chair Committee Chairman Sergius Gambal (B.A. 1952) and President Lloyd Elliott are shown following the recent report luncheon of the committee when it was announced the fund for the Kayser Chair has reached \$401,500 towards the \$500,000 goal set for June 30 and that Gambal has reached the age of 60. Gambal was presented with a George Washington University tie and a set of GW blazer buttons.

LAW GRADUATES HEAR JUDGE WALD AND TRUSTEE JACOB BURNS

"Get involved in the organized bar," the Honorable Patricia M. Wald, Judge, United States Court of Appeals for the District of Columbia, told GW law graduates at the May 22 commencement of the National Law Center. "Its leadership will come from you, or else from those to whom you forfeit leadership...push that leadership to confront the problems and to espouse the kind of practical reform that will make the American legal system more nearly serve all the people." She suggested the graduates consider seeking "some special responsibility, some unheralded cause that can compete for your time, that is worth fighting for, sacrificing for, on occasion even losing a prospective paying client for. Stake out that piece of turf for yourselves and it is going to make professional life much fuller for you," she said. On a personal note, Judge Wald advised the new lawyers, "Don't turn your life into a courtroom.... For most of you, the fullness of life will come just as much from your personal relationships as from your career successes. Don't let your professional life corrode your capacity for love, humor, enjoyment and compassion."

Honorary Trustee Jacob Burns (LL.B. 1924, LL.D. 1970) gave remarks following Judge Wald's address. Dr. Burns received an alumni achievement award at the commencement. He told the graduates, "Although you now have general knowledge of basic principles of law and its application, the laws of this land are wide in scope and ever changing.... You should never stop learning." Dr. Burns also advised his listeners to "take an active part in promoting the best interests of the legal profession. ...and an interest in the welfare of the community in which you live and practice. It will bring you much satisfaction and benefits. ...The role of the lawyer in resolving disputes need not always follow the adversary route. The lawyer is not only an advocate, he is also an adviser. At times, there are situations where the client's best interests can be served by suggesting mediation...rather than litigation. ...Lawyers should encourage this way of settling cases where possible. Face your future with confidence," he concluded.

CAMPUS SECURITY STICKERS FOR YOUR TELEPHONE

Stickers with the campus security emergency number for your telephones are available from the Office of Safety and Security. Just call Ext. 6947, give the number of stickers you need and they will be sent to your office.

SGBA AND SPIA HOST NATIONAL MEETING ON ISSUES MANAGEMENT

The Schools of Government and Business Administration and of Public and International Affairs hosted the spring conference of the Issues Management Association, held here at the university May 19 and 20. The association was formed in 1981 to bring together those who work in or significantly contribute to the issues management field in business, government, academia and other areas, both nationally and internationally.

The conference theme was "Issues Management and Foresight: A Private-Public Nexus." Walter A. Hahn, visiting professor of public affairs, was program chairman. D. Jeffrey Lenn, associate professor of business administration, served as arrangements chairman. Participants worked to understand and define the responsibilities and capabilities of both public and private sectors in delineating and responding to various public issues emerging in America's future. General and specific issues having impact on the business sector were examined.

The 190 participants came from the corporate world--public affairs specialists, strategic planners, issues managers; consulting firms--public affairs and public relations professionals, futurists; the public sector--congressmen, congressional staff; trade associations and academicians including nearly a dozen George Washington University professors and 20 graduate students.

A cross section of speakers highlighted the conference. Rep. Albert Gore (D-Tenn) discussed a bill he is introducing to create an office to identify and analyze key critical trends in American society in the future. Dr. Michael Usdan, president of the Institute for Educational Leadership, gave the keynote address on emerging issues in American education. Madelyn Hochstein, vice president of Yankelovich, Skelly and White, described the emerging profession of issues managers in the corporate world.

THE OPERATIONS RESEARCH DEPARTMENT was well represented at the Institute of Management Sciences/Operations Research Society of America (TIMS/ORSA) joint national meeting in Chicago April 25-27. Five faculty members attended and two others were represented at the meeting by their students or research associates. Those attending participated in a number of activities, all by invitation.

A paper co-authored by ROLF H. CLARK, research professor of operations research, "Resource Dynamics, Naval Force Levels, and Ownership Costs" (with Samuel B. Graves and Kathleen Sheehan, both research associates of the GW Institute for Management Science and Engineering), was presented by Graves.

JAMES E. FALK, professor of operations research, presented a paper, "Integer Prim-Read Solutions to a Class of Target Defense Problems" (with Stefan A. Burr and Alan F. Karr of the Institute for Defense Analyses).

A paper co-authored by ANTHONY V. FIACCO, professor of operations research and applied science, "Computable Optimal Value and Solution Vector Bounds for Parametric NLP Programs and Practical Applications" (with Jerzy Kyparisis, GW doctoral candidate in operations research), was presented by Kyparisis.

DONALD GROSS, professor of operations research, presented a paper, "Finite Populations, Finite Repair Capacity Models for Spares Provisioning" (with DOUGLAS R. MILLER, associate professor of operations research, and RICHARD H. SOLAND, professor of operations research).

W.H. MARLOW, professor of operations research, chaired the "Logistics II" and "Logistics III" sessions, and also presented a paper, "Calculations of Measures of Effectiveness" (with William E. Caves, senior staff scientist, Institute for Management Science and Engineering, and Shelemiyahu Zacks of SUNY Binghamton).

NOZER D. SINGPURWALLA, professor of operations research and of statistics, presented two papers, "An Empirically Developed Fourier Series Model for Describing Software Failures" (with Larry D. Crow of Aberdeen Proving Ground), and "Recent Results in Software Reliability." A paper that he co-authored, "Monitoring with Built-in Test Units (Preliminary Report)" (with Arthur D. Salomon, doctoral candidate in operations research), was presented by Salomon.

RICHARD M. SOLAND, professor of operations research, presented a paper "Preference Capturing and Its Use in Interactive Multiple Criteria Decision Making."

ROBERT C. VINCENT MEMORIAL FUND IS ESTABLISHED TO HONOR MEMORY

A Robert C. Vincent Memorial Fund has been established to honor the memory of the late Dr. Vincent who died May 11. He was first associated with the university in 1940 when he joined the Department of Chemistry as instructor. This association continued until the end of his life. After he became professor emeritus of chemistry in 1979, he maintained an active interest in the university community and gave the salary he received while he was teaching as an emeritus professor in residence to the GW Corcoran Hall Renovation Fund. Contributions in his memory may be made to the Robert C. Vincent Memorial Fund, The George Washington University, and sent to Dr. Theodore Perros, professor and chairman of chemistry, The George Washington University, Washington, D.C. 20052.

GW UNIVERSITY CLUB NOW ON SUMMER HOURS

The George Washington University Club summer hours are now in effect. There is luncheon service Monday through Friday from 11:30 am to 3 pm in the dining room and the lounge. Coffee is available for members in the lounge from 10 to 11 am weekdays. The club is still available for private parties in the evening and on weekends throughout the summer. Call Ext. 6610.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Radiology. (B.S. in microbiology, biochemistry or related area. Prepare and evaluate antibodies containing bifunctional chelates.) Resume to G. Rosen, The George Washington University Medical Center, 662 Ross Hall, 2300 Eye St., NW.

RESEARCH ASSISTANT, Department of Radiology. (B.S. in chemistry with interest in analytical immunochemistry. Development of analytical methods for radiolabeling tumor specific antibodies for radioimmunoimaging. Experience in organic, analytical and biochemistry.) Resume to G. Rosen, The George Washington University Medical Center, 662 Ross Hall, 2300 Eye St., NW.

The George Washington University is an equal opportunity/affirmative action employer.

"BARNs," a watercolor by Professor of Psychology Bernard I. Levy, is one of a group of 52 watercolor paintings by Dr. Levy on display at the Arts Club of Washington, 2017 Eye St., NW, through June 10. Hours are 10 am to 5 pm weekdays, 1 to 5 pm weekends.

JACOB BURNS FELLOWS PROGRAM ESTABLISHED IN GW LAW CENTER

The GW National Law Center has received a gift in the amount of \$250,000 from Honorary Trustee Jacob Burns (LL.B. With Distinction 1924, LL.D. 1970). The gift will provide for an annual award of \$5,000 each to the five highest achieving applicants to the National Law Center. The recipients will be designated "Jacob Burns Fellows." In announcing the program at the June 14 GW Law Association luncheon meeting, President Lloyd H. Elliott said that Dr. Burns was making the gift in honor of Vice President for Development Seymour Alpert. Dr. Alpert was the honored guest at the law luncheon.

President Elliott commented, "This extremely generous gift will permit the law school to reach out for the very best entering law students. The fellowships will be awarded to the highest achievers, the most qualified on the basis of academic excellence, those with the greatest promise from among all applicants without regard to financial need." The annual stipends will be funded from the interest on the total gift.

Dr. Burns was elected to the Board of Trustees in March 1971 and served for the following six years. He became an honorary trustee on July 1, 1977. A member of the bar in the District of Columbia and in the State of New York, he is a practicing attorney in New York City specializing in corporation law. He served for many years as chairman of the board of the USV Pharmaceutical Corporation and has been a director of Revlon, Inc. For many years he has been active in the affairs of the New York County Lawyers' Association, having served as a member of its Board of Directors, chairman of its Membership Committee, its Committee on Discipline, and as a member of the association's Committee on the Judiciary, Committee on Planning and Committee on Professional Ethics.

A long-time benefactor and friend of the university, he is responsible for the Jacob Burns Law Library, which opened in October 1967. The university's H.B. Burns Memorial Building (University Clinic) is named in honor of his brother. Interested in painting from his Central High School days in Washington, D.C., Dr. Burns studied in New York with the English portrait painter Gerald Brockhurst. Among his portraits are likenesses of several eminent New York jurists as well as pictures of children. The portraits are seen in a variety of places, both in Washington and New York, including the Columbia University Law School. In addition to the honorary Doctor of Laws (1970) which he holds from the university, Dr. Burns received the Distinguished Alumnus Award of The George Washington Law Association in 1975 and an Alumni Achievement Award at the May 22 commencement ceremonies of the National Law Center.

ELLIOTTS TO HONOR ALPERTS ON WEDNESDAY, JUNE 22

President and Mrs. Lloyd H. Elliott will host a reception in honor of Vice President and Mrs. Seymour Alpert on Wednesday, June 22, from 4 to 6 pm in The George Washington University Club, third floor, Marvin Center. This occasion will provide an opportunity for the university community to say "Thank you" to the Alpersts. Everyone is invited.

YEARS OF SERVICE RECOGNIZED AT SERVICE AWARDS LUNCHEON

A total of 98 people with some 1,200 years of service to the university were recognized at the recent service awards luncheon of the Office of the Vice President and Treasurer.

Six retirees, all from the Housekeeping Department, were given special recognition. They will receive George Washington University rocking chairs. They are Sadie Needham, 31 years; Susie L. Winston, 21 years; Mattie C. Willis, 19 years; Beatrice G. Greene, 14 years; Lula R. Watties, 13 years; and Bernice Boswell, 10 years.

Mrs. Margaret (Peggy) Green, assistant treasurer, received a pin for 40 years of service. She came to the university in September 1942 and had as her first assignment the preparation of financial aspects of student publications. She was at first secretary to the treasurer. In 1945, she became assistant to the comptroller, in 1952, assistant comptroller, and in 1955, assistant treasurer.

Irene Prester of Housekeeping received a pin for 35 years service. She was first associated with the hospital and, after 22 years, transferred to Housekeeping.

Alan Donaldson, who came to George Washington in 1953 as an electrician, received a 30-year pin. He now holds the position of maintenance coordinator.

Rufus Sanders of Transportation received a 25-year pin. He was first with the hospital, then moved to Parking Service and the Mail Room before becoming associated with Transportation in 1974.

Eileen Eatman, now with SAGA, has been at the university 25 years and has worked with four food service companies. Her certificate was presented by Assistant Treasurer John C. Einbinder and Mr. Harry Popores and Ms. Roberta Schaffner of SAGA.

Fifteen-year recognition went to Lelia O. Kent, university cashier; Barbara B. Rew, Sponsored Projects; Anne Steever, Student Financial Aid; Jai P. Balkisson, Parking; Lena C. Gee, Bookstore; Bobby R. Richardson, Mail Room; and Oscar Bethea, Henrietta M. Fewell, Willie Mae Hatcher, John C. Hayslette, Jesse R. Henderson, Junell H. Johnson, Merrill T. Osborne, Harvey D. Ross, James R. Shiley, and Joe G. Williams, all of Physical Plant. Three SAGA employees were thanked for 15 years service: Marta Pineda, Jeanette Robinson and Mabel Williams.

KAYSER PROFESSORSHIP CHAIRMAN Sergius Gambal, right, is shown with University Trustee Thaddeus A. Lindner at a breakfast meeting of the Elmer Louis Kayser Professorship in History Committee when it was reported that, in a period of three months, pledges of \$478,000 have been received towards the \$500,000 needed to fund the chair. Fund-raising activities will continue through June 30.

A substantial number of GW people with five and 10 years of service were recognized and thanked as well at the event.

In closing, Vice President and Treasurer Charles E. Diehl thanked all present for their work during the past year and said, "I'd like to ask that each one of you in your day to day work remember this, that students are not a burden to us. They are a joy. Let's try to think about how we can make this a pleasant place to live and let's continue to work to make this university not only the best in D.C. but in the whole country."

GW

Eileen Eatman, left, and Harry Popores.

SARP RECEPTIONS PLANNED FOR NEW STUDENTS, FAMILIES

Members of the university faculty and staff are invited to attend three informal receptions during the Summer Advance Registration Program (SARP). The receptions provide an opportunity to welcome new members of the class of 1987 and their families. The dates, all Thursdays, are June 23, June 30 and July 1. The hour is 5 to 6 pm; the place, the Marvin Center Third Floor Ballroom.

Rufus Sanders, left and Robert F. Burch, PPD Director.

STUDENT HEALTH SERVICE OFFERS IMMUNIZATION PROGRAMS

The Student Health Service is offering free measles, mumps and rubella immunization as well as travel immunizations. This service will be provided during the months of June and July. Hours are 9 am to noon and 1 to 4:30 pm weekdays. Call Ext. 6827.

COMPUTER LITERACY DISCUSSION AT UDC, WEDNESDAY, JUNE 22

"Computer Literacy: Education for the Information Age" is the topic of a panel discussion scheduled for Wednesday, June 22, from 6 to 8 pm at the University of the District of Columbia by the D.C. chapter of the World Future Society. Speakers will be Floretta D. McKenzie, superintendent of the Public School System of the District of Columbia, Dean Eugene Kelly of the GW School of Education and Human Development and Robert J. Seidel, vice president of the Human Resources Research Organization (HumRRO) in Alexandria, Virginia. Fee for attendance is \$3 per person. Call 656-8274 between 10 am and 4 pm weekdays.

FUND ESTABLISHED IN MEMORY OF PROFESSOR ELIZABETH ADAMS

A fund has been established in memory of the late Dr. Elizabeth B. Adams, professor of management, who died on May 30.

Professor Adams was a native of Long Island, New York. She received her B.S. degree from Queens College in biochemistry, an M.A. from George Washington in education and her Ph.D. in the area of public administration from American University. She joined the faculty of The George Washington University in 1966 in the School of Government and Business Administration as an assistant professor. She was promoted to full professor in 1979. She was instrumental in developing the program originally known as Electronic Data Processing, later changed to Management Information Systems and currently known as Information Systems Management. She served the university in a variety of committee and elected positions. She was an advisor, served as chairman of the department's appointment, promotion and tenure committee and curriculum committee. She served on the Marvin Center Advisory Board, the University Facilities Committee and was elected to the Faculty Senate. She participated actively in alumni affairs, student orientation and was often host to national and international visiting scholars.

A founding member and chairman-elect of the science and technology in government section of the American Society of Public Administration, she was a prime mover in the development of the Association for Federal Information Resource Managers. Active in professional societies as a conference participant and speaker, she was the author of numerous articles and publications.

Contributions to the fund may be sent to The George Washington University-Department of Management Science, Monroe Hall-419, The George Washington University, Washington, D.C. 20052.

WALKING TOURS OF DOWNTOWN, EARLY SUBURBS JUNE 26, JULY 10

GW's Washington Area Studies Summer Program will sponsor walking tours of downtown Washington and the early Washington suburbs, Uniontown and LeDroit Park, on June 26 and July 10 respectively. Both are Sunday tours.

"Downtown Washington," the June 26 tour, will focus on 7th Street and the one surviving residential neighborhood in that part of the city, Chinatown. There will be discussion of social history, architecture and land use in light of conflicting pressures for development and conservation. Tourgoers will meet at the Victorian Band Shell, 8th Street and Pennsylvania Avenue, N.W., at 10 am. The tour, to be conducted by Nancy Schwartz, architectural historian, will last until 12:30 pm. There is a \$5 fee.

"Washington's Early Suburbs: Uniontown and LeDroit Park" will be the walking area of the July 10 tour. Both Uniontown in Anacostia and LeDroit Park at the original boundary of L'Enfant's city, just north of Florida Avenue, are now designated as historic districts. Each community is said to represent a special stage in the evolution of a local suburban ideal, modified and adapted to changing urban conditions. Associate Professor of American Civilization Howard F. Gillette Jr. will be the tourguide. The tour will leave by bus from the Marvin Center at 11 am and last until 3 pm. There is a \$5 fee.

Call Rosemary Barnes, Ext. 7565, for reservations.

BULK MAIL RATE INCREASE DOES NOT AFFECT UNIVERSITY MAIL

The University Mail Service informs us that postal rate increases for bulk mail, announced by the U.S. Postal Service, affect commercial mailers only and will not affect university mail. The postage rate for bulk non-profit remains at 5.2¢ for each piece and 23.3¢ per pound. The Mail Service regrets any inconvenience a previous announcement may have caused.

GALLERY TALK ON CHAGALL GRAPHICS

Lenore D. Miller, curator of art, will give a gallery talk on the Dimock Gallery's current exhibition, "Graphics by Marc Chagall," on Wednesday, June 29, from 12 to 1 pm. The talk is open without charge. The 47 Chagall graphics in the exhibition are on loan to the George Washington University Permanent Collection from GW Alumni Trustee Howard P. Hoffman. The Dimock Gallery is off the lower lounge of Lisner Auditorium.

WASHINGTON LANDSCAPE CLUB 1983 SPRING SHOW IN GELMAN

Works by members of the Washington Landscape Club are on exhibition in the Melvin Gelman Library through Thursday, June 30. The club's 1983 spring show includes 35 paintings, largely water-colors. Both summer and winter landscapes are shown as well as a number of water scenes and familiar Washington locations. The exhibition can be seen on the first floor of the Gelman Library and in its H Street windows.

NEWSNOTES

INTERVIEWS

S. ROBERT LICHTER, assistant professor of political science, debated Don Bellasario, executive producer of "Magnum P.I." on the topic of crime and law enforcement on TV on "The Sandi Freeman Show," Cable News Network, Friday, March 18, between 10 and 11 pm.

JAMES E. STARRS, professor of law and forensic sciences, was interviewed by Joe Krebs of WRC-TV on May 17 for Channel 4's 6 o'clock news. The interview was related to the resignation of the chief medical examiner for the District of Columbia. May 11, an interview with Professor Starrs was broadcast at 10 am over National Public Radio. This interview was related to his recently published book, The Noiseless Tenor: The Bicycle in Literature.

GRANTS

ARVIL V. ADAMS, research professor of education policy and of economics and director of the Public Policy Program, \$9,592 from the Administrative Conference of the United States for research and evaluation of the alternative appeals procedure of the Merit Systems Protection Board.

EDWARD D. BERKOWITZ, associate professor of history and director of the Program in History and Public Policy, \$12,000 from the Exxon Educational Foundation of New York for the program's core seminar on history and public policy to be used for special materials and to invite outside lecturers. The seminar will explore the history of social security.

HERMAN W. HOBBS, professor of physics, \$22,208 from NASA for research in terrestrial whisker growth experiments which anticipate some special effects of a space station environment.

WILLIAM R. JOHNSON, associate professor of history and acting director, Institute for Sino-Soviet Studies, an \$1,800 training grant from Irex International Research and Exchanges Board, for the Third Working Conference on Peace and Security in Asia between the Institute of the Far East, the USSR Academy of Science and the Institute for Sino-Soviet Studies.

DEAN E. KRUEGER, research professor of statistics and ophthalmology, \$70,303 from HHS/NIH/The National Eye Institute for epidemiological studies and analysis of the findings of the Pilot Study for the Visual Acuity Impairment Survey.

DONALD C. LINKOWSKI, professor of education, and DONALD W. DEW, associate research professor of medicine, \$26,100 from San Diego State University Foundation, for a regional rehabilitation continuing education program consortium for placement training.

CLAIRE B. RUBIN, program director for research on "Recovery from Natural Disasters: Case Studies in Local Public Planning and Management" at the Program of Policy Studies in Science and Technology, \$147,308 from the National Science Foundation.

ROBERT C. WATERS, professor of engineering administration, \$64,869 from the U.S. Department of Transportation University Research Program for research on the economic impacts of present and proposed bulk cargo reservation practices on U.S.

maritime trade. DAVID J. SHARPE, professor of law and of medical and public affairs, is participating in the research as a faculty associate.

PERSONNEL NOTICES

RESEARCH ASSOCIATE, Department of Engineering Administration. (Conduct research on impact of cargo reservation practices on U.S. maritime bulk trades, conduct interviews, analyze foreign trade statistics tapes, ascertain transportation costs and commodity prices, determine price elasticities of bulk commodities and prepare written research reports. B.S. in an engineering field and masters' degree in business, engineering management or economics.) Contact Professor Robert C. Waters, Ext. 3791.

RESEARCH ASSOCIATE, Department of Anatomy. (Research in a basic science laboratory concerned with the neuro-anatomy of the vestibular system. Available July 1 for one to two years. B.S. in biology or a related science, experience in electron microscopy, especially thin tissue sectioning and photography.) Resume and references to Dr. K.D. Peusner, Department of Anatomy.

RESEARCH ASSOCIATE, DEPARTMENT OF BIOCHEMISTRY. (Conduct studies on the roles and mechanisms of sterol and phospholipid transfer proteins in regulating cellular lipid translocations. Ph.D. required.) Send three references and curriculum vitae to Dr. George Vahouny, Dept. of Biochemistry, 2300 Eye St., N.W., Washington D.C. 20037.

RESEARCH ASSOCIATE, Department of Biochemistry. (Conduct studies on lipoprotein clearance defects, including apoprotein abnormalities during experimental diabetes. Ph.D. required.) Send three references and curriculum vitae to Dr. George Vahouny, Dept. of Biochemistry, 2300 Eye St., N.W., Washington, D.C. 20037.

RESEARCH ASSOCIATE, Cancer Research Laboratories, Ross Hall. (Work involves studying breast cancer using tissue culture, hormone manipulation, pharmacology, flow cytometry, computer analysis and biomedical techniques. Experience, enthusiasm and willingness to learn new techniques are definite advantages. Ph.D. required. Project period is three years or more.) Contact Dr. Oliver Alabaster, 705 Ross Hall, Ext. 8290.

RESEARCH SCIENTIST, Chemistry Department. (Ph.D. required in physical chemistry or engineering. Duties include theoretical model development and analysis of experimental data in combustion.) Call David Ramaker, Ext. 6934.

RESEARCH ASSISTANT, Department of Statistics, Biostatistics Center. (Assist in data analysis for medical research study. B.S. in psychology or biological sciences and SAS experience required. Work location in Bethesda.) No phone calls please. Resume to Susan Ligon, The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, Md. 20814.

RESEARCH ASSISTANT, Department of Statistics, The Biostatistics Center. (Assist in several research studies in data processing, analysis and onsite management of an IBM 4331 system. B.S. degree and experience with PL/I and SAS required.) Resumes to Susan Ligon, The Biostatistics Center, 7979 Old Georgetown Road, Bethesda, Md. 20814.

PRESIDENT ELLIOTT APPOINTS RICHARD T. HASKINS ACTING VICE PRESIDENT FOR DEVELOPMENT

President Lloyd H. Elliott has appointed Richard T. Haskins, currently director of development, to serve as acting vice president for development effective July 1, following the retirement of Vice President for Development Seymour Alpert.

A native of Elyria, Ohio, Haskins holds a B.A. in journalism and communication from Point Park College in Pittsburgh (1971) and an M.A. in the area of political science from The George Washington University (1983). He has held the post of director of development here at the university since July, 1979. He first became associated with George Washington in July, 1975 as assistant director of annual support. In July, 1977, he was named assistant to the vice president for development. He served in that capacity for the next two years when he was appointed director of development.

Since coming to George Washington, Haskins has worked on the reorganization of the university's phonathon program which increased in pledges from \$65,000 in 1978-79 to \$180,000 in 1981-82. He helped to establish a data base system designed to improve the university's ability to target its appeals more effectively and coordinated efforts to obtain three-to-one matching funds for the university's \$800,000 National Endowment for the Humanities challenge grant. He also developed ways of letting alumni know of matching gift programs which have resulted in corporate matching gifts of nearly \$100,000 annually.

Before coming to George Washington, he spent almost two years in San Francisco as public relations director for the San Francisco Ballet. He was assistant to the president at Point Park College from June, 1970, to August, 1973. He is married and a resident of Alexandria, Virginia.

PROFESSOR HILL IS APPOINTED ACTING DEAN, PUBLIC AND INTERNATIONAL AFFAIRS

Professor of History Peter P. Hill has been appointed acting dean of the School of Public and International Affairs, effective July 1, following the retirement of Dean Burton G. Sapin, according to an announcement by Provost and Vice President for Academic Affairs Harold F. Bright. Dr. Sapin will continue at the university as professor of international affairs and political science. Professor Hill came to the university in 1960 as instructor in history and has served continuously in the department since that time, becoming full professor in 1974. He is now returning from a sabbatical leave in France.

GLORIA NAYLOR, BOOK AWARD WINNER, TO BE WRITER-IN- RESIDENCE

Novelist Gloria Naylor, winner of the 1983 American Book Award for Best First Novel, will be writer-in-residence at the university for the fall 1983 and spring 1984 semesters. Naylor, who won the prize for "The Women of Brewster Place: A Novel in Seven Stories" (Viking Press, 1982, hardcover; Penguin, 1983, softcover), will come to George Washington in late August.

Gloria Naylor

She comes to the university through the Jenny McKean Moore Fund for Writers, which together with GW funds the lectureship, named for a late GW playwrighting student who left a trust fund for the encouragement of creative writing. In addition to teaching a fiction workshop in the fall and a course on Black American writers in the spring, Naylor will give free creative writing workshops open to the public during both semesters.

Although she received a B.A. in English (Brooklyn College 1981) and an M.A. in Afro-American Studies (Yale 1983), Naylor spent seven years as a door-to-door Jehovah's Witness preacher in the Southeast. She returned to a less theocratic view of the world when she began to look at herself as "a black and a woman." In accepting her American Book Award, she described her novel as "a tribute to (her mother) and other black women who, in spite of very limited personal circumstances, somehow manage to hold a fierce belief in the limitless possibilities of the human spirit."

KAYSER CHAIR COMMITTEE PLANS FINAL REPORT MEETING JUNE 30

The Committee for the Elmer Louis Kayser Professorship in History will hold its final report meeting on Thursday, June 30, at a noon luncheon in the GW University Club. Hopes are high that the \$500,000 needed to fund the chair fully will have been received by that date. Committee members planning to attend are asked to call the Development Office, Ext. 6415.

RICHARD W. LONGSTRETH TO BE DIRECTOR OF GRADUATE PROGRAM IN HISTORIC PRESERVATION

Architectural historian Richard W. Longstreth has been named director of the GW Graduate Program in Historic Preservation. He will come to the university in the fall semester, 1983, succeeding Frederick Gutheim, who will continue to teach courses including a seminar on international historic preservation. The program provides a master's level concentration for degree candidates in the Departments of Urban and Regional Planning and History as well as those in the American Studies Program.

Longstreth has been a frequent commentator on preservation issues. His most recent publications include a contribution to the National Trust for Historic Preservation's forthcoming "Main Street" study and a study of the major California architects, On the Edge of the World: Four Architects in San Francisco at the Turn of the Century, to be published later this year by the Architectural History Foundation and M.I.T. Press. He is co-author, with Edward Teitelman, of Architecture in Philadelphia: A Guide. His articles have appeared in the Journal of the Society of Architectural Historians, Perspecta, and Winterthur Portfolio.

Chairman of the Society of Architectural Historians' Committee on Preservation, Longstreth has served on the society's board of directors, as well as on that of Preservation Action. A member of the National Council for Preservation Education, he has taught at the College of Architecture and Design at Kansas State University since 1976. He received a Ph.D. in architectural history from the University of California at Berkeley in 1977.

SGBA GRADUATE RECEIVES FELLOWSHIP FOR MANAGEMENT STUDY

SGBA graduate Wayne A. Johnson, B.B.A. 1983, has been awarded a fellowship by the Consortium for Graduate Study in Management to pursue the Master of Business Administration degree at the University of Wisconsin. His undergraduate major was marketing. The consortium fellowships are made possible by contributions from major business organizations throughout the United States. They enable talented blacks, hispanics and American Indians to pursue graduate management study at one of the consortium institutions: Indiana University (Bloomington), University of Rochester, University of Southern California, Washington University (St. Louis) and the University of Wisconsin (Madison). The summer between the first and second years of graduate study is spent in an internship with one of the 194 consortium sponsoring companies.

SCHOOL OF ENGINEERING TO GET \$2 MILLION IN IBM EQUIPMENT

The GW School of Engineering and Applied Science is receiving \$2 million in computer equipment and software from IBM as part of the largest single-program educational donation in the company's history, GW President Lloyd H. Elliott announced June 21.

George Washington is the only university in the Washington, D.C., area receiving the IBM donation.

In naming GW as one of the 20 universities receiving the computer equipment and software, IBM Chairman John R. Opel said, "This program will result in new and exciting university projects in many areas. Those we selected to receive the systems are truly outstanding."

The equipment includes an IBM 4341 processor with 16 million characters of main storage, IBM direct access storage devices, IBM graphics terminals and software packages. The CAD/CAM (Computer Aided Design/Computer Aided Manufacturing) computer system will be used to support existing programs in computer aided design and computer graphics, to assist the proposed new graduate program in manufacturing engineering, and to enhance other university programs.

"This will give the School of Engineering capabilities for classroom instruction and research that very few other universities in the nation have," said Dean Harold Liebowitz of GW's School of Engineering and Applied Science. "It gives us a new dimension in our quest for excellence in engineering education and research while placing GW in select company among other top universities."

The 20 universities receiving the equipment were chosen from 115 that submitted proposals responding to IBM's announcement last fall of a \$50 million cash and equipment grant program to help universities update their manufacturing engineering curricula. More than 75 universities submitting proposals were evaluated and from these the 20 recipients were chosen.

The IBM 4341 processor system and CAD/CAM system will enable students to learn first-hand about leading-edge applications designed to improve industrial productivity. The system will support a number of areas in computer assisted design and manufacturing, including machine and mechanism design, mobile robot control systems, finite-element modeling of non-linear systems, reliability theory, quality control and others.

In CAD/CAM operations, a product design, ranging from a simple gear to a complex spacecraft, can be shown on a graphics display terminal. Geometric information about the design can be used by the machine tools that fabricate and assemble the product, allowing the manufacturer to operate with high productivity and cost efficiency.

(continued)

continued from front

"We are on the threshold of a new era in manufacturing technology and there is a critical need in industry for people who can make full use of the technology and enhance it in years to come," IBM's Chairman Opel said. "There can be no factories of the future unless there are universities of the future educating those people now."

Commenting on the importance of IBM's program and the need to upgrade the design and manufacturing base of the U.S. economy, Dean Liebowitz pointed to two comparisons with Japan: (1) the projected deficit of \$23.7 billion in the balance of trade with Japan, and (2) a three-to-one advantage in robot utilization by Japan, with approximately 60 unmanned or semi-automated factories in Japan compared with only a handful in the United States.

"These problems have been created by a low level of interest in manufacturing engineering by industry and educational institutions and by a general population that often has shown apathy or even hostility toward new applications of computers and robots," he said. "A significant part of the burden for changing the attitudes of the general public toward computers and robotics must be assumed by public and private institutions of higher education."

GW President Elliott added that "computer-aided design and manufacturing and robotics deserve more attention in engineering curricula in the years ahead. And at GW, we are taking steps in that direction."

VIEWS OF THE CAPITOL CAN BE SEEN IN SPECIAL COLLECTIONS

A group of 32 prints and lithographs of the United States Capitol is on exhibition in Gelman Library's Special Collections area through August.

A birds-eye view of the the City of Washington with the capitol in the foreground from the *Illustrated London News* of May 25, 1861, shows the building under construction with the dome still to be placed over the center section. "Winter at the Capitol - A Night Session," drawn by Charles Graham, first appeared in *Harper's Weekly*. Prints with the capitol in the background record the inaugurations of two presidents, Lincoln and Harrison. "The Inauguration of President Harrison - The Procession Returning from the Capitol" was drawn by Thurstrup and Graham for the *Harper's Weekly* supplement of March 16, 1889. Seven small prints framed together show the development of the capitol building as well as the President's House (the White House) and the Smithsonian building, now known as the Castle, then called the Smithsonian Institute. A group of first pages of 19th century sheet music with varying views of the capitol include the titles "The Washington Waltzes," "The Song of Liberty or the March of 'Concord'" and "The Capitol March."

Interior scenes from *Harper's Weekly* supplement of January 3, 1874, show the United States Senate in session, the Chamber of Representatives (the House) and the Senate Chamber. Four 1932 prints show meetings of the Reconstruction Finance Corporation, the Foreign Relations Committee, the Speakers' Lobby of the House and the House Restaurant

C.A.S.T. IN COSTUME -- Founding members of C.A.S.T. the organization formed this year for the support of GW Univeristy Theatre activities and drama scholarships, were photographed June 12, following the theatre's performance of "The Mikado," a benefit for C.A.S.T. L to R, first row, Alan Wade, associate professor of speech; Martha L. Leggette; Ralph K. White, professor emeritus of social psychology; Nelson Wurcz; Mrs. Nelson Wurcz; Carole E. Myers; Patrice Bailey and Timothy Evans. Not present was founding member Nathan C. Garner, assistant professor of drama.

SARP REMINDER

The second and third Summer Advance Registration Program (SARP) receptions to welcome new students and their families will be held from 5 to 6 pm Thursday, June 30, and Thursday, July 7, in Marvin Center Continental Room (Third Floor Ballroom). Members of the faculty and administrative staff are encouraged to attend. SARP coordination is located in the Registrar's Office, Ext. 4908.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JOHN G. ALLEE JR., professor of English, gave a paper, "An Introduction to Tense In Nouns," at the 22nd Annual Names Institute, at Fairleigh Dickinson University, Madison, Wisconsin, May 7.

DIANE APOSTOLOS-CAPPADONA, lecturer in religion, was convener for the Consultation on Religion and the Visuals at the College Theology Society 1983 annual meeting at Cabrini College, Radnor, Pa., June 25. She also presented a paper, "Methods to the Madness: Contemporary Approaches to Religion and the Visual Arts."

EDWARD D. BERKOWITZ, associate professor of history, has been appointed by the Twentieth Century Fund of New York to conduct a two-year study of public policy toward disability. The study is to culminate in publication of a book on the subject. Among topics to be covered are the development of state workers' compensation programs and of modern rehabilitation techniques. The study will mark an effort to use history as a tool of public policy. Professor Berkowitz will visit selected archives, travel to state capitals to observe how programs are administered and examine the controversy that has surrounded the disability insurance program. During the spring semester, Dr. Berkowitz gave papers on history and public policy at the University of Maryland (March 25), Kutztown State University (April 15), the Fifth Annual Conference on Public History at Waterloo, Maryland (May 6) and chaired a seminar on "Disability Management in the Work Place" at the National Institute for Handicapped Research (April 27).

SHARON BLOCK, director of the Publication Specialist Program, Center for Continuing Education in Washington, was a judge in the 1982 Television Promotion Awards contest on May 17 at PBS in Washington, D.C.

DAVID S. BROWN, professor of management, spoke on "Federal Contributions to Management" as part of a panel at the annual conference of the American Society for Public Administration in New York in April. He also addressed the national council of the society on issues relating to the future of the organization.

GERALD M. CAPLAN, professor of law, has been invited to be a visiting scholar at Yale University Law School in spring 1984. His title will be senior Guggenheim Fellow. His teaching will include an historical overview of the Fifth Amendment and police interrogation.

ROLF H. CLARK, research professor of operations reaseach, was invited to present a lecture, "Parametric Approaches to Long-Range Budget Planning," at the 1983 conference of the International Society of Parametric Analysts in St. Louis, Missouri, April 26-28. May 3, Professor Clark gave an invited seminar on "Discounting Weapon Systems Costs" at the Industrial College of the Armed Forces at Fort McNair.

AMITAI ETZIONI, university professor, testified May 18 before the Subcommittee on General Oversight and the Economy of the U.S. House of Representatives Committee on Small Business. At the hearing on the impact of robots and computers on the workforce of the 1980s, Dr. Etzioni's testimony was on the subject of the two-track society.

JAMES E. FALK, professor of operations research, was invited to speak on "Optimally Targeting a Defensive System--The Greedy Algorithm Works!" at the Industrial and Systems Engineering School of Georgia Institute of Technology May 5.

BARBARA FITZGERALD-McLAIN, assistant director, Student and Alumni Career Services Center, has been selected to appear in the 1983 edition of *Who's Who in the East*.

DENNIS GALE, associate professor of urban and regional planning, gave a lecture to Historic Georgetown, Inc. on May 24 titled "The Development of a Preservation Movement in Georgetown." The occasion was the organization's annual board meeting.

SAMUEL B. GRAVES, research associate, Institute for Management Science and Engineering, SEAS, presented a paper, "Resource Dynamics, Naval Force Levels and Ownership Costs," at the joint national meeting of the Institute of Management Sciences and the Operations Research Society of America April 25.

KATHLEEN HARMON, coordinator for the Publications Specialist Program, Center for Continuing Education in Washington, has been appointed a member of the steering committee for the Washington, Press Association.

ANN MYONGSOOK LEE, studio instructor in voice, has been invited to give a series of lectures and master classes at a number of Korean universities and other institutions during the month of June. Her lecture subjects include "Interpretation of Baroque Vocal Music," "American Contemporary Songs" and "Vocal Pedagogy."

S. ROBERT LICHTER, assistant professor of political science, testified March 13 before the U.S. House of Representatives Judiciary Committee's Subcommittee on Crime on television's portrayal of crime. April 29, he presented a paper, "The Media and National Defense: Television Coverage of the Vietnam War," at the International Security Studies Association's annual conference on national security policy at Tufts University.

BRUCE MEADE, Ph.D. candidate in microbiology, received a second-place award and a check for \$50 from the Society of Experimental Biology and Medicine (D.C. Section) at its May 18 meeting. The award was for Meade's presentation at the society's area university Graduate Research Seminar held last November 17.

LENORE D. MILLER, curator of art, led a field trip for students of Ms. Phyllis Weiss' "Schools Without Walls" class May 13. The tour included visits to three area art galleries: Jane Haslem at Dupont Circle; Robert Brown Contemporary Art; and the Dimock Gallery. The class of approximately 20 students explores cultural activities in the Washington area as part of its regular curriculum. The gallery tour was arranged and conducted by Curator Miller to introduce the students to various kinds of galleries and the media presented in them.

SONYA QUITSLUND, assistant professor of religion, gave a lecture, "Models of Single Life in Christian History: Implications for Today," May 8 at St. Dominic's Church as part of a series on "The Single Life."

LOIS G. SCHWOERER, professor of history, delivered the address at the annual meeting of the Smith College Club of Washington May 5. Her remarks, titled "Using the Double Vision in History," dealt with the value of focusing on women as well as men in history, not only for understanding women but also men and the great developments of the past. She gave a version of this talk following the induction ceremony of new members of Phi Beta Kappa into the George Washington chapter on May 7. Professor Schwoerer's book, *The Declaration of Rights, 1689*, has been nominated for this year's John Ben Snow Foundation Prize in History and the Social Sciences.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Physiology. (Care and feeding of neonate rats on several different diets. Harvesting of tissue and performance of assays for DNA, RNA, enzymes etc. B.A. in biology required.) Contact Dr. Marie Cassidy, Department of Physiology, Ext. 3552

KAYSER CHAIR EXCEEDS \$500,000

Members of the committee to establish the Elmer Louis Kayser Professorship in History learned at their final meeting June 30 that gifts and pledges well in excess of the \$500,000 needed had been received. Dean Kayser, who was present for the luncheon, expressed his heartfelt thanks to all those who had supported the project and emphasized his deep belief in the importance of integrity in teaching and in academic life. Sergius Gambal, (B.A., 1952), committee chairman, announced the successful conclusion of the three-month drive. More than 500 alumni, faculty, staff and friends of Dean Kayser contributed to the professorship in amounts ranging from \$5 to \$50,000.

PRESIDENT RONALD REAGAN CONGRATULATES DR. ALPERT

Dr. Seymour Alpert, professor emeritus of anesthesiology and former vice president for development, who retired on June 30, has received a letter from President Reagan congratulating him on his retirement "after 36 years of distinguished service to the George Washington University and its School of Medicine."

"Your professional and administrative skills have been reflected in the expansion and excellence of the School of Medicine and the Hospital," the president's letter continues. "I can speak from personal experience on the superior medical service the Hospital offers. I note that in addition to a very busy career, you have generously donated your time and talents to the Jewish community. . . . I'm sure you look forward to continued service in your richly deserved retirement."

President Reagan added Mrs. Reagan's best wishes to his own in concluding the letter.

STUDY FINDS PUBLIC INTEREST LEADERS LEAN TO THE LEFT

That public interest leaders lean to the left is the conclusion of a recent study of the public interest elite by GW Assistant Professor of Political Science S. Robert Lichter and Smith College Professor of Government Stanley Rothman.

In their study of public interest elites, Lichter and Rothman profile the attitudes and backgrounds of leaders and senior staffers of 74 public interest groups (such as the American Civil Liberties Union, Common Cause, Congress Watch, the Environmental Defense Fund, and others). They found the leaders overwhelmingly were young, highly educated, well-paid professionals with secular and liberal outlooks and Democratic voting habits.

The elite believe that business, the media and the military wield the most power in America, but they would

A MEMORABLE OCCASION--L to R, Dr. Seymour Alpert, Dean Elmer Louis Kayser and Professor S. Chesterfield Oppenheim, distinguished scholar and adviser in the National Law Center, were photographed June 30, at the Kayser Professorship Committee meeting. Chairs in each of their names have been established at the university: the Seymour Alpert Chair in Anesthesiology; the Elmer Louis Kayser Chair in History; and the S. Chesterfield Oppenheim Chair in Anti-trust and Trade Regulation Law. (The Oppenheim Chair was established in 1978.)

prefer a power shift to consumer groups, blacks, intellectuals and feminists. And while Ralph Nader and Edward Kennedy are among the most admired public figures, Ronald Reagan is close to bottom--below Fidel Castro.

On social and political attitudes, the study revealed the following: a majority believe the U.S. should move toward socialism; 94 percent want the government to substantially redistribute income from the rich to the poor; only 30 percent think private enterprise is fair to workers; 95 percent are pro-choice on abortion; only 12 percent think homosexuality is wrong.

On personal backgrounds, the study revealed four major points: 60 percent come from the Northeast corridor; 58 percent had family incomes above \$50,000 last year; 47 percent were raised Jewish, but 41 percent currently claim no religious affiliation; over 90 percent usually vote Democratic. Only two percent voted for Reagan.

Lichter and Rothman conclude that "the liberalism of public interest leaders shades into profound dissatisfaction with the American social and economic order." The authors found that these leaders, in their quest to represent the public interest, often deviate from the general public's outlook.

The findings are based on 157 interviews with leaders and senior staff, members of public interest organizations and partners in public interest law firms. The study is featured in a current issue of Public Opinion magazine.

GW BOOKSTORE NOTE

The GW Bookstore is now accepting VISA and Mastercards for purchases Monroe S. Hurwitz, bookstore manager, informs us.

GW MEDIA ANALYSIS SURVEY FINDS POST MOST READ PAPER BY CAPITOL HILL PEOPLE

According to a recent survey conducted by the GW Media Analysis Project and published in the July Washington Journalism Review, the Washington Post is the undisputed news king on Capitol Hill. House members and senators are four times as dependent on the Post for news as they are on the next most important source while senior staff rely even more on the Post.

This spring, media analysis researchers randomly sampled staff working most closely with senators and House members--administrative assistants, press secretaries and senior legislative assistants--and asked them to comment on their own news sources, the news habits of their bosses and to comment in general on the power and influence of the Washington press corps.

The GW Media Analysis Project found that the Post gets almost two and one-half times the attention as its closest rival among daily sources. Staffers average over 31 minutes per day reading the Post, followed by the "CBS Evening News" (13 minutes), the New York Times (12) and the Wall Street Journal (11). Among weekly news sources, CBS's "60 Minutes" captures the most attention, with 32 minutes per week, followed by Time and Newsweek with 21 minutes each, "Agronsky & Company" (17) and U.S. News & World Report (15). As for dependency on one source, over 60 percent of the staffers cited the Post as the main source of news and political information among all possible sources. Nine percent listed the New York Times, three percent the Wall Street Journal and 27 percent

FIRST BOEING-GW FELLOWSHIP AWARDED TO ROSA DERAMUS

The first award of the Boeing-GW Fellowship for study for the doctorate in engineering administration has been made to Rosa DeRamus. The award was established in March of this year.

A native of Alabama, Ms. DeRamus was graduated from Autauganville High School there in June 1973. She received a B.S. in biology from American International College in Springfield, Massachusetts, in June 1977 and a master's degree in urban systems engineering from Howard University in January 1981. During the summer of 1980, she completed a summer internship in community planning at the National Capital Planning Commission. Her paper on "Regulations on Flood Plain Management" was published in the Federal Register in October 1980. She worked for the District of Columbia General Hospital from December 1980 to December 1981, first as a research assistant and then as a management systems analyst. She has been working at the U.S. Naval Ordnance Station, Indian Head, Maryland, since January 1982 as an industrial engineer with U.S. Civil Service rating. Since January 1983, Ms. DeRamus has been teaching mathematics for computer science two evenings a week at Bowie State College, Bowie, Maryland. During the spring 1983 semester, she completed two of the three prerequisite courses in the Master of Engineering degree program at GW. She will begin her doctoral program in the fall semester.

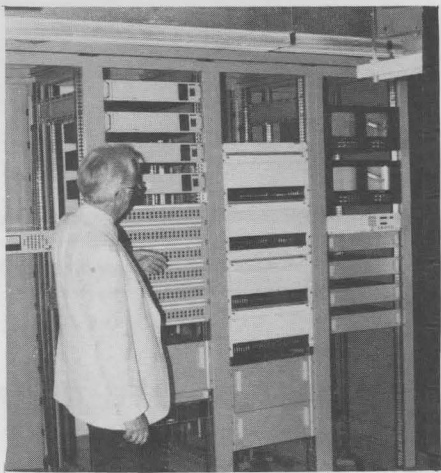

Rosa DeRamus

all other. According to senior staff, 55 percent of the senators and House members rely on the Post as the main source of news.

Michael Robinson, director of the survey and associate professor of politics at the Catholic University of America, thinks the biggest surprise is the "clear dominance of newspapers over television as the source of news in Congress, while the country increasingly relies on the evening news broadcasts for its political information. The policy makers on the Hill

continued on back

TV's COMING--In anticipation of turning on the power at GWTV's transmitter today, July 18, W. Lee Hunter, director of GWTV, examined engineering equipment in the station's control room in the third floor of the Academic Center's North Tower. GWTV is scheduled to begin operation after a ribbon-cutting ceremony on Monday, August 29.

continued from front

still heavily depend on print."

Maura Clancey, assistant director of the survey, finds another surprise to be the diminished importance of the New York Times as the main news source for policy makers. According to Clancey, House members and senators are four times more likely to rely on the Post than the Times.

Both Robinson and Clancey conclude that the alleged hostility between the press and Congress is overstated. Only eight percent of those sampled expressed clear hostility or resentment against the media, while six percent felt the national press to be dishonest.

The researchers said that staffers claim to spend an average of two and one-half hours per day watching, reading, or listening to the national news media. Even if this figure is inflated, the research shows that daily print media dominates daily broadcast while the Post dominates everything--print and broadcast.

ARMS CONTROL AND DISARMAMENT AGENCY COLLECTION ON LOAN TO MELVIN GELMAN LIBRARY

The United States Arms Control and Disarmament Agency (ACDA) has placed an important portion of its collection on loan to the university in the Gelman Library. The materials, to which the agency will retain access, are housed in the Special Collections Division, Room 207. The hope is that this cooperative arrangement between George Washington and ACDA will contribute to greater scholarship and better understanding of the important issues in the field of arms control.

Included in the collection are books, monographs, unclassified ACDA publications, reports of research conducted by ACDA contractors, Congressional documents, documents of international disarmament conferences and pamphlets. The collection does not circulate. For further information, call Special Collections, Ext. 7549.

GUIDANCE COUNSELORS

SUMMER INTERNSHIPS

The D.C. Public Schools and the Institute for Educational Leadership (IEL), through a grant from the Ford Foundation, are placing guidance counselors in positions with the private sector to provide the counselors with a first-hand opportunity to see how employers function, what is expected of their employees and what skills are needed at entry level. Currently, many counselors feel that their training is primarily geared to advising only college-bound students.

The cost of employing the counselors will be shared by IEL, D.C. Public Schools and participating employers. The cost for interested GW departments will be \$480 for six weeks, \$320 for four weeks. Departments interested in participating in the program are asked to contact Stuart Skog, Personnel Services, Ext. 7317.

NEWSNOTES

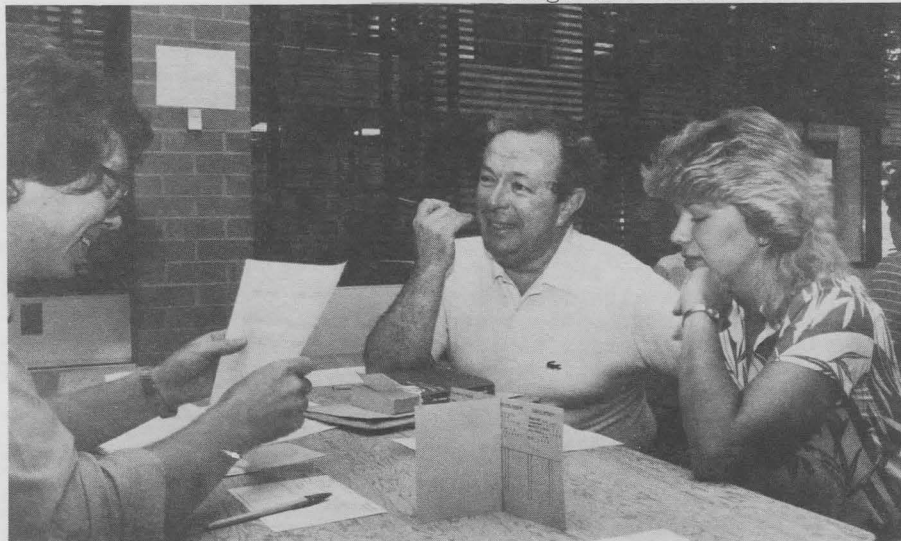

THE READING CENTER was featured in the hour-long Joel Spivak NBC Radio "966 Talk Show" June 16. FLORENCE HESSER, Reading Center director, and NINA TRAUB discussed severe reading problems. Dr. Truab, author of Recipe for Reading and well-known teacher of reading, participated in a two-week workshop (June 6-17) as lecturer in education in the center's first Summer Reading Institute, which was organized by Dr. Hesser.

PUBLICATIONS

JONATHAN CHAVES, associate professor of Chinese, an article, "Translations from Liu E (1857-1909)," the first translations of some recently discovered poems, by a famous Chinese novelist, in The Hudson Review, Summer 1983, pp. 279-286.

ROY J. GUENTHER, associate professor of music, a book, Musorgsky's Days and Works: A Biography in Documents, by Alexandra Orlova, translated from Russian and edited by Roy J. Guenther, July 1, 1983, UMI Research Press, Ann Arbor, Michigan. The book is number 4 in the series Russian Music Studies.

MARVIN S. KATZMAN, assistant professor of business administration, an article, "When Robots Dominate the U.S. Workplace," in Supervisory Management, June 1983.

SARP--Katherine Thompson, right, an entering freshman from New Jersey, and her father, John Thompson, center, talked with Assistant Professor of Sociology Richard S. Frey at one of the recent Summer Advance Registration Program advising sessions. Nearly 500 freshmen were registered for fall semester 1983 during the program.

SPEECH AND DRAMA

BECOMES TWO DEPARTMENTS

The Department of Speech and Drama was divided into two departments effective July 1. The Department of Communication and Theatre will be chaired by Associate Professor of Speech Alan G. Wade and will be located in Lisner Auditorium B 10. The Department of Speech and Hearing will be chaired by Professor of Speech and Hearing Lloyd S. Bowling and will be located in Building C, Room 425. The change was announced by Provost and Vice President for Academic Affairs Harold F. Bright.

MICHAEL METZGER, assistant professor of economics, and Robert Goldfarb, professor of economics, an article, "Do Davis-Bacon Minimum Wages Raise Product Quality?" in Journal of Labor Research, Vol. IV, No. 3, Summer 1983, pp. 265-273.

AHMED K. NOOR, professor of engineering and applied science, a paper, "Potential of Minicomputer/Array-Processor System for Nonlinear Finite-Element Analysis," with Greg A. Strohkorb, published as NASA TM-84566, June 1983, also to appear in Computers and Structures; a paper, "Hybrid Perturbation/Bubnov-Galerkin Technique for Nonlinear Thermal Analysis," with Chad D. Balch, published as NASA TP-2145, June 1983, also to appear in AIAA Journal.

PROFESSIONAL ACTIVITIES

SHARON BLOCK, director of the publication specialist program, CCEW, attended the annual meeting of the Association of American University Presses in Minneapolis, June 12-15. Ms. Block was a panelist on a session entitled "Training Programs for Publishing".

MARY FINDLEY, studio lecturer in violin, made her solo debut in New York in Carnegie Recital Hall, Thursday, June 16. She gave an all-American program in works for violin and piano. In a review of her performance, the New York Times said, (Sunday, June 19) "Miss Findley plays with intelligence and a steady intonation."

RAYMOND R. FOX, professor of engineering and applied science, presented a paper, "Design and Construction of

Flood Resistant Structures," at the National Hurricane Conference in Tampa, Florida. He also served as a panel member for a workshop on "Vertical Evacuation and Building Codes" and discussed the need for improved building codes.

AHMED K. NOOR, professor of engineering and applied science, presented a paper, "Mixed Models and Reduction Techniques for Large-Rotation Nonlinear Problems," at the Symposium on Recent Developments in Computing Methods for Nonlinear Solid and Structural Methods in Houston, Texas, June 20-22. The paper was published in "Computational Methods for Nonlinear Structural Mechanics," edited by S.N. Atluri and N. Perrone, ASME AMD Vol. 54, 1983, pp. 155-180.

PHYLLIS M. PALMER, assistant professor of women's studies and of American civilization, participated as a judge in the annual National History Day competition of middle school and high school students who had come to the national finals from city- and state-level competitions. She judged in the junior media (slide/tape) division semifinals held at the University of Maryland on June 16.

ROBERT C. WATERS, professor of engineering administration, gave two presentations at the annual conference of the American Society for Engineering Education, held at the Rochester Institute of Technology June 19-23. He spoke on his experience teaching the course Administration of Research and Development, at George Washington and also on the GW Engineering Administration Program's philosophy and trends.

MAIDA WITHERS, associate professor of human kinetics and leisure studies and artistic director for The Dance Construction Company, took part in a special event June 24 at noon combining dance, music and water sculpture at the Western Plaza, Pennsylvania Avenue between 13th and 15th Streets, NW. The performance was described as a site-specific work, related to the plaza.

PERSONNEL NOTICES

ASSISTANT VICE PRESIDENT AND ASSISTANT TREASURER, Office of the Vice President and Treasurer. (Responsibility for administration of contracts and estate/trust matters, management and financial reporting systems, corporate insurance applications and legal affairs. B.S. in business administration required, M.B.A. preferred. At least 10 years of increasingly responsible experience in areas listed above.) Send resume (marked "personal") to Vice President and Treasurer, GWU, 2121 Eye St., NW, Washington, DC 20052.

RESEARCH ASSISTANT, Infectious Disease Research Laboratory. (B.S. in microbiology, biochemistry or related fields. The major focus of the laboratory is the study of the phagocytic function. Other areas of interest include antimicrobial susceptibility testing and animal model of human infections. Knowledge of immunology and experience with assays of immunologic function required. Experience with laboratory animals desirable.) Contact Dr. Simon, Department of Medicine, Ext. 4717.

George Washington University is an equal opportunity/affirmative action employer.

GW IS REPRESENTED IN CENTER AT LUTHER RICE HOMESITE

The George Washington University is prominently represented by a large panel display at the Center for Missions and Training at Northborough, Massachusetts, owned and operated by the Home Mission Board of the Southern Baptist Convention. The center is located on land in Northborough that was the homesite of Luther Rice, an important Baptist missionary and a founding father of The George Washington University.

Rice was born on the farm in 1783. The Southern Baptist Home Mission Board purchased the land in the mid-1960s and the central homesite was reserved for the development of the center. It includes a two-story house of federal design, a barn and a blacksmith shop. The furniture and design of the main floor of the house reflect the early 19th century.

The theme of the GW exhibit is "Realization of a Dream" and highlights the part played by Luther Rice in the university's history. There are sections of text on the beginnings, the continuation, and The George Washington University in the bicentennial year of Luther Rice's birth. Eight drawings and photographs show university buildings from 1820 (College Hill) to the present (the Academic Center).

The center was dedicated in ceremonies June 18. Dr. Robert G. Jones, university marshal, represented The George Washington University at the occasion. A committee of four, appointed by President Lloyd H. Elliott, planned the five by eight-foot exhibit, which was executed by Design and Production of Alexandria and moved to Massachusetts by GW Transportation. The committee consisted of Dr. Jones, Curator of Art Lenore D. Miller, Professor of Art and Chairman Lillian F. Robinson and GW Report Editor Jane Lingo.

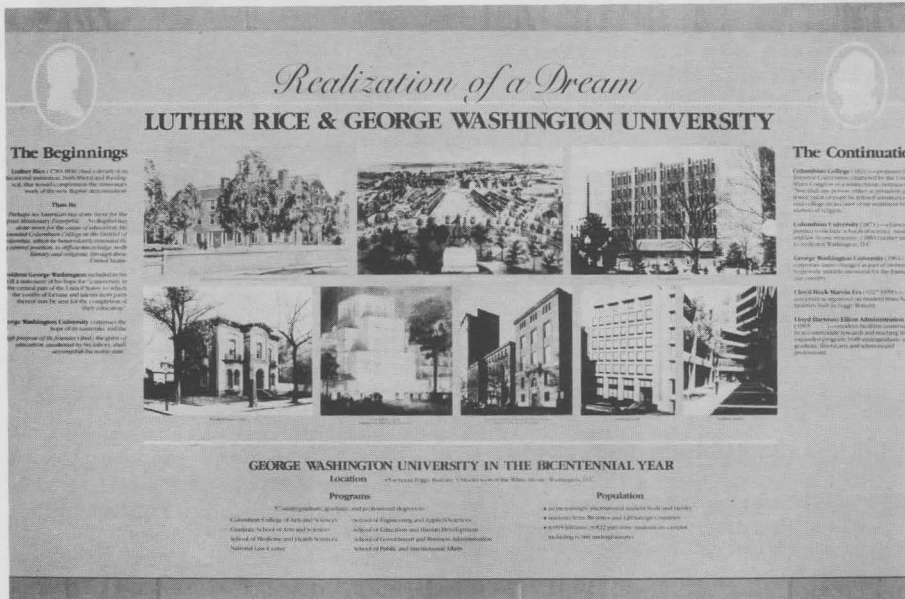

Copies of University Historian Elmer Louis Kayser's pamphlet "Luther Rice: Founder of Columbian College" were distributed at the dedication ceremonies.

BARRY MANILOW CONTRIBUTES \$5,000 TO GW MUSIC DEPARTMENT

Singer/songwriter Barry Manilow has contributed \$5,000 toward the establishment of an endowed scholarship in his name in the university's Department of Music. The endowment is one of several Manilow is making to university music departments in cities where he performs regularly.

According to Music Department Chairman Roy J. Guenther, the scholarship will be awarded annually to a student "who shows strength in performance. The endowment fulfills Barry Manilow's desire to make a lasting contribution to the world of music." (Manilow studied at the New York College of Music and at the Juilliard Academy.) Guenther said George

GW'S Exhibit in Northborough, Massachusetts

LEWELLYN JENNINGS AND THORNTON OWEN, HONORARY TRUSTEES DIE IN MAY, JULY

Two honorary trustees, Lewellyn Jennings and Thornton Owen, died May 23, and July 4, respectively.

Trustee Jennings became a member of the Board of Trustees January 20, 1966, and served for 14 years until July 1, 1980, when he became an honorary trustee.

As a board member, he served as a member of the Executive Committee, the Committee on University Development, the Medical Center Committee and as a member, then chairman of the Committee on Financial Affairs.

Mr. Jennings, who was 76 at the time of his death, was board chairman and chief executive officer of Riggs National Bank from 1963 to 1973. He continued to serve on the bank's board of directors until 1979. Born in Birch Tree, Missouri, he was reared in Silver Creek, New York, and began his banking career there in a part-time clerical job at Silver Creek National Bank while he was still in high school. His entire career was in the field of finance. A financial intelligence officer with the Army in Europe during World War II, he rose from private to captain and was awarded the Legion of Merit. He was active in professional organizations and devoted time to civic and charitable work.

Trustee Owen became a member of the board on July 1, 1967, and served for the next 12 years becoming an honorary trustee July 1, 1979. On the board he served continuously on the Committee on Financial Affairs, five years as a member, five years as vice chairman and the last two years as chairman.

Mr. Owen, 79, was a retired president and board chairman of the Perpetual American Federal Savings and Loan Association. He became director emeritus in 1979. A native of Washington, D.C., and a graduate of McKinley Tech High School, he earned a bachelor's degree in civil engineering and business

administration from Massachusetts Institute of Technology. Around 1930, he joined Thomas J. Owen & Son Inc., real estate auctioneers and appraisers. He was its president for 23 years before becoming president of Perpetual. He was a leader in business, civic and charitable endeavors in the Washington area for many years. He was named the Washington Board of Trade's 1971 Man of the Year. He received a 1967 Distinguished Service Award from the Cosmopolitan Club.

A July 6 Washington Post editorial, titled "Thornton Washington Owen," said of him, "Straightforward, unusually accessible, and able to recognize the growth, power and meaning of local government, Mr. Owen always worked with concern for the future of Washington--and the yields have been tangible and great."

Dr. PHYLLIS L. STEWART, professor of sociology and chairman, center, was presented a certificate of appreciation from the American Red Cross in a July 26 ceremony in President Lloyd H. Elliott's office. She is shown with President Elliott and Mrs. Louise Corrado, left, chairman of Red Cross volunteers. Dr. Stewart served from July 1977 to June 1983 as volunteer chairman of Red Cross Nursing and Health Services.

GW TV IS TWEAKING UP

Fine tuning is the order of the day at the newly powered GW TV station under the direction of W. Lee Hunter. The power was turned on at the station at 10:30 am, Friday, July 29. Now engineers and technicians are monitoring test signals, making adjustments, and studying equipment performance at the station master control on the third floor of the Academic Center. "You keep working until you get those needles on the dials just where you want them," says Hunter.

The station's official opening day will be Monday, August 29.

Courses will be offered in electrical engineering, computer science, administrative management, and the information systems specialist program. During this first semester of television instruction, the programs will be received in the facilities of at least four large institutions around the Washington area, including NASA, COMSAT, the Naval Research Laboratory and Melpar Company. Tuition-paying students at these locations make up the audience initially targeted by GW TV.

OLDIES BUT GOLDIES

The Gelman Library is hosting an exhibit of old records through the end of August. The display outlines the transition from acoustical to electronic recording, and the different types of 10- and 12-inch records, through the advent of the LP. Audio cassettes of the records in the display are in the library's Reserves/Media Resources section, and you can hear a wide selection from Fats Waller's "Havin' a Ball" to "The National Game March" with Sousa's Band. The records are on loan from Eric K. Federling (B.A. 1982).

BARRY MANILOW-

continued from front

Washington was selected by Manilow because of the entertainer's high regard for the GW Music Department.

Manilow's endowment is the first ever to be made to George Washington by a currently popular performer. Guenther commented that the "generous gift is especially welcome because so many of our music students are supported through financial aid. We hope his generosity will serve as a catalyst to attract additional support from our alumni and friends."

Nominations for recipients of the Barry Manilow Endowment will be submitted by the Music Department chairman and a faculty committee will then participate in the selection process, along with Mr. Manilow. Although award of the endowment will be based on merit, financial need will be taken into account. Recipients must be enrolled in the department and be well-rounded individuals with strength in music performance.

31 YEARS TO PERFORMANCE

For George P. McCallum, summer lecturer in the Program of English for International Students, a homework assignment from thirty-one years ago has come full circle. As a student in the English Department in 1952, McCallum wrote an autobiographical novel, *The Last Summer*. The manuscript was tucked away until Dr. Melvin R. White, of the University of California, asked McCallum to adapt his novel for an anthology of readers' theater plays that Samuel French Inc. planned to bring out. McCallum wrote the play version, and the anthology was published. This spring the Music and Theater Branch of the Morale Support Division at Ft. Polk, Louisiana, chose McCallum's play as its entry in the annual Festival of the Performing Arts competition held among military bases across the nation. On June 24, McCallum flew to Ft. Polk to attend the final two performances of "The Last Summer." This was the first production of his play the author had seen. He commented that it seemed appropriate to attend a performance this summer while teaching at GW--where it all began.

GW TOASTMASTERS CLUB

RANKED FIFTH IN WASHINGTON

The GW Toastmasters Club ranked fifth for 1982 among the 182 toastmasters clubs in the Washington metropolitan area. Criteria for ranking included the number of new club members, club activities and educational development.

Steven H. Schiff, former university fellow and graduate teaching assistant in the Political Science Department, was chosen outstanding club president for 1982 from among all 182 Washington area toastmasters club presidents. The GW Toastmasters Club and Schiff were honored at the June 14 annual awards luncheon of the District Toastmasters. For Toastmasters information, call Steven H. Schiff at 296-8773.

BLOOD DRIVE RESPONSE

GETS A "THANK YOU"

On behalf of the Red Cross, the Student Activities Office and the Student Health Services would like to thank the George Washington University community for its participation in the 1983 Summer Blood Drive.

ASSISTANT UNIVERSITY LIBRARIAN FOR PUBLIC SERVICES APPOINTED

Patricia M. Kelley has been appointed assistant university librarian for public services. This is a new post which includes responsibility for directing the library's public services departments of reference, media reserves, current periodicals and circulation. Ms. Kelley assumed the position in mid-July.

Before coming to George Washington she had 12 years of professional library experience as assistant director for public services at Northern Illinois University Libraries at DeKalb, Illinois. She received her Master of Library Science degree from the University of Maryland in 1971. She also holds an M.A. in Russian Area Studies from The George Washington University (1978).

SUMMER STUDIES PROGRAM OFFERS TOUR OF GEORGETOWN WATERFRONT

The Washington Area Summer Studies Program is offering a walking tour of the historic Georgetown Waterfront area on Thursday, August 18. The group will meet at 5 pm at Grace Church, 1041 Wisconsin Ave., NW. Ann Satterthwaite will lead the tour. There will be a discussion linking present issues of conservation with historic development. Call the American Studies Department, Ext. 6070, for reservations. The cost is \$5.

GELMAN LIBRARY SUMMER-FALL 1983 INTERSESSION SCHEDULE

The Gelman Library schedule from August 26 through September 5, Labor Day, follows: August 26, Friday, 8:30 am to 5 pm; August 27 and 28, Saturday and Sunday, closed; August 29 and 30, Monday and Tuesday, 8:30 am to 5 pm; August 31, September 1 and 2, Wednesday through Friday, 8:30 am to 7 pm; September 3, 4 and 5, Saturday through Monday, closed.

NEWSNOTES

GRANTS

WILLIAM J. BRISCOE, assistant professor of physics, a National Science Foundation grant of \$53,890 for research on the nuclear and particle physics properties of light nuclei.

DONALD M. ESTERLING, professor of engineering, a National Science Foundation research grant of \$84,700, for a study on solid solution strengthening and weakening.

DONALD GROSS, professor of operations research, \$76,667 from the National Science Foundation for an investigation of closed network queueing theory and discrete optimization techniques for multi-echelon repairable item inventory control.

STUDENT ASSOCIATION-CITY COUNCIL LUNCHEON--L to R, Richard Clark, representing City Council Chairman David Clarke, City Council member Betty Ann Kane, GW Student Association President Bob Guarasci, and GW junior Robin Most, were photographed after the July luncheon for City Council members sponsored by the Student Association, attended also by City Council member Hilda Mason and representatives of Mayor Barry and Councilmen Jerry Moore and John Wilson. There was a wide-ranging discussion of student and city-related issues.

Patricia M. Kelly

DONALD GROSS, professor of operations research, and DOUGLAS R. MILLER, associate professor of operations research, a \$59,964 research contract from the Department of Defense/Naval Research, to study stochastic modeling and solution techniques in a time-varying environment.

RITA IVES, professor of special education, a Department of Education training grant of \$63,140, for psycho-educators of the seriously emotionally disturbed adolescent.

JOHN LACHIN, research professor of statistics, a \$347,578 DHHS/NIH/NIADDK research contract for a data coordinating center for a collaborative clinical trial.

HAROLD LIEBOWITZ, professor of engineering and dean, School of Engineering and Applied Science, a \$304,720 grant for a core program in JIAFS and a \$101,450 grant for the research program in flight sciences, both from NASA-Langley Research Center.

DONALD C. LINKOWSKI, professor of education, \$234,404 from the Department of Education for the regional rehabilitation continuing education program.

KHALID MAHMOOD, professor of engineering, \$135,125 from the National Science Foundation, for prototype research on alluvial channels in irrigation canals and medium size rivers.

WILLIAM H. MARLOW, professor of operations research, a \$170,000 research contract for assessment of the readiness of Naval and Marine Corps units, from the Department of Defense/Naval/Office of Naval Research.

WILLIAM H. MARLOW, professor of operations research, and ROLF CLARK, research professor of operations research, \$170,000 for resource dynamics research from the Department of Defense/Naval/Office of Naval Research. The research will result in an improved means of rapidly projecting Navy resource needs and their associated levels under varying fiscal environments.

WARD DOUGLAS MAURER, professor of engineering and applied science, a \$53,020 research grant to participate in the International Business Machines Corporation's project to create a set of standard practices and educational modules useful for the inspection process of software code.

RICHARD E. MERRITT, director of the Intergovernmental Health Policy Project, \$367,843 from DHHS/PHS/Health Care Financing Administration.

DOUGLAS R. MILLER, associate professor of operations research, a research grant of \$99,760 from the National Aeronautics and Space Administration-Langley Research Center, for research on software reliability models for fault-tolerant avionics.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, a research contract of \$63,771 from the Department of Defense/Naval/Office of Naval Research to develop a coding approach to multi-user communications networks in local data.

DAVID E. RAMAKER, professor of chemistry, \$50,174 from the Department of Defense/Office of Naval Research/Naval, for research on the quantitative interpretation of auger lineshapes.

RICHARD SOUTHBY, professor of health services administration and health care sciences, a training grant for \$72,828, and one for \$50,929, from HHS/PHS/HRSA, both for graduate programs in health administration.

PUBLICATIONS

CHRISTOPHER JOYNER, assistant professor of political science, an article, "New Nationalism and Use of Common Space," in *Northwestern Journal of International Law and Business*, Vol. 5, Spring 1983, pp. 176-182.

MAUREEN KEARNEY, staff psychologist at the Counseling Center, an article, "Investigations of Sex Differences and Consistency of Factor Pattern on the Adult Nowicki-Strickland Internal Control Scale," in *Journal of Clinical Psychology*, May 1983, pp. 416-421.

PERSONNEL NOTICES

ACADEMIC COORDINATOR, Departments of Men's and Women's Athletics. (B.A., M.A. preferred. Commitment to academic values and intercollegiate athletics. Advising or teaching experience preferred. Set up a pilot program to develop an academic support system for student athletes, including diagnostic testing, tutorial services, academic advising, monitoring, and eligibility.) Send resumes to Steve Bilsky, Director of Men's Athletics.

PROJECT COORDINATOR, Department of Statistics, Biostatistics Center. (B.S. plus three years related experience. Assist principal investigators in coordination and administration of several medical research projects.) Resumes to Susan Ligon, Biostatistics Center, 7979 Old Georgetown Rd., Bethesda, Md. 20814.

RESEARCH ASSISTANT, half-time, Department of Biochemistry. (B.S. in biology or chemistry. Biochemical studies of neural and neuroendocrine peptides and their receptors. Previous experience in the use of radioisotopes required.) Contact Dr. Terry Moody, Department of Biochemistry, 2300 I St., N.W., Washington, D.C. 20037.

GW TELEVISION STATION OPENS PRESIDENT ELLIOTT CUTS RIBBON

"The ways in which television and telecommunications can affect higher education are limited only by the imagination," President Lloyd H. Elliott said at the August 29 opening of the George Washington University Television Station. The opening ceremony formally inaugurated the station following months of planning.

Annette Samuels, Mayor Marion Barry's press secretary, brought greetings and said that the Mayor is glad that the GW Television Station will provide the city of Washington with greater educational opportunities.

GW Board of Trustees Vice Chairman Everett H. Bellows, representing the Board, presented a plaque engraved "in recognition and appreciation of Lloyd H. Elliott, Fourteenth President of The George Washington University, whose vision and support, and W. Lee Hunter, first general manager of this facility, whose planning and direction have made possible The George Washington University Television." Dean William F.E. Long of the Division of Continuing Education and Summer Sessions, who presided at the ceremony, said the plaque would be inscribed with the date of August 29, and would hang in the television studio.

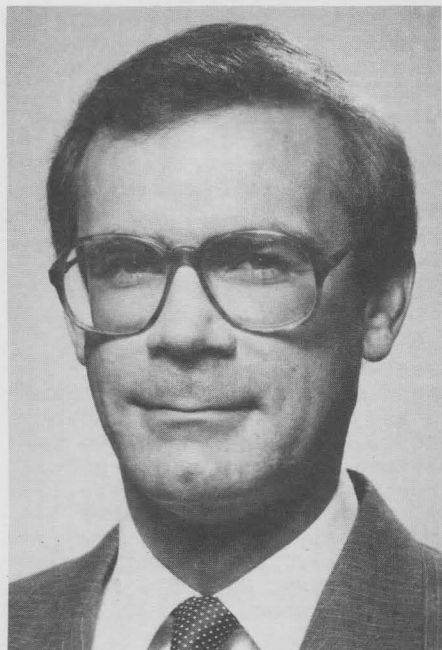

A full schedule of course offerings will be broadcast on two of the system's four separate television channels beginning Tuesday, September 6. The station will be on the air from 1 pm to 10 pm daily for the first four months of operation.

Initial concentration is on the broadcast of 15 three-

NY TIMES GUIDE FAVORABLE TO GEORGE WASHINGTON THIS YEAR

New York Times Education Editor Edward Fiske has increased the "stars" for GW in the new issue of his guide to undergraduate education. The book is to be published later this month. We'll have fuller information in the next issue of the GW Report.

Michael J. Worth

GW TV OPENING--L to R, University Trustee Everett H. Bellows, Dean William F.E. Long, President Lloyd H. Elliott.

V.P. LOUIS H. MAYO JOINS JUSTICE BURGER ON PRISON TOUR

George Washington University Vice President Louis H. Mayo recently returned from a tour of Danish and Swedish prisons. The tour group included U.S. Chief Justice Warren E. Burger, Senator Mark Hatfield (R Ore.), Representative Robert Kastenmeier (D Wis.), Utah State Representative Mark Snow, and Norman Carlson, director of the Federal Bureau of Prisons.

Justice Burger initiated the trip as part of a plan to investigate alternative prison programs. After speaking on prison reform at the National Law Center in 1982, he discussed the possibility of developing a center to study correction alternatives with University President Lloyd H. Elliott.

In his 1982 report on the Judiciary, Justice Burger

stated that the large increase in prison population may lead to more prison riots in the near future. Forty-one states are facing court orders to reduce prison crowding. Experts estimate that \$10 to \$15 billion worth of new prisons must be built in the United States during the next decade. Two billion of this construction is now in progress.

To follow up on the study of Scandinavian prisons, the university is considering a conference on prison reform in 1984. The tour group studied the Scandinavian concept of prisons as "factories with fences" in comparison with the American model of so called "warehouse" prisons. Danish and Swedish prisons emphasize training and education of inmates in marketable skills to prepare them for future employment, and to help defray the cost of their incarceration and the support of their dependents.

MICHAEL J. WORTH APPOINTED VICE PRESIDENT FOR DEVELOPMENT

President Lloyd H. Elliott has announced the appointment of Michael J. Worth, Ph.D., as vice president for development, succeeding the recently retired Dr. Seymour Alpert.

In making the announcement, President Elliott said, "Dr. Worth brings an impressive record of success in fund-raising and institutional advancement to our university. I am confident that Mike Worth is the right man at the right time for this very important job at GW. I eagerly welcome him to this leadership position so ably filled by Sy Alpert over the last 14 years, and I look forward to continuing our outstanding program of university development."

Dr. Worth will assume his responsibilities at George Washington September 12. Beginning then the Office of Alumni Relations and the Alumni and Development Records

unit will report to the Office of the Vice President for Development. For the past five years these offices were assigned to the Student Affairs Division of the university.

Dr. Worth comes to the university from the position of director of development at the University of Maryland, College Park where he was chief development officer with responsibility for planning and direction for fund-raising programs for ten professional schools and colleges, as well as for the University of Maryland's 25 research units.

In accepting the appointment, Dr. Worth said, "As a major high quality private university located in the heart of the nation's capital, GW has an important role in American higher education and an exciting future. I am pleased to have the opportunity to work with

SECRETARY OF EDUCATION BELL SPEAKS AT OPENING CONVOCATION

The Honorable Terrel H. Bell, Secretary of Education, will give the keynote address at the university's Opening Convocation in the Marvin Center Theatre on Monday, September 5, at 1:30 pm. He will receive the honorary degree of Doctor of Public Service.

GW Board of Trustees Chairman Glen A. Wilkinson will present Secretary Bell for the degree. Dr. Anthony Cardinale (Ed.D. 1966) director of Section Six Schools and other Defense Educational Programs, Office of the Assistant Secretary of Defense, and a 1983 recipient of an Alumni Achievement Award, will present the secretary for the keynote speech. Gail Riina, chairperson of the Board of Chaplains, will give the invocation and benediction.

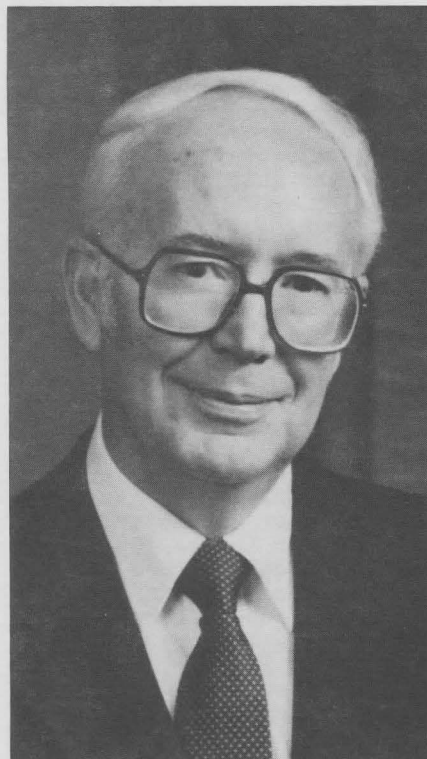

President Lloyd H. Elliott will give remarks at the convocation and those bringing greetings to the students, faculty and staff in attendance will be GW Student Association President Bob Guarasci, Faculty Senate Executive Committee Chairman John A. Morgan and GW Trustee and General Alumni Association President Nancy B. Dudley.

Master of ceremonies for the convocation will be Alison M. Rottmann, president of Omicron Delta Kappa, leadership society.

Roy J. Guenther, associate professor of music, will provide a musical selection, a trombone solo, "Cavatine," by Saint-Saens. Frank Conlon, adjunct assistant professor of music, will accompany him on the piano.

Alan G. Wade, associate professor of communications and theatre, will do a short reading from the university's earliest statement of student rights and responsibilities.

The platform party will be made up of representative student leaders, and members of the faculty, administration and the Board of Trustees. The program is expected to last an hour.

Secretary Terrel H. Bell

GW Television Opens,
Continued from front

hour college courses in computer science, electrical engineering, administrative management, and management information systems. Expansion plans include the possibility of wide-ranging programming in the humanities, medical, social sciences, law, news and public affairs, and cultural areas.

First users of the new station will be students receiving credit and certificate courses at corporate locations in the greater Washington area, including Melpar/E-Systems and the Naval Research Laboratory. The National Aeronautics and Space Administration (NASA) will transmit GW Television programming via satellite to locations in Texas, Virginia, Florida, and California.

Programs will be relayed on the ITFS (Instructional Television Fixed Service). ITFS is received the same way as VHF (Very High Frequency, channels 2-13) and UHF (Ultrahigh Frequency, channels 14 and above), with the aid of a special antenna.

Two-way audio will enable students to talk directly with professors both during and after class. The station's two studios will be enhanced with field-produced video, electronic graphics, and videotape editing.

In the future, GW Television will use all four of its channels by expanding course offerings, program suppliers, and potential markets. Consideration is being given to linking the university with local and federal government agencies and with business and professional organizations.

President Elliott said, "Television will bring education to students in their homes or at community-based sites, and courses can be available for telecast via satellite regionally, nationally, and internationally. We are proud of our good beginning and look forward to appropriate future expansion."

LABOR DAY FESTIVAL 1983

In addition to the Opening Convocation Monday, September 5, other events of the day will include a picnic, project visibility and a program board extravaganza.

A "Picnic on the Block" will be held on 21st Street from 11:30 am to 1 pm. Planners offer all you can consume for \$2.

A Project Visibility Activities Fair, also on 21st Street, will feature interesting displays by GW student organizations between noon and 2 pm.

The Program Board has planned an extravaganza to be held on the Quad.

PROFESSOR SCHWARTZ TO OPEN

FIRST WEDNESDAY LECTURE SERIES

The need and proposals for federal legislation for compensating victims of toxic substances will be discussed by Professor of Law Teresa M. Schwartz on Tuesday, September 6, at 8 pm in Room 410-415, Marvin Center.

Professor Schwartz is the first speaker in the 1983-1984 First Wednesday Lecture Series, sponsored by the Alumni Relations Office. (This opening lecture has been scheduled on Tuesday, to avoid conflict with a religious holiday on Wednesday.) There is no charge for the lecture but those planning to attend should call Ext. 6435 to reserve a space. Dinner for both members and non-members will be available in the GW University Club beginning at 6:30 pm. Call Ext. 6610.

UNITED WAY--Pam Smith, assistant to the vice president, Policy Studies and Special Projects, left, received a United Way Coordinator Award for 1981-82 at the recent United Way awards luncheon. She is shown with co-chairman James E. Clifford and Leslie G. O'Bryant, senior secretary, Personnel Services, who received an award as University Coordinator, 1981-82.

SOURCE BOOK IN AMERICAN STUDIES GW SCHOLARS' WORK

The former editors of American Studies International, a scholarly journal published at GW, have just completed a two-volume bibliography of sources on American civilization. Sources For American Studies, edited by Jefferson B. Kellogg, (M.Phil., American Civilization, 1980), and Robert H. Walker, professor of American civilization, has been released by Greenwood Press. The current volume supplements the earlier work American Studies: Topics and Sources, edited by Walker for Greenwood Press in 1971. Together the two books are said to make up the most extensive and inclusive bibliography compiled for American studies. The following GW faculty members and alumni contributed to the collection: Amiri Baraka, former Jenny McKean Moore visiting professor; James Broderick, adjunct professor of English; Martin Gordon, former university teaching fellow; Bernard Mergen, professor of American civilization; Arthur S. Miller, professor emeritus of law; Saunders Redding, former professor of American history and civilization; Dewey D. Wallace, professor of religion; Wilcomb Washburn, professorial lecturer in American civilization; Dana White, former teaching fellow; and Joanna Schneider Zangrando, former visiting professor of American civilization.

JUMP START STICKERS

The Office of Safety and Security is distributing stickers describing the safe way to jump-start a car. The stickers can be placed on the underside of the hood for easy reference.

Stickers are available from the Safety Office on the second floor of Woodhull House, 2033 G Street, N.W.

Michael J. Worth,
Continued from front

President Elliott, the Trustees, faculty, alumni, and friends of GW in continuing the growth and development of this outstanding institution."

Dr. Worth received his doctorate in education from the University of Maryland in 1982. His doctoral work focused on the relationship between university-related foundations and their host institutions.

Earlier he was director of development and public relations at Allentown College, in Allentown, Pa. Prior to that, he served as assistant to the president of Wilkes College, in Wilkes-Barre, Pa. At Wilkes College, he also held a faculty appointment in the Department of Economics.

A resident of Columbia, Maryland, Dr. Worth and his wife Helen have two children, 12 and 8 years of age.

GW UNITED WAY VOLUNTEERS THANKED AT LUNCHEON

At a United Way awards luncheon in the GW University Club on August 18, volunteers who worked in the 1981 and 1982 GW campaigns were recognized.

President Lloyd H. Elliott welcomed the group and expressed his appreciation to them for their service to the GW and Washington communities.

James E. Clifford, director, Personnel Services, and Michael M. Barch, administrator, GW Medical Center, co-chairmen for the campaigns, presented awards.

United Way speakers were Richard King, director, District of Columbia United Way Campaign, and Marion Foster of the American Red Cross, loan executive.

New for this awards ceremony were the coordinator awards, given to those who assembled the groups of key workers. Gold awards went to those departments with an 85 percent response and an average contribution of \$30 a person. Silver awards went to departments with a 60 percent response and an average contribution of \$15 a person. University awards went to those departments with a 60 percent response without regard to a dollar amount.

George Washington University outdistanced all other area schools and universities for 1982. GW's 1981 United Way total was over \$91,000 and the 1982 total was in excess of \$114,000.

PERSONNEL NOTICES

RESEARCH ASSISTANT (half-time), George Washington University Medical Center. (Studies of Interferon-enhanced mononuclear phagocytosis in cord blood of premature infants. Experience in cell culture techniques, B.S. in Biology required.) Position available immediately. Contact: Dr. Spencer Brudno, Newborn Service, G.W. Medical Center, 901 23rd St., NW, Washington, D.C. 20037.

RESEARCH ASSISTANT, full time, Department of Biochemistry. (B.S. required. Basic knowledge of molecular biology and molecular genetics is desirable. Tissue culture work, acrylamide gel electrophoresis and nucleotides sequencing analysis.) Contact Dr. Ajt Kumar, Department of Biochemistry, 2300 Eye St., NW, Washington, D.C. 20037.

RESEARCH SCIENTIST (one-year post-doctoral research position), Department of Microbiology. (Ph.D. in Microbiology or Immunology. Research on hGG-producing bacteria and detection of mycobacteria by RIA.) Contact Dr. Lewis F. Aironi or Dr. Melvin Reich, Department of Microbiology, George Washington University School of Medicine and Health Sciences, 2300 Eye St., NW, Washington, D.C. 20037. Ext. 2907.

RESEARCH ASSOCIATE, Electrical Engineering and Computer Science, SEAS. (M.S. in Computer Science or equivalent prior experience. Will enhance, maintain, and distribute GWCORE, The George Washington University implementation of the SIGGRAPH Core System. Should be familiar with interactive programming, graphics software, and graphics hardware. Level of effort will be between 50-80% of full time.) Contact Professor James D. Foley at Ext. 4952.

RESEARCH ASSISTANT, ICU Research, (full-time responsibilities for management of large, complex patient data base containing both demographic and physiologic information. B.A. required with a scientific background, plus strong long-term computer skills, intimate working knowledge of SAS, and other advanced computing skills.) Position available September 15. Contact Netta Fedor, ICU Research, 2300 K St., NW, Washington D.C. 20037, Ext. 2611.

RESEARCH ASSISTANT, Department of Pharmacology. (B.S. in biology or related science. Experience in cell culture techniques, including cloning, media preparation, instrument and glassware preparation, staining techniques and use of medical libraries required. Familiarity with simple biochemical analyses and sister chromatid exchange techniques an asset.) Contact: Dr. Kennedy, Ext. 2957.

RESEARCH ASSISTANT, Intergovernmental Health Policy Project. (Assist the research associates in such activities as data gathering, survey work, and monitoring and summarizing legislation. Responsible for preparing brief annual summaries of recent trends in state legislation with respect to important health policy topics. B.A. or B.S. with some course work related to general health policy issues, or enrollment in M.A. program in public health or health care administration. Research or work experience within state or federal government helpful.) Contact: Richard E. Merritt, 2100 Pennsylvania Ave., NW, Washington, D.C. 20037.

RESEARCH ASSOCIATE (Halftime), Rehabilitation Research and Training Center, Department of Psychiatry and Behavioral Sciences. (The position includes work as training coordinator as well as research dissemination activities related to RTC research, including coordinating seminars, conferences and workshops, conducting personnel needs assessments, assisting with research dissemination activities, and preparing and marketing journal articles, books, videotapes, and films on RTC research. Master's degree and experience in rehabilitation required.) Send resume and letter to Dr. Donald Dew, Ross Hall #713. No phone calls.

TWO RESEARCH ASSISTANTS, (half-time), Department of Biochemistry. (Entails studies in the area of prostoglandin and leukotriene metabolism as related to pathogenesis and treatment of heart disease. B.S. required.) Available immediately. Contact: Dr. J.M. Bailey, Department of Biochemistry, 2300 Eye St., NW, Washington, D.C. 20037.

PRESIDENT ELLIOTT, CALLING EDUCATION A NATIONAL PRIORITY, PROPOSES FEDERAL LOAN PROGRAM

President Lloyd H. Elliott, in remarks following the address of Secretary of Education Bell at the September 5 opening convocation, called for placing education at the top of national priorities and proposed the establishment of a federal loan program based on need.

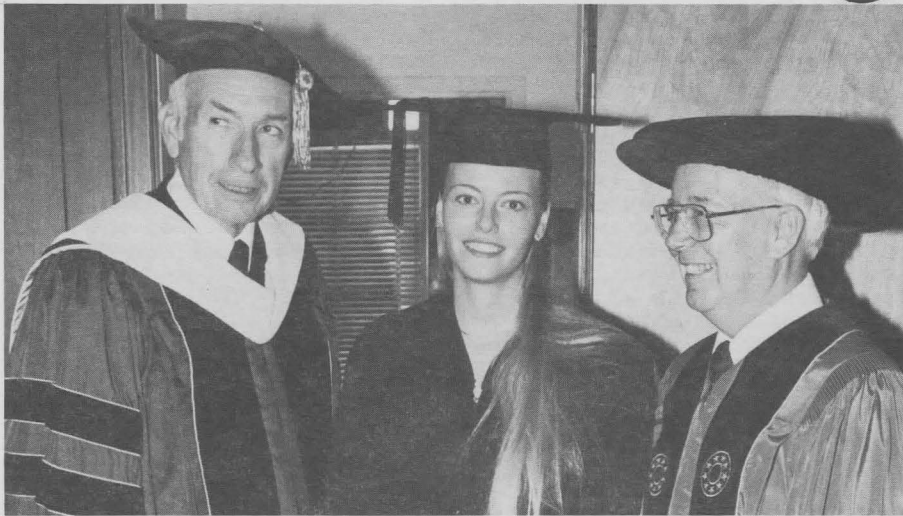

"Yes, we must defend our freedom, we must be strong in technology, we must have a strong economy," he said, "but neither these nor the many other areas in which we must maintain our strength can come about without the best educational programs in the world." Stating that he is convinced that we have a national crisis in education, he went on, "Our commitment as citizens, as parents, as teachers, must be accepted as a sacred trust—a trust that will require our sacrifice, our discipline and our full devotion." He said that parents cannot leave young children to the entertainment of television, that teachers cannot be responsible for the out-of-school education of their pupils and that communities cannot cast off the costs of education to other levels of government. "We may begin to resolve the crisis," he commented, "when families resume responsibilities for their children's activities and work actively in their neighborhoods and communities to protect their children from the drugs of the back alley and the crimes of the street corner and when families and students alike accept responsibility for such things as repayment of college loans."

In proposing the federal program, President Elliott said, "Too many capable, qualified students cannot afford higher education. To remedy this serious problem (in this land of equal opportunity) I propose that federal loans be used to assure formal college and university education for all."

He went on to say that such loans should be available on the basis of need and that under such a program with established need and demonstrated academic ability, a student's access to higher education would be assured. He emphasized that any student who used loan funds for all or any part of his or her higher educational program would accept full responsibility for complete repayment. "Such a loan agreement must be received by the borrower as a sacred trust—not to be delayed, disputed or forgotten."

"A government loan to a college student is an investment by fellow citizens in the life and service of another, usually—but not necessarily—a younger citizen. . . . If student loan programs were to become the bottom-line guarantee of access for all students to the college or university campus,

continued on back

BEFORE THE CONVOCATION, l to r, President Lloyd H. Elliott, Omicron Delta Kappa President Allison M. Rottman, and Secretary of Education Terrel H. Bell waited to march in the procession.

SECRETARY BELL ASKS "CAN WE BECOME A NATION OF LEARNERS?"

In a wide-ranging address at the September 5 opening convocation, Secretary of Education Terrel H. Bell raised the question "Can we become a nation of learners?"

Referring to the recent report of the National Commission on Excellence in Education, Secretary Bell said that the question of whether we, as a nation, can become a learning society is one aspect of the report that has not received much attention. "Every citizen in this nation should be encouraged to become a thoughtful, conscientious, well-informed participant in the affairs of government and the world at large," he declared. "In my view, the nation's many perplexing problems need the response of voters who have been avid readers and critical thinkers about what they read and hear on television. The commission's emphasis on the learning society comes at a time when the problems and complexities of self government are simply enormous. . . . So I emphasize that we must indeed become a nation of learners," he said. "I am convinced that out of our nation's new awareness of the needs of American education will come significant growth in our intellectual maturity. . . . What we must do is to educate each and every citizen to the full extent of their capacity and willingness to learn."

"What we need from higher education is the highest quality liberal arts program that you can establish and offer," the secretary stated. "I am concerned about the trend towards earlier and ever earlier entry of college students into job related specialization in our universities. I am proud to observe that George Washington has been resisting that trend as I see it. We must beware of the domination and crowding out of student time for the liberal arts because of the professional schools' constant propensity to press for ever more time."

"Of all places, we need leadership from GWU," he said. "For your own good and the good of all, you must see to it that tomorrow's teachers are true scholars. More than most, they need the liberal

arts. Then you will send them out into the world with commitment to academic excellence, to the ideals of life-long learning and imbued with a catching enthusiasm, able and willing to transmit their love of learning to a new generation of students."

"By virtue of your proud history and your geographic location, George Washington University has a special responsibility to teach the truth in its fullness as opposed to truth in its confined, checked, insufficient limitedness. . . . More than ever before in all our history we need to become a nation of learners. We need it for our very survival. We need it for our prosperity. We need it for effective performance of the high and sacred office of private citizen in this great republic. We cannot be intellectually slothful as individuals and expect government to function effectively and with integrity. Insight comes from knowledge and knowledge at the command of a bright, truly educated and discerning person will bring integrity to the government. All of this requires that we redouble our efforts again and again to create the learning society so eloquently described in the report of the National Commission on Excellence in Education."

Secretary Bell suggested that consideration be given to how the community of scholars that comprises the GW faculty could be of more assistance to the D.C. public schools, perhaps by putting together a coalition of D.C. universities that could work together in promoting education excellence in D.C. schools.

He made a number of references to the university's historic connection to our first president and to his vision of a national university in the capital. He spoke with approval of the "Lloyd Elliott years" and characterized the reach of George Washington University as "nationwide."

In conferring the honorary degree of Doctor of Public Service on Secretary

THREE SITES: GW'S HERITAGE, COLONNADE GALLERY EXHIBITION

Three historic sites in the Foggy Bottom area are the subject of "Three Sites: GW's Heritage," a historic survey exhibition in the third floor Colonnade Gallery of the Marvin Center which may be seen September 14 through October 31.

The three sites are the Lenthall townhouses, the Ray House (1925 F Street Club) and 2000 Pennsylvania Avenue, whose preservation and adaptive re-use form part of the architectural legacy GW shares with the community.

The exhibition describes how the Lenthall townhouses were moved (one of three historic structures known to have changed sites in the District of Columbia) and the completion of the investment project known as 2000 Pennsylvania Avenue. The university has preserved the important street facade as part of the university's heritage, functionally linking the activities of the new 2000 Pennsylvania Avenue building with the historic scale and character of the 2000 block of Eye Street. A portion of the exhibition which continues from the summer consists of 10 drawings of the 2000 block of Eye Street done over a period of six years in the Art Department's Advanced Drawing Techniques course.

Original signs, articles found during construction, an archeological report and street furniture are some of the artifacts in the exhibition. Architectural renderings and measured drawings of the historic buildings document the process of change. Colonnade Gallery hours are 8 am to 10 pm daily.

ALUMNI ACHIEVEMENT AWARD NOMINATIONS DUE SEPTEMBER 30

Nominations for individuals to receive Alumni Achievement Awards are due at Alumni House by Friday, September 30. The awards honor alumni who have an earned degree from the university and who have attained notable achievement in their field or fields of endeavor.

To make a recommendation, it is necessary to submit material to the Alumni Awards Committee. Forms are available from the Alumni Relations Office and as much supporting information about the nominee as possible should be included. An individual previously nominated who has not been selected as a recipient may be nominated again. All old and new supporting information should be included.

Nominations should be received by the Alumni Awards Committee, Alumni House, 714 21st Street, NW, by September 30, to be considered for presentation in February, 1984.

GW REPORT DEADLINE

Deadline for receipt of all material for GW Report is one week in advance of an issue.

*Secretary Bell,
Continued from front*

Bell, President Elliott spoke of him as "schoolmaster to the nation" and cited his "personal habit of quiet search for cooperation before confrontation" and "his unwavering commitment to excellence, never weakened by economic and political exigencies."

MORE ON SELECTIVE GUIDE TO COLLEGES 1984-1985

The George Washington University has received a better evaluation and more stars in the 1984-1985 Selective Guide to Colleges than it did in last year's book. Faculty, administrators, students and alumni who came forward last year with strong expressions of support for the university can now note the addition of stars in academics and social life, both of which received only two stars in the 1983-1984 guide. In the three categories in which the guide awards stars, academics, social life and quality of life, George Washington receives three stars each this year. Five is the maximum number of stars the guide gives.

A sampling of author Edward Fiske's 1984-1985 comments follows. "GW students are often 'achievers' who arrive in college knowing what they want and count on Washington to give it to them. The city's resources are, in the words of one student, 'utilized to the max' . . . Life in Washington means politics, so it's not unusual that the department of political science at George Washington is the school's most popular. Nearly half the faculty members, including many holding high-level government positions, work part-time at GW. As a history major points out, 'Many professors not only teach the theories, but practice them too.' . . . Freshmen must begin fulfilling the 'meaningful initiation' requirement, which means taking a full year of courses in each of three general areas. But they also may enjoy several interdisciplinary courses, including a 'politics and values' class just for them. Also interesting are the 'University Division' courses in which professors indulge their curricular whims by offering insights into everything from 'Artic Language and Culture' to 'J.R.R. Tolkien and C.S. Lewis.' . . . On-campus housing in converted apartments or hotels is well maintained and relatively spacious, with private baths the norm. . . . Standouts . . . are the huge student center and the gymnasium. . . . Even those who harbor little passion for Congressional machinations can enjoy GW."

*President Elliott,
Continued from front*

the path would then be opened for additional financial aid to be used in recognizing special circumstances, including academic merit." Sources for additional support might include existing institutional funds and monies from business, industry, foundations and others, he observed.

"I believe a partnership such as this--involving the universities and the federal sector to provide loans to those in real need--and the universities and others concerned to provide merit scholarships and aid--could go a long way toward placing education atop the list of the nation's priorities. . . and ultimately, toward our country's goal of primacy in education throughout the world," he concluded.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JEROME A. BARRON, professor of law and dean of the GW National Law Center, was an invited participant in the 12th Annual Chief Justice Earl W. Warren Conference on Advocacy in Charlottesville, Virginia, June 15-17 on the topic "Separation of Powers." He served as chairman of the planning committee for the Conference on Teaching Constitutional Law, sponsored by the Association of American Law Schools in Los Angeles June 19-22, and was a panel participant at the conference, attended by 90 teachers of constitutional law. He participated with 27 other Americans from university administration, government and the press in a special information program, "Germany Today," sponsored by the German Academic Exchange June 26 to July 15, held in Bonn and Berlin. The program presented a survey of the current political and economic situation in the Federal Republic of Germany.

GEORGE R. BOZZINI, associate professor of English, delivered a series of lectures on the methodology of teaching English as a foreign language in Damascus, SAR, during July and August. The visit was sponsored jointly by the Syrian Ministry of Education and the United States Information Agency.

DAVID S. BROWN, professor of management, delivered a paper on "The Professor and the Practitioner: Some Observations on Their Roles," at the annual conference of the Academy of Management in Dallas, Texas, August 16. He addressed the National Institute of Management in Budapest, Hungary, on July 20, under the sponsorship of the U.S. Information Agency. He spoke on the special problems of managing large organizations.

FRANK CONLON, adjunct assistant professor of piano, was featured in a solo piano performance as part of the Phillips Collection Series, on May 1. GAIL DELENTE, adjunct assistant professor of piano, was a featured soloist at the Phillips May 29. Both were accorded high praise by Washington Post music critic Joseph McLellan.

MARCUS CUNLIFFE, university professor, was interviewed for Voice of America on the international significance of Independence Day. The interview was broadcast overseas on July 4, 1983.

GAIL DELENTE, adjunct assistant professor of piano, gave a lecture-recital on "The Piano Music of Moritz Moszkowski," at the University of Maryland International Piano Festival July 20, 1983. The program was broadcast on WGMS Radio the following day.

CAROLINE EARLY, assistant acquisitions librarian, presented a paper entitled "Acquisitions and Cataloguing: Are the Boundaries Still There?" at the American Library Association's annual convention in Los Angeles. Ms. Early was recently appointed to the editorial board of the journal Library Acquisitions: Practice and Theory.

LLOYD H. ELLIOTT, president and professor of higher education, spoke to members of the GW Law Association at a breakfast meeting, Tuesday, August 2, in Atlanta and presented the law association's Professional Achievement Award to Wallace D. Riley (LL.M. 1954).

president-elect of the American Bar Association. The breakfast meeting was held in conjunction with the meeting of the American Bar Association in Atlanta July 28 to August 4.

AMITAI ETZIONI, university professor, addressed the Department of Sociology at National University, Seoul, South Korea, on July 1. He spoke at the Institute of Sociology, Chinese Academy of Social Sciences in Beijing on July 8; the Department of Sociology, Chinese Academy of Social Sciences, in Shanghai on July 20. He also conferred with Mr. Huan Xiang, Vice Chairman of the Foreign Affairs Committee of the National People's Congress, China.

DENNIS E. GALE, assistant professor of urban planning, spent two weeks in Europe recently collecting data and interviewing public officials in preparation for a book on urban revitalization. The trip was facilitated by a grant from the University Committee on Research. He was also awarded a grant from the GW Center for Washington Area Studies to conduct research in five U.S. cities, in preparation for a conference paper and a book.

MARVIN S. KATZMAN, assistant professor of business administration, attended the National Meetings of the Academy of Management in Dallas, Texas, August 1983. He participated in the Personnel Human Resources Doctoral Consortium.

JOHN W. KENDRICK, professor of economics, participated in the International Productivity Symposium in Tokyo, Japan, May 9-12. He then took an industrial tour of Japan, and beginning May 23, spent one week each in Manila, Taipei and Seoul giving short courses in productivity measurement and promotion for the Asian Productivity Organization. On his return, Professor Kendrick chaired a panel discussion June 14 at a conference sponsored by the American Association of Collegiate Graduate Schools of Business here at George Washington. He had worked with SGBA Dean Norma Maine Loeser in planning the conference program.

THELMA Z. LAVINE, Elton professor of philosophy, presented a paper, "Modernism and the Politics of Unification", at the First International Conference in Social Philosophy, held in conjunction with the 17th World Congress of Philosophy in Montreal, August 24.

BERNARD LEVY, professor of psychology, has sixteen watercolor paintings on display in the U.S. Senate's Dirksen Building, through September. The exhibition is sponsored by the Special Committee on Aging, in Room SD-37 of the Dirksen Building, corner of First and C Sts., NE, and is open to the public Monday through Friday from 9 to 5 pm.

ANDREW LISOWSKI, head of the cataloguing department of the Gelman Library, made a presentation on "Vendor Based Retrospective Conversion at George Washington University," at the annual conference of the American Library Association in Los Angeles, June 26, 1983. The presentation described how the cataloguing system of the Gelman Library has been transformed from a card system to an automated system.

JONATHAN D. MORENO, assistant professor of philosophy, presented a paper entitled "The Future of 'Culture'", at the World Conference of Philosophy in Montreal,

August 21-27. He also participated in a round table discussion on the self-perceptions of philosophers in various societies. Professor Moreno was a visiting scholar at the Institute of Society, Ethics, and the Life Sciences, Hastings, New York, this past summer.

E. LAKIN PHILLIPS, professor of psychology, attended the 1983 Annual Meeting and Conference of the National Society of Children and Adults with Autism in Salt Lake City, Utah, July 12-16. He presented a paper with Becky Franklin-Porter (B.A.1982) entitled "Toward an International Data Bank on Societies and Programs in Autism."

PILAR SAENZ, associate professor of Spanish, attended the Congreso Internacional sobre Semiotica e Hispanismo, in Madrid, Spain, June 20-25. Professor Saenz presented a paper entitled "Mito y Semiotica en Una familia lejana, de Carlos Fuentes."

CHUNG-WEN SHIH, professor of Chinese, gave a talk, "China's Writers of the May 4th Tradition," at the Chinese Language School at Middlebury College in Vermont, August 9.

MYRNA SISLEN, studio instructor in guitar, a cassette recording of solo guitar music entitled "Myrna Sislen, Classical Concert", with music by Bach, Albeniz, and Granados. The recording is part of Brazilliance Records Young Guitarists of America series.

SHIRLEY M. WRIGHT, director, English for International Students Program, was invited to give a presentation on "Teaching Writing to EFL Students" for a group of Montgomery County public school teachers on June 27 as part of a summer in-service course on EFL (English as a Foreign Language) Teaching Methodology, sponsored by the Montgomery County Public Schools.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Anatomy, George Washington University Medical Center. (B.S. in Biology with experience in microscopic methods. The project focuses on female reproduction studies involving use of the light microscope along with morphometric quantitation and some electron microscopy.) Send C.V. only to Dr. Marilyn Koering, Department of Anatomy, George Washington University Medical Center, 2300 I St., NW Washington, D.C. 20037.

GRADUATE RESEARCH ASSISTANT, (part-time), Institute for Management Science and Engineering. (Work with research team involved in long-range dynamic simulation of Navy resource allocation. Experience in computer programming or systems theory. Available September, 1983.) Contact Professor Rolf Clark, Institute for Management Science and Engineering, 303 Staughton Hall, Ext. 7521.

GRADUATE RESEARCH ASSISTANTS, Department of Electrical Engineering and Computer Science, SEAS. (Research will deal with different aspects of design and analysis of local area computer networks. Graduate students with good background in mathematics and communication theory are encouraged to apply.) Contact Professor R. L. Pickholtz, Ext. 6538, or Professor S.C. Chang, Ext. 8241.

News & Public Affairs

Jane Lingo, editor (202)676-6460

SENATOR MCGOVERN ANNOUNCES--Senator George McGovern's announcement that he will seek the 1984 Democratic Presidential nomination, in the GW Marvin Theatre on September 13, received national attention. The New York Times coverage included this picture:

George McGovern announcing his candidacy for President yesterday at George Washington University. From left are four of his children, Mary, Steve, Teresa and Susan. At right is his wife, Eleanor.

FACULTY POLICY FELLOWSHIPS AWARDED TO THREE SCHOLARS

Faculty Policy Fellowships have been awarded to John E. Kwoka, associate professor of economics, Thelma Z. Lavine, Elton professor of philosophy, and David Klingman, associate professor of political science, Arvil V. Adams, director of the Public Policy Program has announced.

The three fellowships, awarded by the university's Graduate School of Arts and Sciences and the Doctoral Program in Public Policy, provide a stipend of \$3,000 each and are offered to encourage faculty research on current and emerging issues of interest in public policy. The research is expected to be multi-disciplinary with the fellowships being awarded currently to faculty in economics, philosophy and political science. The awards to Professors Kwoka, Lavine and Klingman are the first awards to be made under this program.

The fellowship award recipients will engage in policy-related research on topics of their choice. The research is expected to result in a paper suitable for publication or a proposal that can be submitted to a foundation or government agency for funding. Recipients are also asked to share their research with one of the faculty and student public policy seminars, a series of seminars and workshops planned for the academic year.

Professor Kwoka's research will be concerned with automobile model change and strategic cost behavior. He feels that the economic bases of long-standing market power in the U.S. automobile industry are not fully

understood. He notes that the two anti-trust agencies contemplated investigations--the Justice Department in the 1960s and the Federal Trade Commission in the 1970s. Noting that one of the persistent allegations is that General Motors disadvantages its smaller rivals by model changes, by such means as institutionalized model cycles, Professor Kwoka is interested in testing for such strategic behavior by GM and plans to follow both empirical and theoretical lines of inquiry.

Professor Lavine's research will be on modernism, pragmatism and public policy. Beginning with the historical roots of modernism as a mentality constituted by counter-mentalities, such as the primacy of spirit in opposition to scientific reason, and taking into account the development of American pragmatism, Professor Lavine will examine in depth the similarities in the logic of American pragmatism and the logic of public policy. According to Professor Lavine, the achievements as well as the seemingly intractable difficulties of American pragmatism repeat themselves in the field of public policy.

Professor Klingman will study the impact of block grants on state policy effort. The project proposes to examine the impact of federal block grants on state implementation of inter-governmental programs. As a component of President Reagan's "New Federalism" proposal, nine block grants consolidating some 57 categorical grant programs

(continued on back)

NEW FULL-TIME NON-MEDICAL FACULTY THIS FALL

New members of the full-time, non-medical faculty as of September 1, 1983, are:

MEHMET ATAMAN AKSOY, visiting associate professor of economics;
 YEHUDA BODENSTEIN AVNIEL, assistant professor of engineering and applied science;
 WILLIAM JOSEPH BALLING JR., assistant professor of communication and theatre;
 STEVEN S. BRIER, visiting assistant research professor of applied science;
 BARBARA ANN BURNS, instructor in special education;
 CAROL ANN PANZER DENBAUM, assistant professor of engineering and applied science;
 JOSEPHINE DONOVAN, visiting associate professor of women's studies;
 STEVEN RICHARD EASTAUGH, associate professor of health services administration;
 MARTIN JOSEPH FRITTS, visiting associate professor of management science;
 GREGORY ROBERT GAJEWSKI, visiting assistant professor of economics;
 JACOB GOLDBERG, visiting professor of Middle East studies;
 PATRICIA ROBERTS HARRIS, professor of law;
 ANNE RENOUF HEADLEY, visiting associate professor of management science;
 JAY LIEBOWITZ, assistant professor of management science;
 RICHARD W. LONGSTRETH, associate professor of architectural history and director of the Graduate Program in Historic Preservation;
 HOSAM M. MAHMOUD, assistant professor of statistics;
 CAROL DIANNE MARTIN, instructor in engineering and applied science;
 DOROTHY MCCALL MATTISON, instructor in accounting;
 BERRY MORGAN, assistant professor of English;
 PAUL E. MOTT, visiting professor of sociology;
 THOMAS J. NAGY, visiting associate professor of management science;
 TAPAN KUMAR NAYAK, visiting assistant professor of statistics;
 GLORIA NAYLOR, Jenny McKean Moore Visiting Lecturer in Creative Writing;
 LOUISA AUGUSTA NIELSEN, visiting assistant professor of communication and theatre;
 CATHERINE JONES PICKAR, assistant professor of music;
 DAVID PATRICK ROCHESTER, visiting associate professor of business finance;
 RALPH W. SEELKE, assistant professor of biology;
 JOEL SELIGMAN, visiting professor of law;
 BENJAMIN M. SHIEBER, visiting professor of law;
 JAY A. SHULMAN, visiting associate professor of law;
 STEPHEN CHARLES SMITH, assistant professor of economics;
 RICHARD PAUL TOLLO, assistant professor of geology;
 STEVEN A. TUCH, visiting assistant professor of sociology;
 EMILY VAYNER UREVICH, visiting assistant professor of Russian;
 PHILIP WILLIAM WIRTZ, assistant professor of statistics.

PROFESSOR SHIH'S CHINA FILM TO AIR ON WETA-TV SEPT. 23

"Return From Silence: China's Revolutionary Writers," produced by GW Professor of Chinese Dr. Chung-wen Shih, will be telecast in Washington on WETA-Channel 26, the Public Broadcasting System (PBS) on Friday, September 23, at 9 pm.

Five of China's leading writers--the Fitzgeralds and Hemingways of China--are interviewed in the film. Considered to be China's leading intellectuals during the early years of the Communist regime, but stripped of office and severely persecuted during the Cultural Revolution, the five have either been released from prison or returned from exile since Mao's death in 1976. The film, one hour in length, was aired nationally on PBS earlier this month.

Dr. Shih, an authority on Chinese performing arts, is chairman of the Department of East Asian Languages and Literatures. A native of Shanghai, she has made four trips to China since 1972. In 1979-1980, as senior scholar under the U.S. National Academy of Sciences Exchange Program, she began accumulating research material

MAO DUN, one of five writers featured in the film "Return From Silence: China's Revolutionary Writers," is shown with his granddaughter.

for this film, including footage never shown outside of China.

"Return From Silence" combines scenes of contemporary urban China with rare historical footage of the May Fourth Movement (1919), the Land Reform (1949) and the Cultural Revolution (1966-1976), illuminating the often tenuous relationship between the Communist regime and China's intellectuals. Funding for the film was provided by the National Endowment for the Humanities.

Ms. Schaffner and Mr. Diehl

(Continued from front)

were enacted in the 1981 Omnibus Budget Reconciliation Act. Block grants fall in between categorical grants and general revenue sharing in terms of the degree of discretion permitted state and local governments in allocating federal funds. This enhanced discretion generates numerous researchable questions surrounding changes since 1981 in the patterns of state and local policy effort in those program areas stimulated by alterations in Federal policy. Although these programs encompass the areas of health, education, community development and social services, Professor Klingman's project will focus primarily on the Social Services Block Grant (SSBG).

GW CERAMICS, FIRST DECADE EXHIBITION IN DIMOCK GALLERY

The Dimock Gallery will show "GW Ceramics: The First Decade (1973-1983)" from Thursday, September 15, through Friday, October 14. George Washington University ceramics majors, past and present, have been invited to submit their works for a special exhibition in the gallery. The works are in clay and mixed media in a wide range of styles.

This year marks the 10th anniversary of the GW Ceramics Program. Turker Ozdogan, associate professor of ceramics, himself a well-known ceramic artist, was the initiator and founder of the program.

FELLOWSHIP INFORMATION CENTER PLANS MEETING FRIDAY, SEPT. 23

There will be a fellowship information meeting on Friday September 23, at 3 pm in Marvin Center, Room 410-415. The meeting is sponsored by the GW Graduate Fellowship Information Center. Professor Jonathan Moreno, faculty coordinator for the National Fellowship Awards, will discuss such awards as the Rhodes and Marshall Scholarships, the Luce Scholars Program and Fulbright Graduate Fellowships for Study Abroad. For information, call ext. 6217 or visit Gelman Library, Room 621-D.

MUSIC AND DANCE

The George Washington University Concert Series will present the first program in this year's music faculty series on Monday, September 19, at 8 pm in the Marvin Theatre. Sura Kim, instructor in piano, will present a program of music by Copland, Yun, Hindemith and Schubert. The concert is free.

The GW Dance Production Groups are sponsoring the appearance of Wendy Woodson and Achim Nowak in "Force of Habit," an original movement/theatre work on Friday, Saturday and Sunday, September 23, 24 and 25, at 8:30 pm in the Building K studio. General admission is \$5, students \$4. Call Ext. 6577.

NEWSNOTES

ROBERTA SCHAFFNER, SAGA food service director for the last four years, was presented a certificate of appreciation and a George Washington University chair by Vice President and Treasurer Charles E. Diehl, before she left GW to become the first woman district manager in the education division of SAGA. She will be located in Pittsburgh. "The time I've spent at GW has probably been the most rewarding not only in my career but in my whole life," she said.

SUSAN J. TOLCHIN, professor of public administration, an article, "The Rush to Deregulate", in the New York Times Magazine, August 21, co-authored with Martin Tolchin.

INTERVIEWS

WILLIAM ADAMS, associate professor of public administration, was interviewed on "The MacNeil-Lehrer Report", June 28, on media coverage of presidential campaign straw votes.

WILLIAM LEWIS, professor of international affairs and political science, Institute for Sino-Soviet Studies, recently completed field research in North Africa, and was interviewed by the Canadian Broadcasting Company, The Washington Post, and Argus Publications (South Africa) on the Chad crisis.

S. ROBERT LICHTER, assistant professor of political science, was interviewed on the subject of news media for the Appalachian Satellite TV Network, August 13, 1983, and also on the politics of interest groups for Biznet Cable TV Network.

GRANTS

JAMES L. BREEN, professor of human kinetics and leisure studies, \$41,000 from the Department of Education for a Masters level training program in therapeutic recreation, and \$39,000 from the Department of Education for baccalaureate/certificate paraprofessional training in therapeutic education.

JAMES D. FOLEY, professor of engineering and applied science, a \$50,000 research contract from the Department of Energy to study the productivity, usability, programmability or efficiency of scientific work station computers.

CHARLES M. GILMORE, professor of engineering and applied science, a \$103,000 equipment grant from the Department of Defense/Navy/Office of Naval Research, for a Department of Defense-University research instrumentation program to produce equipment to develop a high vacuum vapor deposit system at GW.

ROBERT IANACONE, associate professor of special education, \$67,000 from the Department of Education/Office of Special Education, for leadership training in vocational special education at the doctoral level.

WILLIAM R. JOHNSON, a \$45,000 grant from the Japan-United States Friendship Commission, for research on the United States and Japanese response to the human development goals of developing countries, especially Thailand and Indonesia.

JUDITH M. JONES, assistant professional lecturer in health care sciences, \$330,000 from the Robert Wood Johnson Foundation in support of the National Health Policy Forum.

TING LEE, professor of engineering and applied science, RAYMOND PICKHOLTZ, professor of engineering and applied science, and SHIH-CHUN CHANG, associate professor of engineering and applied science, a \$50,696 research grant from E-Systems Melpar Division, for a study of local area computer networks to analyze and improve the data traffic throughput performance for the E-Bus System.

MURRAY H. LOEW, associate professor of engineering, a \$149,000 research contract from the Department of Defense/Navy/Office of Naval Research, to develop algorithms and hardware for structured-light vision.

WILLIAM H. MARLOW, professor of operations research, a \$175,000 research contract from the Department of Defense/Navy/Office of Naval Research, for readiness forecasting, and \$125,000 from the Department of Defense/Navy/Office of Naval Research, for research on applying resource dynamics to Navy planning.

AHMED K. NOOR, professor of engineering and applied science, \$10,000 from the National Science Foundation, for a symposium on advances and trends in structures and dynamics.

SAM ROTHMAN, professor of engineering administration, and ROBERT BANGERT, professorial lecturer in engineering administration, a research grant of \$12,014 from the Department of Defense/Army/Army Corp of Engineers, for a grouting case history study.

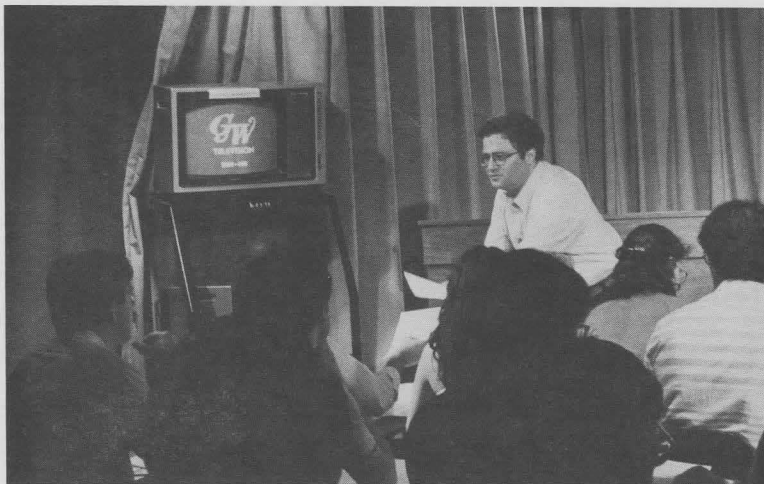

ROBERT W. RYCROFT, assistant professor of public affairs and political science, a \$33,662 research contract from George Mason University to study the values, attitudes and perceptions of individuals whose professional activities focus on assessing hazards and developing policies to avert or mitigate them.

HENRY SOLOMON, professor of economics, a \$31,400 fellowship grant from the National Science Foundation.

PERSONNEL NOTICES

RESEARCH ASSOCIATE, Electrical Engineering and Computer Science, SEAS. (M.S. in computer science or equivalent prior experience necessary. Will enhance, maintain and distribute GWCORE, the George Washington University implementation of the SIGGRAPH Core System. Should be familiar with inter-active programming, graphics software, and graphics hardware. Level of effort will be between 50 to 80 percent of full time.) Contact Professor James D. Foley at Ext. 4952.

George Washington University is an equal opportunity/affirmative action employer.

GW TV--Michael Feldman, associate professor of engineering and applied science, teaches beyond the classroom--bringing "programming and data structure" to corporate sites in the greater Washington area via GW Television.

1982 FACULTY PUBLICATIONS ON EXHIBIT AT GELMAN LIBRARY

The Faculty Senate Research Committee and the Exhibit Committee of the Gelman Library are co-sponsoring an exhibit of faculty publications on the first floor of the library, and in the H street window, through October 21. The display includes some 30 books and articles by faculty members published during the past year.

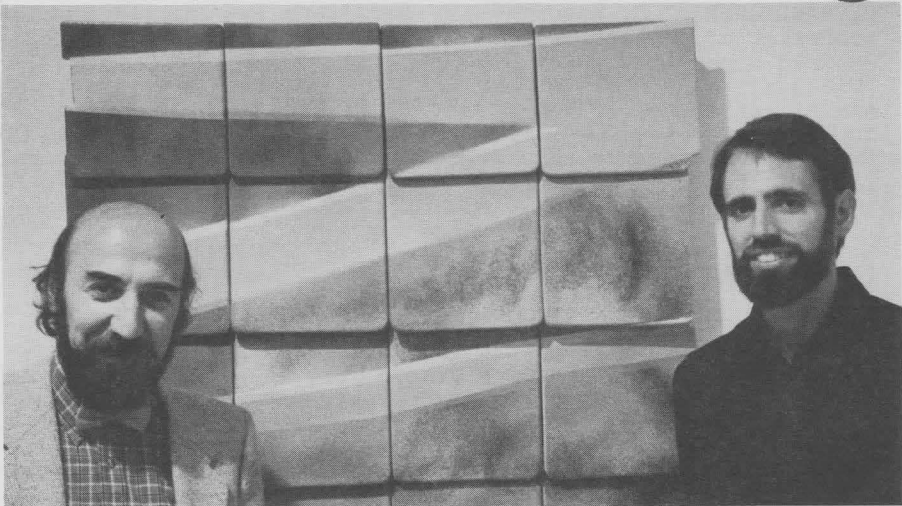

Some of the books on display are; *George Washington: Man and Monument*, by Marcus Cunliffe, university professor, New American Library, 1982; *Seafaring Women*, by Linda Grant DePauw, professor of American history, Houghton Mifflin, 1982; and *Play and Playthings: A Reference Guide*, by Bernard Mergen, professor of American civilization, Greenwood Press, 1982. Articles include; "Congressional Liaison in the Reagan White House: a Preliminary Assessment of the First Year", by Stephen J. Wayne, professor of political science and public policy, in *President and Congress: Assessing Reagan's First Year*, edited by Norman J. Ornstein, American Enterprise Institute for Public Policy Research, 1982; and "Homomorphism Polynomials of Graphs", by Ruth A. Bari, professor of mathematics, in the *Journal of Combinatorics, Information and System Sciences*, Vol. 7, No. 1, 1982.

SMITHSONIAN RESIDENT ASSOCIATE COURSE FEATURES GW FACULTY

"The Romantic Movement: Victory of the Spirit" was a course presented in the Smithsonian Resident Associate Program in the spring semester of 1983 by the following GW faculty: Thelma Z. Levine, Elton Professor of Philosophy, moderated "What is Romanticism?": Judith Plotz, associate professor of English, presented "The Romantic Child and the Ideal of Perfection," and "Romanticism and the Breaking of the Forms"; Lilien F. Robinson, professor and chairman of art, lectured on "Romantic Art and the Image of Man", and "Nature and the Mystical Experience"; Roy Guenther, assistant professor and chairman of music, presented "Romantic Music: Basic Themes", and "Unique Directions"; and Robert L. Combs, associate professor of English, discussed "Romanticism Today: Legacy for the 20th Century".

MARY FINDLEY TO APPEAR IN FACULTY RECITAL

Mary Findley, studio instructor in violin, will appear in a faculty recital on Monday, October 3, at 8 pm in Marvin Theatre. She will perform music of Gluck, Kreisler, J.S. Bach and Brahms. The concert is open without charge.

CERAMICS EXHIBITION--Turker Ozdogan, left, associate professor of ceramics, is shown with Joseph Detwiler (M.F.A. 1982) next to Detwiler's ceramic work "Modular Wall Panel," one of 59 works by alumni of the GW Ceramics Program on exhibition in the Dimock Gallery through October 14.

ADMISSIONS OFFERS HALF-TUITION SERVICE AWARDS FOR SPRING 1984

The Office of Student Financial Aid announces that, beginning in spring 1984, the Office of Admissions will sponsor six half-tuition, need-based service awards for qualified undergraduates. The recipients of the awards will be required to work for the Office of Admissions a total of 300 hours per semester, beginning the first day of Registration Week and ending on the last day of the final-examination period. The service involved will include making telephone calls, conducting campus tours, taking prospective students to lunch, and--after appropriate training--assisting in group interviews, college night programs, college fairs, and recruitment of student volunteers for on campus programs. Some of these services will be performed in the evening or on weekends in addition to or in place of regular working hours.

Students interested in applying for one of these service awards must make timely application through the Office of Student Financial Aid. The application deadline for spring 1984 is November 1, 1983. Requirements specifically applicable to these awards include: Demonstrated financial need equal to one-half of full-time tuition. For freshmen: combined SAT test scores in excess of 1100 or an ACT composite score of 26 or above, with an overall B average on academic subjects and a rank in the upper fifth of the high school class. For upperclassmen: cumulative grade average of 2.5 or above. Full-time enrollment of at least 15 credit hours per semester in an undergraduate degree program. Submission of a brief written statement (approximately 500 words) of prior service experience in school or community and of reasons for continued interest in performing such service.

Awards for spring 1984 are restricted to freshmen, sophomores, and juniors; but it is anticipated that in the future they will be available to seniors on a renewal basis. Renewal will be contingent on satisfactory performance, annual reapplication, and maintenance of a 2.5 average on at least 15 credit hours per semester, exclusive of courses not counted toward graduation.

All interested students should consult Vicki Baker, Director of the Office of Student Financial Aid, Rice Hall, 3rd floor, for application forms and further information.

INTERNATIONAL PALEONTOLOGISTS MEET AT GEORGE WASHINGTON

From August 7 to 12, the George Washington University Geology Department was host to 130 scientists from many parts of the world, including the Soviet Union, People's Republic of China, Western and Eastern Europe, Japan, Australia and the Americas during the IV International Symposium on Fossil Corals and Coral Reefs. Fossil Reefs are important geologically as one of the principal sources of large petroleum deposits. The conference, co-sponsored by the Geology Department with the Smithsonian Institution and the United States Geological Survey, involved technical

sessions at the U.S. National Museum of Natural History, workshops in the evening at the GW Geology Department, an evening of films in the Marvin Theatre and concluded with a banquet at the GW University Club.

Three official field trips were organized for the participants, one of which was led by Professor of Geology Anthony G. Coates, from August 15th to 22nd, to study living and fossil coral reefs of Jamaica. Participants used SCUBA to observe the living reef and took excursions

LAST CALL FOR QUESTIONNAIRES FOR THE GW MEDIA GUIDE

In July and August, the Office of News and Public Affairs sent questionnaires to non-medical faculty asking for information to be included in the GW Media Guide, slated for publication late this fall. The guide's purpose is to help enhance the university's visibility in the print and broadcast media by providing a list of university experts available for comments related to their expertise--teaching, research or general interest.

The response has been very good thus far--but to ensure that all faculty members have the opportunity to be included, the News Service is issuing this final call for completed questionnaires. All forms should be returned to the News Service, Office of News and Public Affairs, 705 Gelman Library, by Friday, September 30.

If you need additional forms or more information, call Ext. 6464.

LIDO CLUB AWARDS SCHOLARSHIPS TO GEORGE WASHINGTON STUDENTS

The Lido Club of Washington, an organization of professional and business men of Italian ancestry, presented scholarships to GW students Laura Butera and John Piuono at the organization's September 15 meeting. Laura Butera is a Columbian College senior majoring in English literature. John Piuono is a senior in SGBA majoring in personnel management. James V. Scala, chairman of the Lido Club Scholarship Committee, presented the awards of \$1,000 each which will be applied toward the students' tuition. Four universities participated in the competition for the Lido Club scholarship awards this year: American University, Catholic University, Georgetown University and George Washington University. There were 12 finalists. Four were interviewed and this year's awards went to the two George Washington students. Andrea W. Stewart, director of the Fellowship Information Center, represented the university at the presentation.

THE GREENHOUSE PLANT SALE IS THIS COMING FRIDAY

The annual plant sale, sponsored by GW's Greenhouse, is scheduled for Friday, September 30, between noon and 7 pm on the terrace behind Lisner Hall, 2023 G Street, NW. All kinds of plants large, small green, flowering--will be available. GW Greenhouse staff members will be on hand to offer advice and guidance on the care and feeding of plants. Sale proceeds are used for maintenance and supplies for the greenhouse. The rain location is the lobby of Lisner Hall.

(Continued from front)

inland to visit various ancient reefs dating back 80 million years.

Professor Coates also convened one of the formal symposia at the meeting, "Taxonomic Methods in Recent Corals and their Paleontologic Implications". A National Science Foundation Grant to Professor Coates covered the expenses for several distinguished geologists from the Soviet Union, People's Republic of China, Yugoslavia, Poland, and Czechoslovakia as well as some of the cost of publishing the proceedings of the meeting.

All the scientists were fed and housed on the GW campus through arrangements with the Office of Housing and Residence Life and the Marvin Center.

PAUL MALONE IS OCTOBER'S FIRST WEDNESDAY LECTURER

"The Challenge of Getting Things Done Through People: A Historical Perspective" is the topic Associate Professor of Business Administration Paul B. Malone will address on Wednesday, October 5, when he delivers the First Wednesday Lecture for October. The lecture, second in this fall's series sponsored by the Alumni Relations Office, is scheduled for 8 pm in the third floor Continental Room in Marvin Center. The lecture is free, but if you plan to attend, call the Alumni Relations Office, Ext. 6435, at least two days in advance. Dinner, for both members and non-members of the GW University Club, will be served beforehand beginning at 6:30 pm. Call Ext. 6610.

DON'T FORGET ALUMNI ACHIEVEMENT AWARD NOMINATIONS, DUE SEPT. 30

Friday, September 30 is the last day nominations for individuals to receive Alumni Achievement Awards at the February, 1984, Winter Convocation can be accepted by the Alumni Awards Committee. Forms are available from the Alumni Relations Office. The awards honor alumni with an earned degree who have attained notable achievement in their field or fields of endeavor. Call Ext. 6435.

BURNETT THOMPSON, PIANIST, IN CONCERT SEPTEMBER 28

Burnett Thompson, pianist, will appear in a concert on Wednesday, September 28, at 8 pm in Marvin Theatre. He will perform music of Prokofiev, Chopin and Beethoven.

Thompson's musical background includes study at the Hochschule Fur Musik in Vienna, Austria, and at the New England Conservatory in Boston. He has been associated with the Alexandria Chamber Ensemble for the last three years. For the past two and a half years, he has been appearing at West End Cafe, playing jazz and popular music.

The concert, sponsored by the Department of Music and the Dimock Gallery, Art Department, is the first in a series of three concerts. The Foggy Bottom Chamber Ensemble will appear in the second or third concert.

Tickets will be available at the door. Prices will be \$5 for adults, \$3 for students and senior citizens. For information, call Ext. 7157.

NEWSNOTES

PROFESSIONAL ACTIVITIES

JONATHAN CHAVES, associate professor of Chinese, lectured on the relationship between literature and art in China, for the Luce Scholars, Scanticon-Princeton, September 2, 1983.

R. PAUL CHURCHILL, associate professor of philosophy, chaired a panel discussion on "The Quality of Life" at the annual conference of the Institute for Advanced Philosophic Research, August 7-13, in Estes Park, Colorado.

RAYMOND R. FOX, professor of engineering and applied science, presented a paper, "Design of Low and Mid-Rise Structures in Coastal High Hazard Areas," at the annual convention of the Structural Engineers Association of Hawaii, in Waikoloa, Hawaii, early this month. He addressed some of the design problems displayed when Hurricane Iwa hit the Hawaiian Islands in November of 1982.

MARDY IRELAND, counseling center staff psychologist, and MATTHEW A. WEISSMAN, doctoral candidate in psychology,

CURRENT CAMPUS CONSTRUCTION

(EDITOR'S NOTE: For the information of the university community, the Office of the Vice President and Treasurer in cooperation with the Faculty Senate Committee on Physical Facilities, provides the following information on the status of the university's construction program.)

Our major project, the Law Center expansion, is about 55 percent complete overall. The contractor's schedule calls for completion of the north and south additions by December 1983. This should permit occupancy and use of these spaces by the beginning of the spring semester. The north addition will provide eight new classrooms, the moot court and administrative offices. The south addition will provide expanded library stack and reference space, and offices for student organizations and administrative staff. The balance of the project (alteration of Burns Law Library and Stockton Hall) is scheduled for completion during 1984.

Additional projects under construction include:

Alterations to the third floor of Bell and Lisner Halls for Biological Sciences Department office, support and teaching space---about 75 percent complete;

Alteration of Monroe Hall and Hall of Government for SGBA consolidated office and support space--about 50 percent complete; and

Renovation of Guthridge Hall to provide more modern and better equipped student housing--about 10 percent complete.

During calendar year 1983 we completed alterations on the third floor of the Academic Center, North Tower for the instructional television program. The GW Television ribbon cutting was on August 29th.

University Support Building schematic design is complete. Approval for the project was given by the D.C. Board of Zoning Adjustment on September 7th. Our best estimate would call for construction start in January 1984. Construction should take about 12-15 months.

Final design is proceeding on the alteration of Samson Hall, first and second floors. The first floor will be modified to provide research laboratories for the Forensic Sciences Department. Second floor alterations will accommodate NROTC faculty and administrative space and also some additional faculty offices for the Chemistry Department.

Four projects are in preliminary planning;

An Intensive Care Addition for the Hospital;

A medical building on 22nd Street east of the Hospital for the HMO and Medical Center Financial Management (both now in leased spaces) and other units of the Medical Center.

Tompkins Hall alterations for the CADCOM facility.

Alterations to the former Union Methodist Church on the 800 block of 20th Street to accommodate radio and television facilities.

MEET THE COACHES--L to R, Bernard Woodside, freshman basketball player; Ralph Barnett, president of Colonials, Inc.; Cara Hennessey, a junior on the women's gymnastics team; and Denise Fiore, women's Basketball coach, posed for the photographer at the recent reception sponsored by Colonials, Inc., to give its members the opportunity to meet all the coaches and athletes in men's and women's sports.

presented a paper co-authored with T. THORNE WIGGERS, coordinator of outreach and consultation at the Counseling Center, "Use of Psychologist's Drawings in the Understanding of Supervisory Transference," at the American Psychological Association convention in Los Angeles, California, August 24-31.

RICHARD LONGSTRETH, associate professor of architectural history and director of the Graduate Program in Historic Preservation, served on the jury of the 11th annual Preservation Awards Program, sponsored by the Washington chapter of the American Institute of Architects, in Washington D.C. August, 1983.

DORN McGRATH, professor of urban and regional planning, appeared on ABC News Nightline on August 11. He commented on the environmental problems resulting from obsolete industrial practices in Pennsylvania and Tacoma, Washington.

GRANTS

LOUIS H. MAYO, vice president for policy studies and special projects, \$20,000 from the German Marshall Fund of the United States, for a travel/study tour to observe prison industry practices in Sweden and Denmark.

JOHN McCARTHY, associate professor of business administration, a \$462,000 service contract from the Agency for International Development, to provide management services for the President's Task Force on International Private Enterprise.

DORN McGRATH, professor of urban and regional planning, \$103,253 from the U.S. Agency for International Development/Office of Housing and Urban Development, for a workshop for senior professionals from several foreign countries in housing management programs.

FREDERICK SIEGEL, professor of geochemistry, \$1,629 from the Department of the Interior/Geological Survey, for research to determine the chemical properties of 23 soil samples.

LINDA TSANTIS, associate professor of special education, a \$58,545 training grant from the Department of Education/Office of Special Education, for a special education early childhood teacher program.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Anatomy. (Chemistry and/or biology major experienced in computer programming and statistical analysis. Knowledge of spectrophotometric instruments, GC, HPLC, RIAs. Typing skills required.) Send resume to Bonnie Goad, George Washington University Medical Center, Department of Anatomy, 2300 I St., NW, Washington, D.C. 20037.

RESEARCH ASSISTANT, Cardiology Division, Department of Medicine. (Full-time research coordinator to assist in clinical drug trials and other research projects. Minimum requirements B.S. degree, preferably experienced with cardiovascular diseases or computer data analysis.) Contact Richard J. Katz, M.D., Cardiology Division, H.B. Burns Building, Ext. 4183.

HISTORICAL PERSPECTIVES ON URBAN DESIGN THEME OF FORUM AT GEORGE WASHINGTON

"Historical Perspectives on Urban Design: Washington, D.C. 1890-1910" will be the topic of a forum to be held in Gelman Library, Room 202, Friday, October 7, from 2 to 5 pm.

Jointly sponsored by the Latrobe Chapter, Society of Architectural Historians, the National Capital Area Chapter, American Planning Association and the Center for Washington Area Studies, The George Washington University, the forum will seek to explore and offer new insight into the evolution of urban design. Forum planners see Washington, D.C. as offering an opportunity to examine the unique federal-local, public-private participation that has endowed the city with

(Continued on back)

GOALS AND AIMS OF PROPOSED CHANGES IN EDUCATION TO BE THEME OF UPCOMING GW FORUM

Noting with more enthusiasm than dismay the current furious controversy over educational methods and programs, the editorial board of the GW Forum considers it appropriate that we consider carefully what the goals and aims of all the proposed changes should be.

Taking into account the report of the President's Commission on Excellence in Education, that we are a "nation at risk" and remembering the urging of Secretary of Education Terrel H. Bell at the September 5 Opening Convocation that we "educate each and every citizen to the full extent of his capacity and willingness to learn," the Forum board invites writers to address questions such as those which follow. In 1984, what is an "educated person?" How much does a college degree have to do with becoming "educated?" How can we become "a nation of learners?" Does being educated mean being able to deal effectively with symbols, numbers, facts? Where do the arts fit into the life of an "educated person?" What tools are required to think logically? How much of what passes through the mind in the guise of thought is only the rehashing of predigested information and opinion from the media? As graduates, how in retrospect, would we change the undergraduate education we received?

Those submitting material for the upcoming issue of the GW Forum are advised to shape their ideas and opinions into a 1,000 to 2,000 word essay and send it to Associate Professor of English A.E. Claeysens, Department of English, Stuart Hall, Room 407. Inquiries about the topic or the Forum should be directed to Professor Claeysens, Ext. 6180 or Ext. 6920. Deadline for essays for the Forum is Monday, November 14.

Columbian College Dean Calvin D. Linton, left, Dr. Lyn White, NEH program officer in the Division of Education Programs, center, and Assistant Professor of English Ormond Seavey, at a recent reception marking the award of the NEH grant for the GW humanities curriculum.

GW RECEIVES NEH GRANT FOR HUMANITIES CURRICULUM

The George Washington University has received a grant from the National Endowment for the Humanities in the amount of \$34,500 to further the university's innovative work in creating new methods and course materials for teaching the humanities.

"The NEH grant represents a national acknowledgement of the quality of program we have here," commented Ormond Seavey, assistant professor of English and co-director of the Humanities Program with Jonathan Moreno, assistant professor of philosophy. Seavey will direct the program during the 1984-1985 academic year with Moreno directing in 1983-1984.

"The history of the courses and the grant should show that the university's commitment to basic education in the humanities and to the sort of faculty development that makes such an education possible is both consistent and long-standing," Moreno says.

With support from the Division of Experimental programs, a number of GW faculty began several years ago to devise new ways of introducing undergraduates to

the essential ideas of Western civilization. This effort has evolved into a collection of courses especially designed to serve this purpose. Designing an initial course titled "Roots of the Western Tradition," first offered in 1978, the university added a sequel course in 1982, "Ideas in Western Culture from Aquinas to Voltaire." These courses survey major works from the classical period--Ancient Greece and Rome, the beginnings of Judaism and Christianity--and follow the evolution of Western thought through the Middle Ages, the Renaissance and the Enlightenment.

This fall, a two-semester course has been added. Titled "The Nineteenth Century: A Case Study," the course explores the representative works of that century.

In using the NEH and GW funding to develop course materials, program directors Seavey and Moreno plan to maintain academic rigor in the curriculum. They reject the idea of filling large lecture classes and providing a superficial acquaintance with

(Continued on back)

MEDICAL GRADUATES HAVE FINE RECORD IN LOAN REPAYMENT

The Office of Student Financial Aid informs us that in contrast to the recent news stories about the problem of the many professionals, particularly doctors, who are defaulting on their student loans, over 95 percent of the graduates of the GW School of Medicine and Health Sciences are up to date with their Health Profession Student Loan repayments. According to Vicki Baker, director of Student Financial Aid, the Department of Health and Human Services, in an effort to control the problem of loan defaults, has issued a strict set of standards to which schools must conform. Using these new standards, over 95 percent of GW medical graduates are making their repayments on time.

The annual report that the Office of Student Financial Aid is required to prepare for the Department of Health and Human Services shows delinquency rates of 3.4 percent for the number of borrowers for medical study, and 4.9 percent for dollars outstanding. These percentages are well below the double digit figures reported by many other institutions across the country.

"CATCH ON TO COMPUTERS"

LEARNING FESTIVAL STARTS OCT. 5

A free "Catch on to Computers" learning festival for Washington area school children starts Wednesday, October 5, here at George Washington and will continue through October 14. The program is designed to give the young students the opportunity to learn the basics of working with computers.

Sponsored nationally by General Foods' Post Cereals and Atari, Inc., the computer learning festival is hosted locally by The George Washington University and the D.C. Board of Education. The festival is part of a campaign to promote computer literacy across the United States, and is brought to the campus by the School of Engineering and Applied Science.

At GW, more than 80 tutorials, led by professional instructors at the university's Academic Center, will give school children, teachers and parents hands-on experience with computers. Twenty Atari computers will be installed for the teaching sessions, which will be limited to pre-registered participants. The tutorials will run every hour on weekdays from 9 am to 8 pm with Saturday and Sunday sessions from 9:30 am to 4:30 pm. Registration information is available from Geri Lyle of the D.C. Board of Education, 724-4290.

The "Catch on to Computers" sessions will be held in 10 cities across the country during October, November and December. More than 50,000 children, parents and teachers are expected to participate.

AT THE MOVE IN, Sondra Geller, coordinator of art therapy services at the GW counseling Center, participated with a circle of dancers at the Move In, a group movement and dance sponsored by the Counseling Center September 22 to celebrate the beginning of the school year.

(NEH Grant,
Continued from front)

the humanities. The class sections are small and each is directed by at least two faculty members from different disciplines. While classes are open to all undergraduates, the two directors anticipate that mostly students with above average motivation and intellectual curiosity will enroll. The program is offered through the Columbian College of Arts and Sciences.

CHARLES J. HERBER TO SPEAK ON GERMAN IMMIGRATION AT FORUM

Charles J. Herber, associate professor of European history, will speak on the subject "Reflections on 300 Years of German Immigration in America" at the Friends Forum of the Friends of the Libraries of The George Washington University on Wednesday, October 5, at noon in Gelman Library, Room 202. Thursday, October 6, marks the tercentenary of the first German immigration to America. The talk is open to all members of the university community. Those who plan to attend are invited to bring their lunches with them. Coffee will be served.

PARENTS' DAY IS THIS SATURDAY

Parents' Day is Saturday, October 8 this year. The full day program is coordinated by the Student Activities Office and includes a variety of choices.

Members of the faculty and administrative staff including all members of the university community are encouraged to attend the reception at 5 pm in the Continental Ballroom, third floor, Marvin Center, following President Lloyd Elliott's 4:30 pm address and entertainment by the GWU Troubadours. The reception is free but Student Activities asks that those planning to attend call Ext. 6555.

Gail S. Hanson, dean of students, will welcome parents and students to the opening session of the day at 9:30 am in Marvin Theatre. Thelma Z. Lavine, Elton Professor of Philosophy, will give the keynote address on "Education, Society, and Parenting Today." An hour's discussion will follow with participants divided into small, informal groups. From 11:30 am to 12:30 pm, the Student and Alumni Career Services Center will present a program entitled "Career Planning Is a Life-long Process." At the same time, parents may choose to attend a seminar on "Crystal Balling the 1984 Elections." Stephen J. Wayne, professor of political science and public affairs, will examine the political and social factors that should affect the 1984 elections. There will be an old-fashioned campus picnic from 12:30 to 2 pm (\$6, payable at the entrance), open house at the Smith Center (1 to 4 pm), open house at Marvin Center Game Room (2 to 4:30 pm) and a presentation by Reptile World (1:30 pm) preceeding President Elliott's address at 4:30 pm in the Continental Room.

Reservations are needed for the picnic and the 6:30 to 9 pm buffet dinner in the GW University Club for those attending Parents' Day. A hospitality suite will be maintained in Marvin Center, Room 405, from 10:30 am to 4:30 pm. For further information on Parents' Day, call Student Activities at Ext. 6555.

STATISTICS DEPARTMENT CHANGES ITS NAME

Effective September 12, the Statistics Department, Columbian College, became the Department of Statistics/Computer and Information Systems according to an announcement by Provost and Vice President for Academic Affairs Harold F. Bright.

(Urban Design Forum,
Continued from front)

outstanding urban places. The forum is held in conjunction with the exhibit, "The Capital Image: Painters in Washington, 1800-1915," at the National Museum of American Art.

The first part of the program will be devoted to the subject "Washington, D.C. Urban Design at the Turn of the Century." Cynthia Field of the Smithsonian Institution will discuss "Daniel Burnham, the City Beautiful Movement, and the McMillan Commission Plan" followed by Jon A. Peterson of Queens College, who will talk about "The Hidden Origins of the McMillan Plan." There will be a period of response from a panel and the audience. Respondents will be Frederick Gutheim, former director of the GW Graduate Program in Historic Preservation, now adjunct professor of urban planning and American civilization, and Richard Longstreth, current director of the GW Historic Preservation Graduate Program and associate professor of architectural history. A 5 p.m. wine and cheese reception will conclude the afternoon.

The conference is being held in cooperation with the Columbia Historical Society; the Landscape Design Program, GW Center for Continuing Education; National Building Museum; National Museum of American Art; Special Collections Division, GW Gelman Library; and the Washington Area Chapter, Victorian Society in America.

There is a \$4 charge for the forum, \$2.50 for students. Call the GW American Studies Program, Ext. 6070.

TWO FORMER PROFESSORS DIE

Donald S. Watson, professor emeritus of economics, who taught at the university from 1935 to 1972, died last January in Port Angeles, Washington.

David Allen Smith, former professorial lecturer in speech and drama, who taught off-campus classes from 1967 to 1982, died August 3, 1983, in Virginia.

NEW FACULTY MEMBERS Steven S. Brier, visiting assistant research professor of applied science, center, and Ralph W. Seelke, assistant professor of biology, right, were welcomed by William D. Johnson, associate provost and director of planning and budgeting, at the recent Friends of the Libraries reception to welcome new faculty. Mr. Johnson is president of Friends of the Libraries.

NEWSNOTES

INTERVIEWS

PETER P. HILL, professor of history, was interviewed by Voice of America, September 1, on the bicentennial observance of the Treaty of Paris, 1783.

PUBLICATIONS

WILLIAM ADAMS, associate professor of public administration, an article, "Why the Right Gets it Wrong in Foreign Policy," in Public Opinion, August/September 1983.

DAVID S. BROWN, professor of management, two articles: "The Manager's Responsibility for Productivity Improvement," in Armed Forces Comptroller, Summer 1983, pp. 5-15; and "A System for Increasing Inventiveness," in the Journal of Systems Management, July 1983, pp. 33-35.

ROBERT P. CHURCHILL, associate professor of philosophy, an article, "Nuclear Arms as a Philosophical and Moral Issue," in Annals AAPSS, 469, September 1983, pp. 46-57.

JAMES E. FALK, professor of operations research, an article, "Jointly Constrained Biconvex Programming," co-authored with Faiz A. Al-Khayyal, in Mathematics of Operations Research, Vol. 8 No. 2, May 1983, pp. 273-286.

ANTHONY V. FIACCO, professor of operations research and applied science, a book, Introduction to Sensitivity and Stability Analysis in Nonlinear Programming, Mathematics in Science and Engineering series, Academic Press, New York, August 1983.

CHRISTOPHER C. JOYNER, assistant professor of political science, an article, "Offshore Maritime Terrorism: International Implications and the Legal Response," in Naval War College Review, Vol. 36, July/August 1983, pp. 16-31.

JAMES C. KING, professor of German, an article, "Das deutsche Magnifikat um 1390 bei Heinrich von St. Gallen und in historischer Sicht" in the volume Spectrum Medii Aevi: Essays in Early German Literature in Honor of George Fenwick Jones, Goppingen, West Germany, Kummerle Verlag, 1983. George Fenwick Jones is professor of German at the University of Maryland.

THELMA Z. LAVINE, Elton Professor of Philosophy, an article, "Modernism and the Politics of Unification: The

Case of Josiah Royce," in the Journal of Social Philosophy, Vol. XIV, No. 4, August 1983, pp. 461-471, (microfilm issue).

GARTH P. McCORMICK, professor of applied science, a book, Nonlinear Programming: Theory, Algorithms and Applications, John Wiley and Sons, Inc., New York, 1983.

JORGE V. ORDENES, lecturer in Romance languages, a book, El ser moral en las obras de Fernando Gonzalez, Medellin, Colombia, Universidad de Antioquia (Coleccion "Huellas en la Historia"), 1983, with a prologue by Colombian novelist Manuel Mejia Vallejo.

PETER RAVEN-HANSEN, associate professor of law, two articles: "Making Agencies Follow Orders: Judicial Review of Agency Violations of Executive Order 12, 291," 1983 Duke Law Journal, pp. 285-353; and "Quid Pro Quo for Public Dough," Annals of New York Academy of Sciences (Science and Public Policy III), pp. 85-99.

IRENE THOMPSON, associate professor of Russian, a book, with Joan Rubin, How to be a More Successful Language Learner, Heinle & Heinle, Boston 1982.

PERSONNEL NOTICES

RESEARCH ASSISTANT, (half-time) Electrical Engineering and Computer Science, SEAS. (B.S. or M.S. in computer science or closely related field. Background in fields of computer graphics and artificial intelligence essential. Will perform research and develop software tools in the area of human-computer interaction.) Contact Professor J. Sibert at Ext. 4953.

RESEARCH ASSISTANT, Institute for Management Science and Engineering, SEAS. (M.S. in business/public policy, or related field desirable. Requires experience in computer programming or systems theory. Some database experience necessary. Research will involve long-range dynamic simulation of Navy resource allocation.) Contact Professor Rolf Clark, Staughton Hall, Room 303, Ext. 7521.

RESEARCH ASSISTANT, (part-time) Institute for Reliability and Risk Analysis, Department of Operations Research, SEAS. (M.S. degree candidate with formal exposure and work experience in Bayesian statistics, time-series analysis, reliability theory and failure data analysis. Position provides limited tuition benefits.) Send resume to Professor N.D. Singpurwalla, Staughton Hall, Room 214B, or call Ext. 7515.

RESEARCH ASSOCIATES, (two, 20 hrs. a week) Decision Support Systems Laboratory Facility, Departments of Engineering Administration and Operations Research. (Assist faculty and graduate students in the use of applications programs and higher level language programming for classroom assignments and research. M.S. in computer science, and M.S. or equivalent study/experience in engineering administration, operations research, industrial engineering, or related fields.) Send resumes to Chairman, Engineering Administration Department, Gelman Library, Room 623.

George Washington University is an equal opportunity/affirmative action employer.

HISTORIC DOCUMENTS ON UNITED STATES v. AT&T GIVEN TO GW

The American Telephone and Telegraph Company (AT&T) has given the comprehensive collection of documents relating to the landmark case which broke up the phone company to The George Washington University Telecommunications Center. The documents include the 75-volume trial transcript itself and 10 volumes of pre-trial briefs.

The AT&T documents, as well as the rest of the center's collection serve students in the university's telecommunications and business programs and are available for limited public use. The collection, established in 1982, contains current books, periodicals and government documents covering domestic telecommunications policy issues.

For more information, call Telecommunications Center Librarian Cathryn Haworth, Ext. 5740, after noon weekdays.

WHITE HOUSE FELLOWSHIP PROGRAM FOR 1984 APPLICATIONS DUE DEC.1

The Graduate Fellowship Information Center informs us that the deadline for completed applications for the White House Fellowship Program is Thursday, December 1.

Competition is keen for the fellowships which provide those selected an opportunity to participate in and learn about the federal government early in their careers or professions. From 14 to 19 fellowships will be awarded.

In many cases, the fellow participates as a special assistant with a Cabinet Secretary, the Vice President, an assistant to the President, an Under Secretary or Deputy Secretary. An educational component of the program is a series of meetings for the fellows with top-level government officials for "off-the-record" discussions.

Graduate Fellowship Information Center Director Andrea W. Stewart says that the fellowship program should be considered a sabbatical leave or leave of absence without salary from the individual's school or firm. As a government employee, each fellow is paid by his or her agency at the appropriate scale (no higher than a GS 15 step 3). U.S. citizens are eligible to apply, and while there are no basic educational requirements, most fellows have received an advanced degree. Former fellows include state legislators, city planners, a symphony orchestra conductor, medical doctors, college professors, business men and women, engineers and others.

For more information and applications, contact the President's Commission on White House Fellowships, 712 Jackson Place, Washington, D.C. 20503, telephone, 395-4522.

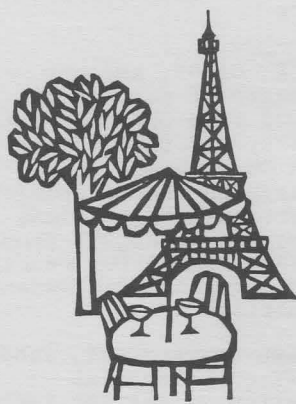

THREE SITES OPENING--L to R, Vice President for Student Affairs William P. Smith, SGBA sophomore Lisa Downey, and Assistant Treasurer for Facilities Robert E. Dickman attended the opening of the exhibition "Three Sites: GW's Heritage," which will continue in the Colonnade Gallery of Marvin Center through October 31.

JACQUES BREL COMES TO MARVIN THEATRE OCTOBER 13, 14 AND 15

The George Washington University Theatre will present Jacques Brel's fast-paced musical "Jacques Brel Is Alive and Well and Living in Paris" on Thursday, Friday and Saturday, October 13, 14 and 15, at 8 pm in Marvin Theatre. General admission will be \$2 with no reserved seating.

The musical has been called extraordinary and packed with emotion. Jacques Brel is quoted as saying that he writes the songs he does because he is in rapport with the world as it is. Students of Brel say that among his questions are these: What are we looking forward to? Death in Saigon, vacations on Venus, loss of innocence, nightmare fears and instant happiness? Brel's answer to our many dilemmas is love. One of the songs in the show says:

"If we only have love
We can reach those in pain
We can heal all our wounds
We can use our own names.
If we only have love
We can melt all the guns
And then give the new world
To our daughters and sons."

LINTON'S BICENTENNIAL ALMANAC USED FOR TEACHING IN CHINA

Dean Calvin D. Linton of the Columbian College of Arts and Sciences has learned that his Bicentennial Almanac (1975 Thomas Nelson, Inc. New York and Nashville) is to be used for teaching in China. He was visited by Zhiduan Deng, a Chinese student from the Republic of China, studying in SGBA through the Fulbright

COMMUNITY PLANNING AND DESIGN CLASS PLANS FOR SUMMER RESORT

Associate Professor of Urban and Regional Planning Sherwin Greene and a team of eight graduate students from his community planning and design studio class spent three weeks in Old Orchard Beach, Maine, in early summer conducting a planning study of this summer resort community.

Professor of Business Administration Fred Amling suggested the project and made his house in Old Orchard Beach available for the class. Local officials, business representatives and residents were cooperative and friendly. Old Orchard Beach has a population of 6,500 which grows to 100,000 during the summer season.

The final project report, "Old Orchard Beach, Maine: Planning Study of a Resort Community," including text, maps and graphics, was completed in two additional weeks on campus. A newly appointed Transportation Committee in Old Orchard Beach will review the recommendations made by the class and the Town Council is scheduling a hearing on the study.

AN EVENING OF CHAMBER MUSIC

David Basch (viola), Charles Stier (clarinet) and Philip Hosford (piano) will appear in an evening of chamber music on Monday, October 17, at 8 pm in Marvin Theatre. They will perform music by Eccles, Mozart, Bach-Busoni, Sutermeister, and Jacob.

The evening of chamber music is sponsored by the GW Music Department and is open without charge.

WALTER A. HAHN BECOMES FUTURIST-IN-RESIDENCE

Walter A. Hahn is the first of his kind at GW, and possibly at any university. He is the university's first futurist-in-residence. He will counsel members of the SGBA faculty and administration in matters relating to the future, as well as being available to students in the School of Government and Business Administration. He is also visiting professor of government and business in SGBA.

The idea of a futurist-in-residence grew out of Project 21, SGBA's futures-oriented planning program in spring 1983. Hahn participated in Project 21 while he was a visiting professor of public affairs in SPIA (1982-1983).

Hahn hopes to develop a futures awareness, concentrating on shaping the future desired instead of guessing what the future may bring. He says this is especially important for a university, where hiring a tenured faculty member can be a 30 year investment, and admitting a student can be a four- to eight-year commitment.

Hahn is beginning his "futuring" this fall, as a guest lecturer throughout SGBA. In the spring, he will teach "Foresight and Issues Management in Government and Business." He will also work toward assembling a collection of futures resource material, specifically related to the needs of SGBA.

(Continued on back)

WASHINGTON STUDIES GRANTS APPLICATIONS DEADLINE IS NOV.1

The GW Center for Washington Area Studies announces the availability of limited funding for small grants. The grants are targeted toward George Washington University faculty members, undertaking or planning to undertake, original research into some facet of the social, political or economic characteristics of the Washington, D.C., metropolitan area.

All full-time GW faculty members are eligible for these grants. Recipients must hold their faculty positions at the time of their applications and during the period in which the proposed research is to take place. The Center for Washington Area Studies takes a broadly interdisciplinary approach and welcomes proposals from any and all departments.

Information on criteria for funding and the application procedure is available from Associate Professor of Political Science Jeffrey R. Henig, chairman of the Center for Washington Area Studies administrative committee, Ext. 7582, or from the Division of Experimental Programs, Ext. 7543.

To be considered in the current round of funding decisions, proposals must be received by Tuesday, November 1. It is anticipated that a total of about \$3,000 will be available for distribution. No grants will exceed \$1,000.

(Continued from front)

Hahn comes to GW following a distinguished career in government and the private sector. He has taught at the University of Washington, and here in the School of Public and International Affairs; worked for the U.S. Department of Commerce, the National Aeronautics and Space Administration, and General Electric; and served as a Senior Research Associate on the National Goals Research Staff at the White House. Most recently, he was associated with the Congressional Research Service in the Library of Congress before coming to George Washington last year.

DANCE PRODUCTION GROUPS PRESENT "ON DRY ICE"

The GW Dance Production Groups in the Department of Human Kinetics and Leisure Studies will present Seminole Works with guest artist John Gamble performing "On Dry Ice" in Building K Studio Theatre, 817 23rd Street, NW at 8 pm on Saturday and Sunday, October 15 and 16. Ticket prices are \$6 general admission and \$4 for students and senior citizens.

"On Dry Ice" is an evening-length dance work choreographed by John Gamble with sound design by Charles Cohen and costumes by Joanna Gray. The work had its premiere in Philadelphia in March, 1982, and was enthusiastically received. Call Ext. 6280, for more information.

NEWSNOTES

PROFESSIONAL ACTIVITIES

DAVID S. BROWN, professor of management, was the opening speaker in the 1983-84 program of the Work Humanization Roundtable of the Washington Chapter of the American Society for Public Administration, September 22. He spoke on "Creativity, Innovation, and the Stimulation of Ideas."

HERBERT J. DAVIS, associate professor of business administration, has returned from his sabbatical leave of spring semester 1983. While on leave, he was Visiting Senior Fellow with the School of Post Graduate Management Studies at the National University of Singapore. He served as a consultant to the director of the school with regard to its international management offerings. He also served as an international referee and consulting editor to the newly established Asia-Pacific Journal of Management. His research and travels took him to the People's Republic of China, Australia, Hong Kong, Malaysia and Japan. He has been notified of his selection as Senior Fulbright Scholar to the Institute of Business Administration at the University of Dacca following the 1983-1984 Middle-East/South Asia Regional Competition.

CINDY DEMINITZ, professorial lecturer in English, taught English at Harvard University's Summer English and Orientation Program.

ELLEN EXHEVERRIA, adjunct instructor in English, taught a course on Spanish press and culture to American students participating in GW's summer program in Madrid, Spain.

JO HARROP, assistant professorial lecturer in art, has a one-person exhibition, "Place Paintings," at the Touchstone Gallery, 2130 P St., NW, through October 16. Gallery hours are 11 am to 5 pm Tuesday through Saturday.

PATRICIA JOHNSON, adjunct instructor in English, this past summer taught a course in English for science and technology in Tunis, for Tunisian students preparing to enter United States Universities. The six-week course was jointly sponsored by the Tunisian Ministry of Higher Education and the U.S. Information Agency.

JOHN W. KENDRICK, professor of economics, participated in preparatory conferences for the White House Conference on Productivity in San Diego, July 19-21, and Pittsburgh, August 2-4. At the White House conference itself, held in Washington, September 21-23, he reported on the recommendations of the panel he had chaired in San Diego. The conference was addressed by President Reagan and Vice President Bush.

CHRISTINE MELONI, adjunct instructor in English, was a plenary speaker at an English language teaching conference for Colombian teachers in Bogota, Colombia, September 14. She also gave a workshop on the functional approach to developing speaking skills.

NADINE NATOV, professor of Russian, attended the 5th International Dostoevsky Symposium, August 16-23, in Centre Culturel International, Cerisy-la-Salle, Normandie, France. Professor Natov participated as a member of the organizing committee, and presented a paper entitled, "The Theme of 'Chantage' (blackmail) in Dostoevsky's novels The Possessed and A Raw Youth." At the General Assembly of the International Dostoevsky Society (IDS), Professor Natov was re-elected executive secretary of the IDS for the next three-year term.

E. LAKIN PHILLIPS, professor of psychology, and DIANE M. DePALMA, assistant director of the Counseling Center, presented a paper entitled "Attrition from A-to-Z: Pre-intake, Intake and Early Therapy Factors", at the American Psychological Association's convention in Los Angeles, California, August 24-31.

PILAR SAENZ, associate professor of Spanish, attended the 8th International Congress of the Asociacion Internacional de Hispanistas at Brown University in Providence, Rhode Island, August 21-27. Professor Saenz participated in the Section Narrativa Espanola de Pleguerra, reading a paper entitled "La narrativa de Pedro Salinas."

FREDERIC R. SIEGEL, professor and chairman of geochemistry, participated in the 10th International Geochemical Exploration Symposium, August 29-September 2, 1983, in Espoo/Helsinki, Finland. He

chaired the session on bedrock geochemistry, and presented an oral report on his research titled "Geochemical prospecting with mineral suspensates and bottom sediments in the Appalachian Piedmont province, Louisa County, Virginia." His co-authors on this report were G.S. Burr (M.S. 1982), R.T. Cox (B.S. 1983), and G.D. Siegel. Dr. Siegel had a poster session at this meeting titled "Geochemical Exploration with stream sediments in Las Villas Province, Cuba." His co-author on this report was J. Hernandez.

JEANNE SNODGRASS, professor of human kinetics and leisure studies, co-managed the 1983 International Convention of Alpha Delta Kappa, an honorary sorority for women educators, held in Washington, July 24-29. Over 2,500 attended.

CARL STEINER, professor of German, presented a paper entitled "The Agony of War: Wolfgang Borchert's Anti-War Militancy," at the Eighth Annual Colloquium on Modern Literature and Film, at the University of West Virginia, September 22-24.

IRENE THOMPSON, associate professor of Russian, has returned to the university after two years as director of the Russian Language Training Program at the Foreign Service Institute, U.S. Department of State. In this capacity, Professor Thompson visited U.S. diplomatic missions in the U.S.S.R. to conduct an assessment of the Russian language needs of the U.S. diplomatic community in the Soviet Union. She was the principal author of a new set of language teaching materials designed to meet the needs of U.S. diplomats and their families in the U.S.S.R. Professor Thompson has been appointed to the ad hoc National Committee for Russian Language Study of the American Association for the Advancement of Slavic Studies.

RUTH WALLACE, professor of sociology, was a discussant at a session entitled "History of Social Thought: Reemergence After World War II" at the annual meeting of the American Sociological Association in Detroit, Michigan, August 31 to September 4.

GRANTS

ROSE F. CARON, adjunct professor of psychology, \$56,970 from DHHS/NIH/National Institute of Child Health and Human Development, for research on the discrimination of emotional expressions in infancy; and \$68,387 from DHHS/NIH/ADAMHA for research on infants' comprehension of emotions.

MICHAEL CASTELBERRY, associate professor of special education, a \$64,045 training grant from the Department of Education/Office of Special Education, for the infant education specialist program.

ROBERT P. DONALDSON, assistant professor of biology, a \$90,000 research grant from the National Science Foundation, to study electron transport in the glyoxysomal membranes around germinating castor beans.

ROBERT IANACONE, associate professor of special education, \$65,000 from the Department of Education/Office of Special Education, for pre-service training of career educators to meet the vocational and career development needs of handicapped youths; \$87,462 from the Department of Education/Office of Special Education, for a vocational/special education personnel training program; and \$78,788 from the Department of Education/Office of Special Education, for a special education for adjudicated youth program.

JONATHAN D. FIFE, director, Educational Resources Information Center, \$289,997 from the National Institute of Education, to operate an Educational Resources Information Center (ERIC) Clearinghouse on Higher Education.

CHARLES A. GARRIS, associate professor of engineering, and JOSEPH V. FOA, professor emeritus of engineering, a research grant of \$294,381 from the Department of Energy, for research on fluid dynamic energy separation.

JUDITH M. JONES, assistant professorial lecturer in health care sciences, a \$3,000 grant from Aetna Life and Casualty Co. in support of the National Health Policy Forum, and a \$6,000 service contract from the Department of Health and Human Services/PHS/Office of Health Planning and Evaluation, for an Office of Health Planning and Evaluation retreat.

HAROLD LIEBOWITZ, professor and Dean of the School of Engineering and Applied Science, \$70,331 from the National Aeronautics and Space Administration/Langley Research Center, for a research program in active control/aeroelasticity in the JIAF.

WILLIAM H. MARLOW, professor of operations research, \$65,000 from the Department of Defense/Navy/Office of Naval Research, for an aviation training support system for CNATRA.

EDWARD WAGMAN, engineering administration research engineer, \$49,035 from the Department of Defense/Navy/David W. Taylor Naval Ship R & D Center, for a technological assessment of the Navy's logistics technology effort.

PERSONNEL NOTICES

RESEARCH ASSISTANT, (part-time), Electrical Engineering and Computer Science, SEAS. (B.S. in electrical engineering or computer science required, M.S. preferred. Duties will include geometric modeling, algorithm design and computer programming. Research will deal with automated analysis and description of three-dimensional objects under a variety of known conditions, for application to robotics vision systems.) Contact Professor Murray H. Loew at Ext. 4874.

George Washington University is an equal opportunity/affirmative action employer.

WASHINGTON NOW AN INTELLECTUAL CENTER, ELLIOTT TELLS PARENTS

"This city has changed almost without our recognizing it," President Lloyd Elliott told visiting parents on October 8. "The Washington D.C. metropolitan area is becoming an intellectual center for the world," he said. "You have to strip away the political smog to see that. For the last 15 years, Washington has been an intellectual center for scholarship and research. Because the flood lights are on D.C., we have taken note of the emergence of Washington as a cultural center, and that has come about greatly aided by the Kennedy Center, but almost unnoticed is the development of this city as an intellectual center."

Noting that the student population of the university is two-thirds graduate, President Elliott said, "This gives the undergraduate here a tremendous opportunity to talk about, to ask questions about a possible career (before arriving at an all-important decision) with people who are actually doing the things that the younger scholar may be thinking about I personally feel that the thinking undergraduate will benefit from this environment."

The president told parents that reports to him from both administrators and faculty members say that this year's freshman class is the most serious-minded of any that we have had in recent years. "This is an observation that has come to me from all sides," he stated.

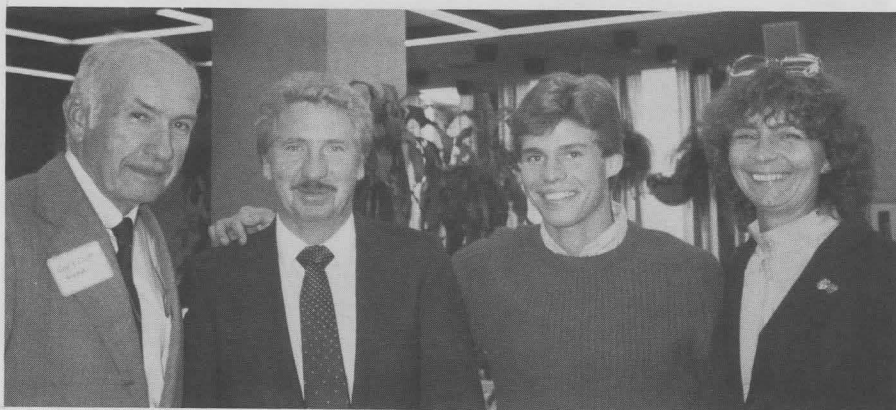

Describing the university's program of bringing "stars" to the faculty as well as brilliant and promising younger faculty begun about five years ago, President Elliott emphasized the strengths of the GW faculty in concluding his remarks and said, "We believe this is indeed a learning environment into which an undergraduate can come with considerable advantage."

A record number of more than 700 participants attended the October 8 Parents' Day which was coordinated by the Student Activities Office.

2000 PENNSYLVANIA AVENUE OPEN HOUSE THIS FRIDAY

Members of the GW Faculty and administrative staff are invited to attend an informal open house in the university's new building, 2000 Pennsylvania Avenue, N.W., on Friday, October 21, between 9 am and 6 pm. There will be guided tours all day. Those attending should go in the main entrance at 2000 Pennsylvania.

For this special occasion, there will be an art exhibit presented by the GW Art Department and organized by Arthur Hall Smith, associate professor of painting; Jeffrey L. Stephanic, assistant professor of photography; and Lilien F. Robinson, professor of art and chairman.

PARENTS' DAY--L to R, President Lloyd H. Elliott, Mr. R.E. Fisher, sophomore Mark N. Fisher, and Mrs. Fisher posed for a picture at the October 8 Parents' Day reception. The Fishers are from Sykesville, Maryland.

OPEN ENROLLMENT PERIOD FOR HEALTH CARE INSURANCE

The university is pleased to announce that all regular full-time and regular part-time faculty and staff members will have the opportunity to make changes in their current health care coverage or to enroll, if not currently enrolled, in any of the plans. The open enrollment period will begin on Monday, October 24, and will continue through Friday, November 18, 1983.

During this open enrollment period, detailed information regarding two changes in the TIAA Major Medical Plan, to be effective January 1, 1984, will be provided. These changes involve an increase in the deductible levels in the Major Medical Plan by \$200 each and an introduction of a level of 100 percent reimbursement after \$5,000 of covered charges are incurred in a year by an insured individual. The plan will continue to provide 80 percent reimbursement of the first \$5,000 of covered charges.

Arrangements have been made for representatives from all of the health plans to appear jointly at a series of meetings shown on the schedule prepared. A series of presentations to include each plan representative will begin on the hour within the time frames listed. These presentations will be followed by a question and answer period. You are encouraged to attend one of these meetings if you have any questions regarding your current coverage or are considering a change in coverage.

DATE AND TIME	LOCATION
Monday, October 24 9 am to 12 Noon	Room 415 Marvin Center 21st and H Streets
Friday, October 28 12 Noon to 4 pm	Room 415 Marvin Center 21st and H Streets
Monday, October 31 1 to 4 pm	Hospital Auditorium 23rd Street Entrance
Thursday, November 3 8:30 to 11:30 am	Hospital Auditorium 23rd Street Entrance

Announcements have been sent on October 17 to eligible faculty and staff outlining key elements in each available health plan offered during this period and detailing the Major Medical Expense Plan changes. If you did not receive this announcement or desire further information concerning your coverage and the various health plan options available, please contact or visit the Records and Benefits Division of the Department of Personnel Services, 2125 G Street, Bldg. GG, during the enrollment period for assistance.

The effective date of coverage or changes in coverages will be January 1, 1984.

OKTOBERFEST AT G.W. CLUB

Authentic German dishes are being served all this week at the G.W. University Club in observance of the club's oktoberfest. Among the dishes offered are sauerbraten, weiner schnitzel and koenigsberger klopse. The club has been decorated in what Manager Mike Sullivan calls "the best German tradition." Three special beers are available as well as Goldener Oktober, the German wine of oktoberfest. Call Ext. 6610 for more information or reservations.

"BULIMIA: THE BINGE-PURGE SYNDROME" IS PROGRAM TOPIC

"Bulimia: The Binge-Purge Syndrome" is the topic of a program planned by the GW Counseling Center for Wednesday, October 19, at 8 pm in Room 406 of Marvin Center.

The films *Bulimia* and *I Don't Have to Hide* will be shown as part of the program. A general discussion, led by Ronald Schectman and Maureen Kearney, both staff psychologists at the Counseling Center, will follow the showing of the films.

WATCH FOR GW IN THE NEWS

Tuesday, October 18, marks the first day of distribution for *GW in the News*, a brief survey of the thousands of press clippings The George Washington University community generates each year. Published by the Office of News and Public Affairs, *GW in the News* will be distributed by the University Mail Service in the same way as *GW Report*. Members of the GW community have often expressed an interest in seeing such a publication.

We hope you like the fall issue. It contains many articles appearing in publications from the *Washington Post* to the *Chicago Sun-Times* and from *Broadcasting* magazine to *Time* magazine. The subject matter of these excerpted clippings is as varied as *GW* itself.

In addition to the articles provided by our clipping service, the Office of News and Public Affairs relies on members of the university who write or call to let us know when they see *GW's* name in print. We encourage this practice and ask you to send the entire original (including date and publication title), when an article appears, to Robert Bové, Editor, *GW in the News*, Office of News and Public Affairs, Gelman Library 705.

ART SEMINAR LED TO CORCORAN CATALOGUE OF FRENCH PAINTINGS

A seminar, "19th Century European Art in the Corcoran Collection," taught in 1982 by Lilien F. Robinson, professor of art and chairman, has culminated in the catalogue for the current exhibition of 19th century French Paintings at the Corcoran Gallery of Art. The exhibition, titled "La Vie Moderne," will continue through January 8.

The 19 students received academic credit for researching and describing the 41 works for the exhibit catalogue which includes an introductory essay by Professor Robinson. The exhibition, assembled from the French paintings in the Corcoran's collection, includes works by Boudin, Corot, Courbet, Daumier, Degas, Monet, Pissarro, Renoir and numerous others. Writing in the *Washington Post* Weekend Section October 7, Washington Post reporter Hank Burchard describes the exhibition as "a sprightly tour made the more interesting by the comments of the students."

The exhibition, organized by Edward J. Nygren of the Corcoran and Professor Robinson, was reviewed by Paul Richard, art critic, in the *Washington Post* October 12. He stated that the exhibition "has a spirit that's in many ways peculiarly American," since it reflects the tastes of the American collectors whose gifts comprise most of the show. After it closes here January 8, the exhibition will travel to Columbus, Ga.; Evanston, Ill.; Houston; Tampa, Fla.; Omaha; and Akron, Ohio.

FOR THOSE WHO HAVE PLANS FOR LAW OR GRADUATE SCHOOL

More than 200 representatives of graduate and professional schools across the United States will gather at The George Washington University Tuesday and Wednesday, October 25 and 26, for a two-day information seminar on graduate and professional school opportunities. The sessions will be held in the third floor Continental Room of Marvin Center. Hours for both days are 2 to 7 pm.

The Tuesday, October 25, sessions will feature law schools. Representatives from at least 93 law schools will be present. There will be two panel discussions: "How to Apply to Law School and Survive," from 2:30 to 3:45 pm; and "Careers in Law," from 4 to 5:15 pm. Videotapes of the panels will be shown from 5:30 to 6:45 pm for those who cannot attend earlier.

The Wednesday, October 26, sessions will focus on opportunities for those interested in business and in the arts and sciences. Representatives from 120 colleges and universities will participate in the sessions. There will be panel discussions on "Applying to and Financing Graduate School" (2:30 to 3:45 pm) and "Future Directions" (4 to 5:15 pm). Videotapes of the panels will be shown from 5:30 to 6:45 pm.

The sessions are open to the public and are free of charge. The two-day event is sponsored by nine Washington, D.C., area universities and is being coordinated by the GW Graduate Fellowship Information Center. For more information, call Ext. 6217.

FRANCIS GRUBAR TO LECTURE ON 19TH CENTURY OUTDOOR SCULPTURE IN WASHINGTON, D.C.

"19th Century Outdoor Sculpture in Washington, D.C." is the subject of an illustrated lecture to be given by Professor of Art Francis S. Grubar on Wednesday, October 19, at 5:30 pm in the lower lounge of Lisner Auditorium. The lecture, sponsored by the Dimock Gallery, Art Department, is open without charge.

Presented in conjunction with the exhibition, "Selections from the W. Lloyd Wright Collection of Washingtoniana," scheduled for the Dimock Gallery from October 20 through November 2, the lecture will be followed by a reception marking the preview of the exhibition. The Dimock Gallery adjoins the lower lounge of Lisner Auditorium.

WASHINGTONIANA IN THE DIMOCK

"Selections from the W. Lloyd Wright Collection of Washingtoniana" may be seen in the Dimock Gallery, Art Department from Thursday, October 20, through Wednesday, November 2.

The exhibition will consist of early photographs, prints and watercolors from The George Washington University's Permanent Collection. The images to be shown date from the Civil War up to the first decade of the 20th century and include street scenes and architectural subjects. Other images will be shown which

CATCHING ON--Terry Robbins, a sixth-grader at Rudolph Elementary School, was one of some 4,000 D.C. area students who came to the GW Academic Center during the 10-day "Catch on to Computers" learning festival sponsored by General Foods' Post Cereals and Atari, Inc. (The festival came to the university through the School of Engineering and Applied Science.)

give a glimpse of the city when Constitution Avenue was a dirt road. The W. Lloyd Wright Collection of Washingtoniana was presented to the university in 1950 by a Mrs. Matilda Wright, a native Washingtonian, whose family was active in the city in the early 1800s. Gallery hours are 10 am to 5 pm weekdays.

MARCELLA BRENNER ENDOWMENT FOR MUSEUM EDUCATION SET UP

The George Washington University has established the Marcella Brenner Endowment for Museum Education to honor and continue the work of Dr. Marcella Brenner, founder of GW's pioneering Museum Education Program.

Dr. Brenner, who received the status of professor emerita of education in May of this year, has been active in the field of education for 50 years, first as a teacher and a principal in the Montgomery County, Md., schools and then for the past 18 years at GW. In 1973, she initiated the beginning of the university's Museum Education Program, one of the first degree programs for the professional preparation of museum educators.

Degree candidates in the university's Master of Arts in Teaching-Museum Education Program are eligible for assistance from the Brenner Endowment. Applications for the class of 1984-1985 (which begins in June 1984) are now being accepted by the program. For more information, call Ext. 6829.

PROFESSIONAL ACTIVITIES

MURIEL ATKIN, associate professor of history, testified September 27 on Soviet relations with the Persian Gulf at hearings of the House of Representatives Foreign Relations Committee Subcommittees on European and Middle Eastern Affairs, and on Asian and Pacific Affairs.

RODERICK S. FRENCH, professor of philosophy, delivered the keynote address at the orientation conference for new members of state humanities councils, sponsored by the National Endowment for the Humanities, in Scottsdale, Arizona, September 30. He spoke on the role of the humanities in public life.

ROSEMARY LUBELEY, nurse recruitment coordinator, Department of Personnel Services, has been named president of the Washington Metropolitan Nurse Recruiters Association, a non-profit professional organization of nurse recruiters representing 31 area hospitals. The organization promotes professional standards of nurse recruitment, encourages the practice of nursing in the Washington area, sponsors a yearly Nursing Career Fair, and prints a local guide to area hospitals and nursing schools. Ms. Lubeley is immediate past vice president of the group and has served as a member of its board of directors.

ROBERT PARRIS's "Concerto for Five Kettledrums and Orchestra" was performed by the National Symphony Orchestra, under the direction of Mstislav Rostropovich, at the Kennedy Center September 27, 29, and 30. Parris is professor of music. The piece had its premiere with the Vienna Symphony Orchestra in 1958, and on both occasions Fred Begun was the soloist.

SANDY PINKUS, editor of the *GW Times*, served as a guest critic of research publications at the Council for Advancement and Support of Education (CASE) conference on communicating university research, held October 7 at the Shoreham Hotel. The conference was part of CASE's Education Expo for Higher Education Week.

RONALD SHECTMAN, staff psychologist, Counseling Center, presented a paper, "A Portrait of Bulimia and the Agendas of its Treatment," at the Philosophy of Psychotherapy Seminar, Forum for Psychiatry in the Humanities, at the Washington School of Psychiatry May 16, 1983.

HOSPITAL STUDY APPROVED BY BOARD OF TRUSTEES

The Board of Trustees has approved plans to study a possible relationship for operation of The George Washington University Hospital with American Medical International, Inc. (AMI), one of the nation's largest investor-owned hospital management companies. The Board authorized the exploratory discussions at its October 20 meeting.

"We are reaching out to all those concerned, especially to our George Washington University community, to let everyone know at the same time that we are undertaking a study," President Lloyd Elliott comments. "This study may point to the resolution of a serious problem in our American hospital system. We do not undertake this analysis lightly. It is the most serious of all matters on our agenda, and we are proceeding with the public interest, the university's interest, and the future of the hospital at the forefront of our concerns. We will keep you posted of developments as we go along."

If the study proves promising, AMI could own or manage the university hospital under a long-term lease or purchase arrangement.

"The relationship would be based on the university's commitment to maintaining the highest quality facilities for medical education, research and patient care and on the AMI desire to have a major teaching and research hospital as a flagship facility in the nation's capital," said Vice President for Medical Affairs and Executive Dean of the Medical Center Dr. Ronald P. Kaufman.

"A significant infusion of capital investment--both short-term and longer-range--is required to maintain the hospital's momentum and AMI would draw on the equity capital markets to provide the funds required," Dr. Kaufman added. "The University Medical School would continue to use the facility as its primary training hospital," he emphasized.

RED CROSS BLOOD DRIVE IS NEXT MONDAY, OCTOBER 31.

The university-sponsored Red Cross Blood Drive will be next Monday, October 31, in the Marvin Center Continental Room from 9 am to 3 pm. To expedite processing time, donations will be by appointment. Please call Ext. 3999 to schedule a time. For questions about donor eligibility, call the Red Cross at 857-3767.

The Student Activities Office and the School of Government and Business Administration are coordinating the drive with assistance from Omicron Delta Kappa and Alpha Epsilon Delta. Those working on the drive urge all members of the university community to make a contribution to this worthy effort. They say, "We need you. There is no other source."

ROBERT H. AND CLARICE SMITH HALL OF ART DEDICATED OCT. 20

The Robert H. and Clarice Smith Hall of Art, the south tower of the Academic Center which houses the Art Department and its facilities, was dedicated in ceremonies Thursday, October 20, at 11:30 am. A plaque with the wording "The Robert H. and Clarice Smith Hall of Art, Trustee, Benefactors and Patrons of the Arts, 1983," accented by a silhouetted head of George Washington, was unveiled by President Lloyd H. Elliott. The plaque is mounted on a redwood paneled wall at the courtyard entrance to the building.

Rabbi Gerald Serotta, director of the B'nai B'rith Hillel Foundation at GW, gave the invocation as well as the prayer of dedication and benediction at the ceremony, held in the small entrance lobby of the Art Department. Following a welcome by President Elliott, Art Department Chairman Lilien F. Robinson spoke in appreciation of Smith Hall and of the fine opportunities for study in the arts provided by the building. On behalf of the Art Department, a large blue ceramic bowl especially designed for Mr. and Mrs. Smith by Associate Professor of Ceramics Turker Ozdogan, was presented to them by Professors Robinson and Ozdogan. The bowl bears

inside the seal of The George Washington University. Trustee Smith gave a response both for himself and Mrs. Smith. Music for the occasion was provided by John Albertson, adjunct assistant professor of music, who played guitar, and Lynn Hertel, GW music student, who played flute.

Robert Smith has been a member of the Board of Trustees of the university since 1976. He and Mrs. Smith are serious collectors and patrons of the arts. Original participants in the creation of Wolf Trap Farm Park for the Performing Arts, and long-time supporters of the National Portrait Gallery, their current interests focus on The George Washington University and the National Gallery, where Mr. Smith is chairman of the Trustees Council. Clarice Smith, an artist in her own right, is a GW assistant professorial lecturer in art. She teaches classes in painting in both watercolor and portraiture. Robert Smith is the son of Honorary Trustee Charles E. Smith who was a member of the university's Board of Trustees from 1967 to 1976. The Charles E. Smith Center for Physical Education and Athletics bears his name and he endowed the university's Judaic Studies Program.

John W. Dixon

BOARD OF TRUSTEES ELECTS

JOHN W. DIXON TO MEMBERSHIP

John W. Dixon, chairman and chief executive officer of E-Systems, was elected to the university's Board of Trustees at the board's meeting on October 20. He was elected as a charter trustee.

A George Washington alumnus, Dixon received a Bachelor of Arts in 1949 from the School of Government and Business Administration with a major in international affairs. As an undergraduate, he was elected to Phi Beta Kappa and the order of Artus, an honor society for men and women in economics. He received an Alumni Achievement Award from the university in 1981.

In 1951, he received a master's degree in economics from the University of Miami and then joined the Southern District of the U.S. Bureau of Labor Statistics in Atlanta, Georgia, as a labor economist. A year later, he became an associate professor of economics at Mississippi Southern College.

Trustee Dixon joined the Convair Division of General Dynamics Corporation in 1953. Eight years later, he became deputy controller, director of systems planning, Office of the Assistant Secretary of Defense (Controller), Department of Defense.

He joined Ling-Temco-Vought, Inc. in 1962, and served in several corporate executive positions before being named chairman of the board and president of LTV Electrosystems, Inc., in 1969. The company became E-Systems in mid-1972, an independent, publicly held corporation listed ESY on the New York Stock Exchange. Now ranked 355 in sales volume for 1982 in the Fortune 500, E-Systems, based in Dallas, Texas, is the nation's largest developer of electronic warfare systems. The company, with eight divisions and two subsidiaries, has about 13,000 employees. E-Systems includes the Melpar Division in Falls Church and Fairfax County.

Born in Lexington, Kentucky, Dixon was graduated from Withrow High School in Cincinnati in 1937 and entered the U.S. Army as a private in 1941. He received a commission in 1943 and was discharged as a first lieutenant in 1946 after serving two and a half years in the European Theater during World War II. He has since been elected to the Infantry School Hall of Fame at Fort Benning, Georgia.

2000 PENNSYLVANIA AVENUE OPENS

2000 Pennsylvania Avenue was officially opened on Wednesday, October 19, with an evening reception held in the building for District government officials, business, university and community leaders.

"This project represents the University's commitment to preserve the historic character of this area while using productively the commercial frontage of Pennsylvania Avenue to provide additional income for the University's programs," said Vice President and Treasurer Charles E. Diehl in brief remarks.

President Lloyd H. Elliott emphasized that one of the purposes of the project

was to create a new, lively and vibrant center for retail and community services in the university neighborhood as well as a major building and entrance to the university campus.

The multi-million dollar, 547,000 gross square-foot development, which preserves 19th century townhouse fronts combined with contemporary construction, will house a variety of retail shops and office space. Income from the building will supplement the university's endowment. It is expected that the commercial space will begin to be occupied after the first of the year. The 70,000 feet of

"We have always believed that the work of this nation's teaching hospitals is a pivotal reason why the U.S. health care system is the finest in the world," said AMI Chief Executive Officer Royce Diener. "For some time, we at AMI have considered ways through which we can more broadly support and sustain the work of the university hospitals. Our exploratory study with George Washington University--and the potential relationship which may come from it--is one very valid and important means of bringing our financial and managerial resources to the support of an excellent medical teaching facility as it plans for the future."

GW will continue full operation of the School of Medicine and Health Sciences, with our 600 medical students, 300 allied health students, and 360 residents in graduate medical education.

The Board voted to explore this potential relationship with AMI because of changing federal policy regarding health care reimbursements, because of the necessity to provide for immediate and longer-term capital needs, and to ensure the best possible facilities for the University's Medical School.

AMI was the nation's first investor-owned hospital chain, and owns and operates hospitals and health care support services in more than 500 communities world-wide, often using existing facilities. The firm, headquartered in Los Angeles, has an active program of hospital development and construction for adding new services and technologies.

To ensure the very best patient care, and the highest quality medical education facilities, both parties agree that a successful joint venture would need to make available the most up-to-date health care technology, provide for short-term capital improvements, and address the longer-term building and equipment requirements.

Evaluation and feasibility studies will begin shortly and will continue for several months. The university is seeking a foundation grant to study conversion to this new relationship.

GW

HEALTH CARE INSURANCE OPEN ENROLLMENT PERIOD CONTINUES

The open enrollment period for health care insurance will continue through Friday, November 18. There are still three meetings with representatives of all of the available health plans which those interested can attend. The meetings are: Friday, October 28, 12 noon to 4 pm, Room 415, Marvin Center; Monday, October 31, 1 to 4 pm, Hospital Auditorium, 23rd Street entrance; and Thursday, November 3, 8:30 to 11:30 am, Hospital Auditorium, 23rd Street entrance.

Announcements have been sent to eligible faculty and staff outlining key elements in each health plan. If you did not receive an announcement or wish more information, please contact or visit the Records and Benefits Division of the Department of Personnel Services, 2125 G Street, Bldg. GG.

The effective date of coverage or changes in coverage will be January 1, 1984.

ROBERT G. PERRY APPOINTED 1983-1984 ANNUAL FUND CHAIRMAN

Robert G. Perry (B.S. 1970) has accepted the national chairmanship of GW's 1983-1984 Annual Fund. He has been a leader in the alumni activities of the School of Government and Business Administration for several years and currently serves as chairman of the school's alumni association. His leadership during the past three years as SGBA Annual Fund chairman resulted in nearly doubled annual contributions from SGBA alumni.

The yearly kick-off luncheon for the Annual Fund was held October 17 at the National Geographic Society headquarters, as it has been for the last few years. Acting as host for the occasion was Joseph Judge, associate editor of National Geographic Magazine.

"It's up to us as alumni to support the annual fund and make this the best year in our history," Perry declared at the luncheon meeting. "We deeply appreciate your taking on this assignment," President Elliott responded.

Perry's undergraduate work at the university was in accounting and economics. He also holds an M.B.A. from New York University. A division manager in AT&T's Public Affairs Department, he was formerly a marketing executive for AT&T's Long Lines, and served on a Bell System Task Force that proposed the restructuring of the system's marketing function. In 1981 he was selected to participate in the President's Executive Exchange Program, a one-year tenure during which he was involved in strategic planning for international development.

(2000 Pennsylvania,
Continued from front)

retail space is immediately behind the 19th century townhouse restorations, popularly known as "Red Lion Row," and is on three levels. The 10-story 340,000 square-foot office space complex is directly behind the retail space. The retail and office spaces are connected by a glass atrium which creates an interior courtyard.

For the opening occasion, 2000 balloons were used for decoration, some of them forming an arch at the main entrance. Members of the GW Music Department performed and artworks by GW faculty, alumni and students were on exhibition.

Speakers at the October 19 event included J. Henry Eisenhart, Jr., chairman of the board of the Public School Employees' Retirement System of the Commonwealth of Pennsylvania, John Carl Warnecke and Gyo Obata, in addition to President Elliott and Vice President Diehl. Hellmuth, Obata & Kassabaum, P.C. and John Carl Warnecke, F.A.I.A. are joint venture architects for 2000 Pennsylvania Avenue. Joint owners of the project are The George Washington University and the Public School Employees' Retirement System of the Commonwealth of Pennsylvania. The general contractor for the project is the George Hyman Construction Company.

UNIVERSITY BOOKSTORE NOTE

University Bookstore Manager Monroe S. Hurwitz wishes to inform department chairmen and faculty members that all desk copies taken from the bookstore by departments must be returned by Friday, November 11. If the books are not returned, departments or faculty members will be charged for them.

Annual Fund Chairman Robert G. Perry, left, with School Chairman for SPIA Edward W. Gnehm Jr.

PROFESSOR SHIH'S FILM TO BE SHOWN ON WEDNESDAY, NOVEMBER 2

"Return from Silence: China's Revolutionary Writers," the film produced by GW Professor of Chinese Chung-wen Shih, will be featured at the November First Wednesday Lecture sponsored by the Alumni Relations Office on November 2. The film will be shown at 8 pm in the third floor Continental Room of the Marvin Center. There is no charge but those planning to attend are asked to call the Alumni Relations Office, Ext. 6435, at least two days in advance. Dinner will be available beginning at 6:30 pm in the GW University Club for both members and non-members. Call Ext. 6610 for dinner reservations.

TWO BASS HIT TO APPEAR OCT. 29

The Two Bass Hit, Slam Stewart and Major Holley, with supporting musicians, will appear in concert in the Marvin Theatre on Saturday, October 29, at 8 pm. Their appearance is co-sponsored by the Charlin Jazz Society and the GW Department of Music. Tickets are \$11 general admission with a price of \$9 for students. Call 484-1697.

ATTN. RACQUETBALL PLAYERS, THERE'S A CLINIC OCTOBER 28

"Get in the swing," says the Recreation and Intramural Office, which is offering a racquetball clinic from 6 to 8 pm on Friday, October 28. Participants are invited to sign up for two hours of training in basic skills or fine tuning of the game. The sign-up location is Smith Center, Room 103. For information, call Ext. 6250. (All the programs sponsored by the Recreation and Intramural Office are free to faculty and staff of the university.)

NEWSNOTES

INTERVIEWS

KENNETH R. BOLLING, associate editor at the First Federal Congress Project, was interviewed for an article entitled, "When Congress Met in Princeton," which was published in the New York Times on September 11.

S. ROBERT LICHTER, assistant professor of political science, was interviewed by the Ganett Broadcast Group on the social and political themes in TV entertainment. The interview aired on Ganett-owned TV stations in Atlanta, Boston, Denver, Detroit, and Tucson.

KATHY L. SIMS, director of student and alumni career services, was interviewed September 2 by Earl Gottschalk of the Wall Street Journal regarding trends in the hiring of college graduates; and by Elizabeth Kaster of the Washington Post, for an article entitled "Money: Earning Your Way Out of College," which appeared in the Style section on October 11.

PUBLICATIONS

WILLIAM C. ADAMS, associate professor of public administration, recently edited a book entitled, Television Coverage of the 1980 Presidential Campaign, published by Ablex, Norwood, New Jersey. The book is a collection of content analyses by various academics.

JOSEPH A. GREENBERG, professor of education, and MARTHA A. BURNS, professor of education, an article, "Prognosis for Proprietary Postsecondary Education," in the Journal of Studies in Technical Careers, Vol. V, No. 4, Fall 1983.

MARVIN S. KATZMAN, assistant professor of business administration, an article, "Police Labor Relations: Where Labor Organizations and Employees Stand," in the Australian Police Journal, April-June 1983.

EDWIN P. KULAWIEC, professor of education, a response, "Poles and Jews," in Commentary, Vol. 76, No. 4, October 1983.

S. ROBERT LICHTER, assistant professor of political science, an article, "Scientists' Attitudes Toward Nuclear Energy," in Nature, September 14. This article generated an article in the Christian Science Monitor, September 29, and an editorial in Discover, October, 1983.

LEO RIBUFFO, associate professor of history, a book, The Old Christian Right: The Protestant Far Right from the Great Depression to the Cold War, Temple University Press, June/July 1983. He also served as editor for a special issue of the journal American Quarterly, called "Contemporary America," Vol. 35, Spring/Summer 1983.

TRUSTEE SMITH SPEAKS OF FUTURE, SAYS ART IS INDISPENSABLE

University Trustee Robert H. Smith, speaking at the dedication of the Robert H. and Clarice Smith Hall of Art, October 20, said, "In every man's heart, there is a secret nerve that answers to the vibrations of beauty. We hope that this outstanding building, finally housing all the disciplines of art, will serve as a catalyst in promoting an ongoing commitment to quality."

"A university should not only be a preparation for life, it should be life itself. Art is indispensable to a quality lifestyle."

"In the artist's life of the imagination, there is a vision and adventure, and the discovery of new worlds. We want this building to foster those ideals."

"Our experience at George Washington University has convinced us that there exists here a strong desire to become a great art school. The teachers are talented and extremely dedicated: The leadership is committed to excellence. We believe that this aspiration is attainable."

"Throughout the ages, man has been able to create marvelous works of art in all forms. To remain sane in today's world, we should make a commitment to the memory of the great beauty that man has and is creating. Memory also creates anticipation. We remember the past and hope for the future."

"Our families, Mr. and Mrs. Charles E. Smith, Mr. and Mrs. Robert P. Kogod, Clarice and myself, are convinced that this university has a vital role to play in the successful future of our community and our great country."

"Today's event indicates our belief that conviction is worthless, unless it is converted into conduct. We look forward to the realization of all our goals."

FRANK CONLON IN CONCERT

Frank Conlon, pianist, adjunct assistant professor of music, will appear in a concert on Monday, November 7, at 8 pm in Marvin Theatre. The concert is part of the Faculty Series, sponsored by the Music Department. He will perform music of Barber, Schubert, Ravel and Debussy.

"MUCH ADO ABOUT NOTHING"

The George Washington University Theatre will present William Shakespeare's comedy "Much Ado About Nothing" this week and next. Performances will be at 8 pm in Marvin Theatre on Thursday, Friday and Saturday, November 3, 4 and 5, and Thursday, Friday and Saturday, November 10, 11, and 12. There will be a 2 pm matinee on Sunday, November 13. Tickets are \$5 general admission, \$2.50 students and senior citizens. Call Ext. 6178 for more information and reservations.

L to R, Trustee Robert H. Smith, Clarice Smith, Art Department Chairman Lilien F. Robinson, President Lloyd H. Elliott.

PRESIDENT ELLIOTT ANNOUNCES FORMATION OF PLANNING COMMITTEE, CITES ENDOWMENT GROWTH, RESEARCH'S IMPORTANCE

A committee to "examine and make recommendations for academic work, programs and policies for the next 10 years" will be formed shortly at the university, President Lloyd H. Elliott announced to the Board of Trustees in the course of meetings held Friday, October 21, the day following the Board's stated meeting. The long range planning committee will be charged with looking at various academic opportunities and policies in the different departments, assessing them and bringing back recommendations. The makeup of the committee has yet to be decided. "I haven't blueprinted this yet, I need to discuss this before I make any appointments," President Elliott said.

In a report to the Board at its October 20 meeting, President Elliott pointed out that, as of June 30, 1983, the market value of the university's endowment funds, including income-producing properties, stood at \$115,935,000 and added that by January 1, 1984, the total endowments will have a market value of approximately \$150,000,000. He said that projecting the increase in the value of the university's income producing properties,

without change in market value of stocks and bonds or additions of gifts or income, another \$50 million could be added in the next five years. He called passing the \$100 million line in endowment value "a kind of sound barrier in the race to financial stability" and observed, "The higher education community will now know more clearly where George Washington stands." He pointed out that from the total of some 3,300 colleges and universities in the United States today, only 35 hold larger endowments than George Washington. He added that this fact should not be viewed as a "disincentive" to those who support the university financially but rather as "an opportunity for significant philanthropic investment."

In remarks to the trustees on October 21, President Elliott stated that in seeing Washington as "an intellectual capital as well as the political capital" and taking into account the proximity of the many research and scholarly organizations, both public and private, in the Washington area, "We find ample support for the claim that Washington, the city, is

THREE STAFF APPOINTMENTS ANNOUNCED AT BOARD MEETING

President Lloyd H. Elliott announced three administrative appointments at the October 20 meeting of the Board of Trustees. They are: Vicki J. Baker, assistant treasurer; William J. Carter, assistant vice president and assistant treasurer; and Richard T. Haskins, assistant vice president for development.

Vicki Baker, born in Michigan, is a long-time Washington resident. She attended the American College in Paris before coming to George Washington as an undergraduate in 1967. She received a B.A. with a major in American history in 1969 and an M.A. (also from GW) in 1971. The principal focus of her graduate study was United States social history. She joined the Cashier's Office of the university in September of 1971 and, in March of 1973, moved to the Office of Student Financial Aid as a counselor. In June of 1978, Ms. Baker became assistant director of financial aid and in October of the same year, director. As assistant treasurer, she will continue to carry the title of director of student financial aid and, in addition, will have responsibility for the Cashier's Office and Veterans Benefits.

William J. Carter is a native of Virginia. He holds a B.S. in business administration from the University of Richmond (1953) and an M.S. in business administration from New York University (1954). Carter comes to the university from Bank Street College of Education in New York where he was vice president for finance and administration. He will assume his responsibilities at George Washington Tuesday, November 1. He was formerly

GW'S ROLE IN IRANIAN HOSTAGE CRISIS IS FRIENDS FORUM TOPIC

William C. Adams, associate professor of public administration, will speak on "GW's Role in the Iranian Hostage Crisis" at the Friends Forum of the Friends of the Libraries on Tuesday, November 8, at noon in Room 202 of the Gelman Library.

In the spring of 1980, when the Carter administration was negotiating for the release of the U.S. hostages in Iran, the State Department contacted Professor Adams and Fay Schreiber of the Gelman Library and asked them to prepare a composite tape of the national and world news the hostages were missing while they were in captivity. Professor Adams will describe his work with the State Department and the Gelman Library's Television News Study Center in accomplishing the task. Portions of the composite tape will be shown.

Those planning to attend are invited to bring their lunches. Coffee will be served.

At the 2000 Pennsylvania Avenue Open House Patri Lucas, left, and May Nakamura, both of the Counseling Center, were seen at one of the period-style phone booths.

(Planning committee,
continued from front)

a major research center of the country." He announced, "We shall place more emphasis on research in the years ahead because we must do so if the total institution is to be strengthened." He said he will request the University Committee on Research to undertake a study aimed at developing appropriate programs, policies and recommendations and that, in the new budgets, he will recommend an increase in university funds allocated to research. The president observed that it seems clear that research dealing with public policy questions should be among the highest priorities and that George Washington has the experience to expand its public policy oriented and multidisciplinary programs "which can best help toward resolving the tough problems facing government, business, labor or other segments of our society."

Commenting on possible effects on undergraduate education of increased emphasis on research, President Elliott said, "It helps create an environment where even the beginning freshmen can see and benefit directly from the full range of scholarly work . . . the undergraduate will be able to understand better the two ends of research and scholarship: the work of the specialist and the work of the generalist. While such a setting will provide an unusual opportunity in this great world capital for the most mature thinkers and policymakers, it will also provide an unmatched opportunity for undergraduates to study and to inquire."

DIMOCK LOANS ARTWORKS

The Dimock Gallery has loaned the watercolor "The Van Ness Mansion" by Walter Paris to the National Museum of American Art's exhibition "The Capital Image: Painters in Washington, 1800-1915," on view until January 22, 1984. This exhibition was organized in conjunction with "19th Century Washington: A City-Wide Celebration." During the celebration, exhibitions, lectures and performances are being held throughout the city in an effort to present a view of historic Washington. The George Washington University Permanent Collection also contains a Walter Paris of 17th and Pennsylvania Avenue, a gouache being displayed in the Dimock Gallery's current show, "Selections from the W. Lloyd Wright Collection of Washingtoniana." Paris was born in London in 1842. He spent many years living and working in Washington until his death here in 1906.

From the University's Ulysses S. Grant III Collection, some objects have been loaned to the University Museum at Southern Illinois University at Carbondale for its exhibition "Ulysses S. Grant: Man of War, Man of Peace," on view through January, 1984. (The Grant Collection is part of the GW Permanent Collection.) The items loaned include an engraving of Grant receiving his commission as lieutenant-general from President Lincoln, pieces of a silver service belonging to Grant which may have been the gift of Mexican President Benito Juarez and two postcards of General Grant, his wife and party at the mines in Virginia City, Nevada, from 1879.

At the Student Association reception for University Trustees, L to R, Program Board Chairman Keith Robbins, Trustee Ellen Servetnick, and Student Association President Bob Guarasci visited before the October 20 Board of Trustees meeting.

ABOUT CAR RENTAL DISCOUNTS

For the past two years, the university has had contracts with both Hertz and Avis which offered car rental discounts. The university's contract with Avis has been cancelled. If you are holding an Avis discount card, it is no longer valid. There is still a contract with Hertz and if you want to obtain a Hertz discount sticker, please call Mrs. M. Plunkett in Procurement and Supply, Ext. 6865.

GW

(Staff appointments,

vice president for business affairs at the College of William and Mary (1972 to 1982) and, before that, served as business manager at Hollins College (1963 to 1972). He will be in the Office of the Vice President and Treasurer and will be responsible for administration of the many programs and services provided through that office to the university community.

Richard T. Haskins is a native of Elyria, Ohio. He holds a B.A. in journalism and communications from Point Park College in Pittsburgh (1971) and earlier this year received an M.A. in the area of political science from The George Washington University. He has held the post of director of development at GW since July, 1979. He first became associated with George Washington in July, 1975, as assistant director of annual support. In July, 1977, he was named assistant to the vice president for development. He served in that capacity for the next two years until he was named director of development. Since coming to George Washington, Haskins has worked on the reorganization of the university's phonathon program which increased in pledges from \$65,000 in 1978-79 to \$180,000 in 1981-82. He helped establish a data base system designed to improve the university's ability to target its appeals more effectively and coordinated efforts to obtain three-to-one matching funds for the university's \$800,000 National Endowment for the Humanities challenge grant. Before coming to GW, he spent almost two years in San Francisco as public relations director for the San Francisco Ballet. He was assistant to the president at Point Park College from June, 1970, to August, 1973.

BLOOD DRIVE REMINDER

For everyone who has scheduled an appointment to donate during the University Blood Drive, the Red Cross Bloodmobile will be set up in the Marvin Center Third Floor Continental Room from 9 am to 3 pm today, October 31.

UNIVERSITY THEATER COSTUMES ON DISPLAY THROUGH NOV. 30

Costumes from the University Theater will be on exhibition in the Colonnade Gallery, third floor, Marvin Center, November 4 through November 30. The exhibition is sponsored by the Governing Board, Marvin Center, University Theater and C.A.S.T. (Contributing Associates in Support of the Theater). There will be an opening reception Thursday, November 3, following the opening night performance of "Much Ado About Nothing," produced by University Theater.

ANNA CHENNAULT TO SPEAK ON CHALLENGE TO U.S. IN 1980s

Anna Chennault, vice chairman of President Reagan's Export Council who has recently returned from a trip to the Middle East, Asia and the Soviet Union, will speak on the "Challenge for the United States in the 1980s" on Monday, November 14, at noon in Marvin Center's third floor Continental Ballroom.

Mrs. Chennault is president of the Washington firm TAC International and a board member of a number of institutions, among them the National Aeronautic Association and the District of Columbia National Bank. The widow of World War II Flying Tigers Commander Claire Lee Chennault, she is listed in *Who's Who in America* and in *The World Who's Who of Women*. She has had a total of 40 books published in English and Chinese, including *The Education of Anna* (Time-Life Books, 1980).

The event is sponsored by the SPIA Alumni Association and is open to everyone-- alumni, students, friends and members of the university community. A sandwich lunch will be available for purchase or those attending may bring their own lunches. Call Ext. 6435 to reserve a place and to say whether or not you wish to buy a sandwich lunch.

WILLIAM S. ANDERSON TO SPEAK AT SGBA ALUMNI ASSN. EVENT

William S. Anderson, chairman of the NCR Corporation, will speak on "U.S. Trade Deficit: An Economic Time Bomb" on Monday, November 14, at a noon luncheon in the GW University Club, sponsored by the SGBA Alumni Association. For more information, call Ext. 7423.

INVITATION TO A CONFERENCE

The Citizens Forum on Self-Government/National Municipal League is extending an invitation to students and faculty in appropriate disciplines to attend its annual national conference on government.

Theme of the conference, to be held in Baltimore, November 12 through 15, Saturday through Tuesday, is "Civic Partnership: Initiative-Innovation-Involvement." In extending the invitation, Citizens Forum President James L. Hetland Jr. of Minneapolis, said the conference will use Baltimore as a case study of public-private partnerships that produced successful revitalization in one of the country's oldest and most historic cities. He said that students, faculty and administrators in the fields of economics, history, government, urban studies, public administration, political science, social work and government would find the conference of interest. Registration fees for students and faculty members are waived, he said.

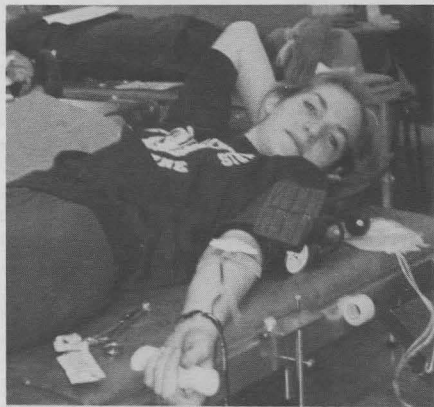

More information on the conference and a copy of the program can be obtained by calling Joan Casey at Citizens Forum (212) 730-7930.

President Lloyd H. Elliott and Professor of Art and Chairman Lilien F. Robinson holding certificate.

UNIVERSITY SENDS CERTIFICATE TO LOGAN COUNTY, OHIO, MUSEUM

A certificate, inscribed "In Memorium and Grateful Appreciation" is being sent by the university to Logan County, Ohio, boyhood home of the late Samuel G. Ebling (B.A., 1920, Columbian College) who bequeathed \$300,000 to the Art Department. In the words of Ebling's will, the gift is "to facilitate and expand courses in Art Principles and History of Art." Income from the endowed gift will be used to establish and expand the Samuel G. Ebling Book Collection in Art History. The certificate, done by Associate Professor of Art Sam Molina, is being sent to Ohio, where it will be placed on permanent display in the Logan County Historical Society Museum. It was prepared in response to a request by Dalton A. Young, a boyhood friend of Ebling's, who asked that he be sent any record of recognition by the university for placement in the museum.

RED CROSS BLOOD DRIVE -- Margaret Goldsborough, a student in SGBA was one of those who donated in the October 31 university sponsored Red Cross Blood Drive.

PHYSICAL PLANT ON KEYS

Physical Plant informs us that in order to provide better and more economical service in key cutting, new procedures are being tried. Physical Plant will provide walk-in service and will accept mail-in requests in accordance with certain guidelines.

Walk-in service, which does not apply to master keys nor keys cut by core number, is available between 1 pm and 2 pm, Monday through Friday, in the Lock Shop on the third floor of Building EE, 2129 I Street, NW. Only five keys may be copied at a time by the walk-in service. The cost is \$1.50 for each key copied, payable by IP or in cash. Persons receiving keys will present valid university IDs and will be asked to sign for the keys.

Mail-in requests should be sent with an IP accompanied by applicable core numbers or pattern keys and the number of keys desired. Those ordering should indicate whether the new keys are to be delivered or will be picked up. If the keys are picked up, the charge will be \$1.50 per key. If they are delivered, there will be a charge of \$5 added to the order whether it is for one or more keys. Requests marked "pick-up" received by Physical Plant by noon of a given day will be filled by 3 pm of the following day for pick-up from the Office of the Director of Physical Plant, ground floor, 2129 I Street. To be sure that this service is available, call 6700. Keys for pick-up will be in an envelope marked with building, room number and IP number. Persons receiving keys will present valid university IDs and will sign for the keys. Keys to be delivered will be delivered as time permits and will be signed for by the person requesting or an individual designated to sign. Questions, call Ext. 6700.

DANA F. WHITE NAMED VISITING BENJAMIN BANNEKER PROFESSOR

Dana F. White, associate professor of urban studies at Emory and Atlanta Universities, has been named Benjamin Banneker Visiting Professor of Washington Studies for the spring semester, 1984.

Known for his contributions to the history of Atlanta and his writings on the pioneer landscape architect Frederick Law Olmsted, Professor White will teach a 700 course sponsored by the Program in American Studies and the Departments of History and Urban and Regional Planning entitled "City, Metropolis, and Region: Theory and Theorists of American Place and Space." As part of the appointment, he will conduct research here on the career of Frederick Gutheim, a leading contributor to the fields of urban and regional planning and historic preservation, going back to the 1930s when Gutheim participated in the establishment of the Tennessee Valley Authority. Gutheim is currently adjunct professor of urban and regional planning at the university. He was the

PHILLIPS COLLECTION PAINTINGS TO BE SHOWN IN DIMOCK GALLERY

"The Intimate Scale: Paintings from the Phillips Collection" is the title given by the Dimock Gallery, Art Department to its exhibition of small paintings from the Phillips Collection which will be on display from November 10 through January 6, 1984.

The collection includes oils on canvas, works on paper and mixed media. There are 28 works, arranged chronologically from the early 19th century into the 20th century with no works dated later than the 1950s. The smallest work in the group is four and half by five inches, the largest is thirty and a half inches by twenty-five inches. The phrase "The Intimate Scale" refers to the idea of small masterpieces such as the cabinet paintings of the 17th century which were displayed in an art room in private residences. Included in the group are the works of source painters such as Turner, Delacroix, Corot and Degas. Among the American painters represented are Tobey, Burchfield, Ryder and Dove. Giants of European modernism whose works will be shown are Braque, Klee and Picasso.

Gallery talks on the exhibition will be given on Saturday, November 12, and Saturday, December 3, at 11 am by GW Associate Professor of Painting Arthur Hall Smith. The talks are sponsored by the GW Alumni Relations Office. Admission will be free.

Dimock Gallery hours are 10 am to 5 pm weekdays. The gallery will be open four Saturdays during this exhibition: November 12 and 19 and December 3 and 10. Saturday hours will be 10 am to 1 pm.

(Continued from front)

first director of the GW Graduate Program in Historic Preservation. White received his Ph.D. from George Washington in 1969. His thesis title was "The Self Conscious City: A Survey and Bibliographical Summary of Periodical Literature on American Urban Themes, 1865-1900." During his time as a student at GW, he helped launch the university's first course in Washington history.

Professor White was co-editor, with Victor A. Kramer, of *Olmsted South* (Greenwood Press, 1979) and with Timothy Crimmins, of a study of Atlanta's evolving urban structure, which appeared as a special double edition of the *Atlanta Historical Society Journal* earlier this year. Articles by White have appeared in the *Journal of Urban History*, *American Studies International* and *South Atlantic Quarterly*.

The Banneker Professorship is named after the black surveyor who played a major role, with Pierre L'Enfant, in laying out the original plan for Washington, the Capital City. The appointment, which is made yearly (for one semester), is part of the university's commitment to advancing scholarship on the Washington region through the Center for Washington Area Studies.

CONTEMPORARY STUDIO GLASS ON DISPLAY AT GELMAN LIBRARY

The Gelman Library is currently hosting an exhibit of "Contemporary Studio Glass" on the first floor and in the H Street window cases. Arranged by the Glass Gallery in Bethesda, the display features glass sculpture and objets d'art by local artists using various decorative techniques. Accompanying the exhibition are explanations of the different colorings and textures, with historical background and information on modern-day composition and properties of glass. The exhibit runs through the end of December.

NEWSNOTES

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, associate professor of public administration, participated in the Shavano Institute Conference on "America in the 1980s and 1990s" at Keystone, Colorado, September 24-27.

CHARLENE N. BICKFORD, editor at the First Federal Congress Project, presented a paper entitled "Where We are Today: A New Advocacy Movement with Roots in the Past" at the meeting of the Association for Documentary Editing, in Baltimore, Maryland, October 7. The paper was part of a session on documentary heritage and advocacy, a historical perspective.

DAVID S. BROWN, professor of management, was the keynote speaker October 3 at the Air Force Comptroller's AC-90 week-long seminar, "Towards the Future," held at Maxwell Air Force Base, October 3. He spoke on "Future Directions in Financial Management: An Educator's View."

WILLARD E. CALDWELL, professor of psychology, attended a workshop entitled, "The Luria-Nebraska Neuropsychological Battery," in Alexandria, Virginia, October 7-8. The workshop was sponsored by Psychological Seminars, Inc., and the workshop leader was Charles Golden, Ph.D.

SUSAN J. TOLCHIN, professor of public administration, is shown with, L to R, Jack Seum, a student in public administration; Cindy Skrzycki, associate editor of U.S. News & World Report; and Darren Murphy, graduate teaching fellow in public administration, at the recent reception sponsored by the GW Department of Public Administration and Houghton Mifflin to celebrate the publication of Dismantling America: The Rush to Deregulate, by Professor Tolchin and her husband Martin Tolchin, a New York Times congressional correspondent.

JONATHAN CHAVES, associate professor of Chinese, lectured on "The Transitional Period Through the Eyes of Wu Jiaji (1618-1684)" at the China Institute in New York City, October 25.

GAIL DELENTE, adjunct professor of music, presented a lecture-demonstration on "Twentieth-Century Piano Music" for the Montgomery County Music Teachers Association at the University of Maryland, October 16.

AMITAI ETZIONI, university professor, spoke on "The Jewish Future," at the B'nai B'rith International Center on October 13, in connection with B'nai B'rith's 140th anniversary. He also presented a paper, "An Industrial Policy Without Government Intervention," at Understanding Industrial Policy--Beyond the Words, a seminar for senior executives sponsored by the National Foreign Trade Council Foundation and *Business Week* magazine, October 18.

ANTHONY V. FIACCO, professor of operations research and applied science, presented a talk on "Sensitivity and Stability Analysis in Nonlinear Programming," in a colloquium sponsored by the Department of Mathematical Science at the University of Delaware, October 21.

JOHN FREY, professor and chairman of Romance languages and literatures, delivered a paper entitled, "Irving, Chateaubriand, and the Historical Romance of Granada," in the comparative literature section of the Romanticism in the Old and New World-International Conference in Celebration of Washington Irving, Stendhal and Vasilii Andreievich Zhukovskii, at Hofstra University, October 13-14.

DENNIS E. GALE, associate professor of urban and regional planning, has been re-appointed to the editorial advisory board of the *Journal of the American Planning Association* for a two-year term. Service on the board involves referee duties in selecting manuscripts for publication in the magazine.

FREDERICK GUTHEIM, adjunct professor of urban planning and American civilization, has received an award of merit from the American Association for State and Local History, for his achievement as initiator and chairman of Sugarloaf Regional Trails. The organization mobilized and trained 200 workers to document and preserve the historical features of the Sugarloaf landscape, a prominent feature near Frederick, MD.

ON HALLOWEEN at the Dimock Gallery, Charlotte Cohen, formerly associated with Dimock, now at the Franz Bader Gallery, left, and Ronna Hammer, graphics specialist in Graphics and Printing, appeared as persons different from their everyday selves.

TERRY L. HUFFORD, associate professor of botany, presented a paper entitled, "A History of Diatoms Collected From Virginia Fresh Waters Excluding the Boundary Waters," at the VIIth North American Symposium on Diatom Systems and Ecology, at the Barnebey Center of the Ohio State University in Columbus, Ohio, September 28-October 1.

JOHN D. HUNT, professor of human kinetics and leisure studies, presented a paper entitled "Conducting National Tourism Policy Studies-Methodological Concerns," at the Sixth Conference of Applied Geography, in Toronto, Ontario, October 14.

JOHN M. LOGSDON, professor of public affairs and political science, presented a paper on "Commercialization of Space Technology: How Real the Prospects?" during the 34th Congress of the International Astronautical Federation in Budapest, Hungary, October 10-15. At the conference, he was elected chairman of the education committee of the International Astronautical Federation. On October 21, he participated in a panel on science and technology policy at the annual meeting of the Association for Public Policy Analysis and Management, in Philadelphia, Pennsylvania.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Biochemistry. (Full-time position to study the role of thymus hormones in T-Cell and lymphoma development. Experience in cell culture, B and T-Cell separation, antibody synthesis, protein isolation and purification, and solid phase immunology desirable. B.S. or B.A. in science required. Position available November 15.) Contact Dr. Marian Zatz, Department of Biochemistry, 2300 Eye St., NW, Washington D.C. 20037.

RESEARCH ASSISTANT, half-time. (Assist in formulation and solution of problems related to the impact response of composite materials. B.S. in Mechanical Engineering, or equivalent, with emphasis on vibration theory and analytical and numerical methods, and three months research experience in solving vibration and impact response problems required.) Send resume to Dr. E. Thomas Moyer, Jr., Staughton Hall, Room 204, or call Ext. 6389.

RESEARCH ASSOCIATE, Department of Psychiatry and Behavioral Sciences. (Contribute to the refinement of a research design, implement pilot testing of research interviews and behavioral measurement instruments with pain-psychiatric patients and family members, organize, compile and collate data, prepare data for analysis, prepare statistical analyses using computer facilities, code, conduct library research, M.A. or Ph.D. in psychology or related field with experience in research.) Resumes only, with letter of interest, to Dr. Marc Hertzman, Department of Psychology and Behavioral Sciences, H.B. Burns Memorial Building, 10th floor.

RESEARCH ASSISTANT, Department of Statistics, Biostatistics Center. (Assist in data analysis for medical research study. B.S. required, biological sciences preferred. Extensive SAS experience essential. Work location in Bethesda). No phone calls please. Send resume to Helen Spencer, the Biostatistics Center, 7979 Old Georgetown Road, Bethesda, Md. 20814.

George Washington University is an equal opportunity/affirmative action employer.

PAUL KEENAN NAMED EXECUTIVE-IN-RESIDENCE IN SGBA

Paul C. Keenan, former director of operations of Organization Resources Counselors Inc., a human resources consulting firm, has been appointed Executive-in-Residence and director of Continuing Professional Education in the School of Government and Business Administration. He will direct part-time educational programs for executives and senior managers in both the private and public sectors.

A veteran of 30 years' service as an officer in the United States Navy, (1944 to 1974) he retired with the rank of captain. He served as division commander of four nuclear power attack submarines and was chief of staff for the U.S. Navy's first all-nuclear-powered submarine squadron. He received a B.S. from the U.S. Naval Academy and an M.S. from Stanford University.

Keenan has over 20 years' experience in corporate planning and in organizing and implementing programs in both large and small organizations, including the U.S. Department of Defense.

His professional background includes manpower policy development and implementation, senior executive professional development, consulting in manpower, organization and compensation, and planning and installing procedures, systems and controls. He held the position of deputy director of two Presidential/Congressional commissions: the Defense Manpower Commission and the Commission on Federal Paperwork.

His publications include: "People, The Navy's Most Critical Resource," from the United States Naval Institute proceedings; Defense Manpower: The Keystone to National Security; and a 1971 Quadrennial Review of Military Compensation.

GEARLDEAN L. ORMONDE BECOMES ASSISTANT TO THE TREASURER FOR FINANCIAL MANAGEMENT

Gearldean L. Ormonde of the Office of Vice President and Treasurer has recently been promoted to the position of assistant to the treasurer for financial management. A native of South Carolina, she received a B.A. with a major in education from Suffolk University in Boston in 1971. In January, 1972, she joined the Planning and Construction Office of the university. In August, 1973, she moved to the Vice President and Treasurer's Office where she has performed a number of responsible duties including service as secretary to the Board of Trustees Committee on Financial Affairs. In her new post as assistant to the treasurer for financial management, she will be responsible for cash management, investment administration and budgets.

Bobbie Pratt has assumed the administrative duties in the Office of the Vice President and Treasurer previously performed by Mrs. Ormonde.

AFTER THE PLAY -- At the reception after the opening of University Theatre's "Much Ado About Nothing," L to R, Patricia Tulli, who played Leonata; Sam Wilkes, who took the part of George Seacoal, a watchman; and Anne Armentrout, a member of C.A.S.T., posed for the cameraperson.

INVESTIGATIVE REPORTERS AND EDITORS CONFERENCE FOR COLLEGE JOURNALISM STUDENTS TO BE HELD IN MARVIN CENTER NOVEMBER 19

Investigative Reporters and Editors is holding its 1983 Atlantic regional conference for college journalism students in Washington, D.C., at the Marvin Center on Saturday, November 19. The GW Journalism Department is co-sponsor of the all-day conference.

The conference will cover public records, sources, city hall, politics, crime, health and safety, legal issues, ethics, writing, and what to expect on the first job with a small paper.

Seymour Hersh, 1970 winner of the Pulitzer Prize for his My Lai disclosures, will be the luncheon speaker. Laura Stepp of the Washington Post and Jim Risser of the Des Moines Register, who between them received four Pulitzers in seven years, will talk

about long-range investigation. Conference participants will include other Pulitzer winners from across the country. The panelists are all unpaid volunteers willing to give their time to help students as they enter journalism careers. The conference is not confined to investigative reporting. It is described as a practical primer on how to ferret out answers as a serious journalist.

Investigative Reporters and Editors is non-profit organization, based at the University of Missouri, but run by working reporters. James Polk of NBC News is conference chairman.

There is a fee for the conference. Call the Journalism Department, Ext. 6225, for information.

GUENTHER, TAYLOR AND PARRIS TO APPEAR IN RECITAL NOV. 21

A faculty recital on Monday, November 21, at 8 pm in Marvin Theatre, will feature Roy Guenther, trombone; Paul Taylor, trumpet; and Robert Parris, piano.

The recital will be highlighted by the premiere of six chorale preludes by J.S. Bach in transcriptions for trumpet, trombone and piano by Robert Parris.

For the balance of the program, the three artists will appear in various combinations performing the following works: Henri Dutilleux, "Choral, Cadence et Fugato"; Claude Debussy, "Four Preludes for Piano"; Boris Blacher, "Divertimento for Trumpet, Trombone and Piano"; and Paul Hindemith, "Sonata for Trombone and Piano."

Faculty members Guenther,

SINGERS AND STRING PLAYERS SOUGHT FOR MESSIAH SING-ALONG

All members of the university community are invited to participate with The George Washington University Glee Club and Troubadours at the annual Yuletide Concert and *Messiah* Sing-Along on Friday, December 9, at 8 pm in the Marvin Theatre. Everyone is invited to join in rehearsing and performing the *Messiah* choruses on December 9. The only requirement is that those participating as singers attend three rehearsals with the Glee Club.

Rehearsal times for singers are: Monday, December 5, from 5:45 to 7 pm, in Room B-120 of the Academic Center; Tuesday, December 6, from 5:45 to 7 pm, also in Room B-120; and Thursday, December 8, at 8 pm in Marvin Theatre.

Space on the risers, the graduated steps used for the chorus, is limited. If you

FACULTY/STUDENT DANCE CONCERT IS NOVEMBER 17, 18 AND 19

The Fall Faculty/Student Dance Concert presented by the GW Dance Production Groups is scheduled for the Marvin Center Theatre Thursday, Friday and Saturday, November 17, 18 and 19, at 8 pm.

The concert will feature two works choreographed by guest artist-in-residence Ellen Cornfield from New York City. She will perform "Boxing With Light," a solo in collaboration with musician/holographer Hale Aust. George Washington students will perform her work "Tracks," a dance concerned with the paths people make and the signs left over from group gatherings and formations. The sound tape for "Tracks" is a recording of the Brooklyn Bridge Centenary Fireworks Celebration by Bill Fontana. (Fontana performed this work in Washington recently as part of the New Music America series.)

Ellen Cornfield, performed with the Merce Cunningham Dance Company from January, 1974, until June, 1982. She has taught and conducted workshops in various colleges in the United States and France, at the Cunningham Studio and in her own loft in New York.

Four newly choreographed works will be included in the program. "Skeeter," by Mary Jane Coolen, a senior majoring in dance therapy, is described as a dance of gathering and dispersing, ebb and flow. "That Which We Are," by Anne-Marie Fusco, an undergraduate dance student, is a duet exploring the journey of two women. Meryl Shapiro, a graduate student, who has performed with the Maryland Dance Theatre and who is currently associated with the Center Dance Ensemble, has choreographed a humorous quartette. Kathryn Temple, a graduate teaching assistant, has created "Rievaulx Abbey," said to be a lyrical work contrasting the elements of form and freedom, restraint and exuberance.

The George Washington University began offering degree programs in dance in 1964, building on a long tradition of years of dance instruction.

Tickets for the performances are \$4 general admission and \$3.50 for students and senior citizens. Call Ext. 6577.

wish to sing with the Glee Club, please call the Music Department, Ext. 6265, to reserve your space. The *Messiah* Sing-Along will be under the direction of Catherine J. Picker, assistant professor of music.

The Music Department is looking for string players to string along with the December 9 Sing-Along. There will be two rehearsals required for participation in the orchestra for the *Messiah*. The times and places are: Sunday, December 4, at 5 pm in Room B-120 of the Academic Center and Thursday, December 8, at 8 pm in Marvin Theatre. The December 8 rehearsal will be with the chorus. For further information call Ext. 6245.

IT'S TIME TO VALIDATE YOUR UNIVERSITY ID FOR 1984

The blue or pink photo identification cards, IDs as they are often called, currently held by eligible faculty and staff will become invalid on January 1, 1984.

A schedule has been set up for the 1984 validation of these identification cards. For the university, validation will be in the Charles E. Smith Center main ticket office lobby. Dates and times are:

Mon,	Nov 28	9 am to 4 pm
Tues,	Nov 29	7 am to 4 pm
Wed,	Nov 30	9 am to 4 pm
Thurs,	Dec 1	7 am to 4 pm
Fri,	Dec 2	9 am to 4 pm.

For the Medical Center, validation will be in The George Washington University Hospital cafeteria at these dates and times:

Mon,	Dec 5	7 am to 4 pm
Tues,	Dec 6	9 am to 5 pm
Wed,	Dec 7	7 am to 4 pm
Thurs,	Dec 8	9 am to 5 pm
Fri,	Dec 9	7 am to 4 pm.

Each individual must bring his or her blue or pink university photo identification card to the designated location. There, a staff member of the Department of Personnel Services will verify eligibility and affix a 1984 validation sticker to the pink or blue card.

At this time, the only part-time on-campus faculty for whom 1984 validation stickers will be issued are those who have been appointed through the 1984 spring semester. Others should wait until they receive a spring semester letter of appointment from the Office of the Provost before requesting 1984 stickers.

In the event that you have lost your current photo identification, please contact the Records and Benefits Division of Personnel Services, Ext. 4480, for assistance.

Personnel Services tells us that the validation process will involve a large number of faculty and staff, that every effort will be made to ensure a smooth process and that everybody's cooperation will be appreciated.

MUSIC

(Continued from front)

Taylor and Parris are, respectively, chairman and associate professor of music, studio instructor in trumpet and professor of music.

The concert is open without charge.

JONATHAN D. MORENO, assistant professor of philosophy, an article, "Private Genes and Public Ethics," in The Hastings Center Report, October, 1983.

SUSAN J. TOLCHIN, professor of public administration, a book, Dismantling America: The Rush To Deregulate, co-authored with Martin Tolchin, Houghton Mifflin, October 1983. Also, an article, "Relating Public and Private Sectors," in The Bureaucrat, fall 1983, pp. 60-63.

SHARON WOLCHIK, assistant professor of international affairs and political science, Institute for Sino-Soviet Studies, a chapter, "Regional Inequalities in Czechoslovakia," in Communism and the Politics of Inequalities, edited by Daniel N. Nelson, Lexington Books, D.C. Heath, 1983.

PROFESSIONAL ACTIVITIES

DAVIS S. BROWN, professor of management, has been reappointed to a third term on the board of trustees of the William A. Jump Memorial Foundation by Secretary of Agriculture John R. Block. Each year the foundation selects the recipient of the William A. Jump Memorial Award. The annual award is presented in recognition of outstanding service in

administration and notable contributions to the efficiency and quality of the public service. One young executive from among the many federal agencies is selected to receive it.

LINDA GRANT DePAUW, professor of American history, participated as a special discussant for the sections on Women in the U.S. Armed Forces at the 1983 International Conference of the Inter-University Seminar on Armed Forces and Society, held October 21-23 in Chicago. The theme of the conference was "Manpower, Technology, and National Security."

RODERICK S. FRENCH, professor of philosophy and director of the Division of Experimental Programs, was elected to the Board of Directors of the National Federation of State Humanities Councils, at the annual conference of state humanities councils held in Salt Lake City, Utah, October 26-29.

DENNIS E. GALE, associate professor of urban and regional planning, HOWARD GILLETTE, associate professor of American civilization, and JEFFREY HENIG, associate professor of political science, participated in a panel on "The Uses of History: An Historical Analysis of Housing Policy in Washington, D.C.," at the eighth annual meeting of the Social Science in History Association, in Washington, D.C., October 30. Professor Gillette served as chairperson, and Professors Gale and Henig discussed "Gertification in Washington D.C.: An Historical Perspective."

JAMES OLIVER HORTON, associate professor of American history and civilization, and director of the Afro-American Communities Project, delivered a paper entitled, "Black Education at Oberlin College: A Controversial Commitment," for the Oberlin College Sesquicentennial Conference on the theme, "The Education of Black Americans and the Quest for Equality," October 8.

JAMES C. KING, professor of German, served as secretary of the German I section (Literature to 1700) at the annual meeting of the South Atlantic Modern Language Association, in Atlanta, October 28. He was elected chairman for the 1984 meeting of the association.

RICHARD LONGSTRETH, associate professor of architectural history and director of the Graduate Program in Historic Preservation, lectured on "The

Campus as an Artifact and the Importance of Landscape in Preservation" at the University of Vermont, October 14. He also served as a respondent for "Historical Perspectives on Urban Design: Washington, D.C. 1880-1910," sponsored by local chapters of the Society of Architectural Historians, the American Planning Association and GW's Center for Washington Area Studies. He also chaired a session on the resource protection planning process sponsored by the Society of Architectural Historians, led a discussion group on the future of preservation education, served as a panelist in a session on incentives for rehabilitation in neighborhoods and historic districts, and was elected to the board of directors of the National Council of Preservation Education, at the 37th National Preservation Conference, in San Antonio, Texas, October 26-30.

JAMES C. MILLER, professor of psychology, is teaching a course in the Smithsonian Resident Associate Program. The course, titled "Freud and Contemporary Psychoanalysis," will trace Freud's early discoveries, his later revisions and the contributions of Anna Freud, Kernberg, Kohut, Mahler and others. The course began October 17.

LEONARD NADLER, professor of education, was the keynote speaker at the annual conference of Region IV of the American Society for Training and Development at Virginia Beach, Virginia, October 10. He spoke on "The Role of Human Resource Development in the Productivity Equation."

NADINE NATOV, professor of Russian, chaired a session at the Turgenev Memorial Conference, September 1-3, at the Villa Viardot, Bougival, France. She also presented a paper entitled "L'Image de l'Allemagne dans l'Oeuvre de Turgenev." The Turgenev Museum was inaugurated in the house Turgenev died in on September 3, 1883. The house is near Villa Viardot.

PRESIDENT ELLIOTT SPEAKS ON EDUCATION FOR LEADERSHIP

"The most important thing for us as a nation is to realize that in our society each person--man, woman and child--is a resource unmatched and the full development of that resource is the only means by which this nation can begin to meet its responsibility for world leadership. That leadership is ours, whether we want it or not, and it is a responsibility which will leave us only if we fail," President Lloyd H. Elliott told fellow university presidents in an address to the West Virginia Association of College and University Presidents titled "Education for World Leadership" in Charleston, West Virginia, November 16.

Referring to the ongoing discussions of the decline in student achievement in the last quarter century and the uncertainty in some quarters as to the role of the colleges and universities in solving society's problems, he emphasized the pre-eminent importance of the parents' attitude toward learning and of the environment they create for the young child even before the child enters nursery school. "The education this country needs for world leadership is not that which is centered in the great research universities or in the high-technology areas of Silicon Valley and Route 128, around Boston. Education at those levels and in those places will take care of itself if first of all parents respect learning highly enough to make it the value of first priority in the upbringing of their children," he said.

Speaking of the central role of teachers and the teacher-parent relationship in the learning process, he called attention to the fact that many good teachers have left the classroom in the last five years because of inadequate pay and said it would be interesting to learn how many more left because they concluded their communities had neither appreciation for their work nor understanding of their difficulties. "How much more persuasive would be our case if those same teachers could continue with the firm conviction that parents and non-parents alike among the adults of the community were equally persuaded as to the value of the teacher's work," Dr. Elliott commented.

"Giving teachers a respected place in the community is the most powerful recruiting message which any neighborhood can give its brightest and most promising youngsters," he added.

Recognizing that dollars will be needed, he pointed out that "dollars must buy a full measure of educational value." He stated, "The real ammunition that must be thrown at the problem of education is not just dollars but ourselves. This will mean a rededication of our time and energy to learning . . . a new discipline on the part of parents, neighbors, friends . . . less leisure and more

ARTHUR HALL SMITH TO GIVE GALLERY TALK IN DIMOCK DEC. 3

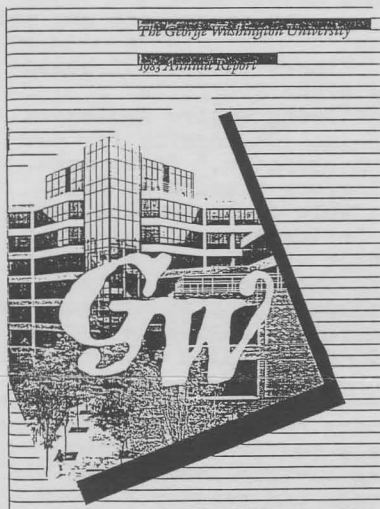

Arthur Hall Smith, associate professor of painting, will give a walk-around gallery talk on Saturday, December 3, at 11 am in the Dimock Gallery. He will discuss the paintings from the Phillips Collection now on display in the gallery in the exhibition titled "The Intimate Scale." The talk is sponsored by the Alumni Relations Office and is open without charge. The gallery will be open from 10 am to 1 pm December 3.

DUNHAM BECOMES ASSISTANT DIRECTOR OF ADMISSIONS

Barbara Dunham, publications coordinator for admissions since July of 1981, assumed the position of assistant director of admissions in mid-October. She received her B.A. from GW's Columbian College of Arts and Sciences in 1961 and an M.A. from Mills College in Oakland, California, in 1963. She taught English here at George Washington from 1964 to 1971 when she became an assistant dean in Columbian College. She served as assistant dean until 1980 and then retired for a brief time before joining the Admissions Office in 1981.

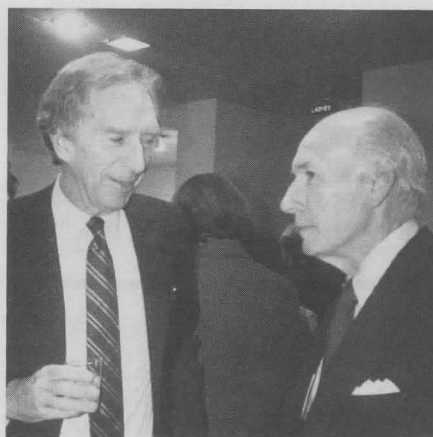

STEVE BILSKY, right, director of men's athletics, greeted Yugoslav officials before the exhibition basketball game between GW and Jugoplastika of Yugoslavia November 12 in the Charles E. Smith Center. GW won the game 106 to 84.

1983 ANNUAL REPORT AVAILABLE

Copies of The George Washington University 1983 Annual Report are available for interested members of the GW community. The report, which focuses on the sustaining of excellence at the university, includes a message from President Lloyd H. Elliott, a section on the endowed professorships and the university professors and the financial report. Copies may be obtained from the GW Office of News and Public Affairs, Gelman Library, Room 705.

LAUGHLIN PHILLIPS, director of the Phillips Collection, left, talked with President Lloyd H. Elliott at the opening of the Dimock Gallery's current exhibition, "The Intimate Scale: Paintings from the Phillips Collection."

STUDY FINDS GLENN'S CANDIDACY AIDED BY FILM "THE RIGHT STUFF"

The movie "The Right Stuff" is giving a boost to the presidential campaign of Sen. John Glenn, according to a study directed by Associate Professor of Public Administration William C. Adams. The study's findings will be published in the December issue of the The Washington Journalism Review.

In research involving movie-goers in Virginia, Maryland and Washington, D.C., Adams found that more than one-third (34.5 percent) of those who saw "The Right Stuff" said the movie raised their opinion of Glenn as a presidential candidate. About one in 10 said their view of Glenn as a candidate was "much higher" after seeing the movie, while another one in four said their views were "somewhat higher."

For the field study, conducted in theaters in late October, a team of nine GW researchers interviewed more than 650 adults age 17 and over (voting age for next year's election) to gauge their attitudes toward Glenn: as a politician, as a person, as the Democratic presidential nominee, and as an alternative to Ronald Reagan. The research team surveyed a large random sample of movie-goers just prior to their seeing "The Right Stuff," and then surveyed a separate large

REMEMBER 1984 ID VALIDATION

1984 validation of university photo identification cards will begin after Thanksgiving recess on Monday, November 28, for university faculty and staff and the following Monday, December 5, for those in the Medical Center.

For the university, validation will be in the Charles E. Smith Center main ticket office lobby. Dates and times are:

Mon,	Nov 28	9 am to 4 pm
Tues,	Nov 29	7 am to 4 pm
Wed,	Nov 30	9 am to 4 pm
Thurs,	Dec 1	7 am to 4 pm
Fri,	Dec 2	9 am to 4 pm.

For the Medical Center, validation will be in The George Washington University Hospital cafeteria at these dates and times:

Mon,	Dec 5	7 am to 4 pm
Tues,	Dec 6	9 am to 5 pm
Wed,	Dec 7	7 am to 4 pm
Thurs,	Dec 8	9 am to 5 pm
Fri,	Dec 9	7 am to 4 pm.

We should all bring our current Ids with us to either of the designated locations.

At this time, the only part-time on-campus faculty for whom 1984 validation stickers will be issued are those who have been appointed through the 1984 spring semester. Others should wait until they receive a spring semester letter of appointment from the Office of the Provost before requesting 1984 stickers.

In the event that you have lost your current photo identification, please contact the Records and Benefits Division of Personnel Services, Ext. 4480, for assistance.

"HAND IN HAND IN HAND"

GW UNITED WAY CAMPAIGN OPENS

"Thank you for helping GW carry its share of community responsibility," President Lloyd H. Elliot told those assembled for the kick-off meeting of the George Washington University 1983 United Way Campaign on November 15.

"The increase this year will come from introducing more people to the tradition of giving," said Richard A. King Jr., director of fund raising for the District of Columbia United Way.

Serving as co-chairmen again this year are James C. Clifford, director of Personnel Services, and Michael M. Barch, administrator, GWU Medical Center. In brief remarks, both thanked the GW United Way workers. "I think sometimes people have a cursory knowledge about the United Way. What we need to do is to let people know more about what the United Way does and provide them the opportunity of giving," commented Clifford. Noting the importance of social programs and the current trend away from funding them in the public sector, Barch said, "There are people out there needing help that won't get it unless we give."

A showing of the United Way film for this year highlighted the theme "Hand in Hand in Hand" and gave insights into several United Way programs including those serving the handicapped, children and the elderly.

The GW United Way Campaign is expected to continue through December 9. Individual solicitors will be contacting about 20 people each. If you are not contacted and wish to give, call Leslie O'Bryant, university coordinator, at Ext. 4467.

(Elliott's speech, Continued from front)

study . . . and will push into lower priorities many of the things now at the top of our list. If we look upon such a rededication as a sacrifice, we shall fail," he went on. "It must be accepted instead as an effort which will result in greater satisfaction, enhanced achievement and strengthened self-respect for the individual and for the country."

"Education for the responsibility which is America's, and therefore that demanded for this nation's role in the world, is yours and mine," he said to his education associates. "The world looks to the U.S. for guidance, for leadership, for survival. Where is that leadership? It may now be in the high offices of this land but where tomorrow? It is in our students, our children, our homes."

(Glenn, Continued from front) sample with identical questions shortly after their viewing the movie.

The findings revealed that people who had seen the movie ranked Glenn higher both as a person and as a politician than did those in the pre-test group--providing further evidence that the movie shifted attitudes toward both Glenn's personal image and his political image.

The researchers also found changes in peoples' evaluations of Glenn as a possible presidential choice. Those who had seen the movie were more supportive of Glenn than their pre-movie counterparts. Post-movie endorsements of Glenn for the Democratic nomination climbed from 42 to 49 percent, while

AT THE UNITED WAY KICK-OFF Betty Schlesinger, United Way coordinator for the Comptroller's Office, right, received a "Hand in Hand in Hand" pin from Richard A. King Jr., director of fund raising, District of Columbia United Way.

post-movie approvals of Glenn over Reagan climbed from 56 to 63 percent.

"The magnitude of such effects is not trivial--especially where presidential politics is concerned," the report noted. The data showed Glenn's higher ratings occurred across the board--among Republicans, Democrats and Independents, among young, middle-aged and older adults, and among both men and women.

"There is no indication 'The Right Stuff' is hypnotizing entire audiences into instant loyalty for the Glenn campaign," Adams said. "But every measure we had available indicated the movie did influence evaluations of Glenn's candidacy. Moviegoers who had previously concluded Glenn should get the Democratic nomination had ample opportunity to seize reinforcing ideas about his character. And, some who were leaning toward Glenn were more likely to favor him after being vividly reminded of his courage and decency."

The researchers concluded that "'The Right Stuff' probably won't put John Glenn into presidential orbit, but it's an unmistakable boost."

WASHINGTON IN JACKSON'S AGE SEEN IN SPECIAL COLLECTIONS

"Washington in The Age of Jackson" is an exhibit currently on display in the Special Collections Division on the second floor of the Gelman Library.

The exhibit depicts aspects of the Capital City during the Andrew Jackson administration, from 1829 to 1837. Jackson was the first President from the West--Tennessee, and he was considered by Washingtonians to be a man of rustic habits, and was a known enemy of federal spending.

In the long run, President Jackson brought about fewer changes than expected. He helped to stabilize the city's economy, and Washington was better able to cope with the financial

panic of 1837.

The exhibit is divided into four sections: personalities, federal government and the city, economics, and social conditions. The display includes books, such as Philo A. Goodwin's Biography of Andrew Jackson, President of the United States, which was published while he was still in office; photographs of Jackson, his second vice-president Martin Van Buren, and John Henry Eaton, the controversial cabinet member whose marriage to a local innkeeper's daughter provoked most of Jackson's cabinet to resign.

Also included are a map of the Federal City in 1835, including Georgetown and Alexandria, and a copy of a House bill forbidding any petition pertaining to slavery and slave trade in the District of Columbia.

The exhibit was coordinated by Suellen Towers in Special Collections, and runs through January 6, 1984. Exhibition hours are Monday through Friday from 8:30 am to 5 pm.

NEWSNOTES

GRANTS

AVRIL ADAMS, research professor of education policy and economics, \$61,372, from the Consortium of Universities for personnel policy research.

HOWARD GILLETTE, associate professor of American Civilization, \$8,794 from the D.C. Community Humanities Council, for research on the evolution of Washington's Italian-American Community, 1890 to 1980.

TAVIA GORDON, research professor of statistics, a \$259,291 grant from the Department of State, for research on a medical information management systems project.

DONALD GROSS, professor of operations research, DOUGLAS MILLER, associate professor of operations research, and RICHARD SOLAND, professor of operations research, \$74,981

NEIL TILKEN'S PIANO RECITAL, "THE SCHUMANNS AND BRAHMS"

Neil Tilken, associate professor of music, will appear in a piano recital, "The Schumanns and Brahms," on Monday, November 28, at 8 pm in the Marvin Theatre. The recital is designed to provide a further look at Brahms in the 150th year of his birth. His late piano miniatures will be heard against the backdrop of a major work of Robert Schumann who announced the advent of Brahms to the World in the "Neue Zeitschrift fur Musik" in 1844, and a set of variations by Clara Schumann on a theme by Robert Schumann.

The program is as follows:
Robert Schumann Fantasia, Opus 17
Clara Schumann Variations on a Theme of Robert Schumann, Opus 20
Johannes Brahms Piano Pieces, Opus 118
Rhapsody in E-Flat, Major, Opus 119.
Admission to the recital is free.

from the Department of Defense/Navy/Office of Naval Research to study stochastic modeling and solution techniques in a time varying environment.

DOUGLAS JONES, professor of engineering, and JANN-NAN YANG, professor of engineering and applied science, \$99,097 from the Department of Defense/Navy/Naval Air Systems Command, for research on the statistical characterization of metal/composite joints and the stiffness degradation of composite laminates.

JUDITH MILLER JONES, executive director of the National Health Policy Forum, \$145,000 from the John Hartford Foundation for state workshops on market and non-market strategies for controlling health care cost, and \$5,000 from Holy Cross Health System in support of the National Health Policy Forum.

HAROLD LIEBOWITZ, professor and dean of engineering and applied science, \$56,999 from the National Aeronautics and Space Administration/Langley, for research on the effect of low velocity impact on the strength characteristics of composite materials laminates. Also, \$70,000 from the Department of Defense/Navy/Naval Air Systems Command, for research to improve fracture toughness in high-strength beta titanium alloys.

ANNA L. NELSON, associate professorial lecturer in history, spoke on "The Way We Were: Decisions Without Historians," at the meeting of the Association for Documentary Editing in Baltimore, Maryland, October 7.

NOZER SINGPURWELLA, professor of operations research and of statistics, \$73,478 from the Department of Defense/Navy/Naval Air Command, for research in reliability with special emphasis on the analysis of engine disc failure rate, and replacement policies for disks.

ERIC SIRULNIK, professor of law, \$59,131 from the D.C. Office on Aging, for the GW Institute of Law and Aging's advocacy and continuing education project.

D.C. TEACHER OF THE YEAR HONORED BY THE UNIVERSITY

Mrs. Emma Isler, D.C. Teacher of the Year, a teacher of French at Banneker High School, was honored by the university at a reception sponsored by the Department of Romance Languages and Literatures on Monday, November 21, in the President's Room of the GW University Club. The original idea for the occasion came from Professor of French James F. Burks, who served as chairman of arrangements.

Provost and Vice President for Academic Affairs Harold F. Bright presented her a letter of commendation from President Lloyd H. Elliott and the deputy cultural counselor of the French Embassy, Christian Morieux, invited her to visit France next summer for three weeks as the guest of the French Government and presented her with one of the

ASTRID MERGET ELECTED TO MEMBERSHIP IN THE NATIONAL ACADEMY OF PUBLIC ADMINISTRATION

Astrid E. Merget, associate professor of public administration and department chairman, has been elected an active member of the National Academy of Public Administration.

The academy's roster includes a distinguished list of present and former public officials—governors, members of Congress, White House officials and others, including successful business executives who have served in government, professional government managers and scholars specializing in public affairs. Walter A. Hahn, currently futurist-in-residence in SGBA is a member of the academy.

The National Academy was founded in 1967 by 18 former presidents of the American Society for Public Administration brought together for this purpose by James E. Webb, then administrator of the National Aeronautics and Space Administration. (James Webb served as a George Washington University Trustee from 1951 to 1963.) The academy conducts research and studies under contract for government, foundations, corporations and associations. 1983 projects have included "America's Unelected Government: Appointing the President's

Team"; The "Deregulation of Government"; "Space Remote Sensing and the Private Sector: An Essay"; and "Encouraging Business Ventures in Space Technologies."

Professor Merget came to the university in September, 1977. She has been department chairman since July, 1981. A graduate of Mount Holyoke College, she received her graduate degrees (M.P.A. and Ph.D.) from the Maxwell Graduate School of Citizenship and Public Affairs at Syracuse University. Her principal fields for research and teaching are in public budgeting and finance, concentrating on public expenditure analysis and state-local finances. Senior vice president of the American Association for Budget and Program Analysis, she also serves on the fiscal Affairs Committee of the Montgomery County Council, Maryland.

In 1982, Dr. Merget undertook a long-term study for the Academy of State-Local Government that has already led to the publication of a series of papers analyzing the effects of federal tax code changes on state-local revenues. Her previous research has produced numerous articles on state-local finances, equity in providing services, federal urban

MESSIAH SING-ALONG IS THIS COMING FRIDAY, DECEMBER 9

The George Washington University Glee Club and Troubadours will present their annual Yuletide Concert and *Messiah* Sing-Along on Friday, December 9, at 8 pm in the Marvin Theatre. Singing with the Glee Club and Troubadours will be a chorus composed of participants from the GW university community and the Foggy Bottom neighborhood. Portions of Handel's *Messiah* will be presented following the Glee Club's Yuletide concert. The concert, under the direction of Catherine Pickar, assistant professor of music, is open without charge.

PETER CAWS TO DISCUSS YORICK'S WORLD DECEMBER 7

Peter Caws, university professor of philosophy, will discuss "Yorick's World or the Universe in a Single Skull" on Wednesday, December 7, at 8 pm in Marvin Theatre. The lecture is the fourth in this year's First Wednesday Lecture Series sponsored by the Alumni Relations Office. There is no charge but those who plan to come should call the Alumni House, Ext. 6435, to reserve a place. Dinner, for both members and non-members of the GW University Club, will be available at the club beginning at 6:30 pm. Reservations should be made in advance directly with the club. Call Ext. 6610.

THE UNITED WAY

Of every dollar contributed to the United Way, 90¢ goes directly into the human care services provided to our community by more than 200 agencies. This is made possible by the more than 70,000 volunteers working in the campaign. One in three people in the greater Washington area benefits from the United Way. Agencies supported by United Way campaign in partnership with the United Black Fund provide services to residents of Alexandria, Arlington, the District of Columbia, Fairfax-Falls Church, as well as Loudon, Montgomery, Prince George's and Prince William Counties (including Manassas and Manassas Park).

Those working in the GW United Way Campaign urge you to participate in this once yearly community effort by making a contribution in a lump sum or through the payroll deduction plan.

ACCIDENT REPORTING KITS BEING SENT OUT BY SAFETY OFFICE

The Office of Safety and Security is distributing Accident Reporting and Workers' Compensation Instruction Kits to all university departments. The kits contain all necessary instructions and forms for reporting work-related illnesses and injuries. Director of Safety and Security Byron M. Matthai Jr. tells us the purpose of the kits is to consolidate the necessary materials in one place within a department or a directorate. One kit will be sent to each department. There are sufficient forms in each kit to report one work-related illness or injury. Additional kits are available from the University Safety Office. Call Ext. 6947.

A CHECK FOR CAREER SERVICES--Kathy L. Sims, director, Student and Alumni Career Services Center, left, is shown with Timothy D. Traylor, personnel representative with Burroughs Corporation, who presented her a check for \$1,000 from the corporation to further Career Services activities.

VIRGINIA TAX FORM VA-4a

EXPIRES DECEMBER 31, 1983

The University Payroll Office provides the following information for those who need it.

Virginia tax form VA-4a states, "I certify that I incurred no Virginia State income tax liability for taxable year ____, and anticipate that I will incur no liability for Virginia State income tax for taxable year ____." The exemptions from withholding authorized by forms VA-4a, which are currently on file in the University Payroll Office, will expire on December 31, 1983.

If you live in Virginia and this form will apply to your tax status for 1984, you may complete a new form beginning 12/1/83. Forms VA-4a will be available in the University Payroll Office, 1st floor Academic Center, as well as in the Records and Benefits Office of Personnel Services, Building GG, 2125 G St., NW.

Please note that this form is used mostly by student employees. It is not the standard form, used for claiming dependents, which remains in effect until changed by the employee.

VISUAL COMMUNICATIONS AND CERAMICS STUDENTS' SHOW

Works by George Washington University students in ceramics and graphic arts will be on exhibition in the Colonnade Gallery, third floor, Marvin Center, from December 7, 1983, through January 31, 1984. Some of the works will be for sale.

There will be a special sale of student ceramic work at the December 7 opening of the exhibition from 5 to 7 pm. The exhibition is sponsored by the Governing Board of the Marvin Center and the Art Department.

(Continued from front)

Mayor Marion Barry sent Rolin Sidwell of his office as his representative. Among those from the GW university community were Dean of the School of Education and Human Development Eugene W. Kelly Jr., Director of the Division of Experimental Programs Roderick S. French, Associate Dean of the Columbian College of Arts and Sciences Robert C. Rutledge, Romance Languages and Literatures Department Chairman John A. Frey and other members of the department's faculty as well as the director and assistant director of the Office of International Services, Dr. Patricia J. McMillen and Dr. Morris L. Jackson. There were also a number of French speaking GW students. medals struck for the Bicentennial of 1976.

Mrs. Isler responded first in French and then in English saying, "I accept this honor with an immense satisfaction and a humility without limits." She said the honors were not only for her but for all teachers and emphasized the importance of preparing students to communicate with those from other countries in their own languages. She expressed the hope that the occasion would be just the beginning of a cooperative effort between Banneker High School and George Washington.

Mrs. Maisie Wilson, principal of Banneker, and Mr. Robert Steptoe, assistant principal, attended the reception along with a number of Mrs. Isler's students. "Mrs. Isler is a very excellent teacher of French. She really brings the language alive for the students. They love it," Mrs. Wilson commented.

JOHN KENDRICK PREDICTS STRONGER GROWTH, LESS INFLATION IN 1980s

Real gross national product (GNP) will grow at an average annual rate of around 3.5 percent in the 1980s (1981-90) compared with little more than 2 percent from 1973 through 1981, according to Professor of Economics John W. Kendrick. At the same time, price inflation will remain moderate, averaging no more than 4.5 percent, he told members of the Southern Economic Association in an address as the association's outgoing president on November 22. For the next year (1984), he forecast that the implicit price deflator for the GNP will rise only 4 percent, with real GNP more than 5 percent.

The main element in Kendrick's optimistic projection is a strong comeback in productivity. Productivity gains are expected to average 3.0 percent in 1984 and 2.7 percent over the period 1981-1990 compared with less than 1 percent during the productivity slowdown from 1973 through 1982. Kendrick, who has written extensively on productivity, cites as reasons for a productivity rebound the stronger growth of fixed investment due to tax incentives, the recovery of financing for research and development, favorable demographic developments, less regulatory drag, higher rates of utilization of capacity, and improved labor efficiency.

He noted that his projection for the 1980s is a bit more optimistic than that just released by the Bureau of Labor Statistics (BLS) which expects real growth of 3.2 percent and average price increases of 5.4 percent for the rest of the decade. The BLS projections are described

SENATOR GARY HART (D-Colo.) presidential candidate, center, took part in a recent "Forum on Education" coordinated by Dean Eugene W. Kelly of the School of Education and Human Development. He discussed the need for elevating the status of education in the United States with education majors at GW, George Mason University, the University of the District of Columbia, Gallaudet College and the Catholic University of America.

in the November 1983 Monthly Labor Review.

Professor Kendrick made a number of proposals for improving the accuracy of long-range economic projections in the future. One is to improve the statistical base, and he warned against further erosion of financial support of the Federal statistical agencies. Another is continuing systematic evaluations of previous projections to determine where and why mistakes were made. To improve the industry projections prepared by BLS and the Bureau of Industrial Economics (BIE) in the Commerce Department, he recommends improvements in methodology of projecting productivity by industry. Finally, he recommended that a small staff be created in the Executive Office of the President, possibly under the direction of one of the members of the Council of Economic Advisers, to coordinate the projection capabilities that exist in at least a dozen Federal agencies, and to provide longer-run perspectives in economic policy formulation.

Professor Kendrick has served as president of the 2000-member Southern Economic Association since 1982. The association held its annual meeting in Washington November 20 through 22. A former chief economist of the U.S. Department of Commerce (1976-1977), Professor Kendrick was vice president for economic research of The Conference Board in New York in 1972-73. He is currently an adjunct scholar at the American Enterprise Institute.

ID VALIDATION--Eugene Gordon, Engineering Department, Physical Plant, left, got his 1984 ID validation the first day, November 28, from Thomas A. Rogers Jr. and Evelyn Thomason of Records and Benefits, Personnel Services. ID validation continues through December 9 in the Hospital Cafeteria.

policy and the fiscal effects of decentralizing governments. In the National Association of Schools of Public Affairs/Administration, she chairs the Committee on Placement and Internships and sits on the Standards Committee. She is a member of the Planning and Evaluation Committee for the American Society for Public Administration. Before coming to George Washington, she served in both local and federal government, most recently as a special assistant to the Assistant Secretary for Policy Development and Research at the Department of Housing and Urban Development. She was formerly a member of the faculty at Barnard College, Columbia University where she was deputy director of the Urban Studies Program.

GEORGE WASHINGTON RECEIVES TWO AWARDS AT D.C. CEREMONY

The George Washington University received two awards at the 1983 Awards Ceremony for Environmental Improvement of the District of Columbia held December 1, at the Washington Convention Center.

One award was for the general appearance of the grounds around the GWU Hospital and the other was in recognition of the university's efforts to maintain and improve the appearance of the Eye Street Mall at the Foggy Bottom/GWU Metro station. The work on the mall was seen by the awards committee as designed to benefit the larger community beyond the campus itself and to serve an area heavily traveled by commuters.

The university was represented at the ceremony by Vice President and Treasurer Charles E. Diehl, Assistant Treasurer Robert E. Dickman, GWU Medical Center Assistant Administrator Rick Balthrop, Physical Plant Department's Grounds Supervisor Louis L. Smith and Landscape Designers-Horticultural Technicians Barbara Moseley and Jeffrey Goldman.

Mary E. Healy, one of the university's Foggy Bottom neighbors, is serving as chairperson of the Mayor's Citizens' Advisory Committee for Neighborhood Beautification and was in charge of the ceremony. Participating in the awards ceremony were Deputy Mayor Thomas Downs, D.C. City Council Members Reverend Jerry Moore, John Wilson and Frank Smith, Fred Thomas of NBC and Director, Department of Environmental Services William B. Johnson.

ARE BUSINESS LOBBIES LOSING POWER ASK LEVITAN AND COOPER

In their new book, *Business Lobbies: The Public Good and the Bottom Line* (Johns Hopkins Press), co-authors GW Research Professor of Economics Sar A. Levitan and Martha Cooper question whether or not the power of business lobbies may have peaked.

Taking note of the gains in effectiveness and stature scored by the business lobbies in the last decade, the authors examine the structure and operations of the major organizations representing the business community in Washington. They study who the lobbyists are, how they are organized, the issues they represent and how they persuade lawmakers that their interests are best for the country. To illustrate the diversity of tactics business lobbyists use and how these lobbies have become a potent political force, Levitan and Moore also review three case studies dealing with pension legislation, unemployment insurance and labor law reform.

Although the 1980s opened with a conservative drift on the American political scene, giving business lobbies an opportunity to help the Reagan administration gain sharp personal and corporate tax

FIRE CHIEF'S RULES FOR CHRISTMAS TREES

District of Columbia Fire Chief Joseph H. Mattare has provided us with a set of guidelines in connection with Christmas trees in institutional buildings.

Live tress should be set in a large container of water, should be inspected daily for dryness and should be watered daily. Trees should be placed so as not to block a door or exit and should be secured against falling--but only with wire or metal braces. Don't use anything flammable like string. Trees should be placed at a safe distance from any sources of heat. No flammable decorations should be used on or under Christmas trees. Electric wiring is not to be used on metallic trees. All electric wiring should be disconnected during periods when people are not around, such as overnight or on weekends. Questions, call Ext. 6947.

POSTMASTER GENERAL TO SPEAK AT TELECOMMUNICATIONS FORUM

U.S. Postmaster General William Bolger will speak on "The Postal Service and Electronics: A Current View" on Thursday, December 15, in Marvin Center, Room 426, at 4 pm. The event is sponsored by the GW Center for Telecommunications Studies as part of the center's Telecommunications Forum Series. The forum is open without charge. A question and answer period will follow the postmaster general's speech. For further information, call Ext. 7062.

FULBRIGHT SCHOLAR Xu Jicheng, left, with President Lloyd H. Elliott, right, and Associate Professor of Urban and Regional Planning Sherwin Greene at a recent reception.

FULBRIGHT SCHOLAR FROM CHINA STUDIES URBAN PLANNING AT GW

Xu Jicheng, a Fulbright Scholar from the People's Republic of China, is spending nine months at George Washington doing research on environmental protection problems in America.

Xu is from Liaoning Social Science Academy in Shenyang, in the northeast of the country. "For me it is a big event to be in the U.S. and to be in GW," he says. He wears a silk tie with a dragon pattern and there are pictures on the wall of his study space to remind him of home. He came in early May of this year and will leave GW for Cornell University in February 1984.

The first stage of his graduate study consists of his research on environmental protection. In the second stage at Cornell, he will do research on urban planning theory, specifically a comparison of American and Chinese urban planning. "The first stage in GW, which will lay a solid foundation, is very important," he says. He is doing research in many ways, attending classes, studying materials chosen by his adviser, Professor of Urban and Regional Planning Dorn C. McGrath Jr., and seeing some projects and sites. He has found it interesting to visit a class being taught by Associate Professor of Urban and Regional Planning Sherwin Greene which is considering a plaza near the Smithsonian. He has observed the help being given by the Department of Urban and Regional Planning to a neighborhood in Southeast Washington under the direction of Professor McGrath. He feels the department has done an effective job of helping find solutions.

"What has impressed me most is that the professors in the department bring the practical problems of the city into their classes and bring their classes to the place where the problems turn up. This is very impressive and in a practical way good for both students and neighborhoods," Xu observes.

When he returns to Liaoning Social Science Academy in Shenyang, he will use what he has learned here mainly for research in urban and regional planning. He hopes that as a result of advances in the field there will be a better quality of life that will "let people live in amenity and convenience and a more beautiful environment with sanitation and safety."

Of planning he says, "The planner has at least four or five roles, as an organizer, as one who works with technicians, government officials, architects and engineers. A planner must organize, cooperate, get familiar with a neighborhood or area. A good planner must be a good organizer and a good cooperator. My American colleagues here know well how to do this. It's a very complicated job."

UNIVERSITY BOOKSTORE NOTE

The GW University Bookstore will be closed for business from Thursday, December 22, at 3 pm until Tuesday, January 3, 1984, at 8:45 am. The staff and management of the bookstore wishes the university community happy holidays.

(Continued from front)

cuts and to roll back the welfare state, a strong business lobby in Washington is a recent phenomenon, Levaitan says. A mere generation ago, one leading business representative remarked, executives "could get by following four rules--stick to business, stay out of trouble, join the right clubs and don't talk to reporters." Few business executives showed any interest in what went on in Washington and indeed, many major employer organizations were not even based here.

The surge of business interest in public policy making stems from the vast expansion in scope and detail of the federal government's regulation of business, the authors note. In the 1970s, the laws and regulations emanating from Washington raised the cost of doing business and made the American business leaders aware that to win in Washington, they would have to improve their techniques, master the rules and strengthen their lobbying muscle.

Studying the methods of their opponents and using the superior resources available to them, employer representatives had little trouble in surpassing their opposition and improving their tactics. They organized popular support, hired consultants, marshalled their facts, learned to use the media, made alliances, and brought their shining stars from corporate headquarters and satellites from Main Street to testify before, confer with and influence lawmakers.

As for the immediate future, Levitan says that "corporate America is now facing a much more difficult task of forging a common agenda for the coming 1984 elections. While business did not need much persuasion to agree on tax cuts in 1981, business lobbyists have turned increasingly to advance or protect their narrow interests and are using PAC money as a persuader."

The debate over the proper role of pressure groups, the authors recognize, is as old as the republic. The question to be answered over the next few years is whether corporate America will retain its new strength after 1984.

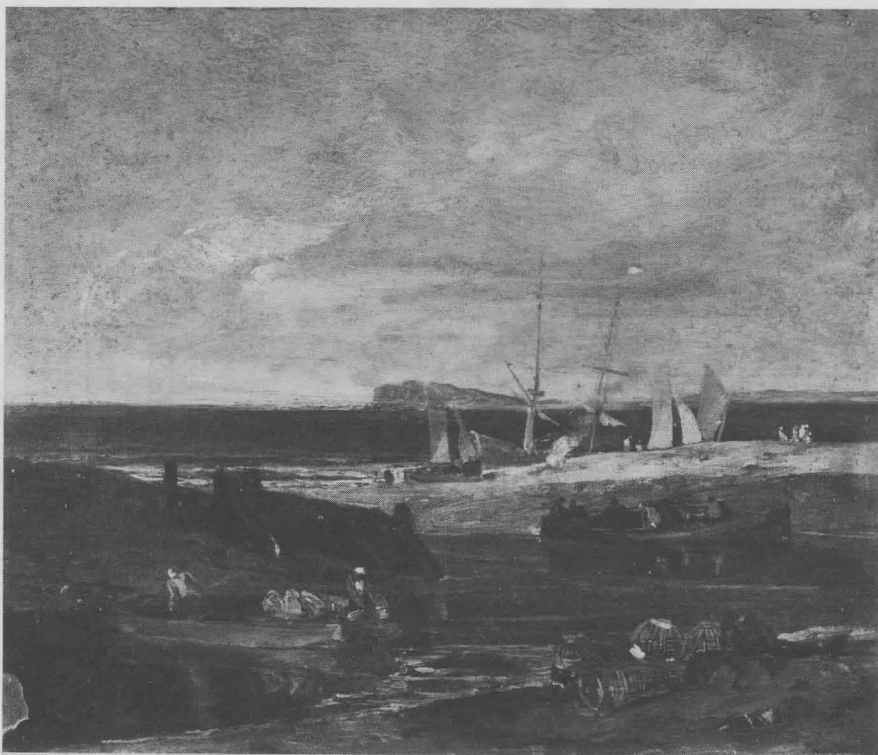

NEWSNOTES

THE GW RESIDENCE HALL ASSOCIATION (RHA) has received three awards from the regional and national chapters of the College and University Residence Hall Association.

Project Rainbow, a GW program based on the rainbow theme, addressing goals and objectives for safety and security on campus, was named program of the month by both the North Atlantic and National divisions of the association.

RHA's "People Network," which used computers to link people with a specific skill to people who want to learn that skill, also received a program of the month award.

Steve Gousie, who was president of RHA last year, was awarded a silver pin for his administrative development program for restructuring the RHA Middle Atlantic Region.

"Coast Scene with Sails," an oil on wood painting by the English artist J.M.W. Turner, is one of the 28 paintings from the Phillips Collection on exhibition in the Dimock Gallery through January 6. Gallery hours are 10 am to 5 pm weekdays.

The awards were given at the North Atlantic Association of College and University Residence Hall Associations regional conference at the State University of New York-Genesee Campus, in Genesee, New York, November 4-6.

PROFESSIONAL ACTIVITIES

WILLARD E. CALDWELL, professor of psychology, has been invited to attend the first congress sponsored by the Association of Biomedical Applications of Electro-Magnetism. The congress theme is Biological Effects and Therapeutic Applications of the ELF Electro-magnetic Fields. It will be held in Venice at the Fondazione Giorgio Cini, February 23-25, 1984. Between 1960 and 1971, Dr. Caldwell performed research with students on the effects of electromagnetic fields on the behavior of small organisms at the George Washington University.

R. PAUL CHURCHILL, associate professor of philosophy, spoke on "The Uses of American Military Power," to the World Affairs Council of Philadelphia, in Philadelphia, Pennsylvania, on October 31.

MARCUS CUNLIFFE, university professor, acted as one of five consultant-contributors to The Almanac of American History, a Bison Book, G.P. Putnam's, 1983, under the general editorship of Arthur M. Schlesinger Jr. He gave a lecture on the military aspects of George Washington, for a Smithsonian Institution series, "The American Revolution: New Insights and Revisions," in Washington, D.C. on November 9. He also presented a paper on "Norths and Souths, Easts and Wests: The Polarizing of American Values," at a joint conference of the Italian and American Historical Associations, held in Florence, Italy, October 25-27. The conference was devoted to the themes of regionalism and federalism. He also lectured on "Was There A Cherry Tree? Examining the Washington Legend," at a conference organized by the Northern Virginia Community College, Alexandria campus, October 14-15, on the theme "Alexandria: Empire to Commonwealth."

CLIFFORD A. DOUGHERTY, director, Law Alumni Relations, has been elected president of the Sertoma Club of Washington, D.C. The

Washington Sertoma Club is one of nearly 1000 Clubs of Sertoma International which ranks among the largest international service organizations in this country. SERTOMA is an acronym for "Service to Mankind," and the organization has as its primary objectives preserving the American heritage and rendering relief to suffering humanity with special emphasis on relief to individuals with sight and hearing defects.

The Washington Sertoma Club meets at noon on the first and third Tuesdays of each month at the GWU Club in the Marvin Center. All members and former members of Sertoma are invited to attend the luncheon meetings.

AMITAI ETZIONI, university professor, has been appointed to the Economic Forum of the Conference Board. The forum meets twice a year to issue a comprehensive forecast on the course of the economy. He also delivered the inaugural Paul Lamont Thompson Lecture at Kalamazoo College in Kalamazoo, Michigan, November 3.

HOWARD GILLETTE, associate professor of American history, participated in the Ninth Annual American Studies Convention, November 4-6, as chairman of a panel on "American Communities: Public Life and Oral History," and presented a paper entitled "The Cultural Transformation of the Shopping Center: Bringing Order to the Suburbs."

MURLI GUPTA, associate professor of mathematics, attended the fall meeting of the Society for Industrial and Applied Mathematics in Norfolk, Virginia, November 7-9, and presented a paper entitled "On the Integral Formulation of the Vorticity Boundary Conditions."

JOHN D. HUNT, professor of human kinetics and leisure studies, addressed the Airline Executives Association of Washington, D.C. on October 28. He spoke on "Travel and Tourism Education: The George Washington University Model." On November 16 he presented a paper entitled "Future Trends in Tourism" at the Kentucky Tourism Federation Conference in Owensboro, Kentucky.

CHRISTOPHER C. JOYNER, assistant professor of political science, participated in The Center For War/Peace Studies' Third

Conference on Global Decision-Making, October 21-23 at Lake Mohonk, New Paltz, New York. He also prepared a working paper, "Radical Thoughts on a New Regime for Antarctica," for use there by the working group on Antarctic politics.

JOAN KEEFE, lecturer in French, has been appointed by Secretary of Education Terrel H. Bell to the National Advisory Council on Bilingual Education. The council reports to the Secretary of Education, the Congress and the President on bilingual education in American primary and secondary schools. The 15 members are chosen from all parts of the U.S. to serve three-year terms. EDWIN P. KULAWIEC, professor of education, addressed the Delta Kappa Gamma Society International on "Future Critical Issues in Education," November 17, in Washington, D.C.

S. ROBERT LICHTER, assistant professor of political science, spoke on scientists' attitudes towards nuclear war for the Annual Conference on Energy and Economic Growth in Atlantic City, New Jersey, on October 14. He spoke on the political views of public interest group leaders, at a seminar on activist groups sponsored by the Foundation for Public Affairs on October 15 and on the social values of television news, at the Word of God Institute in Washington, D.C., October 18. Professor Lichter served as a panelist at the American Society for Political Journalism's Annual Conference, sponsored by the Edison Foundation in Washington, D.C., on the subject "The Making of a Political Issue," October 29. In Des Moines, Iowa, October 27, he spoke on television's portrayal of crime and law enforcement, at the Iowa Corrections Agency Annual Conference. He was the keynote speaker on scientists' attitudes towards nuclear energy at the annual meeting of the American Nuclear Society's Connecticut Chapter in Hartford, Connecticut, on November 3. Local stations WPOP-AM and WHFN-FM interviewed him in Connecticut.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Physiology. (For studies on solute transport mechanisms in epithelia and synthetic membranes. Responsibilities include performance of experiments under direction of P.I. and preliminary analysis of data. Knowledge of basic laboratory procedures essential. Interest in simulation and mathematical modeling desirable.) Contact Michael J. Jackson, Department of Physiology, Ext. 3574.

SENIOR RESEARCH SCIENTIST, half-time, Department of Biochemistry. (Available January 1, 1984. Study involves the growth factor roles in modulation of differentiating functions. Experience with *in vivo* and *in vitro* models of PNS and CNS differentiation as well as immune system maturation is desirable. Experience in planning, designing and conducting tissue culture studies as well as six years of postdoctoral experience and major publications is required.) Contact Dr. Alan Goldstein, Department of Biochemistry, The George Washington University School of Medicine and Health Sciences, 2300 I St., NW, Washington, D.C. 20037.

THE SHAPE OF PROGRAMS TO COME

MARINE CORPS COMMANDANT KELLEY SPEAKS JANUARY 9

General Paul X. Kelley, commandant of the United States Marine Corps, will speak on "The State of the Corps" on Monday, January 9, at 12:30 pm in the Marvin Center third floor Continental Room. His appearance is sponsored by the Alumni Association of the GW School of Public and International Affairs and is open to the entire university community. General Kelley will give his assessment of current United States Marine Corps issues and initiatives. There is no charge for the program but those planning to attend should call Ext. 6435 by Friday, January 6, to reserve a place.

ICONS OF AMERICAN ART ARE FIRST WEDNESDAY LECTURE TOPIC

Diane Apostolos-Cappadona, lecturer in religion, will give an illustrated slide lecture on "Icons of American Art" on Wednesday, January 4, at 8 pm in the Marvin Center third floor Continental Room. The lecture is intended to serve as an introduction to the Corcoran Gallery of Art's current exhibition "A New World: Masterpieces of American Painting 1760-1910," which will continue through February 12. There is no charge for the lecture, part of the First Wednesday Series sponsored by the Alumni Relations Office. Call Ext. 6435 to reserve a place. Dinner will be available, beginning at 6:30 pm, for both members and non-members of the GW University Club. Call Ext. 6610.

RAYMOND BARRE, FORMER FRENCH PREMIER, TO SPEAK JANUARY 11

Former French premier Raymond Barre will speak on Wednesday, January 11, at 8 pm in Marvin Theatre. His subject will be "Future Prospects for the Economies of Western Europe." The event is sponsored by the School of Government and Business Administration and the Alumni Association of the School of Public and International Affairs. There will be a fee of \$3.00 to cover printing and mailing costs. Checks made out to The George Washington University should be sent to Alumni House, 714 21st St., NW. No payment will be accepted at the door. For further information, call Ext. 6435.

KENNEDY CENTER STAFF PARKING ENDS FOR FALL SEMESTER 1983

The last day of parking at the Kennedy Center for the Fall Semester will be Thursday, December 22. Beginning Friday, December 23, 1983, and continuing through Tuesday, January 10, 1984, staff members who normally use the Kennedy Center may park on Lot #6 at 23rd and G Streets, NW. Staff members must have the Kennedy Center decal properly displayed and present the pre-paid ticket upon entering the lot. Kennedy Center parking with shuttle service will resume on Wednesday, January 11, 1984.

BIOGOGICAL SCIENCES REUNION, L to R, Dr. Edith Mortensen; Kelleen Flaherty, graduate student in zoology; Dr. Donnell B. Young, and Roxie Laybourne.

GRADUATE SCHOOL OF ARTS AND SCIENCES Dean Henry Solomon, right, talked with L to R, Professor of American Civilization Bernard M. Mergen; Krystyna Puc, Ph.D. candidate in American studies; and Nola Klamberg, M.A. candidate in American studies, at the recent GSAS wine and cheese reception to celebrate the end of the fall semester.

ALUMNI SPONSOR Michael T. Shehadi, senior vice president, Charles E. Smith Management, Inc., (M.B.A. 1980), left, is shown with Hamid Ghorani, SEAS senior in mechanical engineering, at the recent reception sponsored by the Alumni Relations Office. The reception honored sponsors and externs who took part in the office's Externship Program, which gives GW students opportunities to observe various professions.

BIOGOGICAL SCIENCES HOLDS OPEN HOUSE AND REUNION

"I've seen people here I haven't seen in years," was a frequently heard comment at the open house and informal alumni reunion held by the Department of Biological Sciences in its offices on Friday, December 9.

Honor guest at the occasion was Dr. Donnell B. Young, who was invited to come from his home in North Hanover, Massachusetts, for the occasion. He was the department's chairman from 1933 to 1953. He served as assistant dean of the Junior College in Columbian College from 1939 to 1944 and was in charge of the science and premedical curricula. He is professor emeritus of zoology. Now 96, he was a member of the United States Olympic track team in 1912. Dr. Young and Dr. Edith Mortensen, also professor emeritus of zoology, reminisced about the days when she was an undergraduate student of Dr. Young's and went with Dr. and Mrs. Young and other students to the Marine Biological Laboratory at Woods Hole, Massachusetts, for the summer course given there in invertebrates. Dr. Mortensen received her Ph.D. from George Washington in 1945. She came to the university in 1936 as an instructor, progressed through the ranks and received emeritus status at her retirement in 1972. As an undergraduate, Dr. Mortensen had intended to major in English but changed to zoology after studying with Dr. Young.

A distinguished alumna honored at the reunion was Roxie Laybourne, who received an M.A. from GW in 1950. She is now a research associate in the Division of Birds in the Smithsonian's Museum of Natural History and a leading American authority on the identification of birds from feathers. Her expertise is sought by the F.B.I. and other government agencies. She has been selected to receive an Alumni Achievement Award from the university at the February 1984 Winter Convocation.

"THE SAVING OF THE PRESIDENT" RECEIVES HIGH AWARD AT FESTIVAL

The highest award of the 30th International Film Festival, held in Sydney, Australia, this past summer went to the film "The Saving of the President," produced by The George Washington University to document the events surrounding the attempted assassination of President Reagan March 30, 1981, and his recovery at The George Washington University Hospital. Executive producer of the film was Frank Kavanaugh, Airlie Professor of Communications. The film was one of four American films selected to receive the highest award of the festival. The award was actually presented to the university by Sir Robert Cotton, the Ambassador of Australia to the United States, in ceremonies at the Washington Hilton, Friday, December 1. Accepting the award for George Washington was Dean William F.E. Long of the Division of Continuing Education and Summer Sessions.

NEWSNOTES

INTERVIEWS

WILLIAM C. ADAMS, associate professor of public administration, was interviewed in early November by WAMU and WTOP radio stations in Washington; WERA radio in Cleveland, Ohio; KYXI in Portland, Oregon; and by the CBS Radio News Network in New York, regarding his recent studies on public opinion and the media.

AMITAI ETZIONI, university professor, was interviewed on William F. Buckley Jr.'s "Firing Line" on November 13. The topic was bilingual education.

SONYA QUITSLUND, assistant professor of religion, was interviewed on WPFM radio by Patricia DiRubbo on a special program entitled "Women's Voices in the Church," November 24 in Washington, D.C.

ROBERT C. WATERS, professor of engineering administration, \$14,490 from the University of the District of Columbia to develop a recreational unit-day-value methodology for the federal water resource planning process.

PUBLICATIONS

WILLIAM C. ADAMS, associate professor of public administration, an article, "Reputation, Size, and Student Success in Public Administration Programs," in Public Administration Review, September-October 1983.

DAVID S. BROWN, professor of management, an article, "The Changing Roles and Functions of the Manager," in the August issue of World Executives Digest.

HOWARD GILLETTE JR., an article, "Contemporary Party Politics: Signs of America's Shifting Political Culture," in American Studies International 21, October 1983, pp. 67-87.

EDWIN P. KULAWIEC, professor of education, an article, "Janusz Korczak--Who Was He?" and a translation of Janusz Korczak's essay, "Three Currents of Thought," in the Polish Review, Fall 1983, Vol. XXVIII, No. 2.

AHMED K. NOOR, professor of engineering and applied science, editor of a book entitled, Impact of New Computing Systems on Computational Mechanics, and author of one of its chapters, published by the American Society of Mechanical Engineers; co-editor with Walter D. Pilkey, State-of-the-Art Surveys on Finite Element Technology, published by the American Society of Mechanical Engineers, author of one chapter, and co-author of another; and a paper, "Instability Analysis of Space Trusses," co-authored with Jeanne M. Peters, in Computer Methods in Applied Mechanics and Engineering, Vol. 40, 1983, pp. 199-218.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, two articles in a book of collected papers entitled Spread Spectrum Communications, published by IEEE Press, New York, 1983, worldwide distribution by John Wiley and Sons, Inc., New York.

JAMES WILLIS ROBB, professor of Romance languages, two articles; "Alfonso Reyes y Cecilia Meireles: una amistad mexicano-brasilena," in Hispania, Vol. 66, No. 2, May 1983, pp. 164-166; and "A. Reyes y Gongora sin lagrimas," in Hojas Seltas, Universidad Autonoma Metropolitana-Xochimilco, Mexico, II:10/11, September 1983, pp. 28-30.

CARL STEINER, professor of German, a poem, "Spes reliqua nostra," in an anthology titled Nachrichten aus den Staaten: Deutsche Literatur in den USA, Olms Presse, 1983.

CHRISTOPHER STEN, associate

professor of English, an article, "William Carlos Williams: El Hombre at 100," in American Studies International 21, October 1983, No. 5, pp. 53-60.

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, associate professor of public administration, has been appointed to the editorial board of Journal of Communication, a quarterly journal published by the Annenberg School of Communications and the International Communication Association.

MURCUS CUNLIFFE, university professor, in conjunction with the Institute of International Education and the National Museum of American History, (NMAH) conducted a session at the museum for this year's Hubert H. Humphrey Fellows, 125 government officials from 72 countries, November 18. The theme of the session was "The Forging of American Independence," combined with a presentation by NMAH staff on the Museum's holdings and policies.

PENNY CYPHER, assistant director of the Information Systems Specialist program, participated in several GSA-sponsored panel discussions on "How Computers Affect Our Daily Lives," between November 8 and 10. She discussed educational alternatives for women in the computer field.

ARTHUR D. FRIEDMAN, professor of engineering and applied science and chairman of the Department of Electrical Engineering and Computer Science, has been elected a Fellow of the Institute of Electrical and Electronic Engineers with the citation "For contributions to fault-tolerant computing and switching theory and to computer engineering education."

RICHARD LONGSTRETH, associate professor of architectural history and director of the Graduate Program in Historic Preservation, has been appointed to the editorial board of the Journal of Architectural and Planning Research.

WILLIAM H. MARLOW, professor of operations research, chaired a session on logistics at the Operations Research Society of America/The Institute of Management Sciences joint national meeting held in Orlando, Florida, November 7-9. He also presented a paper entitled "Readiness Forecasting," co-authored with William E. Caves, senior staff scientist, GW, and S. Zacks, SUNY Binghamton.

JONATHAN D. MORENO, assistant professor of philosophy, addressed the Department of Philosophy at Prince George's Community College, on the topic "Experience in America" November 14.

BENJAMIN NIMER, professor of political science and international affairs, gave the opening talk at a National Conference on Ethiopian Jewry, October 30 in Crystal City. He gave a historical and geopolitical sketch of Ethiopia, intended to serve as background for the conference's discussion of the present condition of the Jews of Ethiopia.

AHMED K. NOOR, professor of engineering and applied science, has been elected to the eight-member Structures Panel of the National Academy of Sciences Committee charged with defining the Aeronautical Technology in the year 2000.

E. LAKIN PHILLIPS, professor of psychology and director of the Counseling Center, gave a talk at the meeting of the D.C. Psychological Association, entitled "What, Then, is Psychotherapy? Nationwide Results from Short-term Psychotherapy," at the Marriott Hotel in Washington,

D.C., December 3.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, was invited to present a talk on "Spread Spectrum Communication Systems" to the Boston section of the Institute of Electrical and Electronic Engineers on November 2. The talk was attended by about 150 engineers and scientists from the Boston area.

SONYA A. QUITSLUND, assistant professor of religion, participated in a conference on "The Ministry of Women: Changing Images" at American University October 12. She presented a paper at a workshop on "How Theology and/or Law Shapes and Influences the Role and Concept of Women in Ministry within the Catholic Tradition," and participated in a panel presentation, "Historical Perspectives on Women in Ministry in the Roman Catholic Tradition." She also participated in a panel presentation/discussion of Dr. Elizabeth Fiorenza's book In Memory of Her at the regional meeting of the College Theology Society. Her paper was entitled "On the Historical Reconstruction in In Memory of Her," and was presented at the Catholic University of America in Washington, D.C., December 3.

MARTHA RASHID, professor of education, spoke at a luncheon meeting of the fourth annual Conference of Region III Commissions for Women, held November 12 in Annapolis, Maryland, on the subject, "Working Women: Realities and Possibilities." She held two of three planned seminars for staff development on the arts and cognition for 30 teachers from five school systems November 4 and December 2 at the Maryland State Department of Education in Baltimore. The seminars are sponsored by the Maryland Alliance for the Arts to develop more effective programs in music, dance, creative writing, and the visual arts. The third session will be held in the spring of 1984.

LOIS G. SCHWOERER, professor of history, presented a paper at a joint meeting of the North American and Mid-Atlantic Conferences on British History, in Washington, D.C., October 29-30. The subject of the paper was "Lord William Russell (1639-1683) Whig Conspirator? Whig Martyr?" Her book, The Declaration of Human Rights, 1689, published by the Johns Hopkins Press in 1981, won Honorable Mention in the John Ben Snow Foundation Prize Competition for the best book published in 1981 and 1982 by a North American author on any aspect of British studies. She also commented on three papers presented on a panel during the annual meeting of the East Coast American Society for Eighteenth-Century Studies, held at the University of Delaware September 29. The panel was entitled "Man, God and Nature: The Woman's View." Professor Schwoerer has recently accepted an appointment as Executive-Secretary of the North American Conference on British Studies.

RICHARD H. SCHLAGEL, professor of philosophy, gave a lecture, "A Reasonable Reply to Hume's Skepticism," at a meeting of the Washington Philosophy Club, December 3. The meeting was held in the 18th Century board room of the Folger Shakespeare Library in commemoration of Hume as a prominent 18th century philosopher.

CHUNG-WEN SHIH, professor of Chinese, showed and discussed her film on China, "Return From Silence," at a meeting of the Sun-Coast Chapter of the GW General Alumni Association at Clearwater Beach, Florida, on November 11.

RICHARD M. SOLAND, professor of operations research, chaired a session on Integer Programming at a joint meeting of the Operations Research Society of America/The Institute of Management Sciences in Orlando, Florida November 7-9. He also presented two papers: "A General Lexicographic Partial Enumeration Algorithm for Integer Nonlinear Programming Problems," co-authored with Mohammad S. Sabbagh, of SUNY College of Technology, Utica, and "Computational Aspects of Determining Steady-State Availability for Markovian Multi-echelon Repairable Item Inventory Models," co-authored with DONALD GROSS, professor of operations research, GW, LENIDAS KIOUSSIS, graduate research assistant, and DOUGLAS R. MILLER, associate professor of operations research, GW.

ROBERT C. WATERS, professor of engineering administration, presented a paper at the 25th anniversary meeting of the Transportation Research Forum in Crystal City on November 5. The paper was entitled "Evaluation of Maritime Cargo Protection Practices and Proposals on U.S. Bulk Trades." It concerned the causes of the repeated legislative attempts to increase cargo reservation for U.S. flag ships.

T. THORNE WIGGERS, coordinator of outreach and consultation for the Counseling Center, presented a paper, "Burnout Among Career Development Professionals," with Dean Forney, director of career services at Gettysburg College, at the Mid-Atlantic Placement Association Fall Conference, September 20, in Seven Springs, Pennsylvania.

LAWRENCE WINKLER, professor of education, addressed the Alexandria Hospital Mental Health Outreach group on the psychological and emotional issues of AIDS, using a model he has developed from the work of Elizabeth Kubler Ross in dealing with the aspects of death and dying, September 8.

SHARON WOLCHIK, assistant professor of international affairs and political science, Institute for Sino-Soviet Studies, organized a lecture by Dr. Renata Siemieniska, of the Department of Sociology at the University of Warsaw, Poland, under the sponsorship of the Institute for Sino-Soviet Studies, September 26. Dr. Siemieniska drew on several recent surveys of public opinion in Poland to discuss "Values in Contemporary Polish Society."

ELYCE ZENOFF, professor of law, recieved a distinguished lecturer award at the First Annual Psychiatry and the Law Conference, sponsored by DePaul Hospital at the Loyola School of Law in New Orleans, Louisiana, November 5.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Division of Rheumatology, GWU Medical Center, (B.S. in biology or chemistry. Skills in immunochemical techniques required.) Contact Dr. B. Ferrell, Division of Rheumatology, GMU Medical Center, Ext. 4416.

RESEARCH ASSISTANT, Department of Biochemistry. (Study involves examining the mechanism of activation of mammalian lipoxxygenase. B.S. required. Experience in analytical, biochemical and/or immunological techniques desirable.. Position available in January 3, 1984.) Contact Dr. Jack Vanderhoek, Department of Biochemistry, 2300 I St., NW Washington, D.C. 20037. Ext. 2951.

George Washington University is an equal opportunity/affirmative action employer
